## Bear Autocallable Strategic Accelerated Redemption Securities<sup>®</sup> Linked to the Invesco QQQ Trust, Series 1

- Automatically callable if the Observation Level of the Underlying Fund on any Observation Date, occurring approximately six, nine and twelve months after the pricing date, *is less than or equal to* the Starting Value
- In the event of an automatic call, the amount payable per unit will be:
  - \$11.9830 if called on the first Observation Date
  - \$12.9745 if called on the second Observation Date
  - \$13.9660 if called on the final Observation Date
- If not called on the first two Observation Dates, a maturity of approximately one year
- If not called, the principal amount is subject to 1-to-1 downside exposure to *increases* in the Underlying Fund, with up to 100% of the principal amount at risk. *You will lose all or a portion of your principal amount if the price of the Underlying Fund on the final Observation Date is greater than the Starting Value.*
- All payments are subject to the credit risk of HSBC Bank plc
- No interest payments
- In addition to the underwriting discount set forth below, the notes include a hedging-related charge of \$0.05 per unit. See "Supplement to the Plan of Distribution—Role of MLPF&S and BofAS"
- No listing on any securities exchange
- Any payment on the notes, including any repayment of principal, is not guaranteed by any third party and is subject to the risk of exercise of any UK bail-in power (as described on page TS-3 of this document) by a relevant UK resolution authority. If HSBC Bank plc were to default on its payment obligations or become subject to the exercise of any UK bail-in power (or any other resolution measure) by a relevant UK resolution authority, you might not receive all or part of any amounts owed to you under the notes. See "Consent to UK Bail-in Power" and "Risk Factors" in this document and "Risk Factors" in the accompanying prospectus supplement for more information

The notes are being issued by HSBC Bank plc ("HSBC"). Investing in the notes involves a number of risks. There are important differences between the notes and a conventional debt security, including different investment risks and costs. See "Risk Factors" beginning on page TS-7 of this term sheet and beginning on page PS-7 of product supplement EQUITY BEAR STR-1.

The estimated initial value of the notes on the pricing date is \$9.821 per unit, which is less than the public offering price listed below. The market value of the notes at any time will reflect many factors and cannot be predicted with accuracy. See "Summary" on page TS-2 and "Risk Factors" beginning on page TS-7 of this term sheet for additional information.

Notwithstanding and to the exclusion of any other term of the notes or any other agreements, arrangements or understandings between HSBC and any holder or beneficial owner of the notes, by acquiring the notes (or a beneficial interest therein), each holder and each beneficial owner of the notes acknowledges, accepts and agrees to be bound by, and consents to, the exercise of, any UK bail-in power (or any other resolution measure) by any relevant UK resolution authority in relation to the notes. See "Consent to UK Bail-in Power" on page TS-3 of this document.

Neither the Securities and Exchange Commission (the "SEC") nor any state securities commission has approved or disapproved of the notes or passed upon the accuracy or the adequacy of this document, the accompanying product supplement, prospectus or prospectus supplement. Any representation to the contrary is a criminal offense.

	Per Unit	Total
Public offering price <sup>(1)</sup> .....	\$ 10.000	\$3,459,760.00
Underwriting discount <sup>(1)</sup> .....	\$ 0.125	\$ 43,247.00
Proceeds, before expenses, to HSBC.....	\$ 9.875	\$3,416,513.00

# Bear Autocallable Strategic Accelerated Redemption Securities®

Linked to the Invesco QQQ Trust, Series 1, due October 25, 2024

## Summary

The Bear Autocallable Strategic Accelerated Redemption Securities® Linked to the Invesco QQQ Trust, Series 1, due October 25, 2024 (the “notes”) are our senior unsecured debt securities and are not a direct or indirect obligation of any third party. The notes are not deposit liabilities of HSBC and are not covered by the UK Financial Services Compensation Scheme or insured by the U.S. Federal Deposit Insurance Corporation or any other governmental agency or deposit insurance agency of the United States, the United Kingdom or any other jurisdiction. **The notes will rank equally with all of our other senior unsecured debt, except for such debt as may be preferred by operation of law. Any payments due on the notes, including any repayment of principal, are subject to the credit risk of HSBC and to the risk of exercise of any UK bail-in power (as described herein) (or any other resolution measure) by a relevant UK resolution authority.** The notes will be automatically called at the applicable Call Amount if the Observation Level of the Market Measure, which is the Invesco QQQ Trust, Series 1 (the “Underlying Fund”), on any Observation Date is *equal to or less than* the Starting Value. You will not receive any notice from us if the notes are automatically called. If your notes are not called, you will lose all or a portion of the principal amount of your notes. Any payments on the notes will be calculated based on the \$10 principal amount per unit and will depend on the performance of the Underlying Fund, subject to our credit risk. See “Terms of the Notes” below.

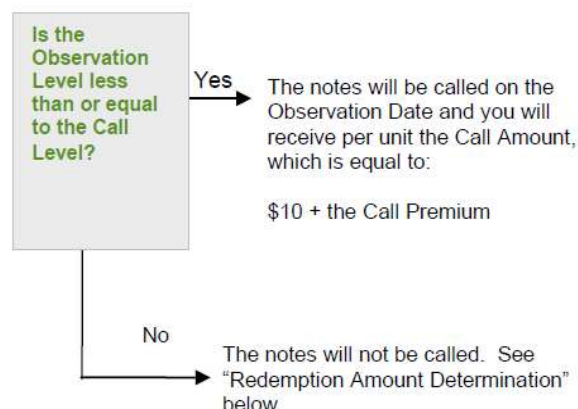

The estimated initial value of the notes is less than the price you pay to purchase the notes. The estimated initial value was determined by reference to our internal pricing models and reflects our internal funding rate, which is the borrowing rate we pay to issue market-linked notes, and the market prices for hedging arrangements related to the notes (which may include call options, put options or other derivatives). This internal funding rate is typically lower than the rate we would use when we issue conventional fixed or floating rate debt securities. The difference in the borrowing rate, as well as the underwriting discount and the costs associated with hedging the notes, including the hedging-related charge described below, reduced the economic terms of the notes (including the Call Amounts and the Call Premiums). The notes are subject to an automatic call, and the initial estimated value is based on an assumed tenor of the notes.

