Best Case Scenario at Maturity

If the Index Return is positive, investors will receive 150% of the performance of the Index Return at maturity, subject to an Index Return Cap of between 7.70% and 9.20% (TBD on Trade Date) for a Maximum Return of between 11.55% and 13.80% (TBD on Trade Date).

Worst Case Scenario at Maturity

If the Final Level is lower than the Initial Level by more than the Buffer Level, an investment in the BUyS will decline by 1% for every 1% decline in the Index beyond the Buffer Level. Subject to the credit of the Issuer, the maximum loss on an investment is 90%.

Benefits

- Large-cap equity exposure with principal protection for first 10% of any depreciation and upside leverage, subject to the Index Return Cap.
- 150% of the positive Index Return up to the Index Return Cap.
- The BUyS will outperform the Index at maturity if the Final Level is below the Initial Level

Risks

- Because BUyS do not offer full principal protection of your initial investment and the return of the BUyS is linked to the performance of the Index, you may lose up to 90% of your initial investment
- Return on the BUyS is limited by the Index Return Cap and will not benefit from any appreciation of the Index beyond the Index Return Cap
- Return on the BUyS is linked to the value of the Index without taking into consideration the value of dividends paid on the component stocks of the Index
- An investment in BUyS is subject to the credit of the Issuer

Selected Risk Factors

YOUR INVESTMENT IN THE BUyS MAY RESULT IN A LOSS — The BUyS do not guarantee any return of your initial investment in excess of \$100 per \$1,000 face amount. The return on the BUyS at maturity is linked to the performance of the Index and will depend on whether, and the extent to which, the Index performance is positive or negative.

THE RETURN ON YOUR BUyS IS LIMITED BY THE INDEX RETURN CAP — The Index Return cannot exceed the Index Return Cap of between 7.70% and 9.20% (to be determined on the Trade Date) and your payment at maturity is limited to a maximum payment of between \$1,115.50 and \$1,138.00 (to be determined on the Trade Date) for each \$1,000 face amount of the BUyS you hold, regardless of any increase in the Index beyond the Index Return Cap.

CERTAIN BUILT-IN COSTS ARE LIKELY TO ADVERSELY AFFECT THE VALUE OF THE BUyS PRIOR TO MATURITY — Certain built-in costs, such as our estimated cost of hedging, are likely to adversely affect the value of the BUyS prior to maturity. You should be willing and able to hold your BUyS to maturity.

NO PERIODIC COUPON OR DIVIDEND PAYMENTS OR VOTING RIGHTS — You will not receive periodic coupon payments on the BUyS or have voting rights or rights to receive cash dividends or other distributions with respect to the component stocks of the Index.

LACK OF LIQUIDITY — There may be little or no secondary market for the BUyS. The BUyS will not be listed on any securities exchange.

OUR RESEARCH, OPINIONS OR RECOMMENDATIONS COULD AFFECT THE LEVEL OF THE INDEX OR THE MARKET VALUE OF THE BUyS — We and our affiliates and agents may publish research, express opinions or provide recommendations that are inconsistent with investing in or holding the BUyS, which could affect the level of the Index or the value of the BUyS.

POTENTIAL CONFLICTS — Because we and our affiliates play a variety of roles in connection with the issuance of the BUyS, including acting as calculation agent and hedging our obligations under the BUyS, the economic interests of the calculation agent and other affiliates of ours are potentially adverse to your interests as an investor in the BUyS.

MANY ECONOMIC AND MARKET FACTORS WILL AFFECT THE VALUE OF THE BUyS — In addition to the level of the Index on any day, the value of the BUyS will be affected by a number of complex and interrelated economic and market factors that may either offset or magnify each other.

COUNTERPARTY RISK — The payment of amounts owed to you under the BUyS is subject to the Issuer's ability to pay. Consequently, you are subject to counterparty risk and are susceptible to risks relating to the creditworthiness of Deutsche Bank AG.

THE U.S. TAX CONSEQUENCES OF AN INVESTMENT IN THE BUyS ARE UNCLEAR — Significant aspects of the U.S. federal income tax treatment of the BUyS are uncertain, and no assurance can be given that the Internal Revenue Service will accept, or a court will uphold, the tax consequences described in the accompanying term sheet.
