Dear Mr. Selander:

We have reviewed the above referenced filings and have the following comments. If indicated, we think you should revise your documents in response to these comments. In some of our comments, we may ask you to provide us with supplemental information so we may better understand your disclosure. After reviewing this information, we may raise additional comments.

Please understand that the purpose of our review process is to assist you in your compliance with the applicable disclosure requirements and to enhance the overall disclosure in your filing. Government Regulation, page 21

1. We refer you to the penultimate paragraph on page 22. Please provide us with updated information of the same nature and scope as the information you provided to us in your letter dated November 10, 2005, regarding contacts with

the five countries currently identified by the Department of State as state sponsors of terrorism.

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations

General, page 45

2. Tell us what consideration you gave to discussing the impact of inflation and changing prices on your revenues and on income from continuing operations. See Item 303(a)(3)(iv) of Regulation S-K.

Non-GAAP Financial Information, page 45

3. We note the inclusion of non-GAAP information within MD&A. Your non-GAAP presentation does not appear consistent with our guidance and requirements on such presentation. In this regard, your presentation appears to lack certain disclosures identified in the answer to Question 8 of the June 13, 2003 "Frequently Asked Questions Regarding the Use of Non-GAAP Financial Measures" (the "FAQ"). For example, you do not discuss the manner in which management uses the non-GAAP financial information and you do not appear to provide meaningful disclosure that addresses the economic substance behind your decision to use these measures. Tell us how you plan to address the disclosure requirements of Question 8 of the FAQ.

Item 8. Financial Statements and Supplementary Data

Notes to Consolidated Financial Statements

Note 2. Earnings Per Share, pages 82-83

4. Given the different classes of common stock, tell us what consideration you have given to the two-class method earnings per share presentation as noted in SFAS 128, "Earnings Per Share" paragraphs 60 and 61 and EITF 03-6, "Participating Securities and the Two-Class Method under FASB Statement No. 128."

6. Tell us how you intend to determine the fair value of the auction rate securities that have been impacted by the February 2008 auction failures if in fact you anticipate continued auction failures. In this regard tell us your consideration of the SFAS 157 accounting and disclosure requirements you anticipate addressing in your next filing.
7. We note your conclusion that you do not believe the auction failures will have a material impact on liquidity. In addition, please tell us how your February 15, 2008 assessment of the expected impact on results of operations from uncertainty over auction failures.

Definitive Proxy Statement

Certain Relationships and Related Transactions, page 29

8. We note that, on page 31 of your filing, you indicate that notwithstanding that they may be “related parties”, transactions between you and members of MasterCard International that beneficially own five percent or more of a class of voting securities of MasterCard that are entered into in the ordinary course of your business do not require approval of the Board of Directors under your Code of Conduct. Please clarify your disclosure obligations for these transactions pursuant to Item 404 of Regulation S-K.

Executive Compensation, page 32

9. Investors would benefit significantly from a more focused and streamlined discussion of how the application of negative discretion resulted in the actual amounts awarded under the Senior Executive Annual Incentive Compensation Plan. Please assess the disclosure you provided on pages 35-36 and strive to provide crisp synopses that address how the performance of your named executive officers relative to the corporate scorecard was used to reduce cash incentive awards for 2007. See Item 402(b)(1)(v) of Regulation S-K. We note the disclosure regarding the exceptional circumstances taken into consideration in the awards made to Messrs. Heuer and Dunbar. Consider providing illustrative examples of how the actual award amounts were calculated starting with the amount established through the return on equity/net income matrix.
