REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Shareholder and the Board of Directors MWA Financial Services, Inc.
Rock Island, IL

Opinion on the Financial Statements

We have audited the accompanying consolidated statement of financial condition of MWA Financial Services, Inc. (the "Company") as of December 31, 2023, the related consolidated statements of operations, changes in stockholder's equity, and cash flows for the year ended December 31, 2023, and the related notes (collectively referred to as the "financial statements"). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Company as of December 31, 2023, and the results of its operations and its cash flows for the year ended December 31, 2023, in conformity with accounting principles generally accepted in the United States of America.

Basis for Opinion

These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on the Company's financial statements based on our audit. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) ("PCAOB") and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. Our audit included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audit also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audit provides a reasonable basis for our opinion.

(Continued)

Supplemental Information

Schedules I, II, and III (collectively the “Supplemental Information”) has been subjected to audit procedures performed in conjunction with the audit of the Company’s financial statements. The Supplemental Information is the responsibility of the Company’s management. Our audit procedures included determining whether the Supplemental Information reconciles to the financial statements or the underlying accounting and other records, as applicable, and performing procedures to test the completeness and accuracy of the information presented in the Supplemental Information. In forming our opinion on the Supplemental Information, we evaluated whether the Supplemental Information, including its form and content is presented in conformity with 17 C.F.R. § 240.17a-5. In our opinion, the Supplemental Information is fairly stated, in all material respects, in relation to the financial statements as a whole.

A handwritten signature in black ink that reads "Crowe LLP". The word "Crowe" is written in a cursive script, and "LLP" is written in a more formal, blocky font.

MWA Financial Services, Inc.

Notes to Consolidated Financial Statements

December 31, 2023

1. Summary of Significant Accounting Policies

Organization and Basis of Presentation

MWA Financial Services, Inc. (the Company), a wholly owned subsidiary of Modern Woodmen of America (Parent), was incorporated on February 2, 2001, and began operating as a broker-dealer on October 10, 2001, upon its approval for membership with Financial Industry Regulatory Authority (FINRA). The Company deals primarily in the sale of non-proprietary mutual fund shares and variable products. The Company clears its securities transactions on a fully disclosed basis through its clearing broker.

The consolidated financial statements include the accounts of the Company and its wholly owned subsidiary, MWAGIA, Inc., which is involved in the sale of non-proprietary insurance products. All intercompany accounts and transactions have been eliminated.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles (GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of income and expenses during the reporting period. It is possible that actual experience could differ from the estimates and assumptions utilized.

Cash and Cash Equivalents

For purposes of the consolidated statements of cash flows, the Company considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents. The carrying amounts reported in the statement of financial condition for cash and cash equivalents approximate their fair value because of the short maturity of these instruments. From time to time, cash balances exceed federally insured limits at certain financial institutions. The Company has not incurred any losses to date regarding these excess balances.

Software

Capitalized software development costs represent the capitalization of certain costs incurred to develop new software or to enhance existing software which is utilized by the Company to process client transactions. Capitalized software development costs are amortized using the straight-line method over their estimated useful lives, generally three years and is stated at cost less accumulated amortization.

MWA Financial Services, Inc.

Notes to Consolidated Financial Statements (continued)

1. Summary of Significant Accounting Policies (continued)

Deferred Income Taxes

Deferred income tax assets or liabilities are computed based on the difference between the financial statement and income tax bases of assets and liabilities using the enacted tax rate. Deferred income tax expenses or credits are based on the changes in the asset or liability from period to period. The Company evaluates the deferred tax assets for recoverability and establishes a valuation allowance when it is determined that it is more likely than not that some portion or all of the deferred tax assets will not be realized.

Fair Value Measurements and Disclosures

Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, defines fair value, establishes a framework for measuring fair value, establishes a fair value hierarchy based on the quality of inputs used to measure fair value, and enhances disclosure requirements for fair value measurements.

Fair value is defined as the price that the Company would receive upon selling an investment in a timely transaction to an independent buyer in the principal or most advantageous market for the investment. It is the Company's policy to maximize the use of observable inputs and minimize the use of unobservable inputs when developing fair value measurements, in accordance with the fair value hierarchy in ASC 820. The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value into three levels.

