EARN Product Snapshot

Structure:

- **Underlying:** Basket comprised of three Basket Indices: the S&P 500® Index (Bloomberg: SPX <Index>), the MSCI Emerging Markets IndexSM (Bloomberg: MXEF <Index>) and MSCI EAFE® Index (Bloomberg: MXEA <Index>)
- **Maturity:** September 30, 2011 (4 years)
- **Allocation:** 50% / 30% / 20%
- **Protection:** 100%

Positioning:

- Offers 100% participation in the EARN Return, which allocates at maturity a weighting of 50% to the top performing Underlying Index, 30% to the next best performing Underlying Index, and 20% to the worst performing Underlying Index.

Best Case Scenario:

- Uncapped participation in the EARN Return.

Worst Case Scenario:

- Only principal is returned at maturity.

Risk Considerations:

- If the EARN Return is zero, the Notes will return only your principal at maturity.
- You should be willing and able to hold your Notes to maturity. Principal protection and allocation of 50%, 30% and 20% weightings to the Underlying Indices based on performance are only valid at maturity.
- Return on the Notes is linked to the values of the Underlying Indices (without taking into consideration the value of dividends paid on the component stocks of the Underlying Indices).
- An investment in the Notes is subject to the credit of the Issuer.

Investing in the Notes involves a number of risks. See “Selected Risk Factors” in this product snapshot, “Selected Risk Considerations” in the accompanying term sheet and “Risk Factors” in the accompanying product supplement.

Hypothetical Scenario Analysis at Maturity:

- The hypothetical scenario analysis contained herein does not reflect advisory fees, brokerage or other commissions, or any other expenses an investor may incur in connection with the Notes.
- No representation is made that any trading strategy or account will, or is likely to, achieve results similar to those shown. Hypothetical results are neither an indicator nor guarantee of future returns. Actual results will vary, perhaps materially, from the analysis below.

Selected Risk Factors

- **THE NOTES ARE 100% PRINCIPAL PROTECTED ONLY IF HELD TO MATURITY** — You will receive at least the principal amount of your Notes if you hold your Notes to maturity. If you wish to sell your Notes prior to maturity, you will not receive any principal protection on the portion of your Notes sold and you may lose part or all of your investment.
- **YOUR RETURN WILL BE BASED ON THE AVERAGE CLOSING LEVELS OF THE UNDERLYING INDICES ON THE AVERAGING DATES.**
- **CERTAIN BUILT-IN COSTS ARE LIKELY TO ADVERSELY AFFECT THE VALUE OF THE NOTES PRIOR TO MATURITY** — Certain built-in costs, such as our estimated cost of hedging, are likely to adversely affect the value of the Notes prior to maturity. You should be willing and able to hold your Notes to maturity.
- **NO INTEREST OR DIVIDEND PAYMENTS OR VOTING RIGHTS** — You will not receive interest payments on the Notes or have voting rights or rights to receive cash dividends or other distributions.
- **LACK OF LIQUIDITY** — There may be little or no secondary market for the Notes. The Notes will not be listed on any securities exchange.
- **OUR RESEARCH, OPINIONS OR RECOMMENDATIONS COULD AFFECT THE LEVELS OF THE UNDERLYING INDICES OR THE MARKET VALUE OF THE NOTES** — We and our affiliates and agents may publish research, express opinions or provide recommendations that are inconsistent with investing in or holding the Notes, which could affect the level of the Underlying Indices or the value of the Notes.
- **POTENTIAL CONFLICTS** — Because we and our affiliates play a variety of roles in connection with the issuance of the Notes, including acting as calculation agent and hedging our obligations under the Notes, the economic interests of the calculation agent and other affiliates of ours are potentially adverse to your interests as an investor in the Notes.
- **MANY ECONOMIC AND MARKET FACTORS WILL AFFECT THE VALUE OF THE NOTES** — In addition to the levels of the Underlying Indices on any day, the value of the Notes will be affected by a number of complex and interrelated economic and market factors that may either offset or magnify each other.
- **TAXED AS CONTINGENT PAYMENT DEBT INSTRUMENTS** — You should review carefully the section in the accompanying product supplement entitled “Certain U.S. Federal Income Tax Consequences.” The Notes will be treated for U.S. federal income tax purposes as “contingent payment debt instruments.”
