

Deutsche Bank AG, London Branch

Capped Buffered Underlying Securities (BUyS) Linked to a Basket of Equity Indices due June 24*, 2010

General

- Capped Buffered Underlying Securities (BUyS) Linked to a Basket of Equity Indices due June 24*, 2010 (the "BUyS") are designed for investors who seek a return of 150.00% of the appreciation, if any, of a weighted basket of equity indices at maturity, up to a Basket Return Cap (as defined below) of between 19.00% and 22.00% (to be determined on the Trade Date). Investors should be willing to forgo coupon and dividend payments during the term of the BUyS and to lose up to 85.00% of their initial investment, subject to the credit of the Issuer.
- Senior unsecured obligations of Deutsche Bank AG due on or about June 24*, 2010.
- Denominations of \$1,000 and minimum initial investments of \$1,000.
- The BUyS are expected to price on or about December 19*, 2008 and are expected to settle three business days later on or about December 24*, 2008 (the "Settlement Date").

Key Terms

Issuer: Deutsche Bank AG, London Branch.
Rating: Moody's Investors Service Ltd has assigned a rating of Aa1 and Standard & Poor's has assigned a rating of AA- to notes, such as the BUyS offered hereby, issued under Deutsche Bank AG's Global Notes Program, Series A.[†]

Issue Price: 100% of the face amount.
Basket: The BUyS are linked to a basket consisting of the S&P 500® Index, the Russell 2000® Index, the S&P MidCap 400® Index and the MSCI EAFE® Index (each, a "Basket Index" and collectively, the "Basket Indices").

Basket Index	Index Weighting	Initial Index Level ^{††}
S&P 500® Index	40.00%	
Russell 2000® Index	25.00%	
S&P MidCap 400® Index	25.00%	
MSCI EAFE® Index	10.00%	

^{††} The Initial Index Levels will be set on the Trade Date.

Payment at Maturity:

- If the Final Basket Level is greater than or equal to the Initial Basket Level, you will receive a cash payment per \$1,000 face amount of BUyS that provides you with a return on your investment equal to the Basket Return, subject to the Basket Return Cap, multiplied by the Participation Rate, subject to the Maximum Return. Accordingly, subject to the Maximum Return, your payment at maturity per \$1,000 face amount will be calculated as follows:

$$\$1,000 + (\$1,000 \times \text{Basket Return} \times \text{Participation Rate})$$

- If the Final Basket Level declines from the Initial Basket Level, and such decline is equal to or less than the Buffer Level, you will receive a cash payment of \$1,000 per \$1,000 face amount.

- If the Final Basket Level declines from the Initial Basket Level, and such decline is greater than the Buffer Level, you will lose 1% of the face amount of your BUyS for every 1% that the Final Basket Level declines from the Initial Basket Level beyond the Buffer Level. Accordingly, if the Final Basket Level declines from the Initial Basket Level beyond the Buffer Level, your payment at maturity per \$1,000 face amount will be calculated as follows:

$$\$1,000 + [\$1,000 \times (\text{Basket Return} + \text{Buffer Level})]$$

If the Final Basket Level declines from the Initial Basket Level by more than the Buffer Level, you could lose up to \$850.00 per \$1,000 face amount of BUyS.

Basket Return: Subject to the Basket Return Cap, the Basket Return, expressed as a percentage, will equal:

$$\frac{\text{Final Basket Level} - \text{Initial Basket Level}}{\text{Initial Basket Level}}$$

Initial Basket Level: 100
Final Basket Level:

The Basket closing level will be calculated as follows:

$$100 \times [1 + (\text{S\&P 500}^\circ \text{ Index return} \times 40.00\%) + (\text{Russell 2000}^\circ \text{ Index return} \times 25.00\%) + (\text{S\&P MidCap 400}^\circ \text{ Index return} \times 25.00\%) + (\text{MSCI EAFE}^\circ \text{ Index return} \times 10.00\%)]$$

The return for each Basket Index is the percentage change from the respective Initial Index Level to the respective index closing level on the Final Valuation Date.

Buffer Level: 15.00%

Participation Rate: 150.00% upside participation

Basket Return Cap: 19.00% – 22.00% (to be determined on the Trade Date)

Maximum Return: 28.50% – 33.00% (equal to the Participation Rate multiplied by the Basket Return Cap, which will be determined on the Trade Date)

Trade Date: December 19*, 2008

Final Valuation Date: June 21*, 2010, subject to postponement as described under "Description of Securities – Adjustment to Valuation Dates and Payment Dates" in the accompanying product supplement.

Maturity Date: June 24*, 2010, subject to postponement as described under "Description of Securities – Adjustment to Valuation Dates and Payment Dates" in the accompanying product supplement.

Listing: The BUyS will not be listed on any securities exchange.

CUSIP: 2515A0 WZ 2

ISIN: US2515A0WZ29

* Expected. In the event that we make any change to the expected Trade Date and Settlement Date, the Final Valuation Date and Maturity Date may be changed so that the stated term of the BUyS remains the same.

