Financial Statements

Consolidated Balance Sheets, page 78

1. We have reviewed your response to comment 3. We believe separate presentation of common stock and other stockholders' equity line items on the balance sheet is warranted pursuant to Rules 5-02.29 and .30 of Regulation S-X, especially in light of the shift from a retained earnings balance to an accumulated deficit balance during the year. Since investors generally spend more time examining the income statement and balance sheet, we believe that presentation of these line items on the face of the balance sheet provides more prominent disclosure than sole presentation in the statement of stockholders' equity. Either provide us with additional support as to why you believe you have complied with Rules 5-02.29 and .30 or revise as necessary in future filings.
