**GLOBE BANCORP, INC. AND SUBSIDIARY**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**JUNE 30, 2002**  
**(UNAUDITED)**

**Note 1 - Basis of Presentation -**

The accompanying consolidated financial statements at June 30, 2002 and December 31, 2001 and for the three and six months ended June 30, 2002 and 2001 include the accounts of Globe Bancorp, Inc. (the Company) and its wholly owned subsidiary, Globe Homestead Savings Bank (the Bank). Currently, the business and management of Globe Bancorp, Inc. is primarily the business and management of the Bank. All significant intercompany transactions and balances have been eliminated in the consolidation.

On March 12, 2001, the Bank incorporated Globe Bancorp, Inc. to facilitate the conversion of the Bank from mutual to stock form (the "Conversion"). In connection with the Conversion, the Company offered its common stock to the depositors of the Bank as of specified dates and to an employee stock ownership plan. Upon consummation of the Conversion on July 9, 2001, all of the Bank's outstanding common stock was issued to the Company; the Company became the holding company for the Bank and the Company issued 304,175 shares of common stock.

The Company filed a Form SB-2 with the Securities and Exchange Commission ("SEC") on March 16, 2001, which as amended was declared effective by the SEC on May 14, 2001. The Bank filed a Form AC with the Office of Thrift Supervision ("OTS") on March 15, 2001. The Form AC and related offering and proxy materials, as amended, were conditionally approved by the OTS by a letter dated May 10, 2001. The Company also filed an Application H-(e) 1-S with the OTS on April 9, 2001, which was conditionally approved by the OTS by a letter dated May 10, 2001. The members of the Bank approved the Plan at a special meeting held on June 26, 2001, and the subscription and community offerings closed on June 21, 2001.

The Conversion was accounted for under the pooling of interest method of accounting. In the Conversion, the Company issued 304,175 shares of common stock, 24,334 shares of which were acquired by its Employee Stock Ownership Plan, and the Bank issued 100 shares of \$.01 par value common stock to the Company.

The accompanying unaudited financial statements were prepared in accordance with instructions for Form 10-QSB and, therefore, do not include information or footnotes necessary for a complete presentation of financial position, results of operations and cash flows in conformity with U.S. generally accepted accounting principles. However, all adjustments (consisting only of normal recurring accruals), which, in the opinion of management, are necessary for a fair presentation of the financial statements, have been included. The results of operations for the six months ended June 30, 2002 are not necessarily indicative of the results to be expected for the year ended December 31, 2002.

**Note 2 - Employee Stock Ownership Plan-**

The Company sponsors a leveraged employee stock ownership plan (ESOP) that covers all employees who have at least one year of service with the Bank. The ESOP shares are initially pledged as collateral for its debt. The debt is being repaid based on a fifteen-year amortization and the shares are being released for allocation to active employees annually over the fifteen-year period. The shares pledged as collateral are deducted from stockholders' equity as unearned ESOP shares in the accompanying balance sheets.

As shares are released from collateral, the Company reports compensation expense equal to the current market price of the shares released. The Bank has accrued \$6,000 of ESOP expense through June 30, 2002.

**GLOBE BANCORP, INC. AND SUBSIDIARY**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**JUNE 30, 2002**  
**(UNAUDITED)**

The ESOP shares as of June 30, 2002 were as follows:

Allocated shares	1,622	
Shares released for allocation	0	
Unreleased shares	<u>22,712</u>	
Total ESOP shares	<u>24,334</u>	
	<u>=====</u>	
Fair value of unreleased shares	<u>\$284,351</u>	(1)
	<u>=====</u>	

(1) Based on market price on June 30, 2002.

**Note 3 - Earnings Per Share**

Basic earnings per share are computed by dividing net income by the weighted average number of shares of common stock outstanding, which were 281,463 for the three and six month periods ended June 30, 2002. Diluted earnings per share are calculated by dividing net income by the weighted average number of shares of common stock outstanding, including the effect of diluted securities, which was 281,463 for the three and six month periods ended June 30, 2002.

**GLOBE BANCORP, INC. AND SUBSIDIARY  
MANAGEMENT'S DISCUSSION AND ANALYSIS OF  
CONSOLIDATED FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

**General**

The following discussion compares the consolidated financial condition of Globe Bancorp, Inc. and Subsidiary at June 30, 2002 to December 31, 2001 and the results of operations for the three and six month periods ended June 30, 2002 with the same periods in 2001. Currently, the business and management of Globe Bancorp, Inc. is primarily the business and management of the Bank. This discussion should be read in conjunction with the interim consolidated financial statements and footnotes included herein.

