Notes to Unaudited Consolidated Financial Statements – June 30, 2004 and 2003

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

1. Management's Representation

The management of VillageEDOCS (the "Company") without audit has prepared the consolidated financial statements included herein. The accompanying unaudited consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information. Certain information and note disclosures normally included in the consolidated financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been omitted. In the opinion of the management of the Company, all adjustments considered necessary for fair presentation of the consolidated financial statements have been included and were of a normal recurring nature, and the accompanying consolidated financial statements present fairly the consolidated financial position as of June 30, 2004, and the results of operations and cash flows for the three and six months ended June 30, 2004 and 2003.

It is suggested that these unaudited consolidated financial statements be read in conjunction with the audited financial statements and notes thereto for the year ended December 31, 2003, included in the Company's Annual Report on Form 10-KSB filed with the Securities and Exchange Commission on March 29, 2004. The interim results are not necessarily indicative of the results for a full year.

2. Background, Organization and Basis of Presentation

VillageEDOCS was incorporated in 1995 in Delaware and reincorporated in California in 1997. The Company operates an electronic document delivery service marketed to organizations throughout the United States and internationally. On February 17, 2004, the Company acquired Tailored Business Systems, Inc. ("TBS"). TBS provides various programming, processing and printing services to governmental entities, including installing software, hardware, printing and mailing of property tax forms. On June 16, 2004, the holders of a majority of the voting capital stock of the Company voted to approve a Plan of Restructure that includes the reorganization of the Company's electronic document delivery business into a wholly owned subsidiary of the Company to be formed for the purpose of the reorganization. The unaudited consolidated financial statements include the accounts of the Company and TBS, its wholly owned subsidiary, since February 17, 2004. All significant inter-company transactions and balances have been eliminated in consolidation.

3. Going Concern

The accompanying consolidated financial statements have been prepared assuming that the Company will continue as a going concern. The Company has a working capital deficit and has incurred significant losses from operations in each year since inception. The Company's losses are continuing and are expected to continue until such time as the Company is able to sufficiently expand both its internet-enabled fax service business and its government billing and accounting hardware, software and services business.

The Company's success is dependent upon numerous items, certain of which are the successful growth of revenues from its products and services, its ability to obtain new customers in order to achieve levels of revenues adequate to support the Company's current and future cost structure, and its success in obtaining financing for equipment and operations, for which there is no assurance. Unanticipated problems, expenses, and delays are frequently encountered in establishing and maintaining profitable operations. These include, but are not limited to, competition, the need to develop customer support capabilities and market expertise, setbacks in product development, technical difficulties, market acceptance and sales and marketing. The failure of the Company to meet any of these conditions could have a materially adverse effect upon the Company and may force the Company to reduce or curtail operations. Although management strongly believes that its operations will begin generating profits during 2004, no assurance can be given that the Company can achieve or maintain profitable operations.

Until sufficient revenue levels are achieved, the Company will require additional financing to support its operations. Such sources of financing could include capital infusions, additional equity financing or debt offerings. Management plans to obtain convertible debt and equity financing from existing shareholders and equity financing from new

shareholders during the remainder of 2004. Management is actively pursuing both of these financing arrangements. If the planned financings are obtained, the Company believes it will have adequate cash to sustain operations until it achieves sustained profitability. There can be no assurance that funding will be available on acceptable terms, if at all, or that such funds, if raised, would enable the Company to achieve and maintain profitable operations.

These factors, among others, raise substantial doubt about the Company's ability to continue as a going concern. The financial statements do not include any adjustments to reflect the possible future effects on the recoverability and classification of assets or the classification of liabilities that might result from the outcome of these uncertainties.

4. Summary of Significant Accounting Policies

Segments of an Enterprise and Related Information

The Company has adopted Statement of Financial Accounting Standards ("SFAS") No. 131, *"Disclosures about Segments of an Enterprise and Related Information."* SFAS No. 131 requires the Company to report information about segments of its business in annual financial statements and requires it to report selected segment information in its quarterly reports issued to shareholders. SFAS No. 131 also requires entity-wide disclosures about the products and services an entity provides, the material countries in which it holds assets and reports revenues and its major customers. The Company's two reportable segments are managed separately based on fundamental differences in their operations. Since February 17, 2004, the Company has operated in the following two reportable segments:

- (a) Electronic document delivery services.
- (b) Government accounting products and services.

The Company evaluates performance and allocates resources based upon operating income. The accounting policies of the reportable segments are the same as those described in this summary of significant accounting policies (see Note 11).

Concentration of Credit Risk

The Company extends credit to its customers and performs ongoing credit evaluations of such customers. The Company does not obtain collateral to secure its accounts receivable. The Company evaluates its accounts receivable on a regular basis for collectibility and provides for an allowance for potential credit losses as deemed necessary. At June 30, 2004, the Company has recorded an allowance for doubtful accounts of approximately \$32,000. No single customer accounted for more than 10% of accounts receivable at June 30, 2004. No single customer accounted for more than 10% of total sales for the six months ended June 30, 2004 and 2003.

Use of Estimates in the Preparation of Financial Statements

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Significant estimates made by management are, among others, the realizability of accounts receivable, property and equipment and goodwill, and valuation of deferred tax assets. Actual results could differ from those estimates.

Revenue Recognition

The Company's electronic document delivery service provides internet-enabled fax services to businesses and charges for these services on either a per-page delivered or per-minute used basis. Service revenues are recognized when the services are performed. Government accounting products and services revenues are recognized at the time the product is shipped or the time the service is performed. Revenue from prepaid annual maintenance contracts is recognized on a monthly basis throughout the term of each contract.

Risks and Uncertainties

The Company operates in highly competitive industries that are subject to intense competition, government regulation and rapid technological change. The Company's operations are subject to significant risks and uncertainties including financial, operational, technological, regulatory and other risks associated with an expanding business, including the potential risk of business failure.

Loss per Share

Basic loss per share is computed by dividing loss available to common shareholders by the weighted average number of common shares assumed to be outstanding during the period of computation. Diluted loss per share is computed similar to basic loss per share except that the denominator is increased to include the number of additional common shares that would have been outstanding if the potential shares had been issued and if the additional common shares were dilutive. All potentially dilutive shares, 54,844,553 and 11,743,017 as of June 30, 2004 and 2003, respectively, have been excluded from diluted loss per share, as their effect would be anti-dilutive for the periods ended June 30, 2004 and 2003.

