## **INDEPENDENT AUDITOR'S REPORT**

April 2, 2004

To the Board of Directors  
Verdisys, Inc.  
The Woodlands, Texas

We have reviewed the accompanying balance sheet of Verdisys, Inc. as of June 30, 2003, and the related statements of operations and cash flows for the three and six months ended June 30, 2003, in accordance with the Statements on Standards of Accounting for Review Services issued by the American Institute of Certified Public Accountants. All information included in these financial statements is the representation of the management of Verdisys.

A review consists primarily of inquiries of company personnel and analytical procedures applied to financial data. It is substantially less in scope than an audit in accordance with generally accepted auditing standards, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to the accompanying 2003 financial statements in order for them to be in conformity with accounting principles generally accepted in the United States of America.

As discussed in Note 7 to these interim financial statements, errors resulting in overstatements and understatements of previously reported assets, liabilities, stockholders equity and net loss as of and for the three and six months ended June 30, 2003 were discovered by the management of Verdisys during March 2004. Accordingly, adjustments have been made as of June 30, 2003 to correct the errors.

VERDISYS, INC.  
NOTES TO FINANCIAL STATEMENTS  
(Unaudited)  
(Restated)

NOTE 1 - BASIS OF PRESENTATION

The accompanying unaudited interim financial statements of Verdisys, Inc. ("Verdisys") have been prepared in accordance with accounting principles generally accepted in the United States of America and the rules of the Securities and Exchange Commission ("SEC"), and should be read in conjunction with the audited financial statements and notes thereto contained in Verdisys' Annual Report filed with the SEC on Form 8-K. In the opinion of management, all adjustments, consisting of normal recurring adjustments, necessary for a fair presentation of financial position and the results of operations for the interim periods presented have been reflected herein. The results of operations for the interim periods are not necessarily indicative of the results to be expected for the full year. Notes to the financial statements which would substantially duplicate the disclosure contained in the audited financial statements for 2002 as reported in the 8-K have been omitted.

Revenue recognition. Revenue is recognized on well drilling operations when persuasive evidence of an arrangement exists, the lateral drilling is complete, the price is fixed or determinable and collectibility is reasonably assured.

Restatements of June 30, 2003 were made. See note 7 for details.

NOTE 2 - STOCK OPTIONS AND WARRANTS

Stock options and warrants. Verdisys accounts for non-cash stock-based compensation issued to non-employees in accordance with the provisions of SFAS No. 123 and EITF No. 96-18, Accounting for Equity Investments That Are Issued to Non-Employees for Acquiring, or in Conjunction with Selling Goods or Services. Common stock issued to non-employees and consultants is based upon the value of the services received or the quoted market price, whichever value is more readily determinable. Verdisys accounts for stock options and warrants issued to employees under the intrinsic value method. Under this method, Verdisys recognizes no compensation expense for stock options or warrants granted when the number of underlying shares is known and the exercise price of the option or warrant is greater than or equal to the fair market value of the stock on the date of grant.

In April 2003, Verdisys issued 1,280,000 10 year \$.10 options to employees. 30,000 options vest monthly over three months, 750,000 options vest quarterly over three years, 300,000 options vest quarterly over one year and 200,000 options vest quarterly over two years. The intrinsic value of these options totals \$193,250.

In April 2003, Verdisys issued 100,000 \$.10 warrants that expire in January 2007 and have a fair value of \$40,000 which was expensed when the warrants were granted.

During the summer of 2003, Verdisys negotiated settlements with 9 vendors plus the two original founders for various debts carried on the books. One of the founders was issued 150,000 warrants exercisable at \$.10 and valued at \$.40 or \$60,000.

The following table illustrates the effect on net loss and net loss per share if Verdisys had applied the fair value provisions of FASB Statement No. 123, *Accounting for Stock-Based Compensation*, to stock-based employee compensation.

As reported	\$ (.15)	\$ (.04)	\$ (.18)	\$ (.07)
Pro forma	\$ (.15)	\$ (.04)	\$ (.18)	\$ (.07)

The weighted average fair value of the stock options granted during 2003 and 2002 was \$.50 and \$.50, respectively. Variables used in the Black-Scholes option-pricing model include (1) 5.0% risk-free interest rate, (2) expected option life is the actual remaining life of the options as of each year end, (3) expected volatility is zero, and (4) zero expected dividends.