## Terms of the Notes

<b>Issuer:</b>	HSBC Bank plc (“HSBC”).
<b>Principal Amount:</b>	\$10.00 per unit.
<b>Term:</b>	Approximately one year, if not called on the first two Observation Dates.
<b>Market Measure:</b>	The Invesco QQQ Trust, Series 1 (Bloomberg symbol: “QQQ”).
<b>Starting Value:</b>	369.93
<b>Ending Value:</b>	The Observation Level of the Underlying Fund on the final Observation Date.
<b>Observation Level:</b>	The Closing Market Price of the Underlying Fund on any Observation Date times its Price Multiplier as of that day.
<b>Observation Dates:</b>	April 19, 2024, July 19, 2024 and October 18, 2024 (the final Observation Date). The scheduled Observation Dates are subject to postponement in the event of Market Disruption Events, as described on page PS-22 of product supplement EQUITY BEAR STR-1.
<b>Call Level:</b>	369.93 (100% of the Starting Value)
<b>Call Amounts (per Unit) and Call Premiums:</b>	\$11.9830, representing a Call Premium of 19.830% of the principal amount, if called on the first Observation Date; \$12.9745, representing a Call Premium of 29.745% of the principal amount, if called on the second Observation Date; and \$13.9660, representing a Call Premium of 39.660% of the principal amount, if called on the final Observation Date.
<b>Call Settlement Dates:</b>	Approximately the fifth business day following the applicable Observation Date, subject to postponement as described on page PS-22 of product supplement EQUITY BEAR STR-1; provided however, that the Call Settlement Date related to the final Observation Date will be the maturity date.
<b>Threshold Value:</b>	369.93 (100% of the Starting Value)
<b>Price Multiplier</b>	1, subject to adjustment for certain corporate events relating to the Underlying Fund, as described beginning on page PS-27 of product supplement EQUITY BEAR STR-1.
<b>Fees Charged:</b>	The public offering price of the notes includes the underwriting discount of \$0.125 per unit as listed on the cover page and an additional charge of \$0.05 per unit more fully described on page TS-14.
<b>Calculation Agent:</b>	BofA Securities, Inc. (“BofAS”) and HSBC, acting jointly.

## Payment Determination

### Automatic Call Provision:

### Redemption Amount Determination:

If the notes are not called, you will receive the Redemption Amount per unit on the maturity date, determined as follows:

$$\$10 - \left[ \$10 \times \left( \frac{\text{Ending Value} - \text{Threshold Value}}{\text{Starting Value}} \right) \right]$$

***Because the Threshold Value for the notes is equal to the Starting Value, you will lose all or a portion of your investment if the Ending Value is greater than the Starting Value. In no event will the Redemption Amount be less than zero.***

# Bear Autocallable Strategic Accelerated Redemption Securities®

Linked to the Invesco QQQ Trust, Series 1, due October 25, 2024

The terms and risks of the notes are contained in this term sheet and the documents listed below (together, the “Note Prospectus”). The documents have been filed as part of a registration statement with the SEC, which may, without cost, be accessed on the SEC website as indicated below or obtained from Merrill Lynch, Pierce, Fenner & Smith Incorporated (“MLPF&S”) or BofAS by calling 1-800-294-1322:

*Our Central Index Key, or CIK, on the SEC website is 1140465.* Before you invest, you should read the Note Prospectus, including this term sheet, for information about us and this offering. Any prior or contemporaneous oral statements and any other written materials you may have received are superseded by the Note Prospectus. You should carefully consider, among other things, the matters set forth under “Risk Factors” in the section indicated on the cover of this term sheet. The notes involve risks not associated with conventional debt securities. Capitalized terms used but not defined in this term sheet have the meanings set forth in product supplement EQUITY BEAR STR-1. Unless otherwise indicated or unless the context requires otherwise, all references in this document to “we,” “us,” “our,” or similar references are to HSBC.

## Consent to UK Bail-in Power

Notwithstanding and to the exclusion of any other term of the notes or any other agreements, arrangements or understandings between us and any holder or beneficial owner of the notes, by acquiring the notes (or a beneficial interest therein), each holder and each beneficial owner of the notes acknowledges, accepts and agrees to be bound by, and consents to, the exercise of, any UK bail-in power (or any other resolution measure) by a relevant UK resolution authority.

Under the UK Banking Act 2009, as amended (the “Banking Act”), a relevant UK resolution authority may exercise a UK bail-in power in circumstances in which a relevant UK resolution authority is satisfied that the resolution conditions are met. These conditions include that a UK bank or investment firm is failing or is likely to fail to satisfy the Financial Services and Markets Act 2000 (as amended, the “FSMA”) threshold conditions for authorization to carry on certain regulated activities (within the meaning of section 55B FSMA).

The UK bail-in power includes any write-down, conversion, transfer, modification and/or suspension power, which allows for (i) the reduction or cancellation of all, or a portion, of the principal amount of, interest on, or any other amounts payable on, the notes; (ii) the conversion of all, or a portion, of the principal amount of, interest on, or any other amounts payable on, the notes into shares or other securities or other obligations of HSBC or another person (and the issue to, or conferral on, the holder or beneficial owner of the notes such shares, securities or obligations); (iii) the cancellation of the notes and/or (iv) the amendment or alteration of the maturity of the notes, or amendment of the amount of interest or any other amounts due on the notes, or the dates on which interest or any other amounts become payable, including by suspending payment for a temporary period; which UK bail-in power may be exercised by means of a variation of the terms of the notes solely to give effect to the exercise by a relevant UK resolution authority of such UK bail-in power. Each holder and each beneficial owner of the notes further acknowledges and agrees that the rights of holders and beneficial owners of the notes are subject to, and will be varied, if necessary, to give effect to, the exercise of any UK bail-in power by a relevant UK resolution authority.