Inventory

Inventory consists primarily of supplies, forms and envelopes and is stated at the lower of cost (using first-in, first-out method) or market.

Goodwill and Other Intangible Assets

The Company has adopted SFAS No. 142 "*Goodwill and Other Intangible Assets*." Under SFAS No. 142, goodwill associated with acquisitions consummated after June 30, 2001 is not to be amortized, and effective January 1, 2002, goodwill and other intangible assets with indefinite lives are no longer subject to periodic amortization but are instead reviewed annually for impairment, or more frequently if impairment indicators arise. As of June 30, 2004, the Company has not yet determined the valuation date to perform an impairment test on goodwill.

Identifiable assets and liabilities acquired in connection with business acquisitions accounted for under the purchase method are recorded at their respective fair values. Deferred income taxes have been recorded to the extent of differences between the fair value and the tax basis of the assets acquired and liabilities assumed.

Long-Lived Assets

In the event that facts and circumstances indicate that equipment or other long-lived assets may be impaired, an evaluation of recoverability would be performed. If an evaluation is required, the estimated future discounted cash flows associated with the asset are compared to the asset's carrying amount to determine if an impairment charge is necessary. The amount of long-lived asset impairment, if any, is charged to operations in the period in which long-lived asset impairment is determined. At June 30, 2004, there is no impairment of the long-lived assets. There can be no assurance, however, that market conditions will not change or demand for the Company's services will continue, which could result in impairment of long-lived assets in the future.

Comprehensive Income

The Company has no items of comprehensive income.

Stock-Based Compensation

The Company accounts for non-employee stock-based compensation under SFAS No. 123 "*Accounting For Stock-Based Compensation*." SFAS No. 123 defines a fair value based method of accounting for stock-based compensation. However, SFAS No. 123 allows an entity to continue to measure compensation cost related to stock and stock options issued to employees using the intrinsic method of accounting prescribed by Accounting Principles Board Opinion No. 25 ("APB 25"), "*Accounting for Stock Issued to Employees*." Under APB 25, compensation cost, if any, is recognized over the respective vesting period

based on the difference, on the date of grant, between the fair value of the Company's common stock and the grant price. Entities electing to remain with the accounting method of APB 25 must make pro forma disclosures of net income and earnings per share, as if the fair value method of accounting defined in SFAS No. 123 had been applied.

At June 30, 2004, the Company has two stock-based employee compensation plans. The Company accounts for those plans under the recognition and measurement principles of APB 25, and related interpretations (see Note 8). During the six months ended June 30, 2004 and 2003, no stock-based employee compensation cost is reflected in the accompanying unaudited statements of operations, as all options granted under those plans had exercise prices equal to or greater than the market value of the underlying common stock on the date of grant. The following table illustrates the effect on net loss and loss per share if the Company had applied the fair value recognition provisions of SFAS No. 123 to stock-based employee compensation:

Web Site Development Costs

During the six months ended June 30, 2004, the Company did not capitalize any costs related to the web site in accordance with the Emerging Issues Task Force Issue No. 00-2, "*Accounting for Web Site Development Costs*." During the six months ended June 30, 2004 and 2003, the Company recorded amortization of web site development costs of \$17,944 and \$17,945, respectively.

Advertising

The Company expenses all advertising costs as incurred. Advertising costs were \$29,641 and \$72,863 for the six months ended June 30, 2004 and 2003, respectively.

Warranty Costs

Government accounting products and services offers a one year and a 90-day warranty period for customers after installation for certain services. Management has determined that warranty claims are not material to the financial statements as of June 30, 2004.

5. Acquisition of TBS

On February 17, 2004, the Company purchased 100% of the issued and outstanding capital stock of TBS from Stephen A. Garner and James L. Campbell.

The Company purchased TBS with \$1.5 million in cash, convertible secured promissory notes totaling \$600,000, and 11 million restricted shares of the Company's common stock. Payment of 4,400,000 (or 40%) of the shares were made at the closing, and payment of 6,600,000 (or 60%) of the shares is contingent upon TBS meeting certain net revenue goals in each of the first three fiscal years following the closing and, therefore, will take place over a three-year period. The Company's common stock was valued at \$0.10 per share, the average closing bid price of the Company's common stock for the thirty-day period ended February 16, 2004.

The acquisition has been accounted for using the purchase method of accounting. The Company funded the cash portion of the purchase price of TBS with the proceeds of a \$1.7 million convertible secured promissory note offering subscribed to by Mr. and Mrs. Williams (see Note 7).

The terms of the purchase were the result of arms-length negotiations. Neither of the TBS shareholders was previously affiliated with VillageEDOCs.

The Company, in connection with the acquisition of TBS, has incurred approximately \$60,000 in consulting expenses to an unrelated third party (paid during February 2004 in a combination of cash and 220,000 shares of common stock issued in March 2004 valued at \$0.10 per share), \$76,000 in compensation to an employee (paid, pursuant to his employment agreement and incremental to his base salary, during February 2004 in a combination of cash and 132,000 shares of common stock issued in March 2004 valued at \$0.10 per share) and \$53,143 in other acquisition-related costs including, but not limited to, expenses incurred for legal, accounting, and travel.

The purchase price has been determined as follows:

Cash	\$	1,500,000
Convertible secured promissory notes		600,000
Common stock (4,400,000 shares)		440,000
Acquisition costs (including 352,000 shares)		189,143

Net assets	\$	2,729,143
		=====

The following represents an allocation of the purchase price over the historical net book value of the acquired assets and liabilities of TBS as of February 17, 2004, the acquisition date:

Cash	\$ 70,631
Accounts receivable	305,533
Inventories	18,546
Property and equipment	254,287
Accounts payable and accrued expenses	(315,629)
Notes payable	(151,302)

Net assets	182,066
Goodwill and other intangible assets	2,547,077

	\$ 2,729,143
	=====

This allocation is preliminary and may be subject to change upon evaluation of the fair value of TBS's acquired assets and liabilities as of the acquisition date as well as the potential identification of certain intangible assets. The Company is in the process of analyzing the components of the intangible assets it acquired and will determine the final purchase price allocation during 2004. The goodwill from the acquisition of TBS was allocated one hundred percent to the government accounting products and services segment.