#### NOTE 3 – LATERAL DRILLING LICENSE

In April 2003, an individual licensed his lateral drilling technology and equipment to Verdisys. Verdisys is required to pay \$2,750,000 plus 10 percent of related gross revenue. \$100,000 was due upon signing and a note payable for \$2,650,000 plus 8 percent is to be paid out from May 2003 through March 2004 for a total payout of \$2,970,000.

#### NOTE 4 - DEBT FORGIVENESS INCOME

During 2003, Verdisys negotiated settlements with 9 vendors for various debts carried on the books at \$520,501 for \$43,600 cash and 33,333 shares of stock valued at \$.50 or \$16,666 resulting in debt forgiveness income of \$460,235. During the same period, Verdisys negotiated settlements with the two original founders for various debts carried on the books at \$576,000 for \$28,000 cash and 150,000 warrants exercisable at \$.10 and valued at \$.40 or \$60,000 resulting in a contribution to capital of \$488,000.

#### NOTE 5 – NON-CASH TRANSACTIONS ON CASH FLOW STATEMENT

Non-cash transactions for six months ended June 30, 2003:

Purchase of license with note payable	\$ 2,650,000
Contributions to capital by founders for debt forgiveness	488,000
Conversion of notes payable and accrued interest to investors to common stock	1,245,000
Conversion of accrued interest on notes payable to investors to common stock	261,190
Conversion of Series B preferred stock to common	705,000
Stock issued for accounts payable	16,666
Warrant exercised with notes payable to investors	20,000

**NOTE 6 - RELATED PARTY ACCOUNTS RECEIVABLE AND REVENUE**

In April 2003, Verdisys signed a drilling service contract with Energy 2000 NGC, Inc. of Louisiana ("Energy 2000"), whereby Energy 2000 would have paid Verdisys a minimum of \$1,800,000 for lateral drilling of 45 wells. This contract was a fixed amount due to Verdisys dependent upon the number of wells drilled and offshoot lateral bores drilled. In addition, Verdisys would receive an 80 percent interest in the net operating income after payback from these properties and also be reimbursed for 20 percent of its field costs. In September, 2003 Verdisys entered into another contract with Energy 2000 for an additional 57 wells with terms similar to the original contract. This contract was suspended for lack of payment.

Energy 2000 is a subsidiary of Berg McAfee Energy, LLC, which is a wholly owned subsidiary of Berg McAfee Companies. Energy 2000 is beneficially owned 80% by Berg McAfee or Eric McAfee personally. Eric McAfee, a major shareholder and former director of Verdisys, has a 50% ownership in Berg McAfee companies.

**NOTE 7 – RESTATEMENTS OF PREVIOUSLY REPORTED FINANCIAL STATEMENTS****Restatement 1**

In the originally prepared June 30, 2003 financials, Verdisys didn't disclose a related party transaction whereby \$290,000 of revenue for the three and six months ended June 30, 2003 and \$230,000 of accounts receivable as of June 30, 2003 were with a related party (see note 7 for details).

Verdisys miscalculated the contribution to capital by founders for debt forgiveness by \$60,000 for the three and six months ended June 30, 2003 (see note 4 for details).

**Restatement 2**

In 2004, management discovered that the \$230,000 of accounts receivable to a related party and \$230,000 of deferred revenue were not valid. Verdisys has not been able to substantiate the work was ever performed and \$230,000 has been removed from both accounts. \$48,000 of associated costs were deferred and have been expensed as of June 30, 2003. Management also discovered \$60,000 of revenue from a related party cannot be substantiated. The \$60,000 has been reclassified as a customer deposit as of June 30, 2003. In 2004, management discovered that 2,644,438 previously expired options were extended by the board of directors in 2003. Because none of the individuals were employees at the time the extension was granted, the options have been treated as warrants and the fair value of \$1,050,687 was expensed accordingly as of June 30, 2003. In April 2003, Verdisys issued 2,000,000 shares of common stock for what management believed was satellite communications management software. Management in place as of August 2003 maintained the software was not useful and impaired it as of June 30, 2003. In early 2004, following an internal investigation, new management determined that the agreement is likely subject to rescission under applicable law. Verdisys is evaluating its options to rescind the agreement and cancel the shares issued. The majority shareholder of Verdisys and former director, who was also a principal to the counterparty in the transaction, acquired 11.5% of the 2,000,000 shares. The impairment expense of \$1,000,000 has been reclassified as compensation expense as of June 30, 2003.