For more information, please see “Risk Factors — Issuer-related Risks — You may lose some or all of your investment if any UK bail-in power (or any other resolution measure) is exercised by a relevant UK resolution authority” in this document, and “Description of Debt Securities — Agreement with Respect to the Exercise of UK Bail-in Power” in the accompanying prospectus and “Risk Factors — Risks Relating to All Note Issuances — Under the terms of your notes, you will agree to be bound by the exercise of any UK bail-in power by the relevant UK resolution authority,” “— The notes are the subject of the UK bail-in power, which may result in your notes being written down to zero or converted into other securities, including unlisted equity securities,” “—Your rights may be limited in respect of the exercise of the UK bail-in power by the relevant UK resolution authority,” “— Other powers contemplated by the Banking Act may affect your rights under, and the value of your investment in, the notes” and “— The circumstances under which the relevant UK resolution authority would exercise its UK bail-in power or other resolution tools under the Banking Act or future legislative or regulatory proposals are uncertain, which may affect the value of your notes” in the accompanying prospectus supplement.

The preceding discussion supersedes the discussion in the accompanying prospectus supplement to the extent it is inconsistent therewith.

## Investor Considerations

### You may wish to consider an investment in the notes if:

- You are a retail investor outside the EEA and the UK (each as defined below), or an institutional buyer (for restrictions on offers or sales to retail investors in the EEA and the UK, see “Supplement to the Plan of Distribution—Selling Restrictions” beginning on page TS-13 below.
- You anticipate that the Observation Level of the Underlying Fund on at least one of the Observation Dates will be *less than* or *equal to* the Starting Value and, in that case, you accept an early exit from your investment.
- You accept that the return on the notes will be limited to the return represented by the applicable Call Premium even if the percentage decrease in the price of the Underlying Fund is significantly greater than the applicable Call Premium.
- If the notes are not called, you accept that your investment will result in a loss, which could be significant.
- You are willing to forgo the interest payments that are paid on traditional interest bearing debt securities.
- You are willing to forgo dividends or other benefits of owning shares of the Underlying Fund or the securities held by the Underlying Fund.
- You are willing to accept that a secondary market is not expected to develop for the notes, and understand that the market prices for the notes, if any, may be less than the principal amount and will be affected by various factors, including our actual and perceived creditworthiness, our internal funding rate and the fees charged, as described on page TS-14.
- You are willing to assume our credit risk, as issuer of the notes, for all payments under the notes, including the Call Amount or the Redemption Amount.
- You are willing and able to consent to the exercise of any UK bail-in power (or any other resolution measure) by a relevant UK resolution authority.

### The notes may not be an appropriate investment for you if:

- You are a retail investor in the EEA or the UK as described under “Supplement to the Plan of Distribution—Selling Restrictions” beginning on page TS-13 below.
- You wish to make an investment that cannot be automatically called prior to maturity.
- You anticipate that the Observation Level will be greater than the Call Level on each Observation Date.
- You seek an uncapped return on your investment.
- You seek principal repayment or preservation of capital.
- You seek interest payments or other current income on your investment.
- You want to receive dividends or other distributions paid on shares of the Underlying Fund or the securities held by the Underlying Fund.
- You seek an investment for which there will be a liquid secondary market.
- You are unwilling or are unable to take market risk on the notes or to take our credit risk as issuer of the notes.
- You are unwilling or unable to consent to the exercise of any UK bail-in power (or any other resolution measure) by a relevant UK resolution authority.

We urge you to consult your investment, legal, tax, accounting, and other advisors before you invest in the notes.

## Examples of Hypothetical Payments

The following examples are for purposes of illustration only. They are based on **hypothetical** values and show **hypothetical** returns on the notes. They illustrate the calculation of the Call Amount or Redemption Amount, as applicable, based on the hypothetical terms set forth below. **The actual amount you receive and the resulting return will depend on the actual Starting Value, Threshold Value, Call Level, Observation Levels, and term of your investment.** The following examples do not take into account any tax consequences from investing in the notes. These examples are based on:

- 1) a Starting Value of 100.00;
- 2) a Threshold Value of 100.00;
- 3) a Call Level of 100.00;
- 4) the term of the notes from October 19, 2023 to October 25, 2024;
- 5) a Call Premium of 19.830% of the principal amount if the notes are called on the first Observation Date; 29.745% if called on the second Observation Date; and 39.660% if called on the final Observation Date; and
- 6) Observation Dates occurring on April 19, 2024, July 19, 2024 and October 18, 2024 (the final Observation Date).

The **hypothetical** Starting Value of 100.00 used in these examples has been chosen for illustrative purposes only. The actual Starting Value is 369.93, which was the Closing Market Price of the Underlying Fund on the pricing date. For recent actual prices of the Underlying Fund, see "The Underlying Fund" section below. In addition, all payments on the notes are subject to issuer credit risk.

### Notes Are Called on an Observation Date

The notes will be called at \$10.00 plus the applicable Call Premium if the Observation Level on one of the Observation Dates is *less than* or *equal to* the Call Level. After the notes are called, they will no longer remain outstanding and there will not be any further payments on the notes.

**Example 1** - The Observation Level on the first Observation Date is 80.00. Therefore, the notes will be called at \$10.00 plus the Call Premium of \$1.9830 = \$11.9830 per unit.

**Example 2** - The Observation Level on the first Observation Date is greater than the Call Level, but the Observation Level on the second Observation Date is 80.00. Therefore, the notes will be called at \$10.00 plus the Call Premium of \$2.9745 = \$12.9745 per unit.

**Example 3** - The Observation Levels on the first two Observation Dates are greater than the Call Level, but the Observation Level on the third and final Observation Date is 80.00. Therefore, the notes will be called at \$10.00 plus the Call Premium of \$3.9660 = \$13.9660 per unit.

