The percentage change from the Basket Starting Level to the Basket Ending Level

You will receive a cash payment that provides you with a return per \$10 Note principal amount equal to the Basket Return multiplied by the Participation Rate of 109.65%.

Accordingly, if the Basket Return is positive, your payment at maturity per \$10 Note principal amount will be calculated as follows:

$$\$10 + [\$10 \times \text{Basket Return} \times \text{Participation Rate}]$$

You will receive the principal amount of your Notes at maturity

What are the tax consequences of the Notes?

The Notes will be treated for U.S. federal income tax purposes as "contingent payment debt instruments." You should review carefully the section in the accompanying product supplement entitled "Certain U.S. Federal Income Tax Consequences."

¹ Moody's Investors Service Ltd has assigned a rating of Aa1 to notes, such as the Notes offered hereby, issued under Deutsche Bank AG's Global Notes Program, Series A.

Selected Purchase Considerations

- ◆ **NO DIRECT EXPOSURE TO FLUCTUATIONS IN CURRENCY EXCHANGE RATES RELATED TO THE U.S. DOLLAR THAT MIGHT AFFECT THE DOW JONES EURO STOXX 50® INDEX OR THE NIKKEI® 225 INDEX**—The value of your Notes will not be adjusted for exchange rate fluctuations between the U.S. dollar and the currencies in which the component stocks underlying the Dow Jones EURO STOXX 50® Index and the Nikkei® 225 Index are denominated. Therefore, if the applicable currencies appreciate or depreciate relative to the U.S. dollar over the term of the Notes, you will not receive any additional payment or incur any reduction in your return, if any, at maturity.
- ◆ **CERTAIN INCOME TAX CONSEQUENCES**—You should review carefully the section in the accompanying product supplement entitled “Certain U.S. Federal Income Tax Consequences.” The Notes will be treated for U.S. federal income tax purposes as “contingent payment debt instruments.” As a result, regardless of your method of accounting, you generally will be required to accrue interest on a constant yield to maturity basis at the “comparable yield,” as determined by us, although we will not make any payment with respect to the Notes until maturity. Interest included in income generally will increase your basis in the Notes. In addition, any gain recognized upon a sale, exchange or retirement of the Notes generally will be treated as interest income for U.S. federal income tax purposes.

Under current law, the United Kingdom will not impose withholding tax on payments made with respect to the Notes.

For a discussion of certain German tax considerations relating to the Notes you may refer to the section in the accompanying prospectus supplement entitled “Taxation by Germany of Non-Resident Holders.”

Neither we nor UBS Financial Services Inc. provides any advice on tax matters. You are urged to consult your own tax adviser regarding all aspects of the U.S. federal tax consequences of investing in the Notes, as well as any tax consequences arising under the laws of any state, local or non-U.S. taxing jurisdiction.
- ◆ **COMPARABLE YIELD AND PROJECTED PAYMENT SCHEDULE**—You may obtain the comparable yield and the projected payment schedule by submitting a written request to Deutsche Bank Securities Inc., 60 Wall Street, 4th Floor, New York, New York 10005, Attention: TMG—Daniel Millwood, 212-250-8281. **Neither the comparable yield nor the projected payment schedule constitutes a representation by us regarding the actual amount, if any, that we will pay on the Notes.**

