NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

**Note 1 – Nature of business and significant accounting policies**

Basis of presentation

The unaudited condensed consolidated financial statements have been prepared in accordance with United States generally accepted accounting principles for interim financial statements and with the instructions to Form 10-QSB and reflect all adjustments which, in the opinion of management, are necessary for a fair presentation. All such adjustments are of a normal recurring nature. The results of operations for the interim period are not necessarily indicative of the results to be expected for the full year. Certain amounts in the prior year statements have been reclassified to conform to the current year presentations. The statements should be read in conjunction with the financial statements and footnotes thereto included in the Company's Form 10-KSB for the year ended December 31, 2007.

Description of organization

Signature Leisure, Inc. (referred to as "Signature" or the "Company") has been focused on the following operations during the three months ended March 31, 2008 and 2007:

On February 15, 2005, the Company acquired assets from Parker Productions for the purpose of providing modeling and event staffing services.

In July 2005, E Cubed Technologies, Inc. ("E Cubed") was incorporated by the Company to assume the existing information technology consulting operations of Signature. Additionally, E Cubed is an authorized dealer for a company that provides document imaging and retrieval solutions through software products that securely scan, store, and retrieve documents.

In January of 2007 the Company formed a wholly owned subsidiary, Signature Leisure, Inc. in the State of Minnesota to provide business consulting services to assist non public companies who are going public. Additionally, the Company provides investor relation services to these companies by fielding inquiries from investors. During the course of these services the Company is given the opportunity to invest in the client's common stock.

Management may also consider other opportunities as additional or alternative means to develop revenue for the company.

Consolidation

The condensed consolidated financial statements for the three months ended March 31, 2008 and 2007 included in this report include the activities of Signature Leisure, Inc. and its wholly-owned subsidiaries, Parker Productions, Inc., E Cubed Technologies, Inc. and Signature Leisure, Inc. (Minnesota). All significant intercompany balances and transactions have been eliminated in consolidation.

Use of estimates

The preparation of the financial statements in conformity with generally accepted accounting principals requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities; disclosure of contingent assets and liabilities at the date of the financial statements; and the reported amounts of revenues and expenses during the reporting period. Accordingly, actual results could differ from those estimates.

Revenue recognition

The Company recognizes revenue for modeling and event staffing services in the period the services are provided.

The Company recognizes revenue from information technology consulting operations and document imaging and retrieval solutions when services are provided or when software is shipped.

The Company recognizes revenue from investor relation services when services are provided. Business consulting services are contracted for over a course of one year and recognized monthly.

Reclassifications

Certain reclassifications have been made to the prior years' financial statements to conform to the current year presentation. These reclassifications had no effect on previously reported results of operations or retained earnings.

SIGNATURE LEISURE, INC.  
NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

**Note 2 – Going concern**

The accompanying financial statements have been prepared on a going concern basis, which contemplates the realization of assets and satisfaction of liabilities in the normal course of business. Based upon current operating levels, the Company may require additional capital or significant reconfiguration of its operations to sustain its operations for the foreseeable future.

The financial statements do not include any adjustments relating to the recoverability and classification of liabilities that might be necessary should the Company be unable to continue as a going concern. The Company's continuation as a going concern is dependent upon its ability to generate sufficient cash flow to meet its obligations on a timely basis and ultimately to attain profitability. The Company has limited capital with which to pursue its business plan. There can be no assurance that the Company's future operations will be significant and profitable, or that the Company will have sufficient resources to meet its objectives. The Company is partially dependent upon its officers and other insiders to provide working capital. However, there is no assurance that these loans and capital advances will continue in the future. The Company intends to generate sufficient revenues from consulting, investor relations, information technology consulting, and modeling and event planning services to fund its business plan. There is no assurance that the Company will be successful in raising additional funds.