### Notes Are Not Called on Any Observation Date

**Example 4** - The notes are not called on any Observation Date and the Ending Value is greater than the Threshold Value. The Redemption Amount will be less, and possibly significantly less, than the principal amount. For example, if the Ending Value is 150.00, the Redemption Amount per unit will be:

$$\$10 - \left[ \$10 \times \left( \frac{150.00 - 100.00}{100.00} \right) \right] = \$5.0000$$

# Bear Autocallable Strategic Accelerated Redemption Securities®

Linked to the Invesco QQQ Trust, Series 1, due October 25, 2024

## Summary of the Hypothetical Examples

	Notes Are Called on an Observation Date			Notes Are Not Called on Any Observation Date
	Example 1	Example 2	Example 3	Example 4
Starting Value	100.00	100.00	100.00	100.00
Call Level	100.00	100.00	100.00	100.00
Threshold Value	100.00	100.00	100.00	100.00
Observation Level on the First Observation Date	80.00	110.00	110.00	110.00
Observation Level on the Second Observation Date	N/A	80.00	117.00	117.00
Observation Level on the Final Observation Date	N/A	N/A	80.00	150.00
Return of the Underlying Fund	-20.00%	-20.00%	-20.00%	50.00%
Return of the Notes	19.830%	29.745%	39.660%	-50.000%
Call Amount / Redemption Amount per Unit	\$11.9830	\$12.9745	\$13.9660	\$5.0000

## Risk Factors

*We urge you to read the section “Risk Factors” in the product supplement and in the accompanying prospectus supplement. Investing in the notes is not equivalent to investing directly in the Underlying Fund or the securities held by the Underlying Fund. You should understand the risks of investing in the notes and should reach an investment decision only after careful consideration, with your advisers, with respect to the notes in light of your particular financial and other circumstances and the information set forth in this term sheet and the accompanying product supplement, prospectus supplement and prospectus.*

*In addition to the risks in the product supplement identified below, you should review “Risk Factors” in the accompanying prospectus supplement, including the explanation of risks relating to the notes described in the section “— Risks Relating to All Note Issuances.”*

### **Structure-related Risks**

- If the notes are not automatically called, you will lose up to 100% of the principal amount.
- Your investment return is limited to the return represented by the applicable Call Premium and may be less than a comparable short position in the Underlying Fund or the securities held by the Underlying Fund. In contrast, a short position in the Underlying Fund (or the securities held by the Underlying Fund) would allow you to receive the full benefit of any decrease in the price of the Underlying Fund (or the securities held by the Underlying Fund).
- Your return on the notes may be less than the yield you could earn by owning a conventional fixed or floating rate debt security of comparable maturity.

### **Issuer-related Risks**

- Payments on the notes are subject to our credit risk, and actual or perceived changes in our creditworthiness are expected to affect the value of the notes. If we become insolvent or are unable to pay our obligations, you may lose your entire investment.
- The notes are not insured or guaranteed by any governmental agency of the United Kingdom, the United States or any other jurisdiction.
- You may lose some or all of your investment if any UK bail-in power (or any other resolution measure) is exercised by a relevant UK resolution authority. See “Risk Factors—Structure-related Risks—You may lose some or all of your investment if any U.K. bail-in power (or any other resolution measure) is exercised by a relevant U.K. resolution authority” in product supplement EQUITY BEAR STR-1.

### **Valuation- and Market-related Risks**

- The estimated initial value of the notes is less than the public offering price and may differ from the market value of the notes in the secondary market, if any. We determined the estimated initial value by reference to our internal pricing models. These pricing models consider certain assumptions and variables, which can include volatility and interest rates. These pricing models rely in part on certain forecasts about future events, which may prove to be incorrect. Different pricing models and assumptions could provide valuations for the notes that are different from our estimated initial value. The estimated initial value reflects our internal funding rate we use to issue market-linked notes, as well as the mid-market value of the hedging arrangements related to the notes (which may include call options, put options or other derivatives).
- Our internal funding rate for the issuance of these notes is lower than the rate we would use when we issue conventional fixed or floating rate debt securities. This is one of the factors that may result in the market value of the notes being less than their estimated initial value. As a result of the difference between our internal funding rate and the rate we would use when we issue conventional fixed or floating rate debt securities, the estimated initial value of the notes may be lower if it were based on the levels at which our fixed or floating rate debt securities trade in the secondary market. In addition, if we were to use the rate we use for our conventional fixed or floating rate debt issuances, we would expect the economic terms of the notes to be more favorable to you.
- The price of your notes in the secondary market, if any, immediately after the pricing date is expected to be less than the public offering price. The public offering price takes into account certain costs, principally the underwriting discount, the hedging costs described on page TS-14 and the costs associated with issuing the notes. The costs associated with issuing the notes will be used or retained by us or one of our affiliates. If you were to sell your notes in the secondary market, if any, the price you would receive for your notes may be less than the price you paid for them.
- The estimated initial value does not represent a minimum price at which we, MLPF&S, BofAS or any of our respective affiliates would be willing to purchase your notes in the secondary market (if any exists) at any time. The price of your notes in the secondary market, if any, at any time after issuance will vary based on many factors, including the price of the Underlying Fund and changes in market conditions, and cannot be predicted with accuracy. The notes are not designed to be short-term trading instruments, and you should, therefore, be able and willing to hold the notes to maturity. Any sale of the notes prior to maturity could result in a loss to you.
- A trading market is not expected to develop for the notes. None of us, MLPF&S or BofAS is obligated to make a market for, or to repurchase, the notes. There is no assurance that any party will be willing to purchase your notes at any price in any secondary market.

# Bear Autocallable Strategic Accelerated Redemption Securities®

---

## **Conflict-related Risks**

- Our business, hedging and trading activities, and those of MLPF&S, BofAS and our respective affiliates (including trades in shares of the Underlying Fund or the securities held by the Underlying Fund), and any hedging and trading activities we, MLPF&S, BofAS or our respective affiliates engage in for our clients' accounts, may affect the market value and return of the notes and may create conflicts of interest with you.
- There may be potential conflicts of interest involving the calculation agents, one of which is us and one of which is BofAS. We have the right to appoint and remove the calculation agents.