The unaudited pro forma combined historical results, as if TBS had been acquired January 1, 2003, are estimated as follows:

	For the Six Months Ended	
	June 30, 2004	June 30, 2003
Net sales	\$ 2,807,077	\$ 2,651,258
Net loss	\$ (395,112)	\$ (1,186,235)
Weighted average common shares outstanding:		
Basic and diluted	35,911,544	35,115,255
Loss per share:		
Basic and diluted	\$ (0.01)	\$ (0.03)

Prior to the date of acquisition, TBS's fiscal year ended on October 31. Accordingly, the unaudited pro forma information for the 2003 period has been prepared by combining the results of VillageEDOCs for the six months ended June 30, 2003 and the results of TBS for the six months ended April 30, 2003.

The unaudited pro forma information has been prepared for comparative purposes only and does not purport to be indicative of what would have occurred had the acquisition actually been made at such a date, nor is it necessarily indicative of future operating results.

6. Note Payable

In connection with the acquisition of TBS, the Company assumed a promissory note in connection with a vehicle purchase. This note is payable in monthly installments of \$550, including interest, bears interest at 5.4%, is collateralized by a vehicle, and is due in November 2005. The outstanding principal balance of this note as of June 30, 2004 was \$9,495.

7. Notes Payable and Convertible Notes Payable to Related Parties

During the six months ended June 30, 2004, the Company borrowed \$270,000 from C. Alan and Joan P. Williams and issued convertible promissory notes bearing interest at 10 percent per annum (the "Notes"). The Notes are secured by a security interest in all of the Company's assets. The notes and accrued interest are due at the earlier of one of three events: 1) October 31, 2005; 2) acquisition of controlling interest in the Company by a third party; or 3) the Company achieves equity financing of a minimum of \$3,000,000. If the Company is acquired, the principal and accrued interest on the Notes, as modified, are convertible into shares of the Company's common stock at the lower of \$2.50 per share or the price paid per share by the acquirer. In addition, the principal and accrued interest on the Notes, as modified, are convertible into shares of the Company's common stock at a conversion price equal to the lower of \$0.07 per share or the average of the Company's common stock closing bid price on the OTCBB, NASDAQ or other established securities exchange or market for the ten (10) consecutive trading days prior to the date Mr. Williams delivers written notice of his conversion election to the Company. The beneficial conversion feature resulted in a charge to interest expense in the accompanying statement of operations of \$28,931 during the six months ended June 30, 2004.

On February 17, 2004, the Company issued a \$1,700,000 secured convertible promissory note for cash. The note was issued to a related party, C. Alan and Joan P. Williams, and bears interest at 10 percent per annum. The note and accrued interest are due at the earlier of one of three events: 1) October 31, 2007; 2) acquisition of controlling interest in the Company by a third party; or 3) the Company achieves equity financing of a minimum of \$3,000,000. If the Company is acquired, the principal and accrued interest on the note are convertible into shares of the Company's common stock at the lower of \$2.50 per share or the price paid per share by the acquirer. In addition, the principal and accrued interest on the note are convertible into shares of the Company's common stock at a conversion price equal to eighty five percent of average of the Company's common stock closing bid price on the OTCBB, NASDAQ or other established securities exchange or market for the ten (10) consecutive trading days prior to the date Mr. and Mrs. Williams deliver written notice of their conversion election to the Company. As an inducement for Mr. and Mrs. Williams to provide the loan, the Company agreed to issue them a warrant to purchase

5,000,000 shares of the Company's restricted common stock at \$0.10 per share until February 17, 2009. There is no beneficial conversion feature associated with this promissory note. In connection with the issuance of the detachable warrant, the Company recorded a debt discount of \$323,810. The Company will amortize the discount using the effective interest method through October 31, 2007. In the event that the related debenture is converted to shares of the Company's common stock, the Company will immediately eliminate the corresponding unamortized debt discount against equity. During the six months ended June 30, 2004, \$32,093 of interest expense was recognized on the accompanying consolidated statement of operations in connection with amortization of the debt discount.

In connection with the acquisition of TBS, the Company issued a \$300,000 convertible promissory note to Stephen A. Garner and a \$300,000 convertible promissory note to James L. Campbell (the "TBS Notes"). Each of the TBS Notes bears interest at 5 percent per annum and is due and payable in three equal annual installments of \$100,000, with the first installment due on February 17, 2005 and subsequent installments due on February 17, 2006 and February 17, 2007. The TBS Notes are secured by a Stock Pledge Agreement and a Security Agreement. In addition, Messrs. Garner and Campbell have the right to convert the unpaid principal balance of the TBS Notes into shares of the Company's common stock at the rate of 9.8 shares of Common Stock for each \$1.00 of principal and interest to be converted. Since the conversion price was based upon the fair market value of the Company's common stock on the date of issuance, there is no beneficial conversion feature associated with the TBS Notes.

In connection with the acquisition of TBS, the Company assumed promissory notes in the aggregate amount of \$140,000 to Stephen A. Garner and James L. Campbell. The notes bear interest at 8 percent per annum and are due and payable on December 31, 2004.

Total interest expense recognized on all the convertible notes payable (including accrued interest based on the stated interest rate) was \$257,222 and \$436,918 during the six months ended June 30, 2004 and 2003, respectively. Total interest accrued and not paid on the convertible notes payable to related parties as of June 30, 2004 totaled \$785,932 and is included in the accompanying consolidated balance sheet.

8. Stockholders' Deficit

a. Common Stock

On February 17, 2004, the Company issued 2,200,000 shares of restricted common stock to each of Stephen A. Garner and James L. Campbell in partial payment of the total purchase price for 100% of the common stock of TBS. All 4,400,000 shares were valued at \$0.10 per share, the fair market value of the Company's common stock on the date of acquisition.

On February 17, 2004 and in connection with the acquisition of TBS, the Company agreed to issue 132,000 shares of its restricted common stock to H. Jay Hill, who is an officer and director of the Company, pursuant to Mr. Hill's employment agreement. The shares were valued at \$0.10 per share, the fair market value on the date of the acquisition. The shares were issued on March 11, 2004.

On February 17, 2004 and in connection with the acquisition of TBS, the Company agreed to issue 220,000 shares of its restricted common stock to a non-affiliate pursuant to a finder's fee agreement. The shares were valued at \$0.10 per share, the fair market value on the date of the acquisition. The shares were issued on March 11, 2004.

On March 11, 2004, the Company issued 24,019 shares of restricted common stock for \$240 in cash in connection with the exercise of a warrant.