The three-tier hierarchy of inputs is summarized below:

- Level 1 – quoted prices in active markets for identical investments
- Level 2 – other significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.)
- Level 3 – significant unobservable inputs (including the Company's own assumptions in determining the fair value of investments)

The Company did not have any fair value Level 2 or Level 3 assets or liabilities at December 31, 2023.

MWA Financial Services, Inc.

Notes to Consolidated Financial Statements (continued)

1. Summary of Significant Accounting Policies (continued)

Transfers between fair value hierarchy levels are recognized at the beginning of the reporting period. The Company did not have any transfers between levels during the years ended December 31, 2023.

Current Expected Credit Losses (CECL)

The Company accounts for estimated credit losses on financial assets measured at an amortized cost basis and certain off-balance sheet credit exposures in accordance with FASB ASC 326-20, Financial Instruments – Credit Losses. FASB ASC 326-20 requires the Company to estimate expected credit losses over the life of its financial assets and certain off-balance sheet exposures as of the reporting date based on relevant information about past events, current conditions, and reasonable and supportable forecasts.

The Company records the estimate of expected credit losses as an allowance for credit losses. For financial assets measured at an amortized cost basis the allowance for credit losses is reported as a valuation account on the balance sheet that adjusts the asset's amortized cost basis. Changes in the allowance for credit losses are reported in Credit Loss expense.

Receivables from broker-dealers and others. The Company's receivables from broker-dealers and others include amounts receivable from unsettled trades, estimated 12b-1 payments, cash deposits, amounts due from representatives and a clearing firm deposit. A portion of the Company's trades and contracts are cleared through a clearing organization and settled daily between the clearing organization and the Company. Because of this daily settlement, the amount of unsettled credit exposures is limited to the amount owed the Company for a very short period of time. The Company continually reviews the credit quality of its counterparties.

Transactions with customers. For transactions in which the Company, through the clearing broker, extends credit to customers, the Company seeks to control the risks associated with these activities by requiring customers to maintain margin collateral in compliance with various regulatory and internal guidelines. The Company and the clearing broker monitor required margin levels daily and, pursuant to such guidelines, request customers to deposit additional collateral or reduce securities positions when necessary.

The Company has agreed to indemnify the clearing broker for any losses that it may sustain from the customer accounts introduced by the Company. At December 31, 2023, there were no amounts to be indemnified to the clearing broker for these customer accounts.

MWA Financial Services, Inc.

Notes to Consolidated Financial Statements (continued)

2. Revenues from Contracts with Customers

The following table provides a disaggregation of revenue from contracts with customers by revenue type and a reconciliation to total revenues in the consolidated statement of operations:

	Year ended December 31, 2023
Revenue	
Concession Revenue	
Policy concessions	\$15,841,571
Mutual fund concessions	10,959,671
Brokerage equity commissions	276,940
Total Concession Revenue	27,078,182
Investment advisory fees	1,311,488
Field reimbursements	825,708
Variable product distribution fee	330,000
Total revenues from contracts with customers	29,545,378
Interest income	75,631
Other income	70,384
Revenues as included in the consolidated statements of operations	\$29,691,393

The following discussions describe the nature, timing and uncertainty of revenues and cash flows arising from the Company's contracts.

Policy concessions

The Company has entered into agreements with several organizations to sell variable and fixed annuities as well as medical, dental, long term care, disability, disability income, and accidental death insurance to its customers. The Company's performance obligations are for the initial sale of a policy and subsequent ongoing servicing of the policies. The Company receives consideration daily, weekly and monthly and recognizes revenue for these concessions when amounts are known and transaction price can be determined and allocated. The Company does not recognize revenue for these fees until amounts are known as the revenue the Company will be entitled to is highly uncertain and susceptible to factors outside of the Company's control. Such factors include length of time policies remain active and amount of additional premiums paid by the policy holder.

MWA Financial Services, Inc.

Notes to Consolidated Financial Statements (continued)

2. Revenues from Contracts with Customers (continued)

Variable amounts are recorded as policy administrative fees (12b-1 fees) and are based on the average daily policy net asset balances and agreed upon contractual rate. As the uncertainty is dependent on the value of the policy at future points in time as well as the length of time the investor remains in the policy, both of which are highly susceptible to factors outside the Company's influence, the Company does not believe that it can overcome this constraint until the market value of the policy and the investor activities are known, which are usually monthly or quarterly. 12b-1 fees recognized in the current period are primarily related to performance obligations that have been satisfied in prior periods but have been constrained until the current period because the fees are affected by changes in average daily policy balances and assets under administration.

