## **Business**

Canadian Rockport Homes International, Inc. ("the "Company") is a Delaware corporation, which was formed on January 10, 1996 under the name Lenz Products, Inc.

In February 2001, the Company acquired all of the outstanding shares of Canadian Rockport Homes Ltd. ("CRH"), a British Columbia corporation, in exchange for 11,300,000 shares of common stock. Shortly thereafter, the corporate name was changed from Lenz Products, Inc. to Canadian Rockport Homes International, Inc. Canadian Rockport Homes International, Inc. has not generated any revenue to date and continues as a development stage corporation.

Also in February 2001, the Company acquired all of the intellectual properties owned by TWiC Housing Corporation, relating to the TWiC system for the construction of houses. In exchange for the assets acquired, the Company issued 2,000,000 shares of its common stock. TWiC is wholly owned by a shareholder and director of the Company. The Company valued the assets purchased, including patents pertaining to the TWiC System at an estimated historical cost of \$10,057.

Canadian Rockport Homes International, Inc. (the Company), during fiscal year 2001 formed a subsidiary in Chile under the name Rockport Homes Chile Limitada ("RCHL"). The Chilean subsidiary was formed to enable the Company to conduct operations in Chile. In 2003, all of its assets of RCHL were transferred to RT.

During 2002, the Company acquired certain assets of 598546 BC LTD, which included 100% of the outstanding shares of Rockport Trading Limitada, a Chilean corporation, formerly Maderas Doradas Canadienses, S.A. ("RT"). At the time of its acquisition, RT had no operations. During the year, the Company sold all of the assets of RT except for the acquired building and land.

Canadian Rockport Homes International, Inc. currently has three (3) subsidiaries; Canadian Rockport Homes Ltd. (CRH), Rockport Homes Chile Limitada ("RHCL"), and Rockport Trading Limitada ("RT"). CRH is a corporation formed under the laws of British Columbia, Canada and is wholly owned by Canadian Rockport Homes International, Inc. In addition, Canadian Rockport Homes International, Inc. is a 1% owner of RHCL, with the remaining 99% owned by CHR. In 2003, the Company transferred all of its assets in RHCL to RT. It is the Company's intention for RT to own all assets in Chile, including its manufacturing facility in Lampa, Chile. The Company's liability on the rental of its former plant located in Quilicura has been extinguished in 2004 through the dissolution of Rockport Homes Chile Limitada.

Canadian Rockport Homes International, Inc., through its subsidiaries, intends to manufacture and sell modular housing in various third-world and developing countries primarily in South America, Asia, Mexico, Africa and Eastern Europe. Currently the Company has an agreement with TWiC to construct a manufacturing facility in Chile in which the Company plans to manufacture modular housing. The Company, through its purchase of R.T., is currently building a plant on its land located in Lampa, Chile. The Company is currently negotiating a joint venture to commence the manufacturing of homes in Mexico. There is no assurance that the joint venture will be consummated or that the venture, if consummated, will be profitable.

### Description of Business.

Canadian Rockport Homes International, Inc. is in the development stage with plans to manufacture and construct low cost concrete modular housing in developing nations and third-world countries. The Company's business is based upon its exclusive ownership of the TWiC technology which has been developed in Canada over the past thirty years by TWiC Housing Corp. Canadian Rockport Homes International, Inc. is in the process of constructing its manufacturing facility in Lampa, Chile where initial operations will commence. It is the Company's intent to complete the plant by September 2004, barring financial restraints. The estimated cost to complete the plant is \$500,000. The Company is in the process of raising the funds necessary to fund the completion of the plant. However, if the amounts raised are deficient, then Management plans to finance the remaining balance needed using the property as collateral against the amount financed. The TWiC technology meets Canadian and U.S. construction standards, using an inexpensive, rapid, and consistent method of construction and application. The construction technology is applicable to low, middle, and high-end housing, as well as single homes, duplexes, row houses, multi-story buildings, hotels, schools and warehouses. However, initial product offerings will focus only on affordable housing and there is no assurance that the Company will create other residential or commercial product lines in the future.

### Patents

The TWiC technology bears the United States Patent No. 5,997,792 and was filed on December 7, 1999. At present, the patent is effective and there are no pending challenges. However, United States patents are not recognized in many countries. The Company has filed patent applications in Chile, and China which are still pending.

### Operations in Chile

Canadian Rockport Homes International, Inc. intends to conduct initial operations in Chile, through RT. RT is currently constructing a facility on its land located in Lampa, Chile which will house the manufacturing of the TWiC modular units. Canadian Rockport Homes International has also made initial contact with various potential Chilean customers and currently has 16 Chilean employees working on the construction of the plant and two employees working in the Company's Chilean office. Due to treaties between Canada and Chile, there is "free trade" between the two countries. There is currently no taxation on any profits which are invested in Chile or in RT. There is a 15% flat tax on profits moved from Chile into Canada, but due to a treaty between Canada and Chile, there is no double taxation on any repatriated profits.