[†] A credit rating is not a recommendation to buy, sell, or hold the BUyS, and may be subject to revision or withdrawal at any time by the assigning rating agency. Each credit rating should be evaluated independently of any other credit rating. Any rating assigned to notes issued under Deutsche Bank AG's Global Notes Program Series A does not enhance, affect or address the likely performance of the BUyS other than the ability of the Issuer to meet its obligations.

Investing in the BUyS involves a number of risks. See "Risk Factors" beginning on page 6 of the accompanying product supplement and "Selected Risk Considerations" beginning on page TS-8 of this term sheet.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of the BUyS or passed upon the accuracy or the adequacy of this term sheet or the accompanying product supplement, underlying supplement, prospectus supplement and prospectus. Any representation to the contrary is a criminal offense.

ADDITIONAL TERMS SPECIFIC TO THE BUYS

- You should read this term sheet together with the prospectus dated October 10, 2006, as supplemented by the prospectus supplement dated November 13, 2006 relating to our Series A global notes of which these BUyS are a part, and the more detailed information contained in underlying supplement no. 17 dated August 11, 2008 and product supplement J dated June 27, 2008. You may access these documents on the SEC website at www.sec.gov as follows (or if such address has changed, by reviewing our filings for the relevant date on the SEC website):
 - Product supplement J dated June 27, 2008:
<http://www.sec.gov/Archives/edgar/data/1159508/000119312508142391/d424b21.pdf>
 - Underlying supplement 17 dated August 11, 2008:
<http://www.sec.gov/Archives/edgar/data/1159508/000119312508173702/d424b21.pdf>
 - Prospectus supplement dated November 13, 2006:
<http://www.sec.gov/Archives/edgar/data/1159508/000119312506233129/d424b3.htm>
 - Prospectus dated October 10, 2006:
<http://www.sec.gov/Archives/edgar/data/1159508/000095012306012432/u50845fv3asr.htm>
- Our Central Index Key, or CIK, on the SEC website is 0001159508. As used in this term sheet, “we,” “us” or “our” refers to Deutsche Bank AG, including, as the context requires, acting through one of its branches.
- This term sheet, together with the documents listed above, contains the terms of the BUyS and supersedes all other prior or contemporaneous oral statements as well as any other written materials including preliminary or indicative pricing terms, correspondence, trade ideas, structures for implementation, sample structures, brochures or other educational materials of ours. You should carefully consider, among other things, the matters set forth in “Risk Factors” in the accompanying product supplement, as the BUyS involve risks not associated with conventional debt securities. We urge you to consult your investment, legal, tax, accounting and other advisers before deciding to invest in the BUyS.
- **Deutsche Bank AG has filed a registration statement (including a prospectus) with the Securities and Exchange Commission, or SEC, for the offering to which this term sheet relates. Before you invest, you should read the prospectus in that registration statement and the other documents relating to this offering that Deutsche Bank AG has filed with the SEC for more complete information about Deutsche Bank AG and this offering. You may obtain these documents without cost by visiting EDGAR on the SEC website at www.sec.gov. Alternatively, Deutsche Bank AG, any agent or any dealer participating in this offering will arrange to send you the prospectus, prospectus supplement, product supplement, underlying supplement and this term sheet if you so request by calling toll-free 1-800-311-4409.**
- **You may revoke your offer to purchase the BUyS at any time prior to the time at which we accept such offer by notifying the applicable agent. We reserve the right to change the terms of, or reject any offer to purchase, the BUyS prior to their issuance. We will notify you in the event of any changes to the terms of the BUyS, and you will be asked to accept such changes in connection with your purchase of any BUyS. You may also choose to reject such changes, in which case we may reject your offer to purchase the BUyS.**

What is the Payment Amount on the BUyS at Maturity Assuming a Range of Performance for the Basket?

The table below illustrates the payment at maturity per BUyS face amount for a hypothetical range of performance for the Basket from -100.00% to +100.00% and assumes a Participation Rate of 150.00%, a Buffer Level of 15.00%, a Basket Return Cap of 20.50% and a Maximum Return of 30.75% (the actual Basket Return Cap and Maximum Return will be determined on the Trade Date). The following results are based solely on the hypothetical example cited. You should consider carefully whether the BUyS are suitable to your investment goals. The numbers appearing in the table below have been rounded for ease of analysis.

Final Basket Level	Percentage Change in Basket	Basket Return (%)	Payment at Maturity (\$)	Return on BUyS (%)
200.00	100.00%	20.50%	\$1,307.50	30.75%
175.00	75.00%	20.50%	\$1,307.50	30.75%
150.00	50.00%	20.50%	\$1,307.50	30.75%
140.00	40.00%	20.50%	\$1,307.50	30.75%
125.00	25.00%	20.50%	\$1,307.50	30.75%
120.50	20.50%	20.50%	\$1,307.50	30.75%
110.00	10.00%	10.00%	\$1,150.00	15.00%
102.00	2.00%	2.00%	\$1,030.00	3.00%
101.00	1.00%	1.00%	\$1,015.00	1.50%
100.00	0.00%	0.00%	\$1,000.00	0.00%
99.00	-1.00%	-1.00%	\$1,000.00	0.00%
98.00	-2.00%	-2.00%	\$1,000.00	0.00%
90.00	-10.00%	-10.00%	\$1,000.00	0.00%
85.00	-15.00%	-15.00%	\$1,000.00	0.00%
80.00	-20.00%	-20.00%	\$950.00	-5.00%
70.00	-30.00%	-30.00%	\$850.00	-15.00%
50.00	-50.00%	-50.00%	\$650.00	-35.00%
25.00	-75.00%	-75.00%	\$400.00	-60.00%
0.00	-100.00%	-100.00%	\$150.00	-85.00%

Hypothetical Examples of Amounts Payable at Maturity

The following hypothetical examples illustrate how the payments at maturity set forth in the table above are calculated.