Mutual fund concessions

The Company has entered into agreements with several organizations to sell mutual funds to its customers. The related performance obligation is the successful sale of the mutual fund assets. The Company may receive distribution fees paid by the fund up front, over time, upon the investor's exit from the fund, or as a combination thereof. The Company believes that the performance obligation is satisfied on the trade date as that is when the underlying financial instrument or purchaser is identified, the pricing agreed upon and the risks and rewards of ownership have been transferred. The amount of revenue earned is determined by the value and type of each instrument sold based upon the contractual rate. The Company will recognize mutual fund sales concession revenues at the point in time the performance obligation has been satisfied, which is the trade date.

Variable amounts are recorded as fund administrative fees (12b-1 fees) and are based on the average daily fund net asset balances multiplied by the agreed upon contractual rate. As the uncertainty is dependent on the value of the shares at future points in time as well as the length of time the investor remains in the fund, both of which are highly susceptible to factors outside the Company's influence, the Company does not believe that it can overcome this constraint until the market value of the fund and the investor activities are known, which are usually monthly or quarterly. 12b-1 fees recognized in the current period are primarily related to performance obligations that have been satisfied in prior periods.

Brokerage equity commissions

The Company has entered into agreements with its clearing broker to buy or sell equity investments to its customers. Each time a customer enters into a buy or sell transaction, the Company charges a commission. Commissions and related clearing expenses are recorded on the trade date. The

MWA Financial Services, Inc.

Notes to Consolidated Financial Statements (continued)

2. Revenues from Contracts with Customers (continued)

Company believes that the performance obligation is satisfied on the trade date as that is when the underlying financial instrument or purchaser is identified, the pricing agreed upon and the risks and rewards of ownership have been transferred. The amount of revenue earned is determined by the value and type of each instrument sold. The Company will recognize equity sales commission revenues at the point in time the performance obligation has been satisfied, which is the trade date.

Investment advisory fees

The Company has entered into agreements with several organizations to earn fees for servicing investment advisory accounts of its customers. The related performance obligation for providing advisory services is satisfied over time because the customer is receiving and consuming the benefits as they are provided by the Company. The Company receives asset-based fees quarterly for satisfying the performance obligations and are based on a percentage of the net assets maintained. The Company does not recognize revenue for these fees until amounts are known as the revenue the Company will be entitled to is highly uncertain and susceptible to factors outside of the Company's control. Such factors include market value of assets under management and the length of time investors hold their accounts.

Costs to fulfill the contracts with customer include commissions paid to agents for sales and servicing of the related assets and insurance products. These costs are related to performance obligations already satisfied and are expensed when incurred.

Field reimbursements

The Company has entered into agreements with the registered representatives that sell the Company's products. The Company charges those registered representatives fees to be properly licensed and registered with FINRA and other states or regulatory authorities, and firm technology fees. The expenses incurred by the Company are recorded within licenses and fees and other expenses on the statement of operations. The Company will recognize field reimbursement revenues at the point in time the performance obligation has been satisfied, which is the date the fee is charged.

Variable product distribution fee

The Company has entered into agreements with Modern Woodmen of America to sell its variable annuity to its customers. The related performance obligation is the successful sale, subsequent ongoing servicing and monitoring of the variable annuity assets. For the subsequent ongoing

MWA Financial Services, Inc.

Notes to Consolidated Financial Statements (continued)

2. Revenues from Contracts with Customers (continued)

servicing and monitoring of the variable annuity assets, the Company receives an agreed upon monthly fee. The Company will recognize variable product distribution fee revenues at the point in time the performance obligation has been satisfied, which is monthly.

3. Income Taxes

The Company and its subsidiary file consolidated income tax returns, including only their own operations, since the ultimate parent company, Modern Woodmen of America, is a tax-exempt fraternal benefit society.

At December 31, 2023, the Company had a tax net operating loss carryover of \$12,396,531. The tax net operating losses carryover of \$12,144,777 arising in 2004 through 2017 may be carried forward until 2024 through 2037. The tax net operating loss arising in 2018 and later of \$251,754 does not have an expiration date. The net operating loss carryover represents the only significant temporary difference between the carrying amounts of assets and liabilities for financial reporting purposes and amounts used for income tax purposes at December 31, 2023. Management has established a valuation allowance for the full amount of the related net deferred tax assets of \$2,603,272 at December 31, 2023, because of the uncertainty of future income necessary for its ultimate realization.