### Patents and Proprietary Rights

The company is relying heavily upon its use of the TWiC technology successfully to carry out its plan of operations. Thus, the company has purchased TWiC technology which is patented and is taking reasonable steps to protect the technology from being copied by any third party. The U.S. Patent number is 5,997,792 and was filed on December 7, 1999

### Employees

The Company currently has five (5) employees working in its Canadian office and 18 employees working in Chile as discussed above. Further, the Company's President is providing services to the Company and is being paid through his wholly owned Corporation. The Company anticipates needing to recruit, train and manage local staff and other personnel in each third world country into which Canadian Rockport Homes International, Inc. expands, on an as needed basis.

### **Properties**

The Company currently leases office space at 700 West Pender Street, Suites 507, Vancouver, B.C., Canada V6C 1G8. The company, through RT owns 2.5 acres of land located in Lampa, Chile where it is now building its manufacturing plant which will be utilized as offices and plant facilities in its Chilean operations. The plant and adjacent pad on which a gantry sits will utilize 50% of the acreage. Currently additional space in Chile is leased on a

month-to-month basis from which its Chilean operations are currently housed.

## Legal Proceedings

Canadian Rockport Homes International, Inc. has never been in bankruptcy, receivership or any similar legal proceeding, and is not subject to any pending legal proceedings. Canadian Rockport Homes International, Inc. is not aware of any threatened legal proceedings. The foregoing is also true with respect to each officer, director and control shareholder as well as any entity owned by any officer, director and control shareholder, over the last five years.

### Results of Operations

For the fiscal year ending December 31, 2003 and 2002:

During the fiscal year ending December 31, 2003, the company was still in the construction phase of its plant in Lampa, Chile and has not generated any revenue since its inception. For 2003, the Company incurred a net operating loss of \$3,346,311 as compared to its net operating loss in 2002 of \$2,070,505. The \$1,275,806 net increase in 2003's net operating loss primarily relates to the charge to operations of the fair value of options granted to employees and consultants and a reduction in general and administrative expenses. The net increase in the amount of compensation relating to the granting of options in 2003 compared to 2002 was \$1,949,207 (\$2,282,874 in 2003 compared to \$333,667 in 2002). The net decrease in general and administrative expense in 2003 as compared to 2002 was \$(286,271) (\$1,034,520 in 2003 and \$1,320,791 in 2002).

The decrease in 2003 general and administrative expenses over 2002 expenses pertains to decreased legal and accounting expenses of \$(63,669) (\$72,341 in 2003 as compared to \$136,010 in 2002), increased advertising of \$19,817 (\$38,729 in 2003 compared to \$18,912 in 2002) decreased rent of \$(393,384) (\$103,522 in 2003 as compared to \$496,906 in 2002), increased travel of \$42,359 (\$90,114 in 2003 as compared to \$47,755 in 2002), an increase in salaries, benefits and other officer compensation of \$111,751 (\$378,113 in 2003 compared to \$266,362), a decrease in consulting fees of \$(37,561) (\$125,653 in 2003 compared to \$163,214 in 2002)

During 2003, the Company's president and another employee began providing services to the Company through their wholly owned corporations. The compensation paid to these corporations totaling \$63,794 is included in total 2003 compensation of \$378,113. Legal and accounting fees incurred in 2003 relate to normal business activity, whereas in 2002, the Company was involved in filing its registration statement in Canada. Increased salaries and related compensation relates to an increase in number of employees in 2003 as compared to 2002.

Of the general and administrative expenses amounting to \$1,034,520 incurred in 2003, \$233,785 relates to the Company's Chilean operations and \$800,735 was incurred in the Company's Canadian operations.

The Company incurred interest expense of \$29,102 during 2003, the majority of which relates to interest accrued on a \$65,657 demand loan borrowed from the two shareholders (See Note 6 to the financial statements).

For the fiscal year ending December 31, 2002 and 2001:

During the fiscal year ending December 31, 2002, the company was still in the construction phase of its plant in Chile and has not generated any revenue since its inception. For 2002, the Company incurred a net operating loss of \$2,070,505 as compared to its net operating loss in 2001 of \$1,475,647. The \$594,858 net increase in 2002's net operating loss primarily relates to the loss that the Company incurred on the disposal of timber and a truss plant that it received in the acquisition of Rockport Trading Limitada.. On the sale of these assets, the Company received net proceeds of \$211,639. The allocation of the purchase price allocated to the assets sold totaled \$570,000, thus resulting in a net loss on the disposal of these assets of \$358,361. Rockport Trading was acquired through the issuance of 200,000 shares of the Company's common stock valued at \$5.00 per share. In addition to the assets sold and resulting loss, the Company also charged off to operations \$30,000 that was allocated to goodwill in the purchase and had increased general and administrative expenses in 2002 over 2001 of \$238,856.

