OTC BB Trading Symbol: **ASXSF**

ALBERTA STAR APPOINTS ROGER WATSON AS CHIEF GEOPHYSICIST FOR THE ELDORADO & CONTACT LAKE IOCG AND URANIUM PROJECTS

Alberta Star Development Corp. (the “Company”) listed on the TSX Venture Exchange (ASX) and on the OTCBB (ASXSF), is pleased to announce the appointment of Roger Watson P. Eng as the Company’s Chief Geophysicist. He will assume this position as part of his consulting activities in the Canadian Uranium Exploration industry. Mr. Watson is a leading specialist in the collection and interpretation of airborne radiometric data used for advanced uranium exploration purposes. Mr. Watson was a founding partner of the firm Paterson, Grant and Watson Ltd., one of Canada’s leading providers of geophysical consulting services. The addition of Mr. Watson to the Company’s experienced IOCG & Uranium technical team reinforces the Company’s commitment to retain industry professionals who have advanced Uranium exploration expertise.

THE ELDORADO URANIUM MINE – ELDORADO URANIUM DISTRICT

The Eldorado uranium mine formerly mined and produced 15 million pounds of uranium at an average head grade of 0.75% U₃O₈ and 8 million ounces of silver plus, copper, nickel, radium, and lead at the Eldorado - Port Radium area commencing in 1933. The Eldorado mine has approximately 25 miles of existing underground workings developed on fourteen levels and was formerly one of Canada’s principal producers of high grade uranium pitchblende concentrates from the 1930’s to 1960’s. The Echo Bay mine produced over 23,779,178 million ounces of silver at an average head grade of approximately 66 ounces per ton prior to its closure in 1982.

The Company has assembled a highly experienced IOCG & uranium technical team of experts with advanced uranium exploration expertise that believes the Eldorado district has the potential to host both Olympic Dam and volcanic hosted styles of copper, gold, and uranium deposits. The current Nov 10, 2006 spot price for uranium provided by The Ux Consulting Company LLC (www.uxc.com), is now \$60.00.00 US per pound.

ALBERTA STAR DEVELOPMENT CORPORATION

Alberta Star Development Corp. is a Canadian mineral exploration company that identifies, acquires, finances advanced stage mineral exploration projects in northern Canada. The Company is committed to creating long term shareholder value through the discovery of base and precious metals and uranium.