On June 16, 2004, the holders of a majority of the voting capital stock of the Company acted by written consent in lieu of a special meeting of shareholders to increase the number of authorized no par value shares of the common stock of the Company from 90,000,000 to 175,000,000.

b. Stock Options

Effective January 30, 2002, the Board of Directors of the Company adopted an equity incentive plan (the "2002 Plan") that authorized the issuance of options to acquire up to 6,226,258 shares of common stock to employees and certain outside consultants. On November 25, 2002, the Board of Directors of the

Company increased the number of shares reserved for issuance pursuant to the 2002 Plan to 11,634,584 shares. On November 27, 2002, the stockholders of the Company approved the 2002 Plan and the number of shares reserved for issuance pursuant to the 2002 Plan. On June 16, 2004, the stockholders of the Company authorized the modification of the 2002 Plan to increase the number of shares reserved for issuance under the plan to 28,000,000. The 2002 Plan allows for the issuance of either non-qualified or, subject to stockholder approval, incentive stock options pursuant to Section 422 of the Internal Revenue Code. Options vest at the discretion of the Board of Directors as determined at the grant date, but not longer than a ten-year term. Under the 2002 Plan, the exercise price of each option shall not be less than fair market value on the date the option is granted. The number of options under the 2002 Plan available for grant at June 30, 2004 was 11,740,282.

During the six months ended June 30, 2004, the Company granted to its employees options to purchase shares of its common stock under the 2002 Plan as follows: 5,150,000 shares at \$0.15 per share, 150,000 shares at \$0.17 per share, 1,700,000 shares at \$0.18 per share, 10,000 shares at \$0.1875 per share, 25,000 shares at \$0.19 per share, 35,000 shares at \$0.20 per share. All options were issued above or at the fair market value on the dates of grant and vest on various dates from the date of grant through June 2009.

Options to purchase 50,000 shares at \$0.10 (the fair market value on the date of grant) were granted to a non-employee consultant during 2003. These options vested on February 28, 2004 and \$5,310 of consulting expense was recognized in the accompanying consolidated statements of operations in connection with the vesting of these options.

During the six months ended June 30, 2004, 996,036 options under the 2002 Plan and 95,885 other options were cancelled due to their expiration or the termination of employment.

c. Warrants

During the six months ended June 30, 2004, warrants to purchase 24,019 shares of the Company's common stock were exercised by a non-affiliate for \$240 in cash.

On June 29, 2004, warrants to purchase 49,256 shares of the Company's common stock expired unexercised.

5,000,000 additional warrants were issued in connection with convertible debentures payable to related parties (see Note 7).

9. Loss per Share

Basic and diluted loss per common share is computed as follows:

	<u>Three Months Ended June 30,</u>		<u>Six Months Ended June 30,</u>

	=====	=====	=====	=====

10. Commitments and Contingencies

Litigation

The Company is, from time to time, involved in various legal and other proceedings that arise in the ordinary course of operating its business. In the opinion of management, the amount of ultimate liability, if any, with respect to these actions will not materially affect the financial position or results of operations of the Company.

Indemnities and Guarantees

During the normal course of business, the Company has made certain indemnities and guarantees under which it may be required to make payments in relation to certain transactions. The Company indemnifies its directors, officers, employees and agents to the maximum extent permitted under the laws of the State of California and of the State of Georgia. These indemnities include certain agreements with the Company's officers, under which the Company may be required to indemnify such person for liabilities arising out of their employment relationship. In connection with its facility leases, the Company has indemnified its lessor for certain claims arising from the sale of the facilities. The duration of these indemnities and guarantees varies and, in certain cases, is indefinite. The majority of these indemnities and guarantees do not provide for any limitation of the maximum potential future payments the Company could be obligated to make. Historically, the Company has not been obligated to make significant payments for these obligations and no liabilities have been recorded for these indemnities and guarantees in the accompanying balance sheet.

11. Segment Reporting

The Company's operations are classified into two principal reportable segments that provide different products or services. Separate management of each segment is required because each business unit is subject to different

marketing, production, and technology strategies. Since February 17, 2004, the Company has operated in the following two reportable segments:

- (a) Electronic document delivery services; and
- (b) Government accounting products and services.

Segment operating income (loss) is total segment revenue reduced by operating expenses identifiable with the business segment. Corporate loss includes general corporate administrative costs. Corporate assets include primarily cash. The Company's underlying accounting records are maintained on a legal entity basis for government and public reporting requirements. Segment disclosures are on a performance basis consistent with internal management reporting. The cost of some corporate functions and the cost of certain employee benefits are allocated to segments at cost. Remaining costs, if any, are not allocated to revenue segments. The Company evaluates performance and allocates resources based upon operating income. The accounting policies of the reportable segments are the same as those described in the summary of accounting policies. There are no inter-segment sales.

The following table summarizes segment asset and operating balances by reportable segment, has been prepared in accordance with the internal accounting policies, and may not be presented in accordance with generally accepted accounting principles:

12. Related Party Transactions

The Company has borrowed significantly from related parties as described more fully in Note 7.

TBS has a related party operating lease with Perimeter Center Partners for the rental of the land and building occupied by TBS. The lease commenced on February 1, 2004 and has a term of five years, with monthly payments of \$4,000. The Company has executed a Guaranty with respect to the lease. Perimeter Center Partners is owned by Stephen A. Garner and James L. Campbell, who are affiliates of the Company.

On February 17, 2004 and in connection with the acquisition of TBS, the Company agreed to issue 132,000 shares of its restricted common stock to H. Jay Hill, who is an officer and director of the Company, pursuant to Mr. Hill's employment agreement. The shares were valued at \$0.10 per share, the fair market value on the date of the acquisition. The shares were issued on March 11, 2004. In addition, in connection with the acquisition of TBS, we paid Mr. Hill \$63,000 in employment compensation pursuant to his employment agreement and incremental to his base salary.

13. Subsequent Events

On July 28, 2004, the Company borrowed an additional \$15,000 from C. Alan and Joan P. Williams and issued a convertible promissory note with terms identical to those described in the first paragraph of Note 7 above. The beneficial conversion feature contained in this promissory note will result in a debt discount of \$15,000 which will be recorded to interest expense over the life of the note.

