Report of Independent Registered Public Accounting Firm

We have reviewed management's statements, included in the accompanying Venecredit Securities Inc. Exemption Report, in which (1) Venecredit Securities Inc. identified the following provisions of 17 C.F.R. § 15c3-3(k) under which Venecredit Securities Inc. claimed an exemption from 17 C.F.R. § 240.15c3-3: (2)(ii) (the "exemption provisions") and (2) Venecredit Securities Inc. stated that Venecredit Securities Inc. met the identified exemption provisions throughout the most recent fiscal year ended December 31, 2015 without exception. Venecredit Securities Inc.'s management is responsible for compliance with the exemption provisions and its statements.

Our review was conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States) and, accordingly, included inquiries and other required procedures to obtain evidence about Venecredit Securities Inc.'s compliance with the exemption provisions. A review is substantially less in scope than an examination, the objective of which is the expression of an opinion on management's statements. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to management's statements referred to above for them to be fairly stated, in all material respects, based on the conditions set forth in paragraph (k) (2)(ii) of Rule 15c3-3 under the Securities Exchange Act of 1934.

VENECCREDIT SECURITIES, INC.
NOTES TO FINANCIAL STATEMENTS
For the year ended December 31, 2015

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Nature of Business: Venecredit Securities, Inc. (the Company) was formed in May 2001 and is a fully disclosed introducing broker-dealer registered with the Securities and Exchange Commission (SEC). The Company commenced operations in March 2002. The Company is a wholly-owned subsidiary of VBT Holdings, LTD. The Company offers traditional securities transaction and brokerage services to its customers. The Company clears all of its securities transactions on a fully-disclosed basis through Pershing LLC, a subsidiary of The Bank of New York (Pershing). The Company is a member of and is regulated by the Financial Industry Regulatory Authority (FINRA). The Company primarily operates in South Florida and Venezuela.

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Statement of Cash Flows: The Company considers cash on hand and amounts due from depository institutions having an initial maturity of three months or less as cash and due from banks for purposes of the statement of cash flows.

Interest-Bearing Deposits: Interest-bearing deposits mature within one year and are carried at cost.

Trading Assets: The Company engages in trading activities for its own account. Securities that are held principally for resale in the near term are recorded at fair value with changes in fair value included in earnings. Interest and dividends are included in net interest income.

Revenue Recognition: Securities transactions and related commission revenue and expense are recorded on a trade date basis.

Financial Instruments with Off-Balance-Sheet Risk: The Company, under the correspondent clearing agreement with its clearing agent, has agreed to indemnify the clearing agent from damages or losses resulting from customer transactions. The Company is, therefore, exposed to off-balance-sheet risk of loss in the event that customers are unable to fulfill contractual obligations including their obligations under margin accounts. There were no accounts with margin balances as of December 31, 2015. Since its inception, the Company has never been required to make a payment under this indemnification. In addition, the Company believes that it is unlikely it will have to make material payments under this indemnity. Accordingly, the Company has not recorded any contingent liability in its financial statements for this indemnity.

Fair Value of Financial Instruments: The carrying amount of the Company's financial instruments (such as cash, interest bearing deposits and accrued expenses), approximate their fair value because of the short maturity of the instruments.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Concentrations of Credit Risk: As of December 31, 2015, the Company had concentrations of credit risk with depository institutions in the form of bank accounts, money market accounts, time deposits and clearing deposits. The Company also engages in trading activity with various counterparties that are mostly financial institutions in the United States. As more fully disclosed in Note 3, the Company has a trading security portfolio with significant concentration risk in fixed income securities (corporate bonds). Management believes there is no significant risk of loss or counterparty risk on these financial instruments.

Most of the Company's business activity is with customers domiciled in Venezuela. Therefore, the Company's exposure to any future credit and liquidity risks is significantly affected by changes in the economy and political stability of Venezuela.

Transfers of Financial Assets: Transfers of financial assets are accounted for as sales, when control over the assets has been relinquished. Control over transferred assets is deemed to be surrendered when the assets have been isolated from the Company, the transferee obtains the right (free of conditions that constrain it from taking advantage of that right) to pledge or exchange the transferred assets, and the Company does not maintain effective control over the transferred assets through an agreement to repurchase them before their maturity.

Loss Contingencies: Loss contingencies, including claims and legal actions arising in the ordinary course of business, are recorded as liabilities when the likelihood of loss is probable and an amount or range of loss can be reasonably estimated. Management does not believe there are presently such matters that will have a material effect on the financial statements.

Income Taxes: Income tax expense is the total of the current year income tax due or refundable and the change in deferred tax assets and liabilities. Deferred tax assets and liabilities are the expected future tax amounts for the temporary differences between carrying amounts and tax bases of assets and liabilities, computed using enacted tax rates.

A tax position is recognized as a benefit only if it is "more likely than not" that the tax position would be sustained in a tax examination, with a tax examination being presumed to occur. The amount recognized is the largest amount of tax benefit that is greater than 50% likely of being realized on examination. For tax positions not meeting the "more likely than not" test, no tax benefit is recorded. There were no material unrecognized tax positions at December 31, 2015.

In the event that the Company recognizes interest and/or penalties related to income tax matters, these are included in income tax expense in the accompanying statement of operations.

NOTE 2- FULLY- DISCLOSED CLEARING AGREEMENT

In 2001, the Company entered into a fully-disclosed clearing agreement with Pershing whereby customer accounts are cleared and carried by Pershing. The agreement calls for the Company to maintain a deposit balance in an account maintained by Pershing. At December 31, 2015, the Company had \$100,000 of cash on deposit to satisfy this requirement and this is included in the statement of financial condition as deposit with clearing organization (restricted). Either party may terminate the agreement without cause upon the receipt of 90 days written notice.

NOTE 4 – FAIR VALUE

Fair value is the exchange price that would be received for an asset or paid to transfer a liability (exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. There are three levels of inputs that may be used to measure fair values

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the entity has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect a reporting entity's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

The fair values of equity securities outstanding as of December 31, 2015 are determined by obtaining quoted market prices, if available (Level 1).

The fair values of Fixed Income securities outstanding as of December 31, 2015 are determined by obtaining quoted market prices that are not recent or active, fair values are calculated based on inputs that are observable and corroborated by market data of the identical asset (Level 2).

The carrying amounts, which approximate the estimated fair value because of their short maturity, for cash and cash equivalents of \$1,736,282 interest bearing deposits and deposits with clearing organization of \$1,421,601, are considered Level 1 inputs.

The carrying amounts, which approximate the estimated fair value because of their short maturity, for accrued commissions of \$109,261, and accrued expenses and other liabilities of \$82,801, are considered Level 1 inputs.
