**Re: The Phoenix Companies, Inc.
Form 10-K for the Fiscal Year Ended December 31, 2013
Filed August 6, 2014
File No. 001-16517**

Dear Ms. Malley:

We have limited our review of your filing to your financial statements and related disclosures and do not intend to expand our review to other portions of your document. In our comments, we ask you to provide us with information so we may better understand your disclosure.

Please respond to this letter within 10 business days by providing the requested information or by advising us when you will provide the requested response. If you do not believe a comment applies to your facts and circumstances, please tell us why in your response. Please furnish us a letter on EDGAR under the form type label CORRESP that keys your responses to our comments.

After reviewing the information provided, we may raise additional comments and/or request that you amend your filing.

Item 1A. Risk Factors

Persistent low interest rates or significant increases in interest rates could adversely affect our business and results of operations, page F-20

1. You state that the current low interest rate environment has meant that you have invested or reinvested cash flows at substantially lower yields than your existing portfolio yield, while your ability to reduce credited rates has been limited by contractual minimums. Please provide us proposed disclosure to be included, in MD&A, in future periodic reports that discloses the expected effects of this known trend or uncertainty on your future financial position, results of operations and cash flows. To the extent that information about cash flows you expect to have to reinvest at lower rates due to potential maturities or calls of your investments, or cash flows that you are committed to pay due to products with guaranteed features is necessary to understand these effects,

please include information such as the amount of maturing or callable investments and their weighted average yields and the amount of products with guaranteed features and their rates in your proposed disclosure.

Consolidated Statements of Cash Flows, page F-7

2. Please tell us what the net transfers to/from separate accounts represent and why such amounts impact your cash balance.

We urge all persons who are responsible for the accuracy and adequacy of the disclosure in the filing to be certain that the filing includes the information the Securities Exchange Act of 1934 and all applicable Exchange Act rules require. Since the company and its management are in possession of all facts relating to a company's disclosure, they are responsible for the accuracy and adequacy of the disclosures they have made.

In responding to our comments, please provide a written statement from the company acknowledging that:

- the company is responsible for the adequacy and accuracy of the disclosure in the filing;
- staff comments or changes to disclosure in response to staff comments do not foreclose the Commission from taking any action with respect to the filing; and
- the company may not assert staff comments as a defense in any proceeding initiated by the Commission or any person under the federal securities laws of the United States.

You may contact Tabatha McCullom, Staff Accountant, at (202) 551-3658 or Joel Parker, Accounting Branch Chief, at (202) 551-3651 if you have any questions regarding the comments. In this regard, do not hesitate to contact me at (202) 551-3679.

Sincerely,

/s/ Jim B. Rosenberg
