Amendment No. 1 to Registration Statement on Form S-3 filed November 2, 2023

About International Tower Hill Mines Ltd, page 1

1. We note your disclosure on page 1 indicating the company has measured and indicated mineral resources of 704.5 million tonnes, which appears to coincide with the quantification of measured and indicated resources - *inclusive* of reserves, that the qualified person elected to include in the technical report summary (TRS) pursuant to Item 601(b)(96)(iii)(B)(11)(ii), and we see that you have similar disclosure on page 47 of your annual report.

However, notwithstanding inclusion in the TRS, the disclosures of resources that you provide in the registration statement and annual report should be limited to mineral resources - *exclusive* of reserves, to comply with Item 1303(b)(3)(ii) and Item 1304(d)(2) of Regulation S-K. Please revise your summary disclosures to quantify reserves separately from resources - exclusive of reserves, and to remove disclosures of resources - inclusive of reserves.
