## NOTES TO FINANCIAL STATEMENTS

**MARCH 31, 2002**  
(Unaudited)

### 1. Summary of significant accounting policies:

Interim financial statements:

The unaudited interim financial statements reflect all adjustments which are, in the opinion of the managing member, necessary to a fair statement of financial position and results of operations for the interim periods presented. All such adjustments are of a normal recurring nature. These unaudited interim financial statements should be read in conjunction with the most recent report on Form 10K.

### 2. Organization and Company matters:

ATEL Capital Equipment Fund IX, LLC (the Fund) was formed under the laws of the state of California on September 27, 2000 for the purpose of acquiring equipment to engage in equipment leasing and sales activities. The Fund may continue until December 31, 2019.

Upon the sale of the minimum amount of Units of Limited Liability Company interest (Units) of \$1,200,000 and the receipt of the proceeds thereof on February 21, 2001, the Company commenced operations.

The Company does not make a provision for income taxes since all income and losses will be allocated to the Partners for inclusion in their individual tax returns.

### 3. Investment in leases:

The Company's investment in leases consists of the following:

	Balance December 31, <u>2001</u>	<u>Additions</u>	Depreciation Expense and Amortization <u>of Leases</u>	Reclass- ifications and <u>Dispositions</u>	Balance March 31, <u>2002</u>

	<u>\$ 19,285,076</u>	<u>\$ 1,886,069</u>	<u>\$ 21,171,145</u>

### 4. Related party transactions:

The terms of the Limited Company Operating Agreement provide that the Managing Member and/or Affiliates are entitled to receive certain fees for equipment acquisition, management and resale and for management of the Company.

The Limited Liability Company Operating Agreement allows for the reimbursement of costs incurred by the Managing Member in providing services to the Company. Services provided include Company accounting, investor relations, legal counsel and lease and equipment documentation. The Managing Member is not reimbursed for services where it is entitled to receive a separate fee as compensation for such services, such as acquisition and management of equipment. Reimbursable costs incurred by the Managing Member are allocated to the Company based upon actual time incurred by employees working on Company business and an allocation of rent and other costs based on utilization studies.

Substantially all employees of the Managing Member record time incurred in performing services on behalf of all of the Companies serviced by the Managing Member. The Managing Member believes that the costs reimbursed are the lower of (i) actual costs incurred on behalf of the Company or (ii) the amount the Company would be required to pay independent parties for comparable administrative services in the same geographic location and are reimbursable in accordance with the Limited Liability Company Operating Agreement.

The Managing Member and/or Affiliates earned fees, commissions and reimbursements, pursuant to the Limited Liability Company Agreement as follows:

	<u>2002</u>	<u>2001</u>
Selling commissions (equal to 9.5% of the selling price of the Limited Liability Company units, deducted from Other Members' capital)	\$ 1,374,373	\$ 676,733
Reimbursement of other syndication costs to Managing Member	497,888	209,493
Asset management fees to Managing Member	58,256	1,798
Costs reimbursed to Managing Member	52,854	66,460
	<u>\$ 1,983,371</u>	<u>\$ 954,484</u>

**ATEL CAPITAL EQUIPMENT FUND IX, LLC**

**NOTES TO FINANCIAL STATEMENTS**

**MARCH 31, 2002**  
**(Unaudited)**

**5. Member's capital:**

As of March 31, 2002, 5,810,117 Units (\$58,101,170) were issued and outstanding. The Company is authorized to issue up to 15,000,050 Units, including the 50 Units issued to the initial members.

The Company's Net Income, Net Losses, and Distributions are to be allocated 92.5% to the Members and 7.5% to the Managing Member.

**6. Line of credit:**

The Partnership participates with the General Partner and certain of its affiliates in a \$62,000,000 revolving line of credit with a financial institution that includes certain financial covenants. The line of credit expired on April 12, 2002 and has been extended through June 30, 2002. The General Partner is currently negotiating a new line of credit and anticipates that the current line of credit will be replaced before its extended expiration date. The terms and conditions on the new line of credit are expected to be substantially the same as on the expiring line of credit. As of March 31, 2002, borrowings under the facility were as follows:

Amount borrowed by the Partnership under the acquisition facility	\$ -
Amounts borrowed by affiliated partnerships and limited liability companies under the acquisition facility	19,300,000
Total borrowings under the acquisition facility	<u>19,300,000</u>
Amounts borrowed by the General Partner and its sister corporation under the warehouse facility	<u>5,235,045</u>
Total outstanding balance	<u><u>\$ 24,535,045</u></u>
Total available under the line of credit	\$ 62,000,000
Total outstanding balance	<u>(24,535,045)</u>
Remaining availability	<u><u>\$ 37,464,955</u></u>

Draws on the acquisition facility by any individual borrower are secured only by that borrower's assets, including equipment and related leases. Borrowings on the warehouse facility are recourse jointly to certain of the affiliated partnerships and limited liability companies, the Partnership and the General Partner.

The credit agreement includes certain financial covenants applicable to each borrower. The Partnership was in compliance with its covenants as of March 31, 2002.