This quarterly report on Form 10 - QSB includes statements that may constitute forward-looking statements, usually containing the words "believe", "estimate", "expect", "intend" or similar expressions. These statements are made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. Forward-looking statements inherently involve risk and uncertainties that could cause actual results to differ materially from those reflected in the forward-looking statements. Factors that could cause future results to vary from current expectations include, but are not limited to, the following: changes in economic conditions (both generally and more specifically in the markets in which the Company operates); changes in interest rates, accounting principles, policies or guidelines and in government legislation and regulation (which change from time to time and over which the Company has no control); and other risks detailed in this quarterly report on Form 10 - QSB and the Company's other Securities and Exchange Commission filings. Readers are cautioned not to place undue reliance on these forward-looking statements, which reflect management's analysis only as the date hereof. The Company undertakes no obligation to publicly revise these forward-looking statements to reflect events or circumstances that arise after the date hereof.

Our profitability depends primarily on our net interest income, which is the difference between interest and dividend income on interest-earning assets, principally loans, investment securities and interest-earning deposits in other institutions, and interest expense on interest-bearing deposits and borrowings from the Federal Home Loan Bank of Dallas. Net interest income is dependent upon the level of interest rates and the extent to which such rates are changing. Our profitability also depends, to a lesser extent, on noninterest income, provision for loan losses, noninterest expenses and federal income taxes. During the periods reported herein, net interest income after provision for loan losses exceeded total noninterest expense. Total noninterest expense consists of general, administrative and other expenses, such as compensation and benefits, occupancy and equipment expense, deposit insurance premiums and miscellaneous other expenses.

Globe Bancorp, Inc. is the holding company for the Bank. Substantially all of the Company's assets are currently held in, and its operations are conducted through, its sole subsidiary, the Bank. Historically, the Company's business has consisted primarily of originating single-family real estate loans secured by property in its market area. The Company's loans are primarily funded by certificates of deposit, which typically have higher rates than transaction accounts. Typically, single-family loans involve a lower degree of risk and carry a lower yield than commercial real estate, construction and consumer loans. The combination of these factors has resulted in historically lower interest rate spreads and returns on equity. Although the Company may attempt to expand its loan products by emphasizing certain consumer lending, Globe Bancorp, Inc. presently anticipates that its business will continue to primarily consist of originating single-family loans funded primarily by deposits.

Our operations and profitability are subject to changes in interest rates, applicable statutes and regulations and general economic conditions, as well as other factors beyond our control.

**GLOBE BANCORP, INC. AND SUBSIDIARY  
MANAGEMENT'S DISCUSSION AND ANALYSIS OF  
CONSOLIDATED FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

**Changes in Financial Condition**

Total assets increased by \$1,098,000 or 3.40% from December 31, 2001 to June 30, 2002. The increase was primarily due to increases of \$1,888,000 in loans receivable, \$1,295,000 in securities held to maturity and \$290,000 in cash and cash equivalents. These increases were partially offset by a decrease of \$2,515,000 in securities available for sale. Loan demand was up in the second quarter. The Bank is emphasizing the origination of higher yielding loans over the purchase of lower yielding mortgage-backed-securities. The increase in cash and cash equivalents was primarily due to normal operating activities.

Total classified assets decreased \$23,000 from December 31, 2001 to June 30, 2002. The Bank did not have any classified assets on June 30, 2002.

Deposits increased by \$1,219,000 or 5.87% from December 31, 2001 to June 30, 2002. The increase was made up entirely by increases in interest-bearing deposits.

Total stockholders' equity increased by \$45,000 or 0.78% in the first six months of 2002. Equity was increased by net income of \$99,000 and decreased by an \$8,000 reduction in accumulated other comprehensive income during the period and accrued cash dividends of \$45,000. Stockholders' equity at June 30, 2002 totaled \$5,879,000 compared to equity of \$5,834,000 at December 31, 2001.

**Liquidity and Capital Resources**

In the past, the Bank was required under federal regulations to maintain specified levels of "liquid" investments in qualifying types of U.S. Government, federal agency and other investments having maturities of up to five years. OTS regulations required that a savings institution maintain liquid assets of not less than 4% of its average daily balance of net withdrawable deposit accounts and borrowings due in one year or less. At June 30, 2002, the Bank's liquidity was 23.05% or \$4,311,000 in excess of the prior minimum OTS requirement. In March 2001, the OTS issued an interim rule that removed the requirement that savings institutions maintain an average daily balance of 4.0% of its liquidity base. The proposed rules require all savings institutions and service corporations to maintain sufficient liquidity to ensure their safe and sound operations.