Example 1: The level of the Basket increases from the Initial Basket Level of 100 to the Final Basket Level of 110.00. Because the Basket percentage change of 10% is less than the Basket Return Cap of 20.50%, the investor receives a payment at maturity of \$1,150.00 per BUyS face amount calculated as follows:

$$\text{Payment at maturity} = \$1,000.00 + (\$1,000.00 \times 10\% \times 150.00\%) = \$1,150.00$$

Example 2: The level of the Basket increases from the Initial Basket Level of 100 to a Final Basket Level of 125.00. Because the Basket percentage change of 25% is greater than the Basket Return Cap of 20.50%, the investor receives a payment at maturity of \$1,307.50 per \$1,000.00 BUyS face amount, the maximum payment on the BUyS.

$$\text{Payment at maturity} = \$1,000.00 + (\$1,000.00 \times 30.75\%) = \$1,307.50$$

Example 3: The level of the Basket declines from the Initial Basket Level of 100 to the Final Basket Level of 98.00. Because the 2% decline in the Basket from the Initial Basket Level of 100 to the Final Basket Level of 98.00 does not exceed the Buffer Level of 15.00%, the investor receives a payment at maturity of \$1,000.00 per BUyS face amount.

$$\text{Payment at maturity} = \$1,000.00$$

Example 4: The level of the Basket declines from the Initial Basket Level of 100 to the Final Basket Level of 70.00. Because the 30% decline in the Basket from the Initial Basket Level of 100 to the Final Basket Level of 70.00 exceeds the Buffer Level of 15.00%, the investor receives a payment at maturity of \$850.00 per BUyS face amount calculated as follows:

$$\text{Payment at maturity} = \$1,000.00 + [\$1,000.00 \times (-30\% + 15.00\%)] = \$850.00$$

Example 5: The level of the Basket declines from the Initial Basket Level of 100 to the Final Basket Level of 0. Because the decline in the Index from the Initial Basket Level of 100 to the Final Basket Level of 0 exceeds the Buffer Level of 15.00%, the investor receives a payment at maturity of \$150.00 per BUyS face amount calculated as follows:

$$\text{Payment at maturity} = \$1,000.00 + [\$1,000.00 \times (-100.00\% + 15.00\%)] = \$150.00$$

What is the Payment at Maturity on the BUyS for Three Hypothetical Scenarios?

The table and calculations below illustrates the hypothetical payment at maturity per \$1,000 BUyS face amount for three hypothetical scenarios and assumes Initial Index Levels of 890.00 for the S&P 500® Index, 470.00 for the Russell 2000® Index, 510.00 for the S&P MidCap 400® Index and 1,140.00 for the MSCI EAFE® Index. The actual Initial Index Levels will be set on Trade Date. The scenarios illustrate how, even where there is a positive return on one Basket Index, negative returns on other Basket Indices may outweigh the positive return and the return on the BUyS may be negative. The following results are based solely on the hypothetical examples cited. You should consider carefully whether the BUyS are suitable to your investment goals. The numbers appearing in the table below have been rounded for ease of analysis.

Scenario 1				
Basket Index	S&P 500® Index	S&P MidCap 400® Index	Russell 2000® Index	MSCI EAFE® Index
Initial Index Level	890.00	510.00	470.00	1,140.00
Final Index Level	1,229.36	805.60	412.66	1,574.34
Basket Index Return	38.13%	57.96%	-12.20%	38.10%
Index Weighting	40.00%	25.00%	25.00%	10.00%
Contribution to Basket	15.25%	14.49%	-3.05%	3.81%
Final Basket Level	130.50			
Percentage Change in Basket Level	30.50%			
Basket Return	20.50%			
Payment at Maturity	\$1,307.50			
Scenario 2				
Basket Index	S&P 500® Index	S&P MidCap 400® Index	Russell 2000® Index	MSCI EAFE® Index
Initial Index Level	890.00	510.00	470.00	1,140.00
Final Index Level	611.88	267.75	517.00	784.32
Basket Index Return	-31.25%	-47.52%	10.00%	-31.20%
Index Weighting	40.00%	25.00%	25.00%	10.00%
Contribution to Basket	-12.50%	-11.88%	2.50%	-3.12%
Final Basket Level	75.00			
Percentage Change in Basket Level	-25.00%			
Basket Return	-25.00%			
Payment at Maturity	\$900.00			
Scenario 3				
Basket Index	S&P 500® Index	S&P MidCap 400® Index	Russell 2000® Index	MSCI EAFE® Index
Initial Index Level	890.00	510.00	470.00	1,140.00
Final Index Level	723.13	364.55	498.20	926.85
Basket Index Return	-18.75%	-28.52%	6.00%	-18.70%
Index Weighting	40.00%	25.00%	25.00%	10.00%
Contribution to Basket	-7.50%	-7.13%	1.50%	-1.87%
Final Basket Level	85.00			
Percentage Change in Basket Level	-15.00%			
Basket Return	-15.00%			
Payment at Maturity	\$1,000.00			

The following hypothetical examples illustrate how the payments at maturity set forth in the table above are calculated.