## **Market Measure-related Risks**

- The sponsor and the investment advisor of the Underlying Fund or the sponsor of the Underlying Index may adjust the Underlying Fund or the Underlying Index in a way that could adversely affect the price of the Underlying Fund and consequently, the return on the notes, and they have no obligation to consider your interests.
- As a noteholder, you will have no rights of a holder of shares of the Underlying Fund or the securities held by the Underlying Fund, and you will not be entitled to receive securities, dividends or other distributions by issuers of those securities.
- While we, MLPF&S, BofAS or our respective affiliates may from time to time own securities of companies included in the Underlying Fund, we, MLPF&S, BofAS and our respective affiliates do not control any company included in the Underlying Fund, and have not verified any disclosure made by any other company.
- There are liquidity and management risks associated with the Underlying Fund.
- The performance of the Underlying Fund may not correlate with the performance of its Underlying Index as well as the net asset value per share of the Underlying Fund, especially during periods of market volatility when the liquidity and the market price of shares of the Underlying Fund and/or the securities held by the Underlying Fund may be adversely affected, sometimes materially.
- The payments on the notes will not be adjusted for all corporate events that could affect the Underlying Fund. See "Description of the Notes—Anti-Dilution and Discontinuance Adjustments Relating to Underlying Funds" beginning on page PS-27 of product supplement EQUITY BEAR STR-1.

## **Tax-related Risks**

- The U.S. federal income tax consequences of the notes are uncertain, and may be adverse to a holder of the notes. See "Summary Tax Consequences" below and "U.S. Federal Income Tax Summary" beginning on page PS-38 of product supplement EQUITY BEAR STR-1.

## The Underlying Fund

All disclosures contained in this term sheet regarding the Underlying Fund and the Underlying Index, including, without limitation, their make-up, method of their calculation, and changes in their components, have been derived from publicly available sources, which we have not independently verified. The information reflects the policies of, and is subject to change by, Invesco Capital Management LLC ("Invesco"), which is the investment advisor of the Underlying Fund. The consequences of any discontinuance of the Underlying Fund or the Underlying Index are discussed in the section entitled "Description of the Notes—Anti-Dilution and Discontinuance Adjustments Relating to Underlying Funds—Discontinuance of or Material Change to an Underlying Fund" beginning on page PS-31 of product supplement EQUITY BEAR STR-1. None of us, the calculation agents, MLPF&S or BofAS accepts any responsibility for the calculation, maintenance or publication of the Underlying Fund, the Underlying Index, or any successor fund or index.

### General

The Invesco QQQ TrustSM, Series 1 (the "Invesco QQQ Trust") is a unit investment trust governed by a standard terms and conditions of trust between The Bank of New York Mellon, (the "Trustee"), and Nasdaq Global Funds, the predecessor sponsor to Invesco Capital Management LLC (the "Sponsor"). The Invesco QQQ Trust trades on The NASDAQ Stock Market under the ticker symbol "QQQ."

Information filed by the Invesco QQQ Trust with the SEC pursuant to the Securities Exchange Act and the Investment Company Act can be located by reference to the SEC file numbers 333-61001 and 811-08947, respectively on the SEC's website at <http://www.sec.gov>.

### Investment Objective and Strategy

The investment objective of the Invesco QQQ Trust is to provide investment results that generally correspond to the price and yield performance of the Nasdaq-100 Index® (the "NDX"). The NDX is a modified market capitalization-weighted index of 100 of the largest non-financial companies listed on The Nasdaq Stock Market based on market capitalization.

### Investment Strategy

The Invesco QQQ Trust, which holds the Portfolio and cash, is not actively managed by traditional methods, which typically involve effecting changes in the Portfolio on the basis of judgments made relating to economic, financial and market considerations. To maintain the correspondence between the composition and weights of the securities in the Invesco QQQ Trust (the "Securities") and the stocks in the NDX, the Trustee adjusts the Securities from time to time to conform to periodic changes in the identity and/or relative weights of the Securities. The composition and weighting of the securities portion of a portfolio deposit are also adjusted to conform to changes in the NDX.

The Sponsor of the Invesco QQQ Trust makes available on each business day a list of the names and the required number of shares for each of the securities in the current portfolio deposit as well as the income net of expense amount effective through and including the previous business day per outstanding Invesco QQQ Shares. The Sponsor may choose within its discretion to make available, frequently throughout each business day, a number representing, on a per Invesco QQQ Shares basis, the sum of the income net of expense amount effective through and including the previous business day plus the current value of the securities portion of a portfolio deposit as in effect on such day (which value will occasionally include a cash-in-lieu amount to compensate for the omission of a particular index security from such portfolio deposit). The Nasdaq Stock Market calculates the NDX intra-day once per second on every business day in which The Nasdaq Stock Market is open for trading. If the Sponsor elects to make such information available, it would be calculated based upon the best information available to the Sponsor and may be calculated by other persons designated to do so by the Sponsor. If the Sponsor elects to make such information available, the inability of the Sponsor or its designee to provide such information for any period of time will not in itself result in a halt in the trading of Invesco QQQ Shares on Nasdaq. If such information is made available, investors interested in creating Invesco QQQ Shares or purchasing Invesco QQQ Shares in the secondary market should not rely solely on such information in making investment decisions but should also consider other market information and relevant economic and other factors.

### Correlation

The NDX is a theoretical financial calculation, while the QQQ is an actual investment portfolio. While the QQQ seeks to track the performance of the NDX (i.e., achieve a high degree of correlation with the NDX), the QQQ's return may not match the return of the NDX due to operating expenses, transaction costs, cash flows, regulatory requirements and operational inefficiencies.

### Description of the Nasdaq-100 Index®

The NDX is a modified market capitalization-weighted index of 100 of the largest non-financial companies listed on The Nasdaq Stock Market based on market capitalization. It does not contain securities of financial companies (based on the Financials industry classification according to the Industry Classification Benchmark). The NDX, which includes companies across a variety of major industry groups, was launched on January 31, 1985, with a base index value of 250.00. On January 1, 1994, the base index value was reset to 125.00. Current information regarding the market value of the NDX is available from Nasdaq, Inc. ("Nasdaq") as well as numerous market information services. The NDX is reported by Bloomberg under the ticker symbol "NDX."