The increase in 2002 general and administrative expenses over 2001 expenses pertained to increased legal and accounting expenses of \$104,884 (\$136,010 in 2002 as compared to \$31,126 in 2001), and rent \$128,347 (\$496,906 in 2002 as compared to \$368,559). Increased professional fees in 2002 pertain to legal fees incurred in the preparation and filing of the Company's Canadian registration statement which were charged to operations. Whereas in 2001, the cost to prepare the Company's United States registration statement was charged to equity as an offset against the proceeds received on the sell of Company's common stock. Rent increase in 2002 was the result of leasing additional space in Vancouver and the fact that 2002 operations included a full year of rent on the leasing if the Company's Chilean plant as compared to including only nine-month's of rent on the plant in 2001.

Administrative expenses for 2002 were \$1,320,791 as compared to \$1,081,985 incurred in 2001. Of the \$1,320,791 incurred in 2002, \$695,079 relates to the Company's Chilean operations and \$625,712 was incurred in the Company's Canadian operations. Of the \$1,081,985 incurred in 2001, \$545,453 relates to the Company's Chilean operations and \$536,532 was incurred in the Company's Canadian operations.

The Company incurred interest expense of \$28,063 during 2002, the majority of which relates to interest accrued on a \$54,656 demand loan borrowed from the two shareholders (See Note 6 to the financial statements).

During the fiscal year ending December 31, 2002, the company received proceeds of \$870,353 through the sale of its common stock. The Company also received loans from shareholders amounting to \$70,268 and also received \$211,639 from the sale of its truss plant and timber. The net difference between advances to and repayments from Dr. Malone in 2002 amounted to \$1,001. Of the amount received in 2002, \$941,009 was used in operations, \$205,812 was used in the construction of the Company's molds and related plant, \$24,401 was used to purchase furniture and equipment, \$10,867 was used in the stock offerings, and \$10,000 was used to acquire 5,000 shares of Company stock from a shareholder. Balance of cash and cash equivalents as of December 31, 2002 was \$181,331; which was a decrease in cash and cash equivalents of \$42,492 for the fiscal year.

### **Critical Accounting Policies**

The discussion and analysis of the Company's financial condition and results of operations are based upon its consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States. The preparation of these financial statements requires the Company to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses. In consultation with its Board of Directors, the Company have identified two accounting policies that it believes are key to an understanding of its financial statements. These are important accounting policies that require management's most difficult, subjective judgments.

The first critical accounting policy relates to the accounting for costs incurred in the construction of the Company's molds and related plant. All costs incurred in the construction of molds and plant are capitalized until completion. The molds will be depreciated over their respective lives. The costs incurred in the construction of the plant, will be depreciated over the lesser of the useful life of the plant or the term of the lease of the building housing the respective assets (if applicable).

The second critical accounting policy relates to expense recognition. All expenses are recognized at the time the respective expense was incurred.

### **Quantitative and Qualitative Disclosures About Market Risk**

Canadian Rockport Homes International, Inc. may be subject to market risk in the form of interest rate risk and foreign currency risk. Canadian Rockport Homes International, Inc. is a development stage company with limited operations to date, and neither interest rate nor foreign currency has had a material impact on such operations.

The company's exposure to interest rate changes primarily may be as related to long-term debt used to fund future property acquisitions. Management's objective is to limit any impact of interest rate changes and may include any borrowing to be negotiated at fixed rates. Although interest rate changes have had no material affect on operations to date, management must continually evaluate such rates as manufacturing operations commence, corporate profitability is achieved, and expansion is being considered. The company may also establish lines of credit through traditional banking venues to insure liquidity during future periods of growth, and may consider fixed or variable rate bank lines consistent with any fluctuation of interest rates at the time of such growth.

The company's exposure to foreign currency exchange requires continuing management attention to the stability of the countries in which operations may be planned, as well as trade relations between the selected country(s) and Canada. Both trade relations and stability as pursuant to planned operations in Chile are currently favorable. Canadian Rockport Homes International, Inc. will continue to comprehensively evaluate conditions in countries where operations are in place and where future operations are planned, and will take any measures feasible at the time to minimize foreign currency risk. Such measures may include, but are not limited to; a reduction in operations or relocating a portion of operations to a more favorable environment.

## Independent Auditors' Report

Board of Directors  
Canadian Rockport Homes International, Inc.  
Vancouver, British Columbia

We have audited the accompanying consolidated balance sheets of Canadian Rockport Homes International, Inc., (A Development Stage Company) as of December 31, 2002 and 2003, and the related consolidated statements of operations, comprehensive loss, stockholders' equity, and cash flows, for the years ended December 31, 2001, 2002, and 2003 and for the period from the Company's inception (May 27, 1997) through December 31, 2003. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. These standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Canadian Rockport Homes International, Inc. as of December 31, 2002 and 2003, and the results of its operations, and its cash flows for the years ended December 31, 2001, 2002, and 2003, and for the period from Company's inception (May 27, 1997) through December 31, 2003, in conformity with accounting principles generally accepted in the United States of America.

The accompanying consolidated financial statements have been prepared assuming that the Company will continue as a going concern. As discussed in Note 11 to the financial statements, the Company has suffered recurring losses from operations and has a net capital deficiency, which raise substantial doubt about its ability to continue as a going concern. Management's plans regarding those matters are also described in Note 11. The consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty.