The Company has analyzed all material tax provisions under the guidance of ASC 740, *Income Taxes Related to the Accounting for Uncertainty in Income Tax*, and has determined that there are no tax benefits that should not be recognized as of December 31, 2023. There are no unrecognized tax benefits that would affect the effective tax rates.

The Company does not believe it would be subject to any penalties or interest relative to any open tax years and, therefore, has not accrued any such amounts. The Company files U.S. federal income tax returns and income tax returns in various state jurisdictions. The 2020 through 2023 U.S. federal tax years are subject to income tax examination by tax authorities. The Company classifies any interest and penalties (if applicable) as income tax expense in the financial statements.

4. Net Capital Requirements

The Company is subject to the uniform net capital requirements of the SEC under Rule 15c3-1. The SEC's requirements provide that equity capital may not be withdrawn or cash dividends paid if certain minimum net capital requirements are not met, and that the ratio of aggregate

MWA Financial Services, Inc.

Notes to Consolidated Financial Statements (continued)

4. Net Capital Requirements (continued)

indebtedness to net capital as defined therein shall not exceed 15 to 1. At December 31, 2023, the Company had net defined capital of \$1,575,929, which was \$1,427,704 in excess of the required net capital of \$148,225 at that date. At December 31, 2023, the Company's ratio of aggregate indebtedness to net capital was 1.41 to 1. Various other regulatory agencies may impose additional capital requirements.

Under the clearing arrangement with the clearing broker, the Company is also required to maintain certain minimum levels of net capital and comply with other financial ratio requirements. At December 31, 2023, the Company was in compliance with all such requirements.

The Company is exempt from maintaining a special reserve bank account under Rule 15c3-3(k)(2)(ii) in that the Company introduces customers to its clearing broker on a fully disclosed basis.

5. Related-Party Transactions

The Company's variable product distribution fee income relates to services performed in connection with the distribution of the variable annuity of Modern Woodmen of America, its parent. Modern Woodmen of America compensated the Company at the rate of \$27,500 per month under a distribution agreement that commenced in June 2001 and was amended in 2010 and 2017. Concessions income derived from proprietary variable product transactions, which were substantially distributed in commissions to representatives selling those products, totaled \$8,852,047 in 2023. Commissions paid to representatives totaled \$7,875,186 in 2023. Substantially all of the Company's operating expenses represent allocations from, or payments by, Modern Woodmen of America, which are then reimbursed by the Company. During 2023, total net expenses reimbursed to Modern Woodmen of America were \$4,670,845. This includes the cost of the Company's employees and the allocated costs of their participation in various qualified employee benefit plans covering substantially all employees and sponsored by Modern Woodmen of America. Separate plan information disaggregated by the subsidiary company is not available on the components of pension cost or on the funded status of the defined-benefit pension plan.

From time-to-time Modern Woodmen of America contributes capital to the Company. During 2023, no capital contributions were made.

MWA Financial Services, Inc.

Notes to Consolidated Financial Statements (continued)

6. Allowance for Credit Losses

The Company records an allowance for credit losses. Management evaluated current market conditions warranted using historical losses as well as rating agency provided forecasted default rates to estimate the current year provision for expected credit losses. A roll forward of the allowance for credit losses is as follows:

Balance at January 1, 2023	\$	9,500
Provision for expected credit losses		<u>11,100</u>
Balance at December 31, 2023	\$	<u><u>20,600</u></u>

There were no write-offs charged against the allowance or recoveries collected in 2023.

7. Commitments and Contingencies

Regulatory Matters

In the normal course of business, the Company discusses matters with its regulators raised during regulatory examinations or otherwise subject to their inquiry. These matters could result in censures, fines, penalties or other sanctions. Management believes the outcome of any resulting actions will not be material to the Company's financial performance. However, the Company is unable to predict the outcome or the timing of the ultimate resolution of these matters or the potential fines, penalties or injunctive or other equitable relief, if any, that may result from these matters.

Indemnifications

In the normal course of business, the Company enters into contracts that contain a variety of representations which provide general indemnifications. The Company's maximum exposure under these agreements is unknown as this would involve future claims that may be made against the Company that have not yet occurred. However, based on experience, the Company expects the risk of loss to be remote.

Supplemental Information

MWA Financial Services, Inc.