INDEPENDENT AUDITORS' REPORT

To the Board of Directors  
Verdisys, Inc.  
Houston, Texas

We have audited the accompanying balance sheet of Verdisys, Inc. as of December 31, 2002 and the related statements of operations, stockholders' deficit and cash flows for each of the two years then ended. These financial statements are the responsibility of Verdisys' management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Verdisys, Inc. as of December 31, 2002 and the results of its operations and cash flows for each of the two years then ended in conformity with accounting principles generally accepted in the United States of America.

VERDISYS, INC.  
NOTES TO FINANCIAL STATEMENTS

## NOTE 1 - SUMMARY OF ACCOUNTING POLICIES

**Business.** Verdisys, Inc. ("Verdisys") was formed in California on April 7, 1999 as TheAgZone, Inc. to build and operate an agricultural e-commerce website portal. This plan was pursued until fall of 2000 when funding was depleted. In January 2001 the name was changed to Verdisys, Inc. and the agricultural website portal operation was terminated. In May 2001, Verdisys began selling secure intra-company and wide-area network satellite communications systems. The 2002 business plan involved providing satellite linkages to energy companies to manage distant oil and gas pumping wells, power distribution and other equipment sites by remote computer control.

In June 2003, Verdisys began a new line of business in lateral drilling for the search and production of oil and gas reserves using licensed technology acquired April 2003.

**Management estimates.** The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses, as well as certain financial statement disclosures. While management believes that the estimates and assumptions used in the preparation of the financial statements are appropriate, actual results could differ from these estimates.

**Cash Equivalents.** Highly liquid investments with original maturities of three months or less are considered cash equivalents.

**Revenue Recognition.** Revenue is derived from sales of satellite hardware, satellite bandwidth and satellite service. Revenue from satellite hardware is recognized when the hardware is installed. Revenue from satellite bandwidth is recognized evenly over the term of the contract. Revenue from satellite service is recognized when the services are performed. Verdisys provides no warranty but sells commercially obtained 3 to 12 month warranties for satellite hardware. Verdisys has no return policy.

**Allowance for Doubtful Accounts.** Bad debt expense is recognized based on management's estimate of likely losses per year, based on past experience and an estimate of current year uncollectible amounts. The allowance was \$22,352 as of December 31, 2002.

**Property and equipment is valued at cost.** Additions are capitalized and maintenance and repairs are charged to expense as incurred. Gains and losses on dispositions of equipment are reflected in operations. Depreciation is provided using the straight-line method over the estimated useful lives of the assets, which are three years for computers and seven years for furniture.

**Impairment of Long-Lived Assets.** Verdisys reviews the carrying value of its long-lived assets annually or whenever events or changes in circumstances indicate that the historical cost-carrying value of an asset may no longer be appropriate. Verdisys assesses recoverability of the carrying value of the asset by estimating the future net cash flows expected to result from the asset, including eventual disposition. If the future net cash flows are less than the carrying value of the asset, an impairment loss is recorded equal to the difference between the asset's carrying value and fair value.

**Stock options and warrants.** Verdisys accounts for non-cash stock-based compensation issued to non-employees in accordance with the provisions of SFAS No. 123 and EITF No. 96-18, Accounting for Equity Investments That Are Issued to Non-Employees for Acquiring, or in Conjunction with Selling Goods or Services. Common stock issued to non-employees and consultants is based upon the value of the services received or the quoted market price, whichever value is more readily determinable. Verdisys accounts for stock options and warrants issued to employees under the intrinsic value method. Under this method, Verdisys recognizes no compensation expense for stock options or warrants granted when the number of underlying shares is known and the exercise price of the option or warrant is greater than or equal to the fair market value of the stock on the date of grant. The following table illustrates the effect on net loss and net loss per share if Verdisys had applied the fair value provisions of FASB Statement No. 123, *Accounting for Stock-Based Compensation*, to stock-based employee compensation.

	<u>2002</u>	<u>2001</u>
Net loss as reported	\$ (3,128,782)	\$ (2,497,120)
Less: stock based compensation determined under fair value-based method	<u>0</u>	<u>0</u>
Pro forma net loss	<u>\$ (3,128,782)</u>	<u>\$ (2,497,120)</u>
Basic and diluted net loss per common share:		
As reported	\$ (.23)	\$ (.19)
Pro forma	(.23)	(.19)

The weighted average fair value of the stock options granted during 2002 and 2001 was \$.50 and \$.25, respectively. Variables used in the Black-Scholes option-pricing model include (1) 5.0% risk-free interest rate, (2) expected option life is the actual remaining life of the options as of each year end, (3) expected volatility is zero, and (4) zero expected dividends.