**Canadian Rockport Homes International, Inc.**  
(A Development Stage Company)  
**Notes To Consolidated Financial Statements**

**Note 1 - Business Activities and Related Risks**

Canadian Rockport Homes International, Inc. (the "Company") was incorporated in Delaware on January 10, 1996 under the name, Lenz Products, Inc. The Company changed its name to Canadian Rockport Homes International, Inc. in early 2001.

The Company is in the development stage as defined in FASB Statement 7 and currently has plans to manufacture and erect low cost concrete modular buildings. The Company has not paid any dividends and dividends, which may be paid in the future, will depend on the financial requirements of the Company and other relevant factors.

In February 2001, the Company acquired all of the outstanding shares of Canadian Rockport Homes, Ltd., ("CRH") a company incorporated in the Province of British Columbia on March 26, 1997, in exchange for issuing 11,300,000 of its common stock. For financial reporting purposes, the acquisition was treated as a reverse acquisition whereby CRH's operations continue to be reported as if it had actually been the acquirer. Assets and liabilities continue to be reported at the Acquiree's historical cost because before the reverse acquisition, the Company had nominal assets, liabilities and operations.

The Company also formed a subsidiary in 2001 in Chile under the name Rockport Homes Chile Limitada ("RHCL"). The Company and CRH are the sole shareholder's of this Chilean company.

In 2002, the Company acquired certain assets of 598546 BC Ltd., which included 100% of the outstanding shares of Rockport Trading Limitada, a Chilean corporation, formerly Maderas Doradas Canadienses, S.A. ("RT"). At the time of its acquisition, RT had no operations. During the year, the Company sold all of the assets of RT except for the acquired building and land. (See Note 3).

The Company maintains all of its cash deposits at two banks, one in Canada and one in Chile. The Company's bank accounts are not insured.

**Note 2 – Summary of Significant Accounting Policies**

**a. Principles of consolidation**

The accompanying consolidated financial statements include the accounts and transactions of Canadian Rockport Homes International, Inc. and its wholly owned subsidiaries, Canadian Rockport Homes, Ltd. Rockport Homes Chile Limitada and Rockport Trading, Limitada. Intercompany transactions and balances have been eliminated in consolidation.

**b. Foreign Currency Translations**

For foreign operations whose functional currency is the local foreign currency, balance sheet accounts are translated at exchange rates in effect at the end of the year and income statement accounts are translated at average exchange rates for the year. Translation gains and losses are included as a separate component of stockholders' equity.

**c. Property and Equipment**

The cost of property and equipment is depreciated over the estimated useful lives of the related assets that range from 3 to 7 years. Depreciation is computed on the straight-line method for financial reporting purposes and for income tax reporting purposes. Depreciation expense for 2001, 2002, and 2003 was \$29,397, \$40,160, and \$49,667 respectively.

#### 4. Intangible assets

Patents received from TWiC are being amortized over their respective remaining lives ranging from 11 to 18 years. Amortization expense for 2001, 2002 and 2003 was \$490, \$644, and \$669, respectively. Intangible assets consist of the following:

December 31, 2001				
	Gross		Net	Weighted
	Intangible	Accumulated	Intangible	Average
	Assets	Amortization	Assets	Life
				(Years)
Patents	\$ 11,471	\$ 490	\$ 10,981	18

December 31, 2002				
	Gross		Net	Weighted
	Intangible	Accumulated	Intangible	Average
	Assets	Amortization	Assets	Life
				(Years)
Patents	\$ 11,474	\$ 1,133	\$ 10,341	17

December 31, 2003				
	Gross		Net	Weighted
	Intangible	Accumulated	Intangible	Average
	Assets	Amortization	Assets	Life
				(Years)
Patents	\$ 11,568	\$ 1,810	\$ 9,758	17

Estimated amortization expense for each of the next five years ended December 31, is as follows:

2004	\$ 669
2005	669
2006	669
2007	669
2008	<u>669</u>
Total	\$ <u>3,345</u>

**e. Net Loss Per Share**

The Company adopted the provisions of Statement of Financial Accounting Standards ("SFAS") No. 128, "Earnings Per Share" ("EPS") that established standards for the computation, presentation and disclosure of earnings per share, replacing the presentation of Primary EPS with a presentation of basic and anti-diluted EPS. For 2001, 2002, and 2003, common stock equivalents are anti-dilutive and, accordingly, basic and diluted earnings per share are the same amount.

**f. Issuances Involving Non-cash Consideration**

All issuances of the Company's stock for non-cash consideration have been assigned a dollar amount equaling either the market value of the shares issued or the value of consideration received whichever is more readily determinable. Issuance of options to purchase common stock have been valued using Black-Scholles. The majority of the non-cash consideration received pertains to services rendered by consultants and others.

**g. Cash and Cash Equivalents**

For purposes of the statement of cash flows, the Company considers cash and cash equivalents to include all stable, highly liquid investments with maturities of three months or less.