Scenario 1: Scenario 1 assumes hypothetical index returns of 38.13%, 57.96%, -12.20% and 38.10% for the the S&P 500® Index, the S&P MidCap 400® Index, the Russell 2000® Index and the MSCI EAFE® Index respectively. The Basket Return is calculated as follows:

$$\begin{aligned}
 \text{Final Basket Level} &= 100 \times [1 + (\text{S\&P 500}^\circ \text{ Index Return} \times \text{S\&P 500}^\circ \text{ Index Weighting}) + \\
 &\quad (\text{Russell 2000}^\circ \text{ Index Return} \times \text{Russell 2000}^\circ \text{ Index Weighting}) + \\
 &\quad (\text{S\&P MidCap 400}^\circ \text{ Index Return} \times \text{S\&P MidCap 400}^\circ \text{ Index Weighting}) + (\text{MSCI EAFE}^\circ \text{ Index Return} \times \text{MSCI EAFE}^\circ \text{ Index Weighting})] \\
 &= 100 \times [1 + (38.13 \times 40.00\%) + (57.96 \times 25.00\%) + (-12.20 \times 25.00\%) + \\
 &\quad (38.10 \times 10.00\%)] \\
 &= 130.50
 \end{aligned}$$

Because the Final Basket Level of 130.50 is greater than the Initial Basket Level of 100 and the Basket Return is limited to the Basket Return Cap, the investor receives a payment at maturity of \$1,307.50 per \$1,000 Security face amount, which is subject to the Maximum Return on the BUyS as follows:

$$\begin{aligned}
 \text{Payment at Maturity} &= \$1,000 + (\$1,000 \times \text{Basket Return} \times \text{Participation Rate}), \text{ subject to the Maximum Return} \\
 &= \$1,000 + (\$1,000 \times 20.50\% \times 150.00\%) \\
 &= \$1,307.50
 \end{aligned}$$

Scenario 2: Scenario 2 assumes hypothetical index returns of -31.25%, -47.52%, 10.00% and -31.20% for the the S&P 500® Index, the S&P MidCap 400® Index, the Russell 2000® Index and the MSCI EAFE® Index respectively. The Basket Return is calculated as follows:

$$\begin{aligned}
 \text{Final Basket Level} &= 100 \times [1 + (\text{S\&P 500}^\circ \text{ Index Return} \times \text{S\&P 500}^\circ \text{ Index Weighting}) + \\
 &\quad (\text{Russell 2000}^\circ \text{ Index Return} \times \text{Russell 2000}^\circ \text{ Index Weighting}) + \\
 &\quad (\text{S\&P MidCap 400}^\circ \text{ Index Return} \times \text{S\&P MidCap 400}^\circ \text{ Index Weighting}) + (\text{MSCI EAFE}^\circ \text{ Index Return} \times \text{MSCI EAFE}^\circ \text{ Index Weighting})] \\
 &= 100 \times [1 + (-31.25 \times 40.00\%) + (-47.52 \times 25.00\%) + (10.00 \times 25.00\%) + \\
 &\quad (-31.20 \times 10.00\%)] \\
 &= 75.00
 \end{aligned}$$

Because the Final Basket Level of 75.00 is less than the Initial Basket Level of 100, and Final Basket Level has declined from the Initial Basket Level by more than the Buffer Level of 10%, the investor will receive a payment at maturity of \$900.00 per \$1,000 Security face amount calculated as follows:

$$\begin{aligned}
 \text{Payment at Maturity} &= \$1,000 + (\$1,000 \times (\text{Basket Return} + \text{Buffer Level})) \\
 &= \$1,000 + (\$1,000 \times (-25.00\% + 15.00\%)) \\
 &= \$900.00
 \end{aligned}$$

In this example, even though the Russell 2000® Index is positive, the negative returns on the other Basket Indices outweigh the positive return on the Russell 2000® Index and the Basket Return is less than -15.00%. As a result, the return on the BUyS is negative.