## **Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations**

### **Capital Resources and Liquidity**

During the first quarters of 2002 and 2001, the Company's primary activities were raising funds through its offering of Limited Liability Company Units (Units) and engaging in equipment leasing activities. Through March 31, 2002, the Company had received subscriptions for 5,810,117 Units (\$58,101,170) all of which were issued and outstanding.

During the funding period, the Company's primary source of liquidity is subscription proceeds from the public offering of Units. The liquidity of the Company will vary in the future, increasing to the extent cash flows from leases exceed expenses, and decreasing as lease assets are acquired, as distributions are made to the members and to the extent expenses exceed cash flows from leases.

As another source of liquidity, the Company has contractual obligations with a diversified group of lessees for fixed lease terms at fixed rental amounts. As the initial lease terms expire the Company will re-lease or sell the equipment. The future liquidity beyond the contractual minimum rentals will depend on the Managing Member's success in re-leasing or selling the equipment as it comes off lease.

The Partnership participates with the General Partner and certain of its affiliates in a \$62,000,000 revolving line of credit with a financial institution that includes certain financial covenants. The line of credit expired on April 12, 2002 and has been extended through June 30, 2002. The General Partner is currently negotiating a new line of credit and anticipates that the current line of credit will be replaced before its extended expiration date. The terms and conditions on the new line of credit are expected to be substantially the same as on the expiring line of credit. As of March 31, 2002, borrowings under the facility were as follows:

Amount borrowed by the Partnership under the acquisition facility	\$ -
Amounts borrowed by affiliated partnerships and limited liability companies under the acquisition facility	19,300,000
Total borrowings under the acquisition facility	<u>19,300,000</u>
Amounts borrowed by the General Partner and its sister corporation under the warehouse facility	5,235,045
Total outstanding balance	<u><u>\$ 24,535,045</u></u>
Total available under the line of credit	\$ 62,000,000
Total outstanding balance	<u>(24,535,045)</u>
Remaining availability	<u><u>\$ 37,464,955</u></u>

Draws on the acquisition facility by any individual borrower are secured only by that borrower's assets, including equipment and related leases. Borrowings on the warehouse facility are recourse jointly to certain of the affiliated partnerships and limited liability companies, the Partnership and the General Partner.

The Company anticipates reinvesting a portion of lease payments from assets owned in new leasing transactions. Such reinvestment will occur only after the payment of all obligations, including debt service (both principal and interest), the payment of management and acquisition fees to the Managing Member and providing for cash distributions to the Limited Partners.

The Company currently has available adequate reserves to meet contingencies, but in the event those reserves were found to be inadequate, the Company would likely be in a position to borrow against its current portfolio to meet such requirements. The Managing Member envisions no such requirements for operating purposes.

The credit agreement includes certain financial covenants applicable to each borrower. The Company was in compliance with its covenants as of March 31, 2002.

No commitments of capital have been or are expected to be made other than for the acquisition of additional equipment. There were a total of approximately \$700,000 of such commitments as of March 31, 2002.

If inflation in the general economy becomes significant, it may affect the Company inasmuch as the residual (resale) values and rates on re-leases of the Company's leased assets may increase as the costs of similar assets increase. However, the Company's revenues from existing leases would not increase, as such rates are generally fixed for the terms of the leases without adjustment for inflation.

If interest rates increase significantly, the lease rates that the Company can obtain on future leases will be expected to increase as the cost of capital is a significant factor in the pricing of lease financing. Leases already in place, for the most part, would not be affected by changes in interest rates.

### **Cash Flows**

During the first quarters of 2002 and 2001, the Company's primary source of liquidity was the proceeds of its offering of Units.

In 2002 and 2001, the primary source of cash from operations was rents from operating leases.

Rents from direct financing leases and payments received on notes receivable were the primary sources of cash from investing activities. Uses of cash for investing activities consisted of cash used to purchase operating and direct financing lease assets, payments of initial direct costs associated with the lease asset purchases and advances on notes receivable.

In 2002 and 2001, the primary source of cash from financing activities was the proceeds of the Company's public offering of Units of Limited Liability Company interest. Financing uses of cash consisted of payments of syndication costs associated with the offering.

### **Results of operations**

On February 21, 2001, the Company commenced operations. Operations resulted in net income of \$78,721 in 2002 compared to a net loss of \$37,181 in 2001. The Company's primary source of revenues is from operating leases. Depreciation is related to operating lease assets and thus, to operating lease revenues. They are expected to increase in future periods as acquisitions continue.

Asset management fees are based on the gross lease rents of the Company plus proceeds from the sales of lease assets. They are limited to certain percentages of lease rents, distributions to members and certain other items. As assets are acquired, lease rents are collected and distributions are made to the members, these fees are expected to increase.

Interest expense for the first quarter of 2001 related to the borrowings under the line of credit incurred by an affiliate of the Managing Member. It included all amounts related to those borrowings related transactions transferred to the Company. All of the revenues and related carrying costs for these transactions were attributed to the Company in the first quarter of 2001. There was no interest expense or debt in the first quarter of 2002.

Results of operations in future periods are expected to vary considerably from those of the first quarter of 2002 as the Company continues to acquire significant amounts of lease assets.