**Income Taxes.** Income tax expense is based on reported earnings before income taxes. Deferred income taxes reflect the impact of temporary differences between assets and liabilities recognized for financial reporting purposes and such amounts recognized for tax purposes, and are measured by applying tax rates in effect in years in which the differences are expected to reverse.

**Basic and diluted earnings per share.** Basic earnings per share equals net earnings divided by weighted average shares outstanding during the year. Diluted earnings per share include the impact of common stock equivalents using the treasury stock method when the effect is dilutive. There were no dilutive securities during the periods presented.

**Recently issued accounting pronouncements.** Verdisys does not expect the adoption of recently issued accounting pronouncements to have a significant impact on their results of operations, financial position or cash flow.

#### NOTE 2 – PROPERTY AND EQUIPMENT

Property and equipment consisted of the following at December 31, 2002:

<u>Description</u>	<u>Life</u>	<u>Amount</u>
Computer equipment	3 years	\$ 28,065
Other equipment and furniture	7 years	17,523
Furniture and fixtures	7 years	<u>2,195</u>
		45,588
Less: accumulated depreciation		<u>(41,833)</u>
		<u>\$ 3,755</u>

Depreciation expense totaled \$11,380 and \$13,434 in 2002 and 2001, respectively.

## NOTE 3 – DEFERRED REVENUE

Typical satellite bandwidth contracts cover 36 months. Verdisys receives the cash up front, records deferred revenue and recognizes revenue evenly over the contract. \$56,180 will be recognized in 2003 and \$80,367 will be recognized during 2004 and 2005.

## NOTE 4 - NOTES PAYABLE TO STOCKHOLDERS

Notes payable as of December 31, 2002 consists of the following:

“Bridge debt” notes payable, with 10% interest,  
no collateral, convertible to Series B convertible  
preferred stock at conclusion of that financing,  
and due as follows:

- amounts past due	\$ 590,000
- amount due after at least \$1 million in Series B Preferred Stock sales	200,000

“Convertible notes,” with 10% interest, no collateral, convertible to Series B convertible preferred stock at conclusion of that financing, and due in 2003	686,004
---	---------

Note payable to a stockholder, with 8% interest and no collateral, and past due	<u>103,558</u>
	<u>\$ 1,579,562</u>

The Series B convertible preferred stock financing was scheduled to expire in July 2002 but was extended and expired in July 2003.

The “bridge debt” notes were issued from December 2000 to July 2001. A total of \$1,100,000 was raised and \$310,000 was converted to Convertible Notes, as summarized above. In connection with these issuances, 1,500,000 warrants were issued with exercise prices of \$.10 to \$.15 per share, and another 448,575 warrants were issued with exercise prices of \$.75 to \$2.00 per share. Related interest expense of \$184,167 was recorded in 2001 for these bridge debt warrants and another \$20,000 in interest expense was recorded for “convertible notes” as described below.

The “convertible notes” were issued from February through May 2001 for total proceeds of \$376,004. \$310,000 in notes was transferred from “bridge debt” for total convertible notes of \$686,004. In connection with these issuances, 231,998 warrants were issued with exercise prices of \$2 per share. Since this exercise price was above the stock selling price at that time, no interest expense was recorded.

## NOTE 5 - INCOME TAXES

Verdisys uses the liability method, where deferred tax assets and liabilities are determined based on the expected future tax consequences of temporary differences between the carrying amounts of assets and liabilities for financial and income tax reporting purposes. During 2002 and 2001, Verdisys incurred net losses and, therefore, has no tax liability. The net deferred tax asset generated by the loss carry-forward has been fully reserved. The cumulative net operating loss carry-forward is approximately \$9,300,000 at December 31, 2002, and will expire in the years 2019 through 2022.

At December 31, 2002, deferred tax assets consisted of the following:

	<u>2002</u>
Deferred tax assets	
Net operating losses	\$ 3,172,000
Less: valuation allowance	<u>(3,172,000)</u>
Net deferred tax asset	<u>\$ 0</u>

## NOTE 6 - PREFERRED STOCK

3,436,996 shares of Series A preferred stock were issued in 1999 and 2000 at \$1.50 per share, and all have been converted to common stock on a one-for-one basis. This Series had a stated \$.15 noncumulative dividend, with a \$1.50 per share liquidation preference and redemption price. They were convertible anytime by the holder at the current conversion price as stated, and convertible automatically 12 months after issuance.

