NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

**Note 1 – Nature of business and significant accounting policies**

Basis of presentation

The unaudited condensed consolidated financial statements have been prepared in accordance with United States generally accepted accounting principles for interim financial statements and with the instructions to Form 10-Q and reflect all adjustments which, in the opinion of management, are necessary for a fair presentation. All such adjustments are of a normal recurring nature. The results of operations for the interim period are not necessarily indicative of the results to be expected for the full year. Certain amounts in the prior year statements have been reclassified to conform to the current year presentations. The statements should be read in conjunction with the financial statements and footnotes thereto included in the Company's Form 10-KSB for the year ended December 31, 2007.

Description of organization

Signature Leisure, Inc. (referred to as "Signature" or the "Company") has been focused on the following operations during the six months ended June 30, 2008 and 2007:

On February 15, 2005, the Company acquired assets from Parker Productions for the purpose of providing modeling and event staffing services.

In July 2005, E Cubed Technologies, Inc. ("E Cubed") was incorporated by the Company to assume the existing information technology consulting operations of Signature. Additionally, E Cubed is an authorized dealer for a company that provides document imaging and retrieval solutions through software products that securely scan, store, and retrieve documents.

In January of 2007 the Company formed a wholly owned subsidiary, Signature Leisure, Inc. in the State of Minnesota to provide business consulting services to assist non public companies who are going public. Additionally, the Company provides investor relation services to these companies by fielding inquiries from investors. During the course of these services the Company is given the opportunity to invest in the client's common stock.

Management may also consider other opportunities as additional or alternative means to develop revenue for the company.

Consolidation

The condensed consolidated financial statements for the six months ended June 30, 2008 and 2007 included in this report include the activities of Signature Leisure, Inc. and its wholly-owned subsidiaries, Parker Productions, Inc., E Cubed Technologies, Inc. and Signature Leisure, Inc. (Minnesota). All significant intercompany balances and transactions have been eliminated in consolidation.

Use of estimates

The preparation of the financial statements in conformity with generally accepted accounting principals requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities; disclosure of contingent assets and liabilities at the date of the financial statements; and the reported amounts of revenues and expenses during the reporting period. Accordingly, actual results could differ from those estimates.

Revenue recognition

The Company recognizes revenue for modeling and event staffing services in the period the services are provided.

The Company recognizes revenue from information technology consulting operations and document imaging and retrieval solutions when services are provided or when software is shipped.

The Company recognizes revenue from investor relation services when services are provided. Business consulting services are contracted for over a course of one year and recognized monthly.

Reclassifications

Certain reclassifications have been made to the prior years' financial statements to conform to the current year presentation. These reclassifications had no effect on previously reported results of operations or retained earnings.

SIGNATURE LEISURE, INC.  
NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

**Note 2 – Going concern**

The accompanying financial statements have been prepared on a going concern basis, which contemplates the realization of assets and satisfaction of liabilities in the normal course of business. Based upon current operating levels, the Company may require additional capital or significant reconfiguration of its operations to sustain its operations for the foreseeable future.

The financial statements do not include any adjustments relating to the recoverability and classification of liabilities that might be necessary should the Company be unable to continue as a going concern. The Company's continuation as a going concern is dependent upon its ability to generate sufficient cash flow to meet its obligations on a timely basis and ultimately to attain profitability. The Company has limited capital with which to pursue its business plan. There can be no assurance that the Company's future operations will be significant and profitable, or that the Company will have sufficient resources to meet its objectives. The Company is partially dependent upon its officers and other insiders to provide working capital. However, there is no assurance that these loans and capital advances will continue in the future. The Company intends to generate sufficient revenues from consulting, investor relations, information technology consulting, and modeling and event planning services to fund its business plan. There is no assurance that the Company will be successful in raising additional funds.

Clients outside of that area would require us to involve DocSTAR corporate and, in many cases, another DocSTAR partner. The agreement does not prohibit us from selling and servicing other products. The agreement does not have minimum requirement for sales over any period of time. The agreement can be terminated by either party at anytime for any reason. In the event that DocSTAR terminates the agreement we will have a period of twelve months to continue servicing clients owing to the incidental fact that any particular client may have an existing service contract in place with us that may not have yet expired.

The Company reports no revenue income for the three months ended March 31, 2008; revenue income for the three months ended June 30, 2008 was \$16,389; all revenues for the period were from consulting.

### Liquidity and Capital Resources

During the six months ended June 30, 2008 the Company's cash position increased by \$4,341. Net cash used in operating activities totaled \$311,628; net cash provided by investing activities was \$309,095; and, net cash provided by financing activities was \$6,874.

## **Results of Operations**

The company has, subsequent to the three month period ended June 30, 2008, divested itself of equity investments obtained in prior periods. The company intends to refrain from any significant investment activities until such time as our assets are more substantial. The Company shall then maintain its investing activities to a level below 40% of those total assets so that we do not inadvertently become subject to the Investment Company Act of 1940.

The company has changed policy regarding activities that could be considered investing activities due to a potential issue of the company inadvertently falling under the requirements of the Investment Company Act of 1940. It was never the company's intention to be an investment company, nor had we ever held ourselves out to be such a company.

We had begun to develop more significant revenue through the operations of our business segment which provides consulting services. We had previously accepted equity as payment for some services in this segment of operation and as a result of our revised policies will not be accepting equity as a form of payment. This could negatively impact our ability to develop revenues in this segment as many potential clients have limited cash and in many instances would prefer to pay for services in some part with equity.

We cannot anticipate at this time when enough positive internal operating cash flow will develop to sustain operations. Until such time as we can generate sustained and substantial revenues we will rely on additional financing to maintain operations. In the event we cannot obtain the necessary capital to pursue our strategic plan, we may have to cease or significantly curtail our operations. This would materially impact our ability to continue operations.