**h. Use of estimates**

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

**i. Income Taxes**

The Company accounts for its income taxes under the provisions of Statement of Financial Accounting Standards 109 ("SFAS 109"). The method of accounting for income taxes under SFAS 109 is an asset and liability method. The asset and liability method requires the recognition of deferred tax liabilities and assets for the expected future tax consequences of temporary differences between tax bases and financial reporting bases of other assets and liabilities.

**j. Fair Value of Financial Instruments**

Pursuant to SFAS No. 107, "Disclosures About Fair Value of Financial Instruments", the Company is required to estimate the fair value of all financial instruments included on its balance sheets as of December 31, 2002 and December 31, 2003. The Company considers the carrying value of such amounts in the consolidated financial statements to approximate their face value.

**k. Reclassification**

Certain amounts in December 31, 2002 have been reclassified to conform to the December 31, 2003's presentation. Such reclassification had no effect on net loss as previously reported.

## **I. New Accounting Pronouncements**

In January 2003, the FASB issued Interpretation No. 46, "Consolidation of Variable Interest Entities" (an interpretation of Accounting Research Bulletin (ARB) No. 51, Consolidated Financial Statements). Interpretation 46 addresses consolidation by business enterprises of entities to which the usual condition of consolidation described in ARB-51 does not apply. The Interpretation changes the criteria by which one company includes another entity in its consolidated financial statements. The general requirement to consolidate under ARB-51 is based on the presumption that an enterprise's financial statements should include all of the entities in which it has a controlling financial interest (i.e., majority voting interest). Interpretation 46 requires a variable interest entity to be consolidated by a company that does not have a majority voting interest, but nevertheless, is subject to a majority of the risk of loss from the variable interest entity's activities or entitled to receive a majority of the entity's residual returns or both. A company that consolidates a variable interest entity is called the primary beneficiary of that entity. In December 2003 the FASB concluded to revise certain elements of FIN 46, primarily to clarify the required accounting for interests in variable interest entities. FIN-46R replaces FIN-46, that was issued in January 2003. FIN-46R exempts certain entities from its requirements and provides for special effective dates for entities that have fully or partially applied FIN-46 as of December 24, 2003. In certain situations, entities have the option of applying or continuing to apply FIN-46 for a short period of time before applying FIN-46R. In general, for all entities that were previously considered special purpose entities, FIN 46 should be applied in periods ending after December 15, 2003. Otherwise, FIN 46 is to be applied for registrants who file under Regulation SX in periods ending after March 15, 2004, and for registrants who file under Regulation SB, in periods ending after December 15, 2004. The Company does not expect the adoption to have a material impact on the Company's financial position or results of operations.

In December 2003, the FASB issued a revised SFAS No. 132, "Employers' Disclosures about Pensions and Other Postretirement Benefits" which replaces the previously issued Statement. The revised Statement increases the existing disclosures for defined benefit pension plans and other defined benefit postretirement plans. However, it does not change the measurement or recognition of those plans as required under SFAS No. 87, "Employers' Accounting for Pensions," SFAS No. 88, "Employers' Accounting for Settlements and Curtailments of Defined Benefit Pension Plans and for Termination Benefits," and SFAS No. 106, "Employers' Accounting for Postretirement Benefits Other Than Pensions." Specifically, the revised Statement requires companies to provide additional disclosures about pension plan assets, benefit obligations, cash flows, and benefit costs of defined benefit pension plans and other defined benefit postretirement plans. Also, companies are required to provide a breakdown of plan assets by category, such as debt, equity and real estate, and to provide certain expected rates of return and target allocation percentages for these asset categories. The Company has implemented this pronouncement and has concluded that the adoption has no material impact to the financial statements.

During April 2003, the FASB issued SFAS 149 - "Amendment of Statement 133 on Derivative Instruments and Hedging Activities," effective for contracts entered into or modified after June 30, 2003, except as stated below and for hedging relationships designated after June 30, 2003. In addition, except as stated below, all provisions of this Statement should be applied prospectively. The provisions of this Statement that relate to Statement 133 Implementation Issues that have been effective for fiscal quarters that began prior to June 15, 2003, should continue to be applied in accordance with their respective effective dates. In addition, paragraphs 7(a) and 23(a), which relate to forward purchases or sales of when issued securities or other securities that do not yet exist, should be applied to both existing contracts and new contracts entered into after June 30, 2003. The Company has implemented this pronouncement and has concluded that the adoption has no material impact to the financial statements.

During May 2003, the FASB issued SFAS 150 - "Accounting for Certain Financial Instruments with Characteristics of both Liabilities and Equity," effective for financial instruments entered into or modified after May 31, 2003, and otherwise is effective for public entities at the beginning of the first interim period beginning after June 15, 2003. This Statement establishes standards for how an issuer classifies and measures certain financial instruments with characteristics of both liabilities and equity. It requires that an issuer classify a freestanding financial instrument that is within its scope as a liability (or an asset in some circumstances). Many of those instruments were previously classified as equity. Some of the provisions of this Statement are consistent with the current definition of liabilities in FASB Concepts Statement No. 6, Elements of Financial Statements. The Company has implemented this pronouncement and has concluded that the adoption has no material impact to the financial statements.