### E Cubed Technologies

E Cubed Technologies has started business operations in the greater Orlando, Florida area. We are an authorized dealer for DocStar, one of the leading document imaging solution builders. DocSTAR, which is a product of AuthentiDate, Inc., provides clients with a document imaging and retrieval solution. DocSTAR (Document Storage and Retrieval) offers software products for the document imaging industry with a suite of software solutions that securely scans, stores and retrieves documents.

DocSTAR is a total document storage and retrieval system which takes paper documents, indexes them and stores them securely for later retrieval by end users either at the host system or a client workstation on the local computer network. After E Cubed Technologies installs a system sold to a client, the client employees are then trained in the usage of DocSTAR's filing and retrieval process. The clients then use a high speed scanner connected to either the host machine or a computer attached to the organizations computer network designated as a scan station to scan paper documents and file them in the DocSTAR system. The filing process differs for every client, as each of the document types they use will have what is called a template setup for them to more efficiently file the document and ease the retrieval process. The template is simply a set of instructions that have been specified by the client telling the DocSTAR system how to file each document and what information to use when indexing the document. Once retrieved by a client computer, the documents can be faxed emailed, or printed to paper directly from the DocSTAR system.

As per our agreement with DocSTAR, sales staff is to be trained by DocSTAR in a short product application course. Additionally, any representatives servicing DocSTAR must be trained in a more intensive technical course. The agreement specifies the counties of Orange, Seminole, Volusia, Brevard, Lake, and Osceola in the state of Florida as our direct market territories. Clients outside of that area would require us to involve DocSTAR corporate and, in many cases, another DocSTAR partner. The agreement does not prohibit us from selling and servicing other products. The agreement does not have minimum requirement for sales over any period of time. The agreement can be terminated by either party at anytime for any reason. In the event that DocSTAR terminates the agreement we will have a period of twelve months to continue servicing clients owing to the incidental fact that any particular client may have an existing service contract in place with us that may not have yet expired.

E Cubed Technologies is an authorized reseller of Dell products. This means we have the ability to purchase computer and network hardware and software at reseller pricing for resale to our clients. It gives us the ability to access a partner website where we can get customized support, training options and partner only specials.

## **Management's Plan of Operations**

We have begun to develop more significant revenue through the operations of our new segment Signature Minnesota which provides consulting services. We cannot anticipate at this time that enough positive internal operating cash flow until such time as we can generate sustained and substantial revenues. In the event we cannot obtain the necessary capital to pursue our strategic plan, we may have to cease or significantly curtail our operations. This would materially impact our ability to continue operations.

Our near term cash requirements are anticipated to be offset through the receipt of funds from private placement offerings and loans obtained through private sources. Since inception, we have financed cash flow requirements through debt financing and issuance of common stock for cash and services. As we expand operational activities, we may continue to experience net negative cash flows from operations and will be required to obtain additional financing to fund operations through common stock offerings and bank borrowings to the extent necessary to provide working capital.

Over the next twelve months we believe that existing capital and anticipated funds from operations may not be sufficient to sustain operations and planned expansion. Consequently, we may be required to seek additional capital in the future to fund growth and expansion through additional equity or debt financing or credit facilities. No assurance can be made that such financing would be available, and if available it may take either the form of debt or equity. In either case, the financing could have a negative impact on our financial condition and our Stockholders.

We anticipate that we may incur additional operating losses over the next twelve months. Our recently developed sources of revenue, as compared to our prior operating history makes predictions of future operating results difficult to ascertain. Our prospects must be considered in light of the risks, expenses and difficulties frequently encountered by companies in their development stage. Such risks include, but are not limited to, an evolving and unpredictable business model and the management of growth. To address these risks we must, among other things, obtain a customer base, implement and successfully execute our business and marketing strategy, continue to develop and upgrade technology and products, respond to competitive developments, and attract, retain and motivate qualified personnel. There can be no assurance that we will be successful in addressing such risks, and the failure to do so can have a material adverse effect on our business prospects, financial condition and results of operations.