Scenario 3: Scenario 3 assumes hypothetical index returns of -18.75%, -28.52%, 6.00% and -18.70% for the the S&P 500® Index, the S&P MidCap 400® Index, the Russell 2000® Index and the MSCI EAFE® Index respectively. The Basket Return is calculated as follows:

$$\begin{aligned}
 \text{Final Basket Level} &= 100 \times [1 + (\text{S\&P 500}^\circ \text{ Index Return} \times \text{S\&P 500}^\circ \text{ Index Weighting}) + \\
 &\quad (\text{Russell 2000}^\circ \text{ Index Return} \times \text{Russell 2000}^\circ \text{ Index Weighting}) + \\
 &\quad (\text{S\&P MidCap 400}^\circ \text{ Index Return} \times \text{S\&P MidCap 400}^\circ \text{ Index Weighting}) + (\text{MSCI EAFE}^\circ \text{ Index Return} \times \text{MSCI EAFE}^\circ \text{ Index Weighting})] \\
 &= 100 \times [1 + (-18.75 \times 40.00\%) + (-28.52 \times 25.00\%) + (6.00 \times 25.00\%) + \\
 &\quad (-18.70 \times 10.00\%)] \\
 &= 85.00
 \end{aligned}$$

Because the Final Basket Level of 85.00 is less than the Initial Basket Level of 100, and the Final Basket Level has declined from the Initial Basket Level by less than the Buffer Level of 15.00%, the investor receives a payment at maturity of \$1,000 per \$1,000 security face amount.

Selected Purchase Considerations

- **THE APPRECIATION POTENTIAL OF THE BUYS IS LIMITED** – You will not benefit from any appreciation of the Basket beyond the Basket Return Cap of between 19.00% and 22.00% (to be determined on the Trade Date), and therefore the maximum payment you can receive is between \$1,285.00 and \$1,330.00 (to be determined on the Trade Date) for each \$1,000 face amount of BUyS. Because the BUyS are our senior obligations, payment of any amount at maturity is subject to our ability to pay our obligations as they become due.
- **LIMITED PROTECTION AGAINST LOSS** – Payment at maturity of the face amount of your BUyS is protected against a decline in the Final Basket Level, as compared to the Initial Basket Level, of up to the Buffer Level, subject to our ability to pay our obligations as they become due. If such decline is more than the Buffer Level of 15.00%, for every 1% decline beyond the Buffer Level, you will lose an amount equal to 1% of the face amount of your BUyS. For example, a Basket Return of -25.00% will result in a 10% loss of your initial investment.
- **RETURN LINKED TO THE PERFORMANCE OF A WEIGHTED BASKET OF INDICES** – The return on the BUyS, which may be positive or negative, is linked to a basket consisting of the S&P 500® Index, the Russell 2000® Index, the S&P MidCap 400® Index and the MSCI EAFE® Index.

The S&P 500® Index

The S&P 500® Index is intended to provide a performance benchmark for the U.S. equity markets. The calculation of the level of the S&P 500® Index is based on the relative value of the aggregate market value of the common stocks of 500 companies as of a particular time as compared to the aggregate average market value of the common stocks of 500 similar companies during the base period of the years 1941 through 1943. *This is just a summary of the S&P 500® Index. For more information on the S&P 500® Index, including information concerning its composition, calculation methodology and adjustment policy, please see the section entitled “The S&P Indices – The S&P 500 Index” in the accompanying underlying supplement no. 17 dated August 11, 2008.*

The Russell 2000® Index

The Russell 2000® Index is designed to track the performance of the small capitalization segment of the U.S. equity market. The Russell 2000® Index measures the composite price performance of stocks of approximately 2,000 companies domiciled in the U.S. and its territories and consists of the smallest 2,000 companies included in the Russell 3000® Index. The Russell 2000® Index represents approximately 10% of the total market capitalization of the Russell 3000® Index. *This is just a summary of the Russell 2000® Index. For more information on the Russell 2000® Index, including information concerning its composition, calculation methodology and adjustment policy, please see the section entitled "The Russell Indices – Russell 2000® Index" in the accompanying underlying supplement no. 17 dated August 11, 2008.*

The S&P MidCap 400® Index

The S&P MidCap 400® Index is intended to provide a benchmark for performance measurement of the medium capitalization segment of the U.S. equity markets. It tracks the stock price movement of 400 companies with mid-sized market capitalizations, primarily ranging from \$1.5 billion to \$5.5 billion. *This is just a summary of the S&P MidCap 400® Index. For more information on the S&P MidCap 400® Index, including information concerning its composition, calculation methodology and adjustment policy, please see the section entitled "The S&P Indices – The S&P MidCap 400® Index" in the accompanying underlying supplement no. 17 dated August 11, 2008.*

The MSCI EAFE® Index

The MSCI EAFE® Index was developed by Morgan Stanley Capital International Inc. ("MSCI") and is calculated, maintained and published daily by MSCI, through numerous data vendors, on the MSCI website and every 60 seconds during market trading hours on Bloomberg Financial Markets and Reuters Limited. The MSCI EAFE® Index is intended to provide performance benchmarks for 21 developed equity markets in Europe, Australasia and the Far East, namely those of Australia, New Zealand, Austria, Belgium, Denmark, Finland, France, Germany, Greece, Hong Kong, Ireland, Italy, Japan, the Netherlands, Norway, Portugal, Singapore, Spain, Sweden, Switzerland and the United Kingdom. *This is just a summary of the MSCI EAFE® Index. For more information on the MSCI EAFE® Index, including information concerning its composition, calculation methodology and adjustment policy, please see the section entitled "The MSCI Indices – The MSCI EAFE® Index" in the accompanying underlying supplement no. 17 dated August 11, 2008.*