ITEM 2 – MANAGEMENT’S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

FORWARD-LOOKING INFORMATION

This Quarterly Report on Form 10-QSB includes forward-looking statements within the meaning of Section 21E of the Securities Exchange Act of 1934, as amended. All statements that do not directly and exclusively relate to historical facts constitute forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These statements are based on our plans, intentions, expectation, and belief and are subject to certain risks and uncertainties that could cause actual results to differ materially from those projected or expressed herein. The words "anticipate," "believe," "expect," "plan," "intend," "seek," "estimate," "project," "will," "could," "may," and similar expressions are intended to identify forward-looking statements. These statements include, among others, information regarding future operations, future capital expenditures, and future net cash flow. Such statements reflect the Company's current views with respect to future events and financial performance and involves risks and uncertainties, including, without limitation, general economic and business conditions, changes in foreign, political, social and economic conditions, regulatory initiatives and compliance with governmental regulations, the ability to achieve further market penetration and additional customers, and various other matters, many of which are beyond the Company's control, including, without limitation, the risks described under the caption "Factors That May Affect Future Results" in Item 6 of the Company's Annual Report on Form 10-KSB filed with the Securities and Exchange Commission on March 29, 2004. Our future results and stockholder values may differ materially from those expressed in these forward- looking statements. Many of the factors that will determine these results and values are beyond our ability to control or predict. Investors are cautioned not to put undue reliance on any forward-looking statements. For these statements, we claim the protection of the safe harbor for forward-looking statements contained in Section 21E of the Exchange Act.

WEBSITE ACCESS TO REPORTS

Our principal executive offices are currently located at 14471 Chambers Road, Suite #105, Tustin, CA 92780. The Company's Internet website address is www.villageedocs.com. The Company's annual reports on Form 10-KSB, quarterly reports on Form 10-QSB, and current reports of Form 8-K, and all amendments thereto, are available free of charge on the Company's website as soon as reasonably practical after such reports are electronically filed with, or furnished to, the U.S. Securities and Exchange Commission.

GENERAL OVERVIEW

The following discussion and analysis of our financial condition and results of operations should be read in conjunction with the unaudited consolidated balance sheet as of June 30, 2004, and the unaudited consolidated statements of operations and cash flows for the three and six months ended June 30, 2004 and 2003, and the related notes thereto as well as the audited financial statements of the Company for the years ended December 31, 2003 and 2002, included in the Company's Annual Report on Form 10-KSB filed with the Securities and Exchange Commission on March 29, 2004. This discussion contains forward-looking statements based upon current expectations that involve risks and uncertainties, such as our plans, objectives, expectations and intentions.

The Company cautions readers that important facts and factors described in this Management's Discussion and Analysis of Financial Condition and Results of Operations and elsewhere in this document sometimes have affected, and in the future could affect, the Company's actual results, and could cause the Company's actual results during 2004 and beyond to differ materially from those expressed in any forward-looking statements made by, or on behalf of, the Company.

On February 17, 2004, the Company acquired Tailored Business Systems, Inc. ("TBS"). During the fiscal year ended October 31, 2003, TBS's net revenues were \$3,324,059. During the fiscal year ended December 31, 2003, the Company's net revenues were \$1,882,027. This acquisition is expected to cause the Company's results of operations during 2004 to vary significantly from those reported for 2003 due to the consolidation of TBS during most of 2004. Accordingly, management believes that the following presentation of comparative results of operations, while required, may not be meaningful.

As reported in the Independent Auditors' Report on our December 31, 2003 financial statements, the Company has suffered recurring losses from operations, had negative cash flows from operations, and had a net capital deficiency that raises substantial doubt about our ability to continue as a going concern.

Management is seeking additional financing by issuing convertible debt to existing shareholders during 2004. In addition, management plans to seek equity or a combination of equity and debt financing from new shareholders and/or lenders in the third or fourth quarter of 2004. Management is actively pursuing both of these financing arrangements. Between January and July 2004, one of our shareholders loaned us \$285,000 to fund our operating shortfalls; however, he has no binding obligation to continue providing funds. If the planned financings are obtained and/or the shareholder continues to cover our operating shortfalls, the Company believes it will have adequate cash to sustain operations until it becomes profitable. There can be no assurance that funding will be available on acceptable terms, if at all, or that such funds, if raised, would enable the Company to achieve and maintain profitable operations.

CRITICAL ACCOUNTING POLICIES

In preparing our financial statements, we make estimates, assumptions and judgments that can have a significant effect on our revenues, income/loss from operations, and net income/net loss, as well as on the value of certain assets on our balance sheet. We believe that there are several accounting policies that are critical to an understanding of our historical and future performance as these policies affect the reported amounts of revenues, expenses, and significant estimates and judgments applied by management. While there are a number of accounting policies, methods and estimates affecting our financial statements, areas that are particularly significant include revenue recognition, stock-based compensation, and goodwill and long-lived assets. In addition, please refer to Note 4 to the accompanying financial statements for further discussion of our significant accounting policies.

Revenue Recognition. The Company's electronic document delivery service provides internet-enabled fax services to businesses and charges for these services on either a per-page delivered or per-minute used basis. Service revenues are recognized when the services are performed. Government accounting products and services revenues are recognized at the time the product is shipped or the time the service is performed. Revenue from prepaid annual maintenance contracts is recognized on a monthly basis throughout the term of each contract.

Stock-Based Compensation. The Company accounts for non-employee stock-based compensation under Statement of Financial Accounting Standards No. 123 ("SFAS 123"), "*Accounting For Stock-Based Compensation*." SFAS 123 defines a fair value based method of accounting for stock-based compensation. However, SFAS 123 allows an entity to continue to measure compensation cost related to stock and stock options issued to employees using the intrinsic method of accounting prescribed by Accounting Principles Board Opinion No. 25, as amended ("APB 25"), "*Accounting for Stock Issued to Employees*." Under APB 25, compensation cost, if any, is recognized over the respective vesting period based on the difference, on the date of grant, between the fair value of the Company's common stock and the grant price. Entities electing to remain with the accounting method of APB 25 must make pro forma disclosures of net income and earnings per share, as if the fair value method of accounting defined in SFAS 123 had been applied. The Company has elected to account for its stock-based compensation to employees under APB 25.

Goodwill and Other Intangible Assets. The Company has adopted SFAS No. 142 "*Goodwill and Other Intangible Assets*." Under SFAS No. 142, goodwill and other intangible assets with indefinite lives are no longer subject to periodic amortization but are instead reviewed annually for impairment, or more frequently if impairment indicators arise. As of June 30, 2004, the Company has not yet determined the valuation date to perform an impairment test on goodwill.

Identifiable assets and liabilities acquired in connection with business acquisitions accounted for under the purchase method are recorded at their respective fair values. Deferred income taxes have been recorded to the extent of differences between the fair value and the tax basis of the assets acquired and liabilities assumed.