At June 30, 2002, the Bank had outstanding commitments to originate \$1,385,000 of loans (excluding undisbursed portions of loans). In addition, as of June 30, 2002, the total amount of certificates of deposit and Federal Home Loan Bank advances that were scheduled to mature in the following twelve months were \$13,026,000 and \$1,357,000, respectively. The Bank believes that it has adequate resources to fund all of its commitments and that it can adjust the rate on certificates of deposit to retain deposits in changing interest rate environments. If the Bank requires funds beyond its internal funding capabilities, advances from the Federal Home Loan Bank of Dallas are available as an additional source of funds.

The Bank is required to maintain regulatory capital sufficient to meet tangible, core and risk-based capital ratios of at least 1.5%, 4.0% and 8.0%, respectively. At June 30, 2002, the Bank exceeded each of its capital requirements with ratios of 14.13%, 14.13% and 29.96%, respectively.

**GLOBE BANCORP, INC. AND SUBSIDIARY  
MANAGEMENT'S DISCUSSION AND ANALYSIS OF  
CONSOLIDATED FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

**Results of Operations**

Net income increased by \$43,000 or 286.43% in the quarter ended June 30, 2002 and increased by \$67,000 or 207.50% in the six months ended June 30, 2002 compared to the respective periods in 2001. The increase in net income for both periods was primarily due to increases in net interest income and noninterest income that were offset by increases in noninterest expenses and income tax expense.

Interest income increased \$74,000 or 17.33% for the quarter ended June 30, 2002 and \$132,000 for the six months ended June 30, 2002 over the comparable 2001 periods. This was primarily due to an increase in income from loans receivable and was partially offset by a decrease in income from other interest earning assets. The increase in interest income on loans receivable of \$69,000 or 21.33% for the quarter ended June 30, 2002 and \$131,000 or 20.32% for the six months ended June 30, 2002 were due to an increase in the average balance of such assets which was partially offset by a decrease in the average yield on such assets. The average balance of loans receivable increased to \$21,954,000 for the six month period ended June 30, 2002 compared to \$17,503,000 for the six month period ended June 30, 2001. This increase in loans receivable was attributable to the origination of \$9,100,000 in loans, offset by \$3,800,000 in repayments and loan sales. The average yield decreased to 7.05% for the six month period ended June 30, 2002, compared to 7.35% for the six month period ended June 30, 2001 reflecting the declining interest rate environment. The decreases in interest income on other interest earning assets of \$8,000 or 27.46% for the quarter ended June 30, 2002 and \$10,000 or 19.50% for the six months ended June 30, 2002 were due to a decrease in short-term interest rates that caused the average yield on other interest earning assets to decrease from 4.33% for the six month period ended June 30, 2001 to 1.76% for the six month period ended June 30, 2002. The average balance of such assets increased from \$2,400,000 for the six month period ended June 30, 2001 to \$4,656,000 for the six month period ended June 30, 2002. The increases in interest income on investment securities of \$12,000 or 16.60% for the quarter ended June 30, 2002 and \$11,000 or 6.98% for the six months ended June 30, 2002 were due to an increase in the average balance of such assets which was partially offset by a decrease in the yield on such assets. The average balance of investment securities increased to \$5,785,000 for the six month period ended June 30, 2002 compared to \$4,816,000 for the six month period ended June 30, 2001. The increase in investment securities was attributable to slow loan demand in the first quarter of 2002 and the investment of excess funds in investment securities. The average yield decreased to 5.81% for the six month period ended June 30, 2002, compared to 6.52% for the six month period ended June 30, 2001 reflecting the declining interest rate environment.

Interest expense decreased \$21,000 or 7.15% in the quarter ended June 30, 2002 and \$30,000 or 5.07% for the six months ended June 30, 2002 compared to the comparable 2001 periods. The decrease was primarily due to a decrease in interest expense on deposits. The decrease in interest expense on deposits was partially offset by an increase in interest expense on Federal Home Loan Bank advances. Interest expense on deposits decreased \$34,000 or 13.74% for the quarter ended June 30, 2002 and \$62,000 or 12.73% for the six months ended June 30, 2002 primarily due to a decrease in the average rate paid on deposits from 5.48% for the six month period ended June 30, 2001 to 4.01% for the six month period ended June 30, 2002. Such decrease reflects the declining interest rate environment. The average balance of deposits increased to \$21,312,000 for the six month period ended June 30, 2002 compared to \$17,851,000 for the six month period ended June 30, 2001. Interest expense on Federal Home Loan Bank advances increased \$15,000 or 28.92% for the quarter ended June 30, 2002 and \$35,000 or 33.58% for the six months ended June 30, 2002 due primarily to an increase in the average balance of such liabilities from \$3,500,000 for the six month period ended June 30, 2001 to \$5,379,000 for the six month period ended June 30, 2002. This increase in the average balance was due to new advances in the latter part of 2001 and early 2002 to fund the purchase of investment securities in furtherance of the Bank's desire to leverage the capital raised in the conversion. A decline in short-term interest rates caused the average rate paid on Federal Home Loan Bank advances to decrease from 5.89% for the six month period ended June 30, 2001 to 5.09% for the six month period ended June 30, 2002.