- **CERTAIN TAX CONSEQUENCES** – You should review carefully the section of the accompanying product supplement entitled "Certain U.S. Federal Income Tax Consequences." Although the tax consequences of an investment in the BUyS are uncertain, we believe it is reasonable to treat the BUyS as prepaid financial contracts for U.S. federal income tax purposes. Based on current law, under this treatment you should not be required to recognize taxable income prior to the maturity of your BUyS, other than pursuant to a sale or exchange, and your gain or loss on the BUyS should be long-term capital gain or loss if you hold the BUyS for more than one year. If, however, the Internal Revenue Service (the "IRS") were successful in asserting an alternative treatment for the BUyS, the timing and/or character of income on the BUyS might differ materially and adversely from the description herein. We do not plan to request a ruling from the IRS, and no assurance can be given that the IRS or a court will agree with the tax treatment described in this term sheet and the accompanying product supplement.

On December 7, 2007, the Department of the Treasury (“**Treasury**”) and the IRS released a notice requesting comments on various issues regarding the U.S. federal income tax treatment of “prepaid forward contracts” and similar instruments, such as the BUyS. The notice focuses in particular on whether to require holders of these instruments to accrue income over the term of their investment. It also asks for comments on a number of related topics, including the character of income or loss with respect to these instruments; the relevance of factors such as the nature of the underlying property to which the instruments are linked; the degree, if any, to which income (including any mandated accruals) realized by non-U.S. holders should be subject to withholding tax; and whether these instruments are or should be subject to the “constructive ownership” regime, which very generally can operate to recharacterize certain long-term capital gain as ordinary income that is subject to an interest charge. While the notice requests comments on appropriate transition rules and effective dates, any Treasury regulations or other guidance promulgated after consideration of these issues could materially and adversely affect the tax consequences of an investment in the BUyS, possibly with retroactive effect.

Under current law, the United Kingdom will not impose withholding tax on payments made with respect to the BUyS.

For a discussion of certain German tax considerations relating to the BUyS, you should refer to the section in the accompanying prospectus supplement entitled “Taxation by Germany of Non-Resident Holders.”

We do not provide any advice on tax matters. Both U.S. and non-U.S. holders should consult their tax advisers regarding all aspects of the U.S. federal tax consequences of investing in the BUyS (including possible alternative treatments and the issues presented by the December 7, 2007 notice), as well as any tax consequences arising under the laws of any state, local or non-U.S. taxing jurisdiction.

Selected Risk Considerations

An investment in the BUyS involves significant risks. Investing in the BUyS is not equivalent to investing directly in the Basket Indices or in any of the components underlying the Basket Indices. These risks are explained in more detail in the “Risk Factors” section of the accompanying product supplement.

- **YOUR INVESTMENT IN THE BUYS IS PROTECTED ONLY TO THE EXTENT OF THE BUFFER LEVEL, SUBJECT TO OUR CREDITWORTHINESS** – The BUyS do not guarantee any return of your initial investment in excess of \$150.00 per \$1,000 BUyS face amount. The return on the BUyS at maturity is linked to the performance of the Basket and will depend on whether, and the extent to which, the Basket Return is positive or negative. Your investment will be exposed to any decline in the Final Basket Level, as compared to the Initial Basket Level, beyond the Buffer Level. **Accordingly, you could lose up to \$850.00 for each \$1,000 that you invest. Payment of any amount at maturity is subject to our ability to meet our obligations as they become due.**
- **THE RETURN ON YOUR BUYS IS LIMITED BY THE BASKET RETURN CAP** – As a holder of the BUyS, you will not benefit from any appreciation of the Basket beyond the Basket Return Cap of between 19.00% and 22.00% (to be determined on the Trade Date). Consequently, the BUyS are subject to a Maximum Return of between 28.50% and 33.00% (to be determined on the Trade Date) and your payment at maturity will be

limited to a maximum payment of between \$1,285.00 and \$1,330.00 for each \$1,000 face amount of BUyS you hold, regardless of any further appreciation of the Basket, which may be significant.