### **Note 3 – Related Party Transactions**

- a. On February 5, 2001, the Company acquired all of the intellectual properties owned by TWiC Housing Corporation relating to the TWiC system for the construction of houses. Included in the assets acquired were the patents pertaining to the TWiC System. In exchange for the assets acquired, the Company issued 2,000,000 shares of its common stock. Under the terms of the purchase agreement, the shares issued have restricted covenants as to when the shares are free to sell or transfer. TWiC's is wholly owned by Harry Gordon, a shareholder and director of the Company. The Company valued the assets purchased at their estimated historical cost of \$10,057. The Company is amortizing the purchase price over 18 years, the remaining life of the related patents.

Pursuant to the purchase agreement, the Company guaranteed that the market price of the shares received by TWiC will exceed \$2.50 Canadian within four years from the commencement date of trading. If the shares do not reach such a price within the period, the Company will issue sufficient additional shares in order that the total number of shares issued multiplied by the highest market price of the stock during the four year period equals \$5,000,000 Canadian.

- b. On January 10, 2001, the Company entered into an agreement with TWiC for the manufacturing of 32 molds and the supply of the services required to construct the Company's Chilean plant. For these molds and services, the Company agreed to pay \$1,600,000 consisting of \$1,400,000 cash, and 100,000 shares of common stock valued at \$2.00 per share. Under the terms of the agreement the Company is to make a \$300,000 down payment and pay the remainder of the balance due in progressive draws. During the year ended December 31, 2001, the Company paid \$285,000 and issued the 100,000 shares of its common stock. The \$485,000 has been included in construction in progress. No payments were made in 2002. Total amounts paid towards this agreement in 2003 were \$10,315.

On June 9, 2004, this agreement was concluded and the Company and TWiC each released each other from any further obligations that they had under it.

- c. The Company and its President have made advances and repayments to each other. These advances are non-interest bearing and due upon demand. The balance due the President by the Company as of December 31, 2002 was \$2,117. The balance due the Company by its President as of December 31, 2003 was \$2,492.

d. Acquisition of Rockport Trading Limitada

In June 2002, the Company consummated its acquisition of certain assets of 598546 B.C. Ltd in exchange for 200,000 shares of its common stock. The price allocated to the assets acquired was based upon the market value of the shares issued of \$5.00 per share. The assets acquired and their respective allocated values are as follows:

Land	\$ 400,000
Land & building	120,000
Timber	450,000
Goodwill	<u>30,000</u>
	<u>\$1,000,000</u>

The timber was sold during the second quarter of 2002 for \$131,329, net selling expenses resulting in a loss from the sale of \$318,671. The land and building were sold during the third quarter of 2002 for \$80,310, net of selling expenses resulting in a loss of \$39,690.

The Company deemed the goodwill acquired to be impaired and charged the full amount to operations during the fourth quarter of 2002,

598546 B.C. Ltd. is owned by a shareholder of the Company.

**Note 4 - Income Taxes**

The Company is in the development stage and incurred net operating losses, therefore no provisions for income taxes have been established. As of December 31, 2003, the Company's net operating losses totaled \$7,252,781, which expire in various years through 2023.

An allowance has been provided that reduced the tax benefits accrued by the Company for these operating losses to zero as it cannot be determined when, or if, the tax benefits derived from these losses will materialize.

**Note 5 - Issuances of Common Stock**

During the year ended December 31, 2002, the Company issued 173,738 shares of its common stock through a private offering in exchange for \$870,353. In addition, the Company issued 200,000 shares of its common stock in exchange for certain assets of 598546 BC LTD (see Note 6)

During the year ended December 31, 2003, the Company issued 248,978 shares of its common stock through a private offering in exchange for \$1,241,748. In addition, the Company issued 9,462 shares of common stock to various consultants relating to the Company's private offering. The services were valued at \$47,310, the estimated value of the shares issued for the services rendered, and were charged against the offering proceeds received. In addition, in 2003, the Company issued 600 shares to a consultant for marketing services. The services were valued at \$3,000, the estimated value of the shares issued for the services rendered.

**Note 6 - Payable to Shareholders**

In April 2002, two shareholders advanced \$65,657, to the Company evidenced by two promissory notes that are assessed interest at an annual rate of 8%. The notes are due on demand. Under the terms of the notes, the Company is also required to issue 5,000 shares of its common stock to each lender at the time of repayment. The Company is imputing interest on the shares to be issued at a price of \$5.00 per share. The imputed interest is being charged to operations ratably over a one-year period, which Management believes to be the length of time that the loans will be outstanding. Interest charged to operations for 2002 and 2003 was \$27,242 and \$14,353.

