Item 2.02 Results of Operations and Financial Condition.

(a) On May 9, 2005, Cross Country Healthcare, Inc. (“the Company”) issued a press release announcing results for the quarter ended March 31, 2005, a copy of which is attached as Exhibit 99.1 to this Current Report on Form 8-K. This information is being furnished under Item 2.02 and shall not be deemed “filed” for purposes of Section 18 of the Securities Exchange Act of 1934, as amended, or otherwise subject to the liability of such section.

Item 5.02 Departure of Directors or Principal Officers; Election of Directors; Appointment of Principal Officers.

(b) Director Resignation

Eric T. Fry submitted his resignation from the Board of Directors of the Company, effective May 12, 2005. Mr. Fry had served on the Board of Directors since April 2004, as well as the Compensation Committee and the Nominating Committee. Mr. Fry had no disagreements with management of the Company. The Company does not currently intend to fill this vacancy.

Since October 2004, Mr. Fry has been a Managing Director of Metalmark Capital LLC, an independent private firm established by the former principals of Morgan Stanley Capital Partners. Prior to joining Metalmark Capital, he was a Managing Director of Morgan Stanley Private Equity and Morgan Stanley & Co. Incorporated from 2001 through October 2004. Pursuant to the terms of a stockholders agreement with the Company, dated as of October 29, 1999 and amended August 23, 2001, Morgan Stanley Dean Witter Capital Partners IV, L.P. and its related investment funds (collectively, “MSDWCP”) and Morgan Stanley Venture Partners III, L.P. and its related investment funds (collectively, “MSVP”) had the right to designate two directors for nomination to the Company’s Board of Directors. Upon reducing their initial ownership in the Company by more than 90% of their holdings as calculated prior to the Company’s initial public offering, MSDWCP and MSVP are no longer entitled to nominate two directors to the Company’s Board of Directors. On April 14, 2005, MSCWCP and MSVP sold 4,172,868 shares of the Company’s common stock to Citigroup, thereby reducing their initial ownership in the Company by more than 90% of their holdings prior to the Company’s initial public offering.

CROSS COUNTRY HEALTHCARE REPORTS FIRST QUARTER 2005 RESULTS

BOCA RATON, Fla. – May 9, 2005 – Cross Country Healthcare, Inc. (Nasdaq: CCRN) today reported revenue of \$158.0 million for the first quarter ended March 31, 2005 and income from continuing operations of \$3.8 million, or \$0.12 per diluted share. Net income for the first quarter of 2005 was \$3.6 million, or \$0.11 per diluted share. This compares to revenue of \$168.9 million, income from continuing operations of \$4.7 million, or \$0.15 per diluted share, and net income of \$4.9 million, or \$0.15 per diluted share, in the same quarter of the prior year. On a sequential basis, revenue declined 1% while net income decreased 35% from the fourth quarter of 2004. Cash flow from operations for the first quarter of 2005 was \$3.3 million.

“Although consolidated net income declined year over year in the first quarter, our clinical trials staffing, education and retained search businesses all improved their profitability from the year ago quarter. In addition, our core nurse staffing business experienced strengthening demand, increased applicant activity and improved booking trends. Demand for our contract travel nurse staffing service, as measured by the average monthly number of open orders from our hospital customers, is currently at the highest-point of demand for the past 30 months. This is being reflected in improved booking trends so far in 2005, with April being the first month since January 2003 in which our contract bookings grew year over year,” said Joseph A. Boshart, President and Chief Executive Officer of Cross Country Healthcare, Inc.

“We believe this is due to stronger hospital admission patterns that have caused our clients to exhibit a greater sense of urgency in booking our nurses on contract assignments, our continued success in securing additional vendor-managed relationships with key accounts, and the resumption of strong demand in California now that legal action related to nurse-to-patient ratios appears to be resolved in favor of the more stringent 2005 staffing levels specified in the initial legislation. As a result, we are increasingly optimistic that the recent strengthening in demand suggests that our operating performance will begin to reflect year over year increases at some point during the second half of 2005,” Mr. Boshart added.

Healthcare Staffing

For the first quarter of 2005, the healthcare staffing business segment (travel and per diem nurse, allied health and clinical trials staffing) generated revenue of \$146.8 million as compared with revenue of \$159.1 million in the same quarter of the prior year. Segment revenue declined less than 1% sequentially from the fourth quarter of 2004 and 8% from the year ago quarter, primarily reflecting year over year revenue and staffing volume reductions in the nurse staffing business that were partially offset by significant revenue growth in the clinical trials staffing business. During the first quarter, healthcare staffing volume improved 1% sequentially from the fourth quarter of 2004 and decreased 7% on a year over year basis.

Contribution income (defined as income from continuing operations before interest, income taxes, depreciation and amortization and corporate expenses not specifically identified to a reporting segment), decreased 16% in the first quarter of 2005 to \$13.0 million from \$15.6 million in the same quarter of 2004, reflecting higher professional liability insurance and negative operating leverage as a result of lower nurse staffing volume.

Other Human Capital Management Services

For the first quarter of 2005, the other human capital management services business segment (education and training and retained search business) generated revenue of \$11.3 million, a 16% increase from revenue of \$9.7 million in the same quarter in the prior year. This was primarily due to higher revenue generated in both the retained search and the education and training businesses. Contribution income in the first quarter of 2005 improved to \$2.0 million, a 46% increase over the same quarter a year ago, primarily reflecting an improvement in the retained search business.

Debt Repayment

During the first quarter of 2005, Cross Country Healthcare paid back \$4.9 million of the outstanding term loan under its credit facility. At quarter end, the Company had \$4.3 million outstanding on its revolving credit facility. At March 31, 2005, the Company had approximately \$41.6 million of total debt on its balance sheet, which represented a 10.6% debt to total capitalization ratio.

Stock Repurchase Program Update

The Company did not purchase any shares of its common stock during the first quarter of 2005. The Company can purchase up to an additional 469,600 shares at an aggregate price not to exceed approximately \$10.8 million under this previously authorized stock repurchase program. Under this program, the shares may be purchased from time-to-time in the open market and may be discontinued at any time at the Company's discretion. At March 31, 2005, the Company had approximately 32.2 million shares outstanding.

Guidance for Second Quarter of 2005

The following statements are based on current management expectations. Such statements are forward-looking and actual results may differ materially. These statements do not include the potential impact of any future mergers, acquisitions or other business combinations, repurchases of the Company's common stock, or pending legal matters. Based on the present industry dynamics and seasonal factors, Cross Country Healthcare expects revenue in the second quarter of 2005 to be in the \$158 million to \$161 million range and EPS from continuing operations per diluted share to be in the range of \$0.12 to \$0.14.