The share weights of the component securities of the NDX at any time are based upon the total shares outstanding in each of those securities and are additionally subject, in certain cases, to rebalancing. Accordingly, each underlying stock's influence on the level of the NDX is directly proportional to the value of its share weight.

## *Calculation of the NDX*

At any moment in time, the level of the NDX equals the aggregate value of the then-current share weights of each of the component securities, which are based on the total shares outstanding of each such component security, multiplied by each such security's respective last sale price on The Nasdaq Stock Market (which may be the official closing price published by The Nasdaq Stock Market), and divided by a scaling factor (the "divisor"), which becomes the basis for the reported level of the NDX. The divisor serves the purpose of scaling such aggregate value to a lower order of magnitude, which is more desirable for reporting purposes.

## *Underlying Stock Eligibility Criteria and Annual Ranking Review*

### Initial Eligibility Criteria

To be eligible for initial inclusion in the NDX, a security must be listed on The Nasdaq Stock Market and meet the following criteria:

- the security's U.S. listing must be exclusively on the Nasdaq Global Select Market or the Nasdaq Global Market;
- the security must be issued by a non-financial company;
- the security may not be issued by an issuer currently in bankruptcy proceedings;
- the security must generally be a common stock, ordinary share, American Depositary Receipt, tracking stock, shares of beneficial interest, or limited partnership interests;
- the security must have a three-month average daily trading volume of at least 200,000 shares;
- if the security is issued by an issuer organized under the laws of a jurisdiction outside the United States, it must have listed options on a recognized market in the United States or be eligible for listed-options trading on a recognized options market in the United States;
- the issuer of the security may not have entered into a definitive agreement or other arrangement which would likely result in the security no longer being eligible;
- the issuer of the security may not have annual financial statements with an audit opinion that is currently withdrawn; and
- the issuer of the security must have "seasoned" on an eligible exchange, which includes the Nasdaq Stock Market (Nasdaq Global Select Market, Nasdaq Global Market, or Nasdaq Capital Market), NYSE, NYSE American or CBOE BZX Generally, a company is considered to be seasoned if it has been listed on a market for at least three full months, excluding the first month of initial listing. Eligibility is determined as of the constituent selection reference date, and includes that month. A security that was added to the index as the result of a spin-off event will be exempt from the seasoning requirement.

### Continued Eligibility Criteria

In addition, to be eligible for continued inclusion in the NDX the following criteria apply:

- the security's U.S. listing must be exclusively on the Nasdaq Global Select Market or the Nasdaq Global Market;
- the security must be issued by a non-financial company;
- the security may not be issued by an issuer currently in bankruptcy proceedings;
- the security must have an average daily trading volume of at least 200,000 shares in the previous three-month trading period as measured annually during the ranking review process described below;
- if the issuer of the security is organized under the laws of a jurisdiction outside the United States, then such security must have listed options on a recognized market in the United States or be eligible for listed-options trading on a recognized options market in the United States, as measured annually during the ranking review process;
- the issuer of the security may not have entered into a definitive agreement or other arrangement that would likely result in the security no longer being eligible;
- the security must have an adjusted market capitalization equal to or exceeding 0.10% of the aggregate adjusted market capitalization of the NDX at each month-end. In the event that a company does not meet this criterion for two consecutive month-ends, it will be removed from the NDX effective after the close of trading on the third Friday of the following month; and
- the issuer of the security may not have annual financial statements with an audit opinion that is currently withdrawn.

These eligibility criteria may be revised from time to time by Nasdaq without regard to the Notes.

### Annual Ranking Review

The component securities are evaluated on an annual basis (the "Ranking Review"), except under extraordinary circumstances, which may result in an interim evaluation, as follows. Issuers that meet the applicable eligibility criteria are ranked by market value. The top 75 ranked issuers will be selected for inclusion. Any other issuers that were already members of the NDX and are ranked within the top 100 are also selected for inclusion. In the event that fewer than 100 issuers pass the first two criteria, the remaining positions will first be filled, in rank order, by issuers currently in the index ranked in positions 101-125 that were ranked in the top 100 at the previous reconstitution or replacement- or spin-off-issuers added since the previous reconstitution. In the event that fewer than 100 issuers pass the first three criteria, the remaining positions will be filled, in rank order, by any issuers ranked in the top 100 that were not already members of the NDX. The data used in the ranking includes end of October market data and is updated for total shares outstanding submitted in a publicly filed SEC document via EDGAR through the end of November.

Replacements are made effective after the close of trading on the third Friday in December. Moreover, if at any time during the year other than the Ranking Review, a component security is determined by Nasdaq to become ineligible for continued inclusion in the NDX, the security will be replaced with the largest market capitalization security, as of the prior month end, meeting the eligibility criteria listed above and not currently included in the NDX.

---

## *Index Maintenance*

In addition to the Ranking Review, the securities in the NDX are monitored every day by Nasdaq with respect to changes in total shares outstanding arising from corporate events, such as stock dividends, stock splits and certain spin-offs and rights issuances. Nasdaq has adopted the following quarterly scheduled weight adjustment procedures with respect to those changes. If the change in total shares outstanding arising from a corporate action is greater than or equal to 10%, that change will be made to the NDX as soon as practical, normally within ten days of such corporate action. Otherwise, if the change in total shares outstanding is less than 10%, then all such changes are accumulated and made effective at one time on a quarterly basis after the close of trading on the third Friday in each of March, June, September and December.

In either case, the share weights for those component securities are adjusted by the same percentage amount by which the total shares outstanding have changed in those securities. Ordinarily, whenever there is a change in the share weights, a change in a component security, or a change to the price of a component security due to spin-off, rights issuances or special cash dividends, Nasdaq adjusts the divisor to ensure that there is no discontinuity in the level of the NDX that might otherwise be caused by any of those changes. All changes will be announced in advance.