Long-Lived Assets. In the event that facts and circumstances indicate that equipment or other long-lived assets may be impaired, an evaluation of recoverability would be performed. If an evaluation is required, the estimated future discounted cash flows associated with the asset are compared to the asset's carrying amount to determine if an impairment charge is necessary. The amount of long-lived asset impairment, if any, is charged to operations in the period in which long-lived asset impairment is determined.

RESULTS OF OPERATIONS

Three Months Ended June 30, 2004 Compared to Three Months Ended June 30, 2003

Net Sales

Net sales for the three months ended June 30, 2004 were \$1,330,346, a 177% increase over net sales for prior year quarter of \$479,427. The increase in the 2004 quarter resulted from an increase of \$198,787 in revenue from the Company's electronic document delivery services (which resulted from growth in the number of clients) as well as the addition of \$652,132 in revenue contributed by TBS.

Cost of Sales

Cost of sales for the three months ended June 30, 2004 were \$420,019 as compared to the \$218,987 reported for the three months ended June 30, 2003. Total cost of sales during the 2004 quarter represented 32% of sales. Cost of sales for the Company's electronic document delivery services during the 2004 quarter represented 19% of sales as compared with 46% of sales in the 2003 quarter reflecting reduced telecommunications and other costs associated with providing electronic document delivery services despite an improvement in revenues from those services.

Gross Profit

Gross profit for the three months ended June 30, 2004 increased 249% to \$910,327 as compared to \$260,440 for the prior year quarter. Gross profit margin for the 2004 quarter was 68% as compared with 54% for the 2003 quarter. Of the overall increase of \$649,887, \$167,652 is attributable to improved profits from the Company's electronic document delivery service, and \$482,235 is attributable to TBS.

Operating Expenses

Operating expenses for the three months ended June 30, 2004 increased by 30% to \$811,392 from the \$625,080 reported in the three months ended June 30, 2003, an increase of \$186,312. Product and technology development decreased \$47,489 to \$83,776 from the \$131,265 reported in the prior year quarter because of a reduction in staff. Sales and marketing decreased by \$106,324 to \$139,745 from the \$246,069 reported in the prior year quarter due to a reduction in sales management staff and a small decrease in spending on sales lead generation programs. General and administrative increased by \$324,475 to \$534,230 from the \$209,755 reported in the prior year quarter. The overall increase was comprised of a \$30,860 decrease from the electronic document delivery service and a \$355,335 increase attributable to TBS. Depreciation and amortization expense increased \$15,650 to \$53,641 from the \$37,991 reported in the 2003 quarter. The overall increase was comprised of a 17% decrease from electronic document delivery services (due to disposal of certain capitalized equipment during the fourth quarter of 2003) and the addition of depreciation from equipment owned by TBS. During the three months ended June 30, 2004, expenses related to product and technology development, sales and marketing, general and administrative, and depreciation and amortization represented 6%, 11%, 40%, and 4% of net sales, respectively. During the three months ended June 30, 2003, expenses related to product and technology development, sales and marketing, general and administrative, and depreciation and amortization represented 27%, 51%, 44%, and 8% of net sales, respectively.

Interest Expense

Interest expense for the quarter ended June 30, 2004 increased by 16% to \$169,551 from \$146,461 reported in the prior year quarter because of an increase in borrowings related to the acquisition of TBS which was partially offset by a decrease in charges related to the beneficial conversion feature associated with 2004 borrowings as compared to 2003 borrowings that resulted from fluctuations in the market price of the Company's common stock. Interest expense incurred in connection with capital leases decreased in the 2004 quarter as compared with the 2003 quarter.

Net Loss

As a result of the foregoing, net loss for the three months ended June 30, 2004 was \$62,569, or \$0.002 per share, compared to a net loss of \$511,901, or \$0.020 per share, for the three months ended June 30, 2003 on weighted average shares of 35,911,544 and 30,920,702, respectively.

Six Months Ended June 30, 2004 Compared to Six Months Ended June 30, 2003

Net Sales

Net sales for the six months ended June 30, 2004 were \$2,245,791, a 145% increase over net sales for prior year quarter of \$918,217. The increase in the 2004 period resulted from an increase of \$362,166, or 39%, in revenue from the Company's electronic document delivery services (which resulted from growth in the number of clients) as well as the addition of \$965,408 in revenue contributed by TBS.

Cost of Sales

Cost of sales for the six months ended June 30, 2004 were \$764,312 as compared to the \$432,185 reported for the six months ended June 30, 2003. Total cost of sales during the 2004 period represented 34% of sales. Cost of sales for the Company's electronic document delivery services during the 2004 period represented 23% of sales as compared with 47% of sales in the 2003 period reflecting reduced telecommunications and other costs associated with providing electronic document delivery services despite an improvement in revenues from those services.

Gross Profit

Gross profit for the six months ended June 30, 2004 increased 205% to \$1,481,479 as compared to \$486,032 for the prior year period. Gross profit margin for the 2004 period was 66% as compared with 53% for the 2003 period. Of the overall increase of \$995,447, \$278,159 is attributable to improved profits from the Company's electronic document delivery service, and \$717,288 is attributable to TBS.

Operating Expenses

Operating expenses for the six months ended June 30, 2004 increased by 21% to \$1,530,027 from the \$1,263,710 reported in the six months ended June 30, 2003, an increase of \$266,317. Product and technology development decreased \$92,710 to \$174,849 from the \$267,559 reported in the prior year period because of a reduction in staff. Sales and marketing decreased by \$140,795 to \$307,499 from the \$448,294 reported in the prior year period due to a reduction in sales management staff and a small decrease in spending on sales lead generation programs. General and administrative increased by \$477,024 to \$953,037 from the \$476,013 reported in the prior year period. The overall increase was comprised of a \$60,028 decrease from the electronic document delivery service and a \$537,052 increase attributable to TBS. Depreciation and amortization expense increased \$22,798 to \$94,642 from the \$71,844 reported in the 2003 period. The overall increase was comprised of a 15% decrease from electronic document delivery services (due to disposal of certain capitalized equipment during the fourth quarter of 2003) and the addition of depreciation from equipment owned by TBS. During the six months ended June 30, 2004, expenses related to product and technology development, sales and marketing, general and administrative, and depreciation and amortization represented 8%, 14%, 42%, and 4% of net sales, respectively. During the six months ended June 30, 2003, expenses related to product and technology development, sales and marketing, general and administrative, and depreciation and amortization represented 29%, 49%, 52%, and 8% of net sales, respectively.