**GLOBE BANCORP, INC. AND SUBSIDIARY  
MANAGEMENT'S DISCUSSION AND ANALYSIS OF  
CONSOLIDATED FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

Net interest income increased \$95,000 or 74.79% in the quarter ended June 30, 2002 and \$162,000 or 62.77% in the six months ended June 30, 2002 over the comparable 2001 periods. This was primarily due to the increase in the interest rate spread and the increase in the ratio of average interest-earning assets to average interest-bearing liabilities. The interest rate spread increased to 1.84% for the six month period ended June 30, 2002 from 1.66% for the six month period ended June 30, 2001. The ratio of average interest-earning assets to average interest-bearing liabilities increased to 121.37% for the six months ended June 30, 2002 from 108.73% for the six months ended June 30, 2001. The net interest margin was 2.72% for the quarter ended June 30, 2002, compared to 2.03% for the quarter ended June 30, 2001. The net interest margin was 2.59% for the six months ended June 30, 2002, compared to 2.08% for the six months ended June 30, 2001.

There was no provision for loan losses for the three months ended June 30, 2002, compared to a recovery of \$290 for the same period in 2001. The recovery of loan losses was \$1,024 for the six months ended June 30, 2002, compared to a provision of \$1,034 for the same period in 2001. At June 30, 2002 and 2001, the Bank did not have any non-accruing loans. The allowance for loan losses amounted to \$100,000 at June 30, 2002, representing 0.43% of the total loans outstanding. The allowance for loan losses did not change for the three-months ended June 30, 2002. The Bank believes its allowance for loan losses was sufficient as of June 30, 2002.

Non-interest income increased \$20,000 or 515.92% for the quarter ended June 30, 2002 and \$18,000 or 153.26% for the six months ended June 30, 2002 compared to the respective periods in 2001. The increases for the quarter and six months ended June 30, 2002 were attributable to increases in the gain on trading account securities and increases in gain on sale of securities available for sale offset by decreases in income on foreclosed real estate.

Non-interest expenses increased \$42,000 or 37.38% in the quarter ended June 30, 2002 and \$78,000 or 34.35% as compared to the respective periods in 2001. The increase in the quarter was primarily due to an increase of \$13,000 or 2390.47% in real estate and share taxes, \$10,000 or 210.99% in professional fees, \$10,000 or 15.59% in salaries and employee benefits, \$3,000 or 42.89% in data processing expenses, \$3,000 or 78.94% stationery, printing and supplies expenses and \$3,000 or 11.54% in occupancy expense. The increase in the six month period was primarily due to an increase of \$25,000 or 2390.47% in real estate and share taxes, \$20,000 or 222.16% in professional fees, \$16,000 or 12.76% in salaries and employee benefits, \$7,000 or 45.96% in data processing expenses, \$6,000 or 89.05% stationery, printing and supplies expenses and \$2,000 or 4.06% in occupancy expense. The increase in salaries and employee benefits was due to the hiring of an additional staff member and the accrual of expenses relating to the ESOP. The increase in professional fees was due to the additional reporting requirements of a public company. The increase in real estate and share taxes was a result of additional taxes due to the status of the Bank as a stock corporation. This tax will be an ongoing expense. The increase in data processing expense was caused by implementation of a new teller platform and local area network. The increase in occupancy expense was the result an increase in the rental terms for the Bank's operating facility.

Income tax expense increased in the quarter and six months ended June 30, 2002 due to an increase in income before income taxes, compared to the same periods in 2001.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF  
CONSOLIDATED FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

**Impact of Inflation and Changing Prices**

The financial statements and related financial data presented herein regarding the Company have been prepared in accordance with U.S. generally accepted accounting principles, which generally require the measurement of financial position and operating results in terms of historical dollars, without considering changes in relative purchasing power over time due to inflation. Unlike most industrial companies, virtually all of the Company's assets and liabilities are monetary in nature. As a result, interest rates generally have a more significant impact on the Company's performance than does the effect of inflation. Interest rates do not necessarily move in the same direction or in the same magnitude as the prices of goods and services, since such prices are affected by inflation to a larger extent than interest rates.