Our near term cash requirements are anticipated to be offset through the receipt of funds from private placement offerings and loans obtained through private sources. Since inception, we have financed cash flow requirements through debt financing and issuance of common stock for cash and services. As we expand operational activities, we may continue to experience net negative cash flows from operations and will be required to obtain additional financing to fund operations through common stock offerings and bank borrowings to the extent necessary to provide working capital.

Over the next twelve months we believe that existing capital and anticipated funds from operations may not be sufficient to sustain operations and planned expansion. Consequently, we may be required to seek additional capital in the future to fund growth and expansion through additional equity or debt financing or credit facilities. No assurance can be made that such financing would be available, and if available it may take either the form of debt or equity. In either case, the financing could have a negative impact on our financial condition and our Stockholders.

We anticipate that we may incur additional operating losses over the next twelve months. Our sources of revenue, as compared to our prior operating history makes predictions of future operating results difficult to ascertain. Our prospects must be considered in light of the risks, expenses and difficulties frequently encountered by companies in their development stage. Such risks include, but are not limited to, an evolving and unpredictable business model and the management of growth. To address these risks we must, among other things, obtain a customer base, implement and successfully execute our business and marketing strategy, continue to develop and upgrade technology and products, respond to competitive developments, and attract, retain and motivate qualified personnel. There can be no assurance that we will be successful in addressing such risks, and the failure to do so can have a material adverse effect on our business prospects, financial condition and results of operations.

#### *Going Concern*

The accompanying financial statements have been prepared on a going concern basis, which contemplates the realization of assets and satisfaction of liabilities in the normal course of business. Based upon current operating levels, the Company may require additional capital or significant reconfiguration of its operations to sustain its operations for the foreseeable future.

The financial statements do not include any adjustments relating to the recoverability and classification of liabilities that might be necessary should the Company be unable to continue as a going concern. The Company's continuation as a going concern is dependent upon its ability to generate sufficient cash flow to meet its obligations on a timely basis and ultimately to attain profitability. The Company has limited capital with which to pursue its business plan. There can be no assurance that the Company's future operations will be significant and profitable, or that the Company will have sufficient resources to meet its objectives. The Company is partially dependent upon its officers and other insiders to provide working capital. However, there is no assurance that these loans and capital advances will continue in the future. The Company intends to generate sufficient revenues from consulting, investor relations, information technology consulting, and modeling and event planning services to fund its business plan. There is no assurance that the Company will be successful in raising additional funds.

#### **Item 3. Quantitative and Qualitative Disclosures About Market Risk**

Not Applicable

#### **Item 4T. Controls and Procedures**

We carried out an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) as of June 30, 2008. This evaluation was carried out under the supervision and with the participation of our Chief Executive Officer and Chief Financial Officer, Stephen Carnes and with the assistance of Terry L. Johnson, CPA our outside accountant. Based upon that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that, as of June 30, 2008, our disclosure controls and procedures have been identified utilizing the guidance provided by the PCAOB preliminary staff views published October 17, 2007 and the COSO publication "internal control over financial reporting – guidance for smaller public companies" published in June of 2006.

We have identified and tested the internal control procedures based on the referenced guidance. We have identified weaknesses regarding the fact that the company has only three employees, one of which does the accounting and bookkeeping for the company. To mitigate this weakness all transactions are approved by the Chief Financial Officer or outside accountant as to how they are to be reported in the books and records to assure proper reporting in the financial statements. There have been no significant changes in our internal controls over financial reporting during the six months ended June 30, 2008 that have materially affected or are reasonably likely to materially affect such controls.

Disclosure controls and procedures are controls and other procedures that are designed to ensure that information required to be disclosed in our reports filed or submitted under the Exchange Act are recorded, processed, summarized and reported, within the time periods specified in the SEC's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed in our reports filed under the Exchange Act is accumulated and communicated to management, including our Chief Executive Officer and Chief Financial Officer, to allow timely decisions regarding required disclosure.

The Company has established disclosure controls and procedures to ensure that information disclosed in this MD&A and the related financial statements was properly recorded, processed, summarized and reported to the Company's Board of Directors. A control system, no matter how well conceived or operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met.

There has been no change in the Company's disclosure controls during 2008 that has materially affected or is likely to materially affect its control over financial reporting.

### **Management's Report on Internal Control over Financial Reporting**

The CEO and CFO of the Company acknowledge that they are responsible for designing internal controls over financial reporting or causing them to be designed under their supervision in order to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with Rule 240.13a-15(f) or Rule 240.15d-15(f). This report shall not be deemed to be filed for purposes of Section 18 of the Exchange Act or otherwise subject to the liabilities of that section.

Management and the Board of Directors work to mitigate the risk of a material misstatement in financial reporting, however, there can be no assurance that this risk can be reduced to less than a remote likelihood of a material misstatement.

Management has identified the critical disclosure controls and procedures associated with the Company's internal control over financial reporting using the above guidance for the six months ended June 30, 2008 and we have tested the effectiveness of these disclosure controls and procedures. The Company has identified weaknesses regarding the fact that the company has only three employees, one of which does the accounting and bookkeeping for the company. This material weakness could materially affect the Company's control over financial reporting. To mitigate this weakness all transactions are approved by the Chief Financial Officer or outside accountant as to how they are to be reported in the books and records to assure proper reporting in the financial statements.

### **Limitations on the Effectiveness of Internal Controls**

Our management does not expect that our disclosure controls and procedures or our internal control over financial reporting will necessarily prevent all fraud and material error.

Weaver & Martin LLC, the Company's independent registered public accounting firm, was not required to and has not issued a report concerning the effectiveness of the Company's internal control over financial reporting as of June 30, 2008.
