NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

Note 1 – Nature of business and significant accounting policies

Basis of presentation

The unaudited condensed consolidated financial statements have been prepared in accordance with United States generally accepted accounting principles for interim financial statements and with the instructions to Form 10-QSB and reflect all adjustments which, in the opinion of management, are necessary for a fair presentation. All such adjustments are of a normal recurring nature. The results of operations for the interim period are not necessarily indicative of the results to be expected for the full year. Certain amounts in the prior year statements have been reclassified to conform to the current year presentations. The statements should be read in conjunction with the financial statements and footnotes thereto included in the Company's audit for the period ended December 31, 2006.

Description of organization

Signature Leisure, Inc. (referred to as "Signature" or the "Company") has been focused on the following operations during the six months ended June 30, 2007 and 2006:

Parker Productions operates for the purpose of providing modeling and event staffing services.

E Cubed Technologies, Inc. provides the information technology consulting operations of Signature. Additionally, E Cubed is an authorized dealer for a company that provides document imaging and retrieval solutions through software products that securely scan, store, and retrieve documents.

In January of 2007 the Company formed a wholly owned subsidiary, Signature Leisure, Inc. in the State of Minnesota to provide business consulting services to assist non public companies who are going public. Additionally, the Company provides investor relation services to these companies by fielding inquiries from investors. During the course of these services the Company is given the opportunity to invest in the client's common stock.

Consolidation

The unaudited condensed consolidated financial statements for the six months ended June 30, 2007 and 2006 included in this report include the activities of Signature Leisure, Inc. and its wholly-owned subsidiaries, Parker Productions, Inc., E Cubed Technologies, Inc. and Signature Leisure, Inc. (Minnesota). All significant intercompany balances and transactions have been eliminated in consolidation.

Use of estimates

The preparation of the financial statements in conformity with generally accepted accounting principals requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities; disclosure of contingent assets and liabilities at the date of the financial statements; and the reported amounts of revenues and expenses during the reporting period. Accordingly, actual results could differ from those estimates.

Accounts Receivable

Accounts receivable consists of amounts due from customers for sales of products and services. The Company considers accounts more than 30 days old to be past due. The Company uses the allowance method for recognizing bad debts. When an account is deemed uncollectible, it is written off against the allowance. An account is considered doubtful when it is over 90 day past due and any attempts to collect are unsuccessful. The Company generally does not require collateral for its accounts receivable.

Investments

The Company determines the appropriate classification of its investments in equity securities at the time of acquisition and reevaluates such determinations at each balance-sheet date. Marketable equity securities are carried at fair market value and classified as trading securities, with the unrealized gains and losses reported as a component of net loss in the Statement of Operations.

Inventory

Inventory is stated at the lower of cost (specific identification) or market. Market is generally considered to be net realizable value. Inventory consists of the following at June 30, 2007:

DocStar System	\$ 7,848
Total Inventory	<u>\$ 7,848</u>

SIGNATURE LEISURE, INC.
NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

Equipment

Equipment is stated at cost. Depreciation is calculated using the straight-line method over the estimated useful lives of the related assets, currently estimated at three years. Expenditures for additions and improvements are capitalized, while repairs and maintenance costs are expensed as incurred. The cost and related accumulated depreciation of property and equipment sold or otherwise disposed of are removed from the accounts and any gain or loss is recorded in the year of disposal. Depreciation expense totaled \$486 and \$637 for the six months ended June 30, 2007 and 2006, respectively.

Intangible assets

The intangible assets are stated at cost and amortized over an estimated useful life of three years using the straight-line method. Amortization expense for the six months ended June 30, 2007 and 2006 totaled \$3,333 and \$3,333, respectively.

Major classes of intangible assets consist of the following at June 30, 2007:

Web site	\$ 10,000
Customer list	10,000
Accumulated amortization	(15,834)
	<u>\$ 4,166</u>

Long-Lived Assets and Impairment

In accordance with SFAS No. 144, *Accounting for the Impairment or Disposal of Long-Lived Assets* ("SFAS No. 144"), when current events or circumstances indicate that the carrying value of an asset may not be recoverable, the Company tests the carrying value of the asset. If the tests indicate that the carrying value of the asset is greater than the expected undiscounted cash flows to be generated by such asset, then an impairment adjustment is recognized. Such adjustment consists of the amount by which the carrying value of such asset exceeds its fair value.

Revenue recognition

The Company recognizes revenue for modeling and event staffing services in the period the services are provided.

The Company recognizes revenue from information technology consulting operations and document imaging and retrieval solutions when services are provided or when software is shipped.

The Company recognizes revenue from investor relation services when services are provided. Business consulting services are contracted for over a course of one year and recognized monthly.

Cash and cash equivalents

For the purpose of the statements of cash flows, all highly liquid investments with a maturity of three months or less are considered to be cash equivalents.

Fair value of financial instruments

Fair value estimates discussed herein are based upon certain market assumptions and pertinent information available to management as of June 30, 2007. The respective carrying value of certain on-balance-sheet financial instruments approximated their fair values. These financial instruments include cash, investment in marketable securities, notes receivable, accounts payable, accrued expenses and notes payable. Fair values were assumed to approximate carrying values for these items because they are short term in nature or are payable on demand.

Income taxes

The Company accounts for income taxes under the provisions of SFAS No. 109, *Accounting for Income Taxes*. SFAS No. 109 requires recognition of deferred tax liabilities and assets for the expected future tax consequences of events that have been included in the financial statements or tax returns. Under this method, deferred tax assets and liabilities arise from the difference between the tax basis of an asset or liability and its reported amount on the financial statements. Deferred tax amounts are determined by using the tax rates expected to be in effect when the taxes will actually be paid or refunds received, as provided under currently enacted law. Valuation allowances are established when necessary to reduce the deferred tax assets to the amounts expected to be realized. Income tax expense or benefit is the tax payable or refundable, respectively, for the period plus or minus the change during the period in the deferred tax assets and liabilities.

NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

Earnings per share

Basic earnings per common share ("EPS") calculations are determined by dividing net income by the weighted average number of shares of common stock outstanding during the period. Diluted earnings per common share calculations are determined by dividing net income by the weighted average number of common shares and dilutive common share equivalents outstanding. During periods when common stock equivalents, if any, are anti-dilutive they are not considered in the computation.

Stock-Based Compensation

On January 1, 2006, the Company adopted SFAS 123 (revised 2004), *Share-Based Payment* ("SFAS 123(R)"), which requires the measurement and recognition of compensation expense for all share-based awards made to employees and directors, including employee stock options and shares issued through its employee stock purchase plan, based on estimated fair values. In March 2005, the Securities and Exchange Commission issued Staff Accounting Bulletin 107 ("SAB 107") relating to SFAS 123(R). The Company has applied the provisions of SAB 107 in its adoption of SFAS 123(R). The Company adopted SFAS 123(R) using the modified prospective transition method, which requires the application of the accounting standard as of the beginning of 2006. The Company's financial statements as of and for the six months ended June 30, 2007 reflect the impact of SFAS 123(R). In accordance with the modified prospective transition method, the Company's financial statements for prior periods do not include the impact of SFAS 123(R).

Stock compensation expense recognized during the period is based on the value of share-based awards at the date of the award. Stock compensation expense for the six months ended June 30, 2007 and 2006 includes compensation expense for the share-based awards.

Note 2 – Going concern

The accompanying financial statements have been prepared on a going concern basis, which contemplates the realization of assets and satisfaction of liabilities in the normal course of business. Based upon current operating levels, the Company may require additional capital or significant reconfiguration of its operations to sustain its operations for the foreseeable future.

The financial statements do not include any adjustments relating to the recoverability and classification of liabilities that might be necessary should the Company be unable to continue as a going concern. The Company's continuation as a going concern is dependent upon its ability to generate sufficient cash flow to meet its obligations on a timely basis and ultimately to attain profitability. The Company has limited capital with which to pursue its business plan. There can be no assurance that the Company's future operations will be significant and profitable, or that the Company will have sufficient resources to meet its objectives. During the six months June 30, 2007, the Company was partially dependent upon its officers and other insiders to provide working capital. However, there is no assurance that these loans and capital advances will continue in the future. The Company intends to generate sufficient revenues from consulting and investor relations to fund its business plan. There is no assurance that the Company will be successful in raising additional funds. The Company has a Standby Equity Distribution Agreement (Note 7) that can be used to raise sufficient financing in order to meet its financial requirements.

Management's Plan of Operations

We have begun to develop more significant revenue through the operations of our new segment Signature Minnesota which provides consulting services. We cannot anticipate at this time that enough positive internal operating cash flow until such time as we can generate sustained and substantial revenues. In the event we cannot obtain the necessary capital to pursue our strategic plan, we may have to cease or significantly curtail our operations. This would materially impact our ability to continue operations.

Our near term cash requirements are anticipated to be offset through the receipt of funds from private placement offerings and loans obtained through private sources. Since inception, we have financed cash flow requirements through debt financing and issuance of common stock for cash and services. As we expand operational activities, we may continue to experience net negative cash flows from operations and will be required to obtain additional financing to fund operations through common stock offerings and bank borrowings to the extent necessary to provide working capital.

Over the next twelve months we believe that existing capital and anticipated funds from operations may not be sufficient to sustain operations and planned expansion. Consequently, we will be required to seek additional capital in the future to fund growth and expansion through additional equity or debt financing or credit facilities. No assurance can be made that such financing would be available, and if available it may take either the form of debt or equity. In either case, the financing could have a negative impact on our financial condition and our Stockholders.

We anticipate incurring operating losses over the next twelve months. Our lack of revenue from our operating history makes predictions of future operating results difficult to ascertain. Our prospects must be considered in light of the risks, expenses and difficulties frequently encountered by companies in their development stage. Such risks include, but are not limited to, an evolving and unpredictable business model and the management of growth. To address these risks we must, among other things, obtain a customer base, implement and successfully execute our business and marketing strategy, continue to develop and upgrade technology and products, respond to competitive developments, and attract, retain and motivate qualified personnel. There can be no assurance that we will be successful in addressing such risks, and the failure to do so can have a material adverse effect on our business prospects, financial condition and results of operations.

Going Concern

The accompanying financial statements have been prepared on a going concern basis, which contemplates the realization of assets and satisfaction of liabilities in the normal course of business. As shown in the accompanying financial statements, the Company has incurred recurring losses, used significant cash in support of its operating activities and, based upon current operating levels, requires additional capital or significant reconfiguration of its operations to sustain its operations for the foreseeable future. These factors, among others, may indicate that the Company will be unable to continue as a going concern.

The financial statements do not include any adjustments relating to the recoverability and classification of liabilities that might be necessary should the Company be unable to continue as a going concern. The Company's continuation as a going concern is dependent upon its ability to generate sufficient cash flow to meet its obligations on a timely basis and ultimately to attain profitability. The Company has limited capital with which to pursue its business plan. There can be no assurance that the Company's future operations will be significant and profitable, or that the Company will have sufficient resources to meet its objectives.

Based on this evaluation, our principal executive officer and our principal financial officer concluded that our disclosure controls and procedures were effective as of the end of the period covered by this report.