*Going Concern*

The accompanying financial statements have been prepared on a going concern basis, which contemplates the realization of assets and satisfaction of liabilities in the normal course of business. As shown in the accompanying financial statements, the Company has incurred recurring losses, used significant cash in support of its operating activities and, based upon current operating levels, requires additional capital or significant reconfiguration of its operations to sustain its operations for the foreseeable future. These factors, among others, may indicate that the Company will be unable to continue as a going concern.

The financial statements do not include any adjustments relating to the recoverability and classification of liabilities that might be necessary should the Company be unable to continue as a going concern. The Company's continuation as a going concern is dependent upon its ability to generate sufficient cash flow to meet its obligations on a timely basis and ultimately to attain profitability. The Company has limited capital with which to pursue its business plan. There can be no assurance that the Company's future operations will be significant and profitable, or that the Company will have sufficient resources to meet its objectives.

**Item 3. Controls and Procedures**

We carried out an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) as of December 31, 2007. This evaluation was carried out under the supervision and with the participation of our Chief Executive Officer and Chief Financial Officer, Stephen Carnes and with the assistance of Terry L. Johnson, CPA our outside accountant. Based upon that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that, as of March 31, 2008, our disclosure controls and procedures have been identified utilizing the guidance provided by the PCAOB preliminary staff views published October 17, 2007 and the COSO publication "internal control over financial reporting – guidance for smaller public companies" published in June of 2006. We have indentified weaknesses regarding the fact that the company has only three employees, once of which does the accounting and bookkeeping for the company. To mitigate this weakness all transactions are approved by the Chief Financial officer or outside accountant as to how they are to be reported in the books and records to assure proper reporting in the financial statements. We are in the process of further identification and testing of the internal control procedures based on the referenced guidance. Because we have not completed testing, we cannot assure the effectiveness of the controls and procedures. There have been no significant changes in our internal controls over financial reporting during the three months ended March 31, 2008 that have materially affected or are reasonably likely to materially affect such controls.

Disclosure controls and procedures are controls and other procedures that are designed to ensure that information required to be disclosed in our reports filed or submitted under the Exchange Act are recorded, processed, summarized and reported, within the time periods specified in the SEC's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed in our reports filed under the Exchange Act is accumulated and communicated to management, including our Chief Executive Officer and Chief Financial Officer, to allow timely decisions regarding required disclosure.

The Company has established disclosure controls and procedures to ensure that information disclosed in this MD&A and the related financial statements was properly recorded, processed, summarized and reported to the Company's Board of Directors. A control system, no matter how well conceived or operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met.

There has been no change in the Company's disclosure controls during 2008 that has materially affected or is likely to materially affect its control over financial reporting.

**Management's Report on Internal Control over Financial Reporting**

The CEO and CFO of the Company acknowledge that they are responsible for designing internal controls over financial reporting or causing them to be designed under their supervision in order to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with Rule 240.13a-15(f) or Rule 240.15d-15(f). This report shall not be deemed to be filed for purposes of Section 18 of the Exchange Act or otherwise subject to the liabilities of that section.

Management and the Board of Directors work to mitigate the risk of a material misstatement in financial reporting, however, there can be no assurance that this risk can be reduced to less than a remote likelihood of a material misstatement.

Management has identified the critical disclosure controls and procedures associated with the Company's internal control over financial reporting using the above guidance for the three months ended March 31, 2008 and we are in the process of further identification and testing the effectiveness of these disclosure controls and procedures and, therefore, cannot yet deem these controls to be effective. Therefore, the Company has determined that a material weakness exists related to the lack of identification and testing of disclosure controls and procedures associated with the Company's internal control over financial reporting for the three months ended March 31, 2008. This material weakness could materially affect the Company's control over financial reporting.

**Limitations on the Effectiveness of Internal Controls**

Our management does not expect that our disclosure controls and procedures or our internal control over financial reporting will necessarily prevent all fraud and material error. Our disclosure controls and procedures are designed

Weaver & Martin LLC, the Company's independent registered public accounting firm, was not required to and has not issued a report concerning the effectiveness of the Company's internal control over financial reporting as of March 31, 2008.