Key Risks

- ◆ **MARKET RISK**—The return on the Notes at maturity is linked to the performance of the Basket and will depend on whether, and the extent to which, the Basket Return is positive. **You will receive no more than the principal amount of your Notes at maturity if the Basket Return is zero or negative.**
- ◆ **THE NOTES MAY NOT PAY MORE THAN THE PRINCIPAL AMOUNT**—You may receive a lower payment at maturity than you would have received if you had invested in the Basket Indices, the component stocks underlying the Basket Indices or contracts related to the Basket Indices. If the Basket Ending Level does not exceed the Basket Starting Level, the Additional Amount will be zero. This will be true even if the value of the Basket is higher than the Basket Starting Level at some time during the term of the Notes but falls below the Basket Starting Level on the Final Valuation Date.
- ◆ **NO PRINCIPAL PROTECTION UNLESS YOU HOLD THE NOTES TO MATURITY**—While the payment at maturity described in this pricing supplement is based on the full principal amount of your Notes, the original issue price of the Notes includes the agents’ commission and the cost of hedging our obligations under the Notes. As a result, the price, if any, at which Deutsche Bank AG or our affiliates will be willing to purchase Notes from you, prior to maturity, in secondary market transactions, if at all, will likely be lower than the original issue price, and any such sale prior to the maturity date could result in a substantial loss to you. The Notes are not designed to be short-term trading instruments. Accordingly, you should be willing and able to hold your Notes to maturity.
- ◆ **NO PERIODIC INTEREST OR DIVIDEND PAYMENTS OR VOTING RIGHTS**—As a holder of the Notes, you will not receive periodic interest payments, and you will not have voting rights or rights to receive cash dividends or other distributions or other rights that holders of securities composing any of the Basket Indices would have.
- ◆ **WE ARE ONE OF THE COMPANIES THAT MAKE UP THE DOW JONES EURO STOXX 50® INDEX, BUT WE ARE NOT AFFILIATED WITH ANY OTHER COMPANY INCLUDED IN THE DOW JONES EURO STOXX 50® INDEX, THE S&P 500® INDEX OR THE NIKKEI® 225 INDEX**—We are one of the companies that make up the Dow Jones EURO STOXX 50® Index, but we are not affiliated with any of the other companies whose stock is included in the Dow Jones EURO STOXX 50® Index, the S&P 500® Index or the Nikkei® 225 Index. As a result, we will have no ability to control the actions of such other companies, including actions that could affect the value of the stocks underlying the S&P 500® Index, the Dow Jones EURO STOXX 50® Index, the Nikkei® 225 Index or your Notes. None of the money you pay us will go to the respective sponsors of the S&P 500® Index, the Dow Jones EURO STOXX 50® Index and the Nikkei® 225 Index (the “Sponsors”), or any of the other companies included in the S&P 500® Index, the Dow Jones EURO STOXX 50® Index or the Nikkei® 225 Index, and none of those companies will be involved in the offering of the Notes in any way. Neither those companies nor the Sponsors will have any obligation to consider your interests as a holder of the Notes in taking any corporate actions that might affect the value of your Notes.
- ◆ **THE BASKET RETURN FOR THE NOTES WILL NOT BE ADJUSTED FOR CHANGES IN EXCHANGE RATES RELATED TO THE U.S. DOLLAR THAT MIGHT AFFECT THE DOW JONES EURO STOXX 50® INDEX AND THE NIKKEI® 225 INDEX**—Although the component stocks underlying the Dow Jones EURO STOXX 50® Index and the Nikkei® 225 Index are traded in currencies other than U.S. dollars, and the Notes are denominated in U.S. dollars, the Additional Amount payable on the Notes at maturity, if any, will not be adjusted for changes in the exchange rates between the U.S. dollar and each of the currencies in which the component stocks underlying the Dow Jones EURO STOXX 50® Index and the Nikkei® 225 Index are denominated. Changes in exchange rates, however, may reflect changes in various non-U.S. economies that in turn may affect the Basket Return for the Notes. Any Additional Amount we pay in respect of the Notes (in excess of the original principal amount) at maturity, if any, will be based on the Basket Return being positive, determined as described in “Determining Payment at Maturity” on page 3 of this pricing supplement.

