ITEM 1 ORGANIZATIONAL CHART REFLECTING ASSOCIATED PERSONS AND THE BROKER-DEALER:

ITEM 2 RISK MANAGEMENT AND OTHER POLICIES:

Credit Risk

The Project Controller maintains a schedule of all outstanding receivables related to Investment Banking Financial Advisory Revenue. This schedule is reviewed on a monthly basis and discussed with the appropriate banker on the deal team if any receivables have been outstanding for more than 60 days. It is each banker's responsibility to contact the client and inquire if the collectability is still deemed to be reasonably assured and as to when the payment will be received.

We record a reserve on specific invoices under the following schedule:

<u>Invoice age</u>	<u>Reserve %</u>
180 days	25%
365 days	100%

Upon the determination an amount is uncollectible, a bad debt provision will be recorded and the receivable will be written off as bad debt. The Company rarely has issues with customer collectability. As such each receivable is analyzed on an individual basis for collectability.

Market Risk

Deloitte Corporate Finance is not exposed to market risk because it does not have security positions. We are well capitalized and do not rely on external funding.

ITEM 3 LEGAL PROCEEDINGS:

None

ITEM 4 FINANCIAL STATEMENTS:**Allocation of Costs and Expenses to Deloitte Corporate Finance LLC**

The following summarizes the nature and method for the allocation of costs and expenses incurred to support the operations of Deloitte Corporate Finances LLC ("DCF"). These costs and expenses are principally borne by Deloitte Financial Advisory Services LLP ("Deloitte FAS") as well as Deloitte Services LP and other Deloitte entities. The following disclosure was included in the DCF 2015 financial statement notes:

"The Company [DCF] and Deloitte FAS, a related entity, operate under a service and expense agreement whereby Deloitte FAS provides employee and administrative services including, but not limited to, expenses such as all company personnel including out of pocket client project costs, office space, including all utilities and telephone services, and all general and administrative services in connection with the Company's business which includes all state and local taxes."

The relevant costs and expenses attributed to DCF's operations are principally allocated based on the specific identification of the expense item (e.g. client service salaries), or in proportion to employee headcount, revenue, or square footage (for occupancy costs). The allocated costs and expenses are billed to DCF on a monthly basis.

Management believes these allocation methods represent a reasonable basis on which to attribute the costs and expenses incurred on behalf of or in support of DCF's operations with the benefit received by DCF.