650,000 and 760,000 shares of Series B preferred stock were issued in 2001 and 2002, respectively, for \$.50 per share. There is a \$.10 noncumulative dividend, with a \$.50 per share liquidation preference and redemption price. They are convertible anytime by the holder into common shares on a one-for-one basis, and must be converted upon completion of an initial public offering. The conversion rate is adjustable on the occurrence of certain events such as a change in the offering price of Verdisys common stock.

## NOTE 7 - STOCK OPTIONS AND WARRANTS

Verdisys follows the disclosure requirements of FASB Statement 123, Accounting for Stock Based Compensation Plans. Verdisys' Stock Option Plan provides for the grant of both qualified and non-qualified options to directors, employees and consultants. In addition, Verdisys issues stock warrants from time to time to employees, consultants, stockholders and creditors as additional financial incentives. The plans and warrants issuance are administered by the Board of Directors, who have substantial discretion to determine which persons, amounts, time, price, exercise terms, and restrictions, if any. Options differ from warrants only in that options are issued to employees and directors and warrants are issued to consultants and investors.

Verdisys uses the intrinsic value method of calculating compensation expense for employees and directors, as described and recommended by APB Opinion 25, and allowed by FASB Statement 123. During the years ended December 31, 2002 and 2001, compensation expense of \$401,291 and \$341,324, respectively, was recognized for the issuance of options to employees and directors where exercise prices were below selling prices to investors at each date of grant. There has been no trading market for Verdisys stock as of May 27, 2003.

During 2002 and 2001, interest expense of \$4,800 and \$204,167, respectively, was recognized for the issuance of warrants to investors where exercise prices were below selling prices to investors.

During 2002, Verdisys issued warrants to consultants whose stock-based compensation must be recorded at fair value pursuant to FASB Interpretation Number 44. The compensation cost recorded for these warrants was \$392,000 based on the Black-Scholes option pricing model as suggested by FASB Statement 123. No warrants were issued to consultants in 2001.

Summary information regarding options and warrants is as follows:

**NOTE 8 - MAJOR CUSTOMERS AND VENDORS**

One customer accounted for 87% and 21% of total revenues in 2002 and 2001, respectively. During 2001, Hughes Network Systems was the sole major satellite communications services and equipment vendor and it accounted for 13% of purchases in 2001. In mid-2002, services by this vendor were terminated and replaced by Spacenet who accounted for 87% of purchases in 2002.

**NOTE 9 – COMMITMENTS & CONTINGENCIES**

Verdisys's current office is in Houston, Texas. The offices for 2001 and part of 2002 were in Aliso Viejo, California. The Aliso Viejo lease was for \$1,800 per month and expired August 2002. The Houston office was in the home of an employee on a monthly basis for \$900 per month through August 2002. In September 2002, Verdisys signed a 13-month office lease for \$1,483 per month. Future minimum lease payments under the lease as of December 31, 2002 are \$13,343 in 2003.

Verdisys also has a consulting agreement with its current majority stockholder for \$10,000 per month through April 30, 2005, with \$120,000 due during each of 2002, 2003 and 2004, and \$40,000 in 2005. \$138,000 was accrued and unpaid under this agreement as of December 31, 2002.

In April 2002, Verdisys entered into a three-year employment agreement with its then CEO. The base salary under the agreement was \$250,000 per year with quarterly performance bonuses and 2,000,000 stock options granted in 2002 and exercisable at \$.10 per share and vesting quarterly over a two-year period. \$400,000 and \$175,000 in expense was incurred in 2002 relating to the vested portion of these options and unpaid salary, respectively. In November 2002, this CEO quit and Verdisys is now in negotiations over what portion of these amounts and also the unvested options, if any, is due. As of May 27, 2003, management believes the current accrual is adequate and that no further expense will be necessary on the unvested options.

**NOTE 10 – LITIGATION**

In August 2002, Verdisys settled a lawsuit filed against it in late 2001 for breach of promissory note and breach of security agreement, by agreeing to pay \$228,494. Verdisys agreed to pay \$15,000 on October 1, 2002 and \$5,000 per month from November 2002 through August 2004. A balloon payment is due of the remaining amount in August 2004. As of May 27, 2003, \$20,000 in monthly payments are delinquent. All amounts are accrued as of December 31, 2002.