- ◆ **LACK OF LIQUIDITY**—The Notes will not be listed on any securities exchange. Deutsche Bank AG or its affiliates and agents intend to offer to purchase the Notes in the secondary market but are not required to do so and may cease such market making activities at any time. Even if there is a secondary market, it may not provide enough liquidity to allow you to trade or sell the Notes easily. Because other dealers are not likely to make a secondary market for the Notes, the price at which you may be able to trade your Notes is likely to depend on the price, if any, at which Deutsche Bank AG or its affiliates and agents are willing to buy the Notes.
- ◆ **POTENTIAL CONFLICTS**—We and our affiliates play a variety of roles in connection with the issuance of the Notes, including acting as calculation agent and hedging our obligations under the Notes. In performing these duties, the economic interests of the calculation agent and other affiliates of ours are potentially adverse to your interests as an investor in the Notes.
- ◆ **MANY ECONOMIC AND MARKET FACTORS WILL IMPACT THE VALUE OF THE NOTES**—In addition to the level of the Basket on any day, the value of the Notes will be affected by a number of complex and interrelated economic and market factors that may either offset or magnify each other, including:
 - ◆ the expected volatility of the Basket Indices;
 - ◆ the time to maturity of the Notes;
 - ◆ the market price and dividend rate on the component stocks underlying the Basket Indices;
 - ◆ interest and yield rates in the market generally and in the markets of the component stocks underlying the Basket Indices;
 - ◆ a variety of economic, financial, political, regulatory or judicial events;
 - ◆ the exchange rate and the volatility of the exchange rate between the U.S. dollar and the currencies of the nations in which the companies included in the Dow Jones EURO STOXX 50® Index and the Nikkei® 225 Index are domiciled;
 - ◆ supply and demand for the Notes; and
 - ◆ our creditworthiness, including actual or anticipated downgrades in our credit ratings.
- ◆ **WE AND OUR AFFILIATES AND AGENTS MAY PUBLISH RESEARCH, EXPRESS OPINIONS OR PROVIDE RECOMMENDATIONS THAT ARE INCONSISTENT WITH INVESTING IN OR HOLDING THE NOTES. ANY SUCH RESEARCH, OPINIONS OR RECOMMENDATIONS COULD AFFECT THE LEVEL OF THE BASKET INDICES TO WHICH THE NOTES ARE LINKED OR THE MARKET VALUE OF THE NOTES**—Deutsche Bank AG, its affiliates and agents publish research from time to time on financial markets and other matters that may influence the value of the Notes, or express opinions or provide recommendations that are inconsistent with purchasing or holding the Notes. Deutsche Bank AG, its affiliates and agents may have published research or other opinions that are inconsistent with the investment view implicit in the Notes. Any research, opinions or recommendations expressed by Deutsche Bank AG, its affiliates or agents may not be consistent with each other and may be modified from time to time without notice. Investors should make their own independent investigation of the merits of investing in the Notes and the Basket Indices to which the Notes are linked.

Scenario Analysis and Hypothetical Examples of Payment at Maturity

The following scenario analysis and hypothetical examples reflect the Participation Rate of 109.65%.

Basket Return		Note Return
40%	109.65% x Basket Return	43.9%
30%		32.9%
20%		21.9%
10%		11.0%
0%		0%
-10%	100% Principal Protection	0%
-20%		0%
-30%		0%
-40%		0%

Example 1: The level of the Basket increases by 10% from a Basket Starting Level of 100 to a Basket Ending Level of 110. Because the Basket Ending Level of 110 is greater than the Basket Starting Level of 100, the investor receives a payment at maturity of \$11.10 per \$10.00 Note principal amount, representing a total return of 11.0% on the Notes.

$$\text{Payment at maturity per } \$10.00 \text{ Note principal amount} = \$10.00 + [\$10.00 \times (10\% \times 109.65\%)] = \$11.10$$

Example 2: The level of the Basket decreases by 10% from a Basket Starting Level of 100 to a Basket Ending Level of 90. Because the Basket Ending Level of 90 is less than the Basket Starting Level of 100, the investor receives a payment at maturity of \$10.00 per \$10.00 Note principal amount calculated as follows:

$$\text{Payment at maturity per } \$10.00 \text{ Note principal amount} = \$10.00 + \$0.00 = \$10.00$$

Supplemental Underwriting Information

UBS Financial Services Inc. and Deutsche Bank Securities Inc., acting as agents for Deutsche Bank AG, will receive discounts and commissions of \$0.30 per \$10.00 Note principal amount. See "Underwriting" in the accompanying product supplement.

We expect to deliver the Notes against payment for the Notes on or about the fourth business day following the Trade Date. Under Rule 15c6-1 under the Securities Exchange Act of 1934, as amended, trades in the secondary market generally are required to settle in three business days, unless the parties to a trade expressly agree otherwise. Accordingly, purchasers who wish to trade their Notes on the Trade Date or the next succeeding business day will be required, by virtue of the fact that we expect the Notes initially to settle in four business days (T+4), to specify alternative settlement arrangements to prevent a failed settlement.
