MEDICURE REPORTS SECOND QUARTER 2016 FINANCIAL RESULTS

WINNIPEG, CANADA – (August 10, 2016) Medicure Inc. ("**Medicure**" or the "**Company**") (TSXV:MPH, OTCQB:MCUJF), a specialty pharmaceutical company, today reported its results from operations for the quarter ended June 30, 2016.

Quarter Ended June 30, 2016 Highlights:

- Recorded net revenue of \$7.7 million during the quarter ended June 30, 2016, an increase of 103% compared to \$3.8 million for the quarter ended June 30, 2015;
- Adjusted earnings before interest, taxes, depreciation and amortization (EBITDA)¹ for the quarter ended June 30, 2016 was \$2.4 million compared to \$1.1 million for the quarter ended June 30, 2015;
- Net income for the quarter ended June 30, 2016 was \$433,000, compared to \$441,000 for the quarter ended June 30, 2015;

Financial Results

Net revenue from the sale of AGGRASTAT® (tirofiban HCl) finished product for the quarter ended June 30, 2016 was \$7.7 million compared to \$3.8 million for quarter ended June 30, 2015, an increase of 103%. Net revenue from the sale of AGGRASTAT® (tirofiban HCl) finished product for the six months ended June 30, 2016 was \$13.8 million compared to \$7.1 million for the six months ended June 30, 2015, an increase of 93%.

The increase in revenue compared to the comparable quarter and six month period for the previous year is primarily attributable to an increase in the number of new hospital customers using AGGRASTAT and the continued increase in market share held by the product. Revenue growth was also aided by favourable fluctuations in the U.S. dollar exchange rate throughout the periods when compared to the same periods in the prior year.

Adjusted EBITDA for the quarter ended June 30, 2016 after adjusting for \$1.2 million of share-based compensation (a non-cash expense item) and \$73,000 relating to on-going costs pertaining to the one-time supplemental New Drug Application ("sNDA") filing, was \$2.4 million compared to Adjusted EBITDA of \$1.1 million for the quarter ended June 30, 2015 which was adjusted for \$319,000 of share-based compensation. Adjusted EBITDA for the six months ended June 30, 2016 after adjusting for \$1.4 million of share-based compensation (a non-cash expense item) and \$324,000 relating to on-going costs pertaining to the one-time sNDA filing, was \$4.5 million compared to Adjusted EBITDA of \$2.1 million for the six months ended June 30, 2015 which was adjusted for \$742,000 of share-based compensation.

Net income for the quarter ended June 30, 2016 was \$433,000 or \$0.03 per share, and was consistent when compared to \$441,000 or \$0.03 per share for the quarter ended June 30, 2015. Net income for the six months ended June 30, 2016 was \$1.2 million or \$0.08 per share compared to \$541,000 or \$0.04 per share for the six months ended June 30, 2015.

The increase in net income for the six months ended June 30, 2016 is the result of higher revenues, when compared to the same period in the prior year. This increase was partially offset by higher selling, general and administration and research and development expenses and higher cost of goods sold. The increase in selling, general and administration expenses is primarily due to higher share-based compensation, which totaled \$1.4 million during the six months ended June 30, 2016 compared to \$742,000 during the six months ended June 30, 2015, an increased number of staff, resulting in higher personnel expenses and higher selling costs associated with the growth in AGGRASTAT revenues. The increase in research and development expenses is due to development costs incurred during the three months ended June 30, 2016 associated with the high-value cardiovascular generic drug being developed in collaboration between Medicure and Apicore. The anticipated filing for the abbreviated New Drug Application ("ANDA") with the U.S. Food and Drug Administration ("FDA") is by the end of 2016.

At June 30, 2016, the Company had cash totaling \$7.5 million compared to \$3.6 million as of December 31, 2015. The increase in cash is primarily due to the collection of accounts receivable balances that were outstanding as at December 31, 2015. Cash flows from operating activities for the six months ended June 30, 2016 were \$4.5 million compared to \$1.2 million for the six months ended June 30, 2015.

All amounts referenced herein are in Canadian dollars unless otherwise noted.

Note:

⁽¹⁾ The Company defines EBITDA as "earnings before interest, taxes, depreciation, amortization and other income or expense" and Adjusted EBITDA as "EBITDA adjusted for non-cash and one-time items". The terms "EBITDA" and "Adjusted EBITDA", as it relates to the quarter and six months ended June 30, 2016 and 2015 results, prepared using International Financial Reporting Standards ("IFRS"), do not have any standardized meaning according to IFRS. It is therefore unlikely to be comparable to similar measures presented by other companies.