**NOTE 11 - SUBSEQUENT FINANCING (unaudited)**

From April 2003 through June 2003, Verdisys sold 1,239,000 shares of common stock in private placements for \$.50 per share and \$.75 per share for total proceeds of \$779,250 with \$764,150 to Verdisys net of \$15,100 cost of fundraising.

In early 2003, Verdisys issued a convertible promissory note in the amount of \$50,000 with 100,000 \$.10 warrants that expire in January 2008.

In early 2003, Verdisys converted 1,410,000 shares of Series B convertible preferred stock into 1,410,000 shares of common stock.

From April 2003 through June 2003, Verdisys converted \$1,506,190 of notes payable and accrued interest to investors to 2,877,776 shares of common stock.

From April 2003 through June 2003, 2,409,291 options were exercised at \$.10 per share for 2,409,291 shares of common stock. In lieu of cash, Verdisys agreed to expense the exercise price as compensation of \$240,929.

From April 2003 through June 2003, 1,580,000 warrants were exercised for 1,580,000 shares of common stock. \$56,500 in cash was received for the exercise of 430,000 warrants, accounts payable was reduced by \$95,000 for the exercise of 950,000 warrants and notes payable to investor was reduced by \$20,000 for the exercise of 200,000 warrants.

In April 2003, Verdisys issued 2,000,000 shares of common stock for software. The shares were valued at \$1,000,000. The software has been determined to not be useful and was fully impaired as of June 30, 2003.

In June 2003, 100,000 shares valued at \$75,000 were issued to a consultant.

In April 2003, Verdisys issued 100,000 \$.10 warrants that expire in January 2007 for legal services.

In April 2003, Verdisys issued 1,280,000 10 year \$.10 options to employees. 30,000 options vest monthly over three months, 750,000 options vest quarterly over three years, 300,000 options vest quarterly over one year and 200,000 options vest quarterly over two years. The intrinsic value and the fair value of these options totals \$193,250.

Verdisys began selling stock at \$2 per share in July 2003. As of September 18, 2003, \$1,127,000 in cash had been received from this effort.

#### NOTE 12 - SUBSEQUENT EVENTS (unaudited)

In April 2003, an individual licensed his lateral drilling technology and equipment to Verdisys. Verdisys is required to pay \$2,750,000 plus 10 percent of related gross revenue. \$100,000 was due upon signing and a note payable for \$2,650,000 plus 8 percent is to be paid out from May 2003 through March 2004 for a total payout of \$2,970,000.

In April 2003, Verdisys signed a drilling service contract with Energy 2000, whereby Energy 2000 will pay Verdisys a minimum of \$1,800,000 for lateral drilling of 45 wells. This contract is a fixed fee contract with the total price depending on the number of wells drilled and offshoot lateral bores drilled. In addition, Verdisys will receive an 80 percent interest in the net operating income after payback from these properties and will also be reimbursed for 20 percent of its field costs.

During the summer of 2003, Verdisys negotiated settlements with 9 vendors plus the two original founders for various debts carried on the books at \$1,096,501 for \$71,600 cash, 33,333 shares of stock (valued at \$.50 or \$16,666) and 150,000 warrants exercisable at \$.10 and valued at \$.40 or \$60,000. \$460,235 is shown in 2003 as debt forgiveness income for the vendors and the \$548,000 related to the original founders is shown in 2003 as a contribution to capital.

In June 2003, Verdisys settled a lawsuit filed against it in April 2001 for past due accounts payable. In July 2001, Verdisys had previously agreed to pay \$10,277 to settle the account. Verdisys only paid \$4,277 under the original settlement agreement. In June 2003, Verdisys issued 100,000 shares of Verdisys common stock to settle the remaining amount.

On July 18, 2003, Verdisys signed an Agreement and Plan of Merger with Reconstruction Data Group, Inc. (RDGI), a publicly reporting inactive entity. The shareholders of Verdisys received 25,202,539 shares of RDGI in exchange for all of the 25,202,539 shares of Verdisys then outstanding. Verdisys became a wholly-owned subsidiary of RDGI. As of that transfer, Verdisys shareholders will now own 94.4% of the outstanding stock of the combined entity.