## *Index Rebalancing*

Under the methodology employed, on a quarterly basis coinciding with Nasdaq's quarterly scheduled weight adjustment procedures, the component securities are categorized as either "Large Stocks" or "Small Stocks" depending on whether their current percentage weights (after taking into account scheduled weight adjustments due to stock repurchases, secondary offerings or other corporate actions) are greater than, or less than or equal to, the average percentage weight in the NDX (i.e., as a 100-stock index, the average percentage weight in the NDX is 1%).

This quarterly examination will result in an index rebalancing if it is determined that: (1) the current weight of the single largest market capitalization component security is greater than 24% or (2) the "collective weight" of those component securities, the individual current weights of which are in excess of 4.5%, when added together, exceed 48%. In addition, Nasdaq may conduct a special rebalancing at any time if it is determined to be necessary to maintain the integrity of the NDX.

If either one or both of these weight distribution requirements are met upon quarterly review, or Nasdaq determines that a special rebalancing is required, a weight rebalancing will be performed. First, relating to weight distribution requirement (1) above, if the current weight of the single largest component security exceeds 24%, then the weights of all Large Stocks will be scaled down proportionately towards 1% by enough amount for the adjusted weight of the single largest component security to be set to 20%. Second, relating to weight distribution requirement (2) above, for those component securities whose individual current weights or adjusted weights in accordance with the preceding step are in excess of 4.5%, if their "collective weight" exceeds 48%, then the weights of all Large Stocks will be scaled down proportionately towards 1% by just enough amount for the "collective weight," so adjusted, to be set to 40%.

**The following graph shows the daily historical performance of the Underlying Fund on its primary exchange in the period from January 1, 2013 through October 12, 2023. We obtained this historical data from Bloomberg L.P. We have not independently verified the accuracy or completeness of the information obtained from Bloomberg L.P. On the pricing date, the Closing Market Price of the Underlying Fund was \$369.93. The graph below may have been adjusted to reflect certain corporate actions such as stock splits and reverse stock splits.**

**Historical Performance of the Underlying Fund**

***This historical data on the Underlying Fund is not necessarily indicative of the future performance of the Underlying Fund or what the value of the notes may be. Any historical upward or downward trend in the price per share of the Underlying Fund during any period set forth above is not an indication that the price per share of the Underlying Fund is more or less likely to increase or decrease at any time over the term of the notes.***

Before investing in the notes, you should consult publicly available sources for the prices and trading pattern of the Underlying Fund.

## Supplement to the Plan of Distribution

We will deliver the notes against payment therefor in New York, New York on a date that is greater than two business days following the pricing date. Under Rule 15c6-1 of the Securities Exchange Act of 1934, trades in the secondary market generally are required to settle in two business days, unless the parties to any such trade expressly agree otherwise. Accordingly, purchasers who wish to trade the notes more than two business days prior to the original issue date will be required to specify alternative settlement arrangements to prevent a failed settlement.

The notes will not be listed on any securities exchange. In the original offering of the notes, the notes will be sold in minimum investment amounts of 100 units. If you place an order to purchase the notes, you are consenting to MLPF&S and/or one of its affiliates acting as a principal in effecting the transaction for your account.

MLPF&S will purchase the notes from BofAS for resale, and will receive a selling concession in connection with the sale of the notes in an amount up to the full amount of underwriting discount set forth on the cover of this term sheet.

MLPF&S and BofAS may repurchase and resell the notes, with repurchases and resales being made at prices related to then-prevailing market prices or at negotiated prices, and these will include MLPF&S's and BofAS's trading commissions and mark-ups or mark-downs. MLPF&S and BofAS may act as principal or agent in these market-making transactions; however, neither is obligated to engage in any such transactions. At their discretion, for a short, undetermined initial period after the issuance of the notes, MLPF&S and BofAS may offer to buy the notes in the secondary market at a price that may exceed the estimated initial value of the notes. Any price offered by MLPF&S or BofAS for the notes will be based on then-prevailing market conditions and other considerations, including the performance of the Underlying Fund, the remaining term of the notes, and the issuer's creditworthiness. However, neither we nor any of our affiliates are obligated to purchase your notes at any price, or at any time, and we cannot assure you that we, MLPF&S, BofAS or any of our respective affiliates will purchase your notes at a price that equals or exceeds the estimated initial value of the notes.

The value of the notes shown on your account statement provided by MLPF&S will be based on BofAS's estimate of the value of the notes if BofAS or one of its affiliates were to make a market in the notes, which it is not obligated to do. This estimate will be based upon the price that BofAS may pay for the notes in light of then-prevailing market conditions, and other considerations, as mentioned above, and will include transaction costs. At certain times, this price may be higher than or lower than the estimated initial value of the notes.

The distribution of the Note Prospectus in connection with these offers or sales will be solely for the purpose of providing investors with the description of the terms of the notes that was made available to investors in connection with their initial offering. Secondary market investors should not, and will not be authorized to, rely on the Note Prospectus for information regarding HSBC or for any purpose other than that described in the immediately preceding sentence.

### Selling Restrictions

*Prohibition of sales to UK retail investors.* The notes are not intended to be offered, sold or otherwise made available to, and should not be offered, sold or otherwise made available to, any retail investor in the United Kingdom ("UK"). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client, as defined in point (8) of Article 2 of Regulation (EU) No 2017/565 as it forms part of UK domestic law by virtue of the European Union (Withdrawal) Act 2018 (as amended, the "EUWA"); (ii) a customer within the meaning of the United Kingdom Financial Services and Markets Act 2000 (as amended, the "FSMA") and any rules or regulations made under the FSMA to implement Directive 2016/97 (EU), where that customer would not qualify as a professional client, as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 as it forms part of UK domestic law by virtue of the EUWA; or (iii) not a qualified investor as defined in Article 2 of Regulation (EU) 2017/1129 as it forms part of UK domestic law by virtue of the EUWA. Consequently, no key information document required by Regulation (EU) No. 1286/2014 as it forms part of UK domestic law by virtue of the EUWA (the "UK PRIIPs Regulation") for offering or selling the notes or otherwise making them available to retail investors in the UK has been prepared and therefore offering or selling the notes or otherwise making them available to any retail investor in the UK may be unlawful under the UK PRIIPs Regulation.