## Note 7 - Leases

The Company is a lessee of computer equipment under capital leases expiring through August 28, 2007. The equipment and respective liabilities under these leases have been recorded at the fair value of the equipment and are being amortized over the estimated useful life of the equipment. Amortization of equipment under the capital leases is included in depreciation expense.

Following is a summary of the property held under the capital lease:

	<u>2002</u>	<u>2003</u>
Computer equipment	\$ 3,033	\$12,094
Less: accumulated amortization	<u>(505)</u>	<u>(2,404)</u>
	<u>\$ 2,528</u>	<u>\$ 9,690</u>

Minimum future lease payments under the capital lease over its remaining life is as follows:

2004	\$ 4,545
2005	4,545
2006	3,440
2007	<u>2,053</u>
	14,583
Less imputed interest	<u>(4,347)</u>
Present value of net minimum lease payments	<u>\$10,236</u>

On March 7, 2001, the Company entered into an agreement for the lease of certain real property in Chile where the Company plans to build its plant. The lease is for twenty-four months commencing April 7, 2001. The monthly rent is \$31,297. At the maturity of the lease, the Company has the option to acquire the property for \$4,580,000. The Company paid \$95,151 in commission and legal fees pertaining to the lease that have been capitalized and are being amortized over life of the lease. The balance due on this lease as of December 31, 2003 amounts to \$283,985. The Company has not made any payments towards this obligation since April 2002 and is in default under the terms of the lease agreement.

In addition, the Company leases its Vancouver, B.C. office on a long-term lease expiring on December 31, 2006.

Future minimum lease commitments pertaining to this lease expire as follows:

December 31, 2004	\$32,680
December 31, 2005	32,680
December 31, 2006	<u>32,680</u>
Total future minimum lease payments	<u>\$98,040</u>

## Note 8 - Investment in Unconsolidated Joint Venture

On August 20, 2003, the Company entered into an agreement with Urrutia Conus & Asociados ("SerCon") to form a joint venture under the name of Inmobiliaria y Construcciones Ser-Con Rockport ("ICSR"). Each party has a 50% ownership interest in the joint venture. The joint venture was formed for the purpose of building and selling houses using the technology of the Company. Under the agreement SerCon is responsible for the construction of each property's foundation, patio, carport, utility hook-up, and fences. The Company is responsible for the manufacturing of the dwellings.

For 2003, the Company incurred a net loss in the joint venture equal to its total investment amounting to \$6,288. The Company terminated the joint venture in 2003.

## Note 9 - Stock Options

In 2001, the Company granted to certain employees, directors and consultants, options to acquire 1,150,000 shares of the Company's common stock at a price of \$2.00 per share of which 150,000 options were forfeited during the year. The options are exercisable eight months after the commencement of the Company's stock trading publicly for a period of two years. In the event that the eight-month period ends after January 1, 2003, the expiration date of the options extend to the first business day after the eight-month period expires. As of December 31, 2003, the Company's common stock has yet to commence trading.

In 2003, the Company granted to certain employees, directors, and consultants, options to acquire 1,300,000 shares of the Company's common stock at a price of \$2.00 per share. The options are exercisable through October 31, 2005; however, if the Company commences a second public offering, the options are not exercisable during the period from 60 days before the commencement of the public offering through 60 days after the commencement of the public offering. In 2003, 150,000 options were forfeited.

Also in 2003, the Company granted an option to an employee to purchase 50,000 shares of its common stock at a price of \$5.00 per share. The options are exercisable eight months after the Company begins trading its shares publicly and must be exercised within two years once vested.

In 2003, the Company adopted the fair value method of accounting for its stock based compensation pursuant to FASB Statement 123. Prior to the adoption of FASB 123, the Company used the intrinsic value method under APB Opinion 25.

In the change from APB 25 to FASB 123, the Company restated its losses from operations in 2001 and 2002 to reflect the application of FASB 123. A reconciliation of the restated net loss and basic loss per share for 2001 and 2002 is as follows:

	<u>2001</u>	<u>2002</u>
Net loss as originally reported	\$ (1,078,314)	\$ (1,736,838)
Compensation on stock option grants, net of related tax effects	<u>(397,333)</u>	<u>(333,667)</u>
Net loss as restated	<u>\$ (1,475,647)</u>	<u>\$ (2,070,505)</u>
Basic loss per share as originally reported	\$ (.07)	\$ (.11)
Compensation on stock option gains	<u>(.03)</u>	<u>(.03)</u>
Basic loss per share - as restated	<u>\$ (.10)</u>	<u>\$ (.14)</u>

The following is a summary of the outstanding options:

	<u>Number of Shares</u>	<u>Weighted Average Exercise Price</u>
Outstanding – December 31, 2001	1,000,000	\$ 2.00
Granted	-	-

**Note 11 – Basis of Presentation and Going Concern**

The accompanying consolidated financial statements have been prepared in conformity with generally accepted accounting principles, which contemplates continuation of the Company as a going concern. However, the Company has sustained operating losses since its inception (March 27, 1997). In addition, the Company has used substantial amounts of working capital in its operations. Further, at December 31, 2003, current liabilities exceed current assets by approximately \$416,000 and the deficit accumulated during the development stage amounted to approximately \$7,250,000.