Interest Expense

Interest expense for the six months ended June 30, 2004 decreased by 38% to \$274,827 from \$440,746 reported in the prior year period because of a decrease in charges related to the beneficial conversion feature associated with 2004 borrowings as compared to 2003 borrowings that resulted from fluctuations in the market price of the Company's common stock. Interest expense incurred in connection with capital leases decreased in the 2004 period as compared with the 2003 period.

Net Loss

As a result of the foregoing, net loss for the six months ended June 30, 2004 was \$324,486, or \$0.01 per share, compared to a net loss of \$1,219,224, or \$0.04 per share, for the six months ended June 30, 2003 on weighted average shares of 34,727,364 and 30,711,988, respectively.

LIQUIDITY

During the six months ended June 30, 2004, the Company's net cash position increased by \$557,545 to \$622,247. The Company generated \$1,961,706 from financing activities, and \$187,953 from operating activities; however, the Company's investing activities used net cash of \$1,592,114.

Net cash provided by operating activities for the six months ended June 30, 2004 was \$187,953, an increase of \$678,851 from the \$490,898 used in operating activities for prior year period, mainly due to the decrease in net loss for the 2004 quarter as well as an increase in customer deposits at TBS.

The Company's investing activities consisted of the acquisition of TBS and purchase of computer equipment. Net cash used for investment activities increased \$1,529,534 to \$1,592,114 from the \$62,580 reported for 2003.

Net cash provided by financing activities for the six months ended June 30, 2004 was \$1,961,706, and included proceeds of \$1,970,000 from stockholder loans. Net cash provided by financing activities for the six months ended June 30, 2003 was \$537,678, which included proceeds of \$572,000 from stockholder loans and principal payments on capital leases of \$34,322.

CAPITAL RESOURCES

The Company does not currently have any material commitments for capital expenditures other than those expenditures incurred in the ordinary course of business.

Since our inception, our operating and investing activities have used substantially more cash than they have generated. We believe that we have made considerable progress toward achieving profitable operations by increasing revenues from electronic document delivery services and through our recent acquisition of TBS. In addition, we are actively seeking opportunities to acquire or otherwise combine with businesses that are operating profitably. However, at present and for the foreseeable future, we believe that we will continue to need working capital to fund the growth of our businesses and to absorb the increasing costs associated with operating as a fully reporting company in the prevailing regulatory environment. Accordingly, we may experience negative operating and investing cash flows through at least the third quarter of 2004. We currently anticipate that our available cash resources will be insufficient to meet our anticipated working capital and capital expenditure requirements beyond September 30, 2004. We believe we will require up to \$250,000 in new financing during the remainder of 2004 in addition to our current revenue streams to support our operations until the electronic document delivery business and TBS consistently generate net cash flows sufficient to offset the anticipated expenses of operating the corporate segment. Should our current revenue streams or margins be subjected to even minor decreases, our funding requirements could be greater.

While we strongly believe that sustainable profitability is achievable, we have a history of losses. While both the electronic document delivery business and TBS have alternately reported both monthly operating incomes and monthly operating losses during the first half of 2004, operating incomes have been insufficient to offset operating losses, interest expense and corporate overhead. If we are not successful in sustaining and increasing operating profits from these two reporting segments, we may never achieve profitability for the Company as a whole. Should we achieve profitability in any period, we cannot be certain that we will sustain or increase such profitability on a quarterly or annual basis.

Between November 2000 and at least July 2004, our operating shortfalls have been, and are expected to be, funded by one shareholder, an affiliate, to whom we owe \$3,852,000 in principal and \$560,909 in interest as of June 30, 2004. Assuming that this shareholder continues to fund any future operating shortfalls, we will be able to sustain operations at current levels. However, this shareholder has no obligation to continue to fund our operating shortfalls and could stop doing so at any time. We may be required to alter the terms of the convertible promissory notes held by this shareholder to induce this shareholder or other such potential lenders to provide additional loans, which could result in this shareholder or other such potential lenders obtaining rights, preferences or privileges senior to those of other creditors or our stockholders.

This estimate is a forward-looking statement that involves risks and uncertainties. The actual time period may differ materially from that indicated as a result of a number of factors so that we cannot assure you that our cash resources will be sufficient for anticipated or unanticipated working capital and capital expenditure requirements for this period. We have advised that we will need to raise additional capital in the future to meet our operating and

investing cash requirements. Such sources of financing could include capital infusions, additional equity financing, or debt offerings. There can be no assurance that additional funding will be available on acceptable terms, if at all, or that such funds if raised, would enable the Company to achieve and maintain profitable operations. If we are not able to obtain sufficient additional funds from investors, we may be unable to sustain all or part of our operations. If we raise additional funds through the issuance of securities, these securities may have rights, preferences or privileges senior to those of our common stock, and our stockholders may experience additional dilution to their equity ownership.

From inception through June 30, 2004, we generated revenue of approximately \$7,806,000. However, we have incurred total expenses of approximately \$18,317,000 during that same period. We have incurred net losses each year since our inception. As of June 30, 2004, we had an accumulated deficit of \$12,295,041. To date, we have funded our capital requirements and our business operations primarily with funds provided from the sale of common stock and from shareholder borrowings, supplemented by revenues from sales of our services. From inception to July 31, 2004, the Company has received approximately \$10,238,000 from the sale of common stock and convertible notes, \$2,039,245 of which were converted into shares of common stock on May 15, 2002.

The Independent Auditors' Report on our December 31, 2003 financial statements includes an explanatory paragraph stating that the recurring losses incurred from operations and a working capital deficiency raise substantial doubt about our ability to continue as a going concern. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

RECENT DEVELOPMENTS

During July 2004, the Company obtained cash of \$15,000 in consideration for a convertible note issued to one stockholder, who is an affiliate. The note bears interest at 10 percent per annum. The note and accrued interest are due at the earlier of one of three events: 1) acquisition of a controlling interest in the Company by a third party; 2) October 31, 2005; or 3) the receipt by the Company of \$3,000,000 or more from an equity financing. If the Company achieves the equity financing, the stockholders have the option to convert the note plus accrued interest into common stock at the lower of \$2.50 per share or the price per share of common stock issued in the equity financing. If the Company is acquired, the stockholders have the option to convert the note plus accrued interest into common stock at the lower of \$2.50 per share or the price per share paid by the acquirer. The note is convertible at any time at the option of the holder at a price equal to the lower of \$0.07 per share or the average of the Company's common stock closing bid price on the OTCBB, NASDAQ, or other established securities exchange or market for the ten (10) consecutive trading days prior to the date the holder delivers written notice of conversion election to the Company.