*Prohibition of sales to EEA retail investors.* The notes are not intended to be offered, sold or otherwise made available to, and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area ("EEA"). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU (as amended, "MiFID II"); (ii) a customer within the meaning of Directive 2016/97 (EU) (as amended), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in Regulation (EU) 2017/1129, as amended. Consequently, no key information document required by Regulation (EU) No 1286/2014 (as amended, the "EU PRIIPs Regulation") for offering or selling the notes or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling such notes or otherwise making them available to any retail investor in the EEA may be unlawful under the EU PRIIPs Regulation.

The preceding discussion supersedes the discussion in the accompanying prospectus supplement to the extent it is inconsistent therewith.

### Role of MLPF&S and BofAS

BofAS will participate as selling agent in the distribution of the notes. Under our distribution agreement with BofAS, BofAS will purchase the notes from us as principal at the public offering price indicated on the cover of this term sheet, less the indicated underwriting discount.

# Bear Autocallable Strategic Accelerated Redemption Securities®

Linked to the Invesco QQQ Trust, Series 1, due October 25, 2024

---

Payments on the notes, including the amount you receive at maturity or upon an automatic call, will be calculated based on the \$10 per unit principal amount and will depend on the performance of the Underlying Fund. In order to meet these payment obligations, at the time we issue the notes, we may choose to enter into certain hedging arrangements (which may include call options, put options or other derivatives) with BofAS or one of its affiliates. The terms of these hedging arrangements are determined by BofAS seeking bids from market participants, which could include one of our affiliates and MLPF&S, BofAS and their affiliates. These hedging arrangements take into account a number of factors, including the issuer's creditworthiness, interest rate movements, the volatility of the Underlying Fund, the tenor of the notes and the tenor of the hedging arrangements. The economic terms of the notes depend in part on the terms of the hedging arrangements.

BofAS has advised us that the hedging arrangements will include a hedging-related charge of approximately \$0.05 per unit, reflecting an estimated profit to be credited to BofAS from these transactions. Since hedging entails risk and may be influenced by unpredictable market forces, additional profits and losses from these hedging arrangements may be realized by BofAS or any third party hedge providers.

For further information, see "Risk Factors" beginning on page PS-7 of product supplement EQUITY BEAR STR-1.

## Summary Tax Consequences

You should consider the U.S. federal income tax consequences of an investment in the notes, including the following:

- There is no statutory, judicial, or administrative authority directly addressing the characterization of the notes.
- You agree with us (in the absence of an administrative determination, or judicial ruling to the contrary) to characterize and treat the notes for all tax purposes as pre-paid executory contracts with respect to the Underlying Fund.
- Under this characterization and tax treatment of the notes, subject to the discussion of the constructive ownership rules of Section 1260 of the Code beginning on page PS-39 of product supplement EQUITY BEAR STR-1, a U.S. holder (as defined in the prospectus supplement) generally will recognize capital gain or loss upon maturity or upon a sale, call or exchange of the notes prior to maturity. This capital gain or loss generally will be long-term capital gain or loss if you held the notes for more than one year.
- No assurance can be given that the IRS or any court will agree with this characterization and tax treatment.

**You should consult your own tax advisor concerning the U.S. federal income tax consequences to you of acquiring, owning, and disposing of the notes, as well as any tax consequences arising under the laws of any state, local, foreign, or other tax jurisdiction and the possible effects of changes in U.S. federal or other tax laws. You should review carefully the discussion under the section entitled “U.S. Federal Income Tax Summary” beginning on page PS-38 of product supplement EQUITY BEAR STR-1.**

## Validity of the Notes

In the opinion of Mayer Brown LLP, as counsel to the issuer, when this term sheet has been attached to, and duly notated on, the master note that represents the notes pursuant to the senior indenture referred to in the prospectus supplement dated August 31, 2022, and issued and paid for as contemplated herein, the notes offered by this term sheet will be valid, binding and enforceable obligations of the issuer, entitled to the benefits of the senior indenture, subject to applicable bankruptcy, insolvency and similar laws affecting creditors' rights generally, concepts of reasonableness and equitable principles of general applicability (including, without limitation, concepts of good faith, fair dealing and the lack of bad faith). This opinion is given as of the date hereof and is limited to the laws of the State of New York and the federal laws of the United States of America. Insofar as this opinion involves matters governed by English law, Mayer Brown LLP has relied, with the issuer's permission, on the opinion of Mayer Brown International LLP, dated as of August 31, 2022, filed as an exhibit to the registration statement by the issuer on August 31, 2022, and this opinion is subject to the same assumptions, qualifications and limitations as set forth in such opinion of Mayer Brown International LLP. This opinion is subject to customary assumptions about the trustee's authorization, execution and delivery of the senior indenture and the genuineness of signatures and to such counsel's reliance on the issuer and other sources as to certain factual matters, all as stated in the legal opinion dated August 31, 2022, which has been filed as Exhibit 5.3 to the issuer's registration statement on Form F-3 dated August 31, 2022.

## Where You Can Find More Information

We have filed a registration statement (including a product supplement, a prospectus supplement, and a prospectus) with the SEC for the offering to which this term sheet relates. Before you invest, you should read the Note Prospectus, including this term sheet, and the other documents that we have filed with the SEC, for more complete information about us and this offering. You may get these documents without cost by visiting EDGAR on the SEC website at [www.sec.gov](http://www.sec.gov). Alternatively, we, any agent, or any dealer participating in this offering will arrange to send you these documents if you so request by calling MLPF&S or BofAS toll-free at 1-800-294-1322.

“Strategic Accelerated Redemption Securities®” is a registered service mark of Bank of America Corporation, the parent company of MLPF&S and BofAS.