- **ASSUMING NO CHANGES IN MARKET CONDITIONS OR ANY OTHER RELEVANT FACTORS, THE MARKET VALUE OF THE BUYS ON THE SETTLEMENT DATE (AS DETERMINED BY DEUTSCHE BANK AG) WILL BE LESS THAN THE ORIGINAL ISSUE PRICE** – While the payment at maturity described in this term sheet is based on the full face amount of your BUyS, the original issue price of the BUyS includes the agents' commission and the cost of hedging our obligations under the BUyS through one or more of our affiliates. Therefore, the market value of the BUyS on the Settlement Date, assuming no changes in market conditions or other relevant factors, will be less than the original issue price. The inclusion of commissions and hedging costs in the original issue price will also decrease the price, if any, at which we will be willing to purchase the BUyS after the Settlement Date, and any sale on the secondary market could result in a substantial loss to you. Our hedging costs include the projected profit that we or our affiliates are expected to realize in consideration for assuming the risks inherent in managing the hedging transactions. The BUyS are not designed to be short-term trading instruments. Accordingly, you should be willing and able to hold your BUyS to maturity.
- **THE BUYS WILL NOT BE LISTED AND THERE WILL LIKELY BE LIMITED LIQUIDITY** – The BUyS will not be listed on any securities exchange. Deutsche Bank AG or its affiliates intend to offer to purchase the BUyS in the secondary market but are not required to do so and may cease such market-making activities at any time. Even if there is a secondary market, it may not provide enough liquidity to allow you to trade or sell the BUyS easily. Because other dealers are not likely to make a secondary market for the BUyS, the price at which you may be able to trade your BUyS is likely to depend on the price, if any, at which Deutsche Bank AG or its affiliates are willing to buy the BUyS.
- **CHANGES IN THE VALUE OF THE BASKET INDICES MAY OFFSET EACH OTHER** – Price movements in the Basket Indices may not correlate with each other. At a time when the levels of some of the Basket Indices increase, the levels of other Basket Indices may not increase as much or may decline. Therefore, in calculating the Basket Return, increases in the level of one or more of the Basket Indices may be moderated, offset or more than offset by lesser increases or declines in the levels of the other Basket Indices.
- **THE BASKET INDICES ARE UNEQUALLY WEIGHTED** – The Basket Indices are unequally weighted. Accordingly, performances by the Basket Indices with higher weightings will influence the Final Basket Level and therefore the Basket Return to a greater degree than the performances of Basket Indices with lower weightings. If one or more of the Basket Indices with higher weightings perform poorly, that poor performance could negate or diminish the effect on the Final Basket Level of any positive performance by the lower weighted Basket Indices.
- **NO COUPON OR DIVIDEND PAYMENTS OR VOTING RIGHTS** – As a holder of the BUyS, you will not receive coupon payments, and you will not have voting rights or rights to receive cash dividends or other distributions or other rights that holders of the component stocks underlying the Basket Indices would have.
- **THE BUYS ARE SUBJECT TO OUR CREDITWORTHINESS** – An actual or anticipated downgrade in our credit rating will likely have an adverse effect on the market value of the BUyS. The payment at maturity on the BUyS is subject to our creditworthiness.

- **WE AND OUR AFFILIATES AND AGENTS MAY PUBLISH RESEARCH, EXPRESS OPINIONS OR PROVIDE RECOMMENDATIONS THAT ARE INCONSISTENT WITH INVESTING IN OR HOLDING THE BUYS. ANY SUCH RESEARCH, OPINIONS OR RECOMMENDATIONS COULD AFFECT THE LEVEL OF THE BASKET TO WHICH THE BUYS ARE LINKED OR THE MARKET VALUE OF THE BUYS** – Deutsche Bank AG, its affiliates and agents publish research from time to time on financial markets and other matters that may influence the value of the BUyS, or express opinions or provide recommendations that are inconsistent with purchasing or holding the BUyS. Deutsche Bank AG, its affiliates and agents may have published research or other opinions that are inconsistent with the investment view implicit in the BUyS. Any research, opinions or recommendations expressed by Deutsche Bank AG, its affiliates or agents may not be consistent with each other and may be modified from time to time without notice. Investors should make their own independent investigation of the merits of investing in the BUyS and each Basket Index to which the BUyS are linked.
- **OUR ACTIONS AS CALCULATION AGENT AND OUR HEDGING ACTIVITY MAY ADVERSELY AFFECT THE VALUE OF THE BUYS** – We and our affiliates play a variety of roles in connection with the issuance of the BUyS, including acting as calculation agent and hedging our obligations under the BUyS. In performing these duties, the economic interests of the calculation agent and other affiliates of ours are potentially adverse to your interests as an investor in the BUyS.
- **MANY ECONOMIC AND MARKET FACTORS WILL AFFECT THE VALUE OF THE BUYS** – In addition to the levels of the Basket Indices on any day, the value of the BUyS will be affected by a number of complex and interrelated economic and market factors that may either offset or magnify each other, including:
 - the expected volatility of each Basket Index;
 - the time remaining to maturity of the BUyS;
 - the market price and dividend rate on the component stocks underlying each Basket Index;
 - interest and yield rates in the market generally and in the markets of the component stocks underlying each Basket Index;
 - a variety of economic, financial, political, regulatory or judicial events;
 - the composition of the Basket Indices and any changes to the component stocks underlying the Basket Indices;
 - supply and demand for the BUyS; and
 - our creditworthiness, including actual or anticipated downgrades in our credit ratings.
- **CURRENCY EXCHANGE RISK** – The prices of the stocks underlying the MSCI EAFE® Index are converted into U.S. dollars in calculating the level of the MSCI EAFE® Index. As a result, the holders of the BUyS will be exposed to currency exchange risk with respect to each of the currencies in which the equity securities underlying the MSCI EAFE® Index trade. Currency markets may be highly volatile, particularly in relation to emerging or developing nations' currencies and, in certain market conditions, also in relation to developed nations' currencies. Significant changes, including changes in liquidity and prices, can occur in such markets within very short periods of time. Foreign currency rate risks include, but are not limited to, convertibility risk and market volatility and potential interference by foreign governments through regulation of local markets,

foreign investment or particular transactions in foreign currency. These factors may adversely affect the values of the component stocks underlying the MSCI EAFE® Index, and the value of your BUyS.

