Form 10-K for the Fiscal Year Ended December 31, 2022

Notes to Consolidated Financial Statements

8. Long-Term Debt, Net, page F-30

1. We note that each of your 2024, 2027 and 2028 Convertible Notes are convertible at the option of the holder only in certain circumstances. Please explain to us how you evaluated these instruments to determine whether the conversion features were required to be bifurcated and accounted for as a derivative under ASC 815. In your response, specifically address whether each conversion option contingency meets the definition of a derivative and, if so, whether it qualifies for the scope exception for contracts involving an entity's own equity as set forth in ASC 815-10-15-74(a). Please also revise your accounting policy disclosure accordingly in your future filings.