ITEM 3 – CONTROLS AND PROCEDURES

As required by Rule 13a-15 under the Securities Exchange Act of 1934, within the 90 days prior to the filing date of this report, the Company carried out an evaluation of the effectiveness of the design and operation of the Company's disclosure controls and procedures. This evaluation was carried out under the supervision and with the participation of the Company's management, including the Company's Chief Executive Officer and the Company's Chief Financial Officer, who concluded that the Company's disclosure controls and procedures are effective. There have been no significant changes in the Company's internal control or in other factors, which could significantly affect internal controls subsequent to the date the Company carried out its evaluation.

Disclosure controls and procedures are controls and other procedures that are designed to ensure that information required to be disclosed in the Company reports filed or submitted under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the Securities and Exchange Commission's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed in Company reports filed under the Exchange Act is accumulated and communicated to management, including the Company's Chief Executive Officer and Chief Financial Officer as appropriate, to allow timely decisions regarding required disclosure.

PART II

ITEM 1 – LEGAL PROCEEDINGS.

The Company is not a party in any lawsuits. There were no new legal matters to report during the three months ended June 30, 2004.

ITEM 2 – CHANGES IN SECURITIES AND USE OF PROCEEDS.

On February 17, 2004, the Company issued 2,200,000 shares of restricted common stock to each of Stephen A. Garner and James L. Campbell in partial payment of the total purchase price for 100% of the common stock of TBS. All 4,400,000 shares were valued at \$0.10 per share, the fair market value of the Company's common stock on the date of acquisition.

On February 17, 2004 and in connection with the acquisition of TBS, the Company agreed to issue 132,000 shares of its restricted common stock to H. Jay Hill, who is an officer and director of the Company, pursuant to Mr. Hill's employment agreement. The shares were valued at \$0.10 per share, the fair market value on the date of the acquisition. The shares were issued on March 11, 2004.

On February 17, 2004 and in connection with the acquisition of TBS, the Company agreed to issue 220,000 shares of its restricted common stock to a non-affiliate pursuant to a finder's fee agreement. The shares were valued at \$0.10 per share, the fair market value on the date of the acquisition. The shares were issued on March 11, 2004.

On March 11, 2004, the Company issued 24,019 shares of restricted common stock for \$240 in cash in connection with the exercise of a warrant.

During the six months ended June 30, 2004, the Company borrowed \$270,000 from C. Alan and Joan P. Williams and issued convertible promissory notes bearing interest at 10 percent per annum (the "Notes"). The Notes are secured by a security interest in all of the Company's assets. The notes and accrued interest are due at the earlier of one of three events: 1) October 31, 2005; 2) acquisition of controlling interest in the Company by a third party; or 3) the Company achieves equity financing of a minimum of \$3,000,000. If the Company is acquired, the principal and accrued interest on the Notes, as modified, are convertible into shares of the Company's common stock at the lower of \$2.50 per share or the price paid per share by the acquirer. In addition, the principal and accrued interest on the Notes, as modified, are convertible into shares of the Company's common stock at a conversion price equal to the lower of \$0.07 per share or the average of the Company's common stock closing bid price on the OTCBB, NASDAQ or other established securities exchange or market for the ten (10) consecutive trading days prior to the date Mr. Williams delivers written notice of his conversion election to the Company.

On February 17, 2004, the Company issued a \$1,700,000 secured convertible promissory note for cash. The note was issued to a related party, C. Alan and Joan P. Williams, and bears interest at 10 percent per annum. The note and accrued interest are due at the earlier of one of three events: 1) October 31, 2007; 2) acquisition of controlling interest in the Company by a third party; or 3) the Company achieves equity financing of a minimum of \$3,000,000. If the Company is acquired, the principal and accrued interest on the note are convertible into shares of the Company's common stock at the lower of \$2.50 per share or the price paid per share by the acquirer. In addition, the principal and accrued interest on the note are convertible into shares of the Company's common stock at a conversion price equal to eighty five percent of average of the Company's common stock closing bid price on the OTCBB, NASDAQ or other established securities exchange or market for the ten (10) consecutive trading days prior to the date Mr. and Mrs. Williams deliver written notice of their conversion election to the Company. As an inducement for Mr. and Mrs. Williams to provide the loan, the Company agreed to issue them a warrant to purchase 5,000,000 shares of the Company's restricted common stock at \$0.10 per share until February 17, 2009.

In connection with the acquisition of TBS, the Company issued a \$300,000 convertible promissory note to Stephen A. Garner and a \$300,000 convertible promissory note to James L. Campbell (the "TBS Notes"). Each of the TBS Notes bears interest at 5 percent per annum and is due and payable in three equal annual installments of \$100,000, with the first installment due on February 17, 2005 and subsequent installments due on February 17, 2006 and February 17, 2007. The TBS Notes are secured by a Stock Pledge Agreement and a Security Agreement. In addition, Messrs. Garner and Campbell have the right to convert the unpaid principal balance of the TBS Notes into

shares of the Company's common stock at the rate of 9.8 shares of Common Stock for each \$1.00 of principal and interest to be converted.

All offers and sales of our securities described above were made pursuant to Section 4(2) of the Securities Act of 1933 and Regulation D promulgated thereunder.

ITEM 3 – DEFAULTS UPON SENIOR SECURITIES.

None.

ITEM 4 – SUBMISSION OF MATTERS TO VOTE OF SECURITY HOLDERS.

On June 16, 2004, holders of a majority of the voting capital stock of VillageEDOCS, a California corporation (the "Company"), acted by written consent in lieu of a special meeting of shareholders to provide for the following:

1. Amendment to the Certificate of Incorporation increasing the number of authorized no par value shares of the Common Stock from 90,000,000 to 175,000,000, with no stated par value per share.
2. Approval of a Plan of Restructure (the "Plan"), which includes the reorganization of the Company's electronic document delivery business by transferring all assets pertaining to the electronic document delivery business into a wholly-owned subsidiary of the Company to be formed for the purpose of the reorganization.
3. Election of directors.
4. Modification of the Company's 2002 Equity Incentive Plan to increase the number of shares reserved for issuance under the plan from 11,634,584 to 28,000,000.
5. Ratification and approval of Executive Employment Agreements and Equity Incentive Arrangements with K. Mason Conner, H. Jay Hill, Michael Richard and Jay Thomas Zender.