In view of these matters, realization of a major portion of the assets in the accompanying consolidated balance sheet is dependent upon the Company's ability to meet its financing requirements, and the success of its future operations. Management continues to raise funds through private offerings and is still seeking manufacturing contracts. Management believes that these sources of funds and current liquid assets will allow the Company to continue as a going concern. However, no assurances can be made that current or anticipated sources of funds will enable the Company to finance future periods' operations.

**Note 12 – Subsequent Events**

For the period from January 1, 2004 through April 29, 2004, the Company issued 105,355 shares of its common stock through a private offering in exchange for \$526,775, issued 1,175 shares for consulting services valued at \$5,875, and purchased 600 shares of its common stock from a shareholder for \$3,000. The 600 shares were subsequently cancelled.

On April 27, 2004, the Company acknowledged indebtedness to a consultant in the amount of \$57,700. This obligation is payable to the consultant either from the Company's first commercial financing or upon the commencement of production. On June 9, 2004, the construction agreement with TWiC was concluded and the Company and TWiC each released each other from any further obligations the construction agreement. In the original agreement, the Company was obligated to pay TWiC a total of \$1,600,000 of which \$200,000 was paid through the issuance of 100,000 shares of the Company's common stock and the remaining balance of \$1,400,000 to be paid in cash. Through June 10, 2004, the Company paid in cash a total of approximately \$319,000, and is released from paying any further amounts under the contract.

## **Certain Relationships and Related Transactions**

- a. On February 5, 2001, the Company acquired all of the intellectual properties owned by TWiC Housing Corporation relating to the TWiC system for the construction of houses. Included in the assets acquired were the patents pertaining to the TWiC System. In exchange for the assets acquired, the Company issued 2,000,000 shares of its common stock. Under the terms of the purchase agreement, the shares issued have restricted covenants as to when the shares are free to sell or transfer. TWiC is wholly owned by Harry Gordon, a shareholder and director of the Company. The Company valued the assets purchased at their estimated historical cost of \$10,057. The Company is amortizing the purchase price over 18 years, the remaining life of the related patent.

Pursuant to the purchase agreement, the Company guaranteed that the market price of the shares received by TWiC will exceed \$2.50 Canadian within four years from the commencement date of trading. If the shares do not reach such a price within the period, the Company will issue sufficient additional shares in order that the total number of shares issued multiplied by the highest market price of the stock during the four year period equals \$5,000,000 Canadian.

- b. On January 10, 2001, the Company entered into an agreement with TWiC for the manufacturing of 32 molds and the supply of the services required to construct the Company's Chilean plant. For these molds and services, the Company agreed to pay \$1,600,000 consisting of \$1,400,000 cash, and 100,000 shares of common stock valued at \$2.00 per share. Under the terms of the agreement the Company is to make a \$300,000 down payment and pay the remainder of the balance due in progressive draws. During the year ended December 31, 2001, the Company paid \$285,000 and issued the 100,000 shares of its common stock. The \$485,000 has been included in construction in progress. No payments were made in 2002.
- c. The Company's President has advanced funds to the corporation. These advances are non-interest bearing and due upon demand. The balances due the President as of December 31, 2002, and 2003, were \$2,117 and \$2492, respectively.

## **Principal Accountants Fees and Services**

### Audit Fees

The aggregate fees billed for each of the last two fiscal years for professional services rendered by the principal accountant for the audit of the registrant's annual financial statements and for services provided by the accountant in connection with statutory and regulatory filings or engagements for the last two fiscal years were: \$11,685 for Fiscal Year 2002 and \$22,719 for Fiscal Year 2003.

### Audit-Related Fees

The aggregate fees billed in each of the last two fiscal years for assurance and related services by the principal accountant that are reasonably related to the performance of the audit or review of the registrant's financial statements are \$19,336 for fiscal year 2002 and \$21,185 for fiscal year 2003.

### Tax Fees

The aggregate fees billed in each of the last two fiscal years for professional services rendered by the principal accountant for tax compliance, tax advice, and tax planning were \$1,530 for fiscal year 2002 and \$3,055 for fiscal year 2003..

### All Other Fees

No other services were provided, nor aggregate fees billed, other than such services or fees which have been previously disclosed herein.

The registrant's Audit Committee, or officers performing such functions of the Audit Committee, has approved the principal accountant's performance of services for the audit of the registrant's annual financial statements; and review of financial statements or services that are normally provided by the accountant in connection with statutory and regulatory filings or engagements for the fiscal year ending December 31, 2003. Audit-related fees, tax fees, and all other fees, if any, were approved by the Audit Committee or officers performing such functions of the Audit Committee.

The percentage of hours expended on the principal accountant's engagement to audit the registrant's financial statements for the most recent fiscal year that were attributed to work performed by persons other than the principal accountant's full-time, permanent employees was less than 50 percent.