Reminder for the Conference Call Tomorrow

Conference call details are as follows:

Topic: Medicure's Q2 2016 Results

Date: Thursday, August 11, 2016

Time: 7:30 am Central Time (8:30 am Eastern Time)

Canada toll-free: 1 (888) 465-5079 (Canada Toll: 1 (416) 216-4169)

United States toll-free: 1 (888) 545-0687

Passcode: 6538569 #

Webcast: This conference call will be webcast live over the internet and can be accessed from the Medicure investor relations page at the following: <http://www.medicure.com/investors.html>

You may request country specific international access info by emailing us in advance at info@medicure.com.

Management will accept and answer questions related to the financial results and its operations during the Q&A period at the end of the conference call. A recording of the call will be available following the event at www.medicure.com.

About Medicure Inc.

Medicure is a specialty pharmaceutical company focused on the development and commercialization of therapeutics for the U.S. hospital market. The primary focus of the Company and its subsidiaries is the marketing and distribution of AGGRASTAT (tirofiban HCl) for non-ST elevation acute coronary syndrome in the United States, where it is sold through the Company's U.S. subsidiary, Medicure Pharma, Inc. For more information on Medicure please visit www.medicure.com.

About AGGRASTAT

Indications and Usage

AGGRASTAT is indicated to reduce the rate of thrombotic cardiovascular events (combined endpoint of death, myocardial infarction, or refractory ischemia/repeat cardiac procedure) in patients with non-ST elevation acute coronary syndrome (NSTEMI-ACS).

Dosage and Administration

Administer intravenously 25 mcg/kg within 5 minutes and then 0.15 mcg/kg/min for up to 18 hours. In patients with creatinine clearance ≤ 60 mL/min, give 25 mcg/kg within 5 minutes and then 0.075 mcg/kg/min.

Clinical Experience

In clinical studies with the HDB regimen, Aggrastat was administered in combination with aspirin, clopidogrel and heparin or bivalirudin to over 8,000 patients for typically ≤ 24 hours.

Contraindications

Known hypersensitivity to any component of Aggrastat History of thrombocytopenia with prior exposure to Aggrastat Active internal bleeding, or history of bleeding diathesis, major surgical procedure or severe physical trauma within previous month.

Warnings and Precautions

Aggrastat can cause serious bleeding. If bleeding cannot be controlled discontinue Aggrastat. Thrombocytopenia: Discontinue Aggrastat and heparin.

Adverse Reactions

Bleeding is the most commonly reported adverse reaction.

For more information on AGGRASTAT, please refer to Full Prescribing Information.

Neither the TSX Venture Exchange nor its Regulation Services Provider (as that term is defined in policies of the TSX Venture Exchange) accepts responsibility for the adequacy or accuracy of this release.

Forward Looking Information: Statements contained in this press release that are not statements of historical fact, including, without limitation, statements containing the words “believes”, “may”, “plans”, “will”, “estimates”, “continues”, “anticipates”, “intends”, “expects” and similar expressions, may constitute “forward-looking information” within the meaning of applicable Canadian and U.S. federal securities laws (such forward-looking information and forward-looking statements are hereinafter collectively referred to as “forward-looking statements”). Forward-looking statements, including the expectation of continued revenue growth, are based on the current assumptions, estimates, analysis and opinions of management of the Company made in light of its experience and its perception of trends, current conditions and expected developments, as well as other factors which the Company believes to be relevant and reasonable in the circumstances. Inherent in forward-looking statements are known and unknown risks, uncertainties and other factors beyond the Company's ability to predict or control that may cause the actual results, events or developments to be materially different from any future results, events or developments expressed or implied by such forward-looking statements, and as such, readers are cautioned not to place undue reliance on forward-looking statements. Such risk factors include, among others, the Company's future product revenues, stage of development, additional capital requirements, risks associated with the completion and timing of clinical trials and obtaining regulatory approval to market the Company's products, the ability to protect its intellectual property, dependence upon collaborative partners, changes in government regulation or regulatory approval processes, and rapid technological change in the industry. Such statements are based on a number of assumptions which may prove to be incorrect, including, but not limited to, assumptions about: general business and economic conditions; the impact of changes in Canadian-US dollar and other foreign exchange rates on the Company's revenues, costs and results; the timing of the receipt of regulatory and governmental approvals for the Company's research and development projects; the availability of financing for the Company's commercial operations and/or research and development projects, or the availability of financing on reasonable terms; results of current and future clinical trials; the uncertainties associated with the acceptance and demand for new products and market competition. The foregoing list of important factors and assumptions is not exhaustive. The Company undertakes no obligation to update publicly or otherwise revise any forward-looking statements or the foregoing list of factors, other than as may be required by applicable legislation. Additional discussion regarding the risks and uncertainties relating to the Company and its business can be found in the Company's other filings with the applicable Canadian securities regulatory authorities or the US Securities and Exchange Commission, and in the “Risk Factors” section of its Form 20F for the year ended December 31, 2015.