- **NON-U.S. SECURITIES MARKETS RISKS** – The stocks included in the MSCI EAFE® Index are issued by foreign companies in foreign securities markets. These stocks may be more volatile and may be subject to different political, market, economic, exchange rate, regulatory and other risks which may have a negative impact on the performance of the BUyS.
- **THE U.S. FEDERAL INCOME TAX CONSEQUENCES OF AN INVESTMENT IN A BUYS ARE UNCLEAR** – There is no direct legal authority regarding the proper U.S. federal income tax treatment of the BUyS, and we do not plan to request a ruling from the IRS. Consequently, significant aspects of the tax treatment of the BUyS are uncertain, and no assurance can be given that the IRS or a court will agree with the treatment of the BUyS as prepaid financial contracts. If the IRS were successful in asserting an alternative treatment for the BUyS, the timing and/or character of income thereon might differ materially and adversely from the description herein. As described above under “Certain Tax Consequences,” on December 7, 2007, Treasury and the IRS released a notice requesting comments on various issues regarding the U.S. federal income tax treatment of “prepaid forward contracts” and similar instruments, such as the BUyS. Any Treasury regulations or other guidance promulgated after consideration of these issues could materially and adversely affect the tax consequences of an investment in the BUyS, possibly with retroactive effect. Both U.S. and non-U.S. holders should review carefully the section of the accompanying product supplement entitled “Certain U.S. Federal Income Tax Consequences,” and consult their tax advisers regarding the U.S. federal income tax consequences of an investment in the BUyS (including possible alternative treatments and the issues presented by the December 7, 2007 notice), as well as any tax consequences arising under the laws of any state, local or non-U.S. taxing jurisdiction.

The BUyS may be suitable for you if:

- You seek an investment with a return linked to the performance of the Basket;
- You are willing to invest in the BUyS based on the Participation Rate, indicated Basket Return Cap (the actual Basket Return Cap will be set on the Trade Date) and Buffer Level;
- You are willing to lose up to 85.00% of your initial investment, subject to our creditworthiness;
- You are willing and able to hold the BUyS to maturity;
- You are willing to accept our credit risk; and
- You do not seek current income from this investment.

The BUyS may *not* be suitable for you if:

- You do not seek an investment with exposure to the Basket;
- You are unwilling or unable to hold the BUyS to maturity;
- You seek an investment that is protected against the loss of your initial investment beyond the Buffer Level;
- You are not willing to be exposed to our credit risk;
- You seek current income from your investments; or
- You seek an investment for which there will be an active secondary market.

Historical Information

The following graphs show the historical performance of each of the Basket Indices from January 1, 2003 through November 26, 2008. The closing level of the S&P 500® Index on November 26, 2008 was 887.68. The closing level of the Russell 2000® Index on November 26, 2008 was 468.86. The closing level of the S&P MidCap 400® Index on November 26, 2008 was 509.48. The closing level of the MSCI EAFE® Index on November 26, 2008 was 1,141.11. The fifth graph shows the retrospective performance of the Basket, calculated by setting the level of the basket on November 26, 2008 equal to 100.

We obtained the various Basket Index closing levels below from Bloomberg Financial Markets. We make no representation or warranty as to the accuracy or completeness of the information obtained from Bloomberg Financial Markets. **The historical levels of each Basket Index should not be taken as an indication of future performance, and no assurance can be given as to the Final Basket Level of the Basket or Basket Return. We cannot give you assurance that the performance of the Basket will result in the return of your initial investment in excess of the Buffer Level.**

Supplemental Underwriting Information

Deutsche Bank Securities Inc. and Deutsche Bank Trust Company Americas, acting as agents for Deutsche Bank AG, will not receive a commission in connection with the sale of the BUyS. Deutsche Bank Securities Inc. and other agents may pay referral fees to other broker-dealers of up to 0.50% or \$5.00 per \$1,000 BUyS face amount. Deutsche Bank Securities Inc. may pay custodial fees to other broker-dealers of up to 0.25% or \$2.50 per \$1,000 BUyS face amount. See "Underwriting" in the accompanying product supplement.

Settlement

We expect to deliver the BUyS against payment for the BUyS on the Settlement Date indicated above, which may be a date that is greater than three business days following the Trade Date. Under Rule 15c6-1 of the Securities Exchange Act of 1934, as amended, trades in the secondary market generally are required to settle in three business days, unless the parties to a trade expressly agree otherwise. Accordingly, purchasers who wish to transact in securities more than three business days prior to the original issue date will be required to specify alternative settlement arrangements to prevent a failed settlement if the securities are to be issued more than three business days after the Trade Date.
