This prospectus is to be used only by affiliates of Citizens Financial Group, Inc. (collectively, “Citizens”) and their respective clients. The funds are sold exclusively to Citizens and certain other institutions, acting for themselves, or in a fiduciary, advisory, agency, brokerage, custodial or similar capacity. Shares of the funds may not be purchased directly by individuals. See “Account Policies” for more information.

The Funds

INTRODUCTION

Each fund is a money market mutual fund with a separate investment portfolio. The operations and results of one fund are unrelated to those of the other fund. This combined prospectus has been prepared for the convenience of investors so that investors can consider two investment choices in one document.

As a money market fund, each fund is subject to maturity, quality and diversification requirements designed to help it maintain a stable share price.

Generally, each fund is required to invest at least 95% of its assets in the securities of issuers with the highest credit rating, with the remainder invested in securities with the second-highest credit rating, or the unrated equivalent as determined by the investment adviser. CitizensSelect Prime Money Market Fund intends to purchase only securities with the highest credit rating, or the unrated equivalent. CitizensSelect Treasury Money Market Fund will purchase only U.S. government securities.

An investment in a fund is not insured or guaranteed by the Federal Deposit Insurance Corporation (FDIC) or any other government agency. Although each fund seeks to preserve the value of a shareholder's investment at \$1.00 per share, it is possible to lose money by investing in a fund.

Concepts to understand

Money market fund: a specific type of fund that seeks to maintain a \$1.00 price per share. Money market funds are subject to strict federal requirements and must:

- maintain an average dollar-weighted portfolio maturity of 90 days or less
- buy individual securities that have remaining maturities of 13 months or less
- invest only in high quality, dollar-denominated obligations

Credit rating: a measure of the issuer's expected ability to make all required interest and principal payments in a timely manner. An issuer with the highest credit rating has a very strong degree of certainty (or safety) with respect to making all payments. An issuer with the second-highest credit rating has a strong capacity to make all payments, but the degree of safety is somewhat less.

CITIZENSSELECT PRIME MONEY MARKET FUND

GOAL/APPROACH

The fund seeks as high a level of current income as is consistent with the preservation of capital and the maintenance of liquidity. To pursue this goal, the fund invests in a diversified portfolio of high quality, short-term debt securities, including:

- securities issued or guaranteed by the U.S. government or its agencies or instrumentalities
- certificates of deposit, time deposits, bankers' acceptances, and other short-term securities issued by domestic or foreign banks or their subsidiaries or branches
- repurchase agreements, including tri-party repurchase agreements
- asset-backed securities
- high grade commercial paper, and other short-term corporate obligations, including those with floating or variable rates of interest

Normally, the fund invests at least 25% of its net assets in bank obligations.

MAIN RISKS

The fund's yield will fluctuate as the short-term securities in its portfolio mature and the proceeds are reinvested in securities with different interest rates.

While the fund has maintained a constant share price since inception, and will continue to try to do so, the following factors could reduce the fund's income level and/or share price:

- interest rates could rise sharply, causing the value of the fund's investments and its share price to drop
- interest rates could drop, thereby reducing the fund's yield
- any of the fund's holdings could have its credit rating downgraded or could default
- the risks generally associated with concentrating investments in the banking industry, such as interest rate risk, credit risk and regulatory developments relating to the banking industry
- the risk that a counterparty in a repurchase agreement could fail to honor the terms of its agreement.

Concepts to understand

Repurchase agreement: a U.S. commercial bank or securities dealer sells securities, typically U.S. government securities, to the fund and agrees to repurchase them at an agreed-upon date (usually the next day) and price. These agreements offer the fund a means of investing money for a short period of time.

PAST PERFORMANCE

The bar chart and table shown illustrate the risks of investing in Class A shares of the fund. The bar chart shows the performance of the fund's Class A shares from year to year. The table shows the average annual total returns for the fund's Class A shares over time. All returns assume reinvestment of dividends and distributions. Of course, past performance is no guarantee of future results.

Year-by-year total returns *as of 12/31 each year (%)*

The year-to-date total return for the fund's Class A shares as of 6/30/05 was 1.27%.

Average annual total returns *as of 12/31/04*

1 Year	Since inception (5/1/02)
1.22%	1.22%

For the fund's current 7-day yield, call toll-free: **1-800-242-2224.**

What the fund is – and isn't

The fund is a mutual fund: a pooled investment that is professionally managed and gives an investor the opportunity to participate in financial markets. It strives to reach its stated goal, although as with all mutual funds, it cannot offer guaranteed results.

An investment in the fund is not a bank deposit. It is not insured or guaranteed by the FDIC or any other government agency. It is not a complete investment program. An investor could lose money in the fund, but also has the potential to make money.

EXPENSES

Investors pay certain fees and expenses in connection with the fund, which are described for Class A shares in the table below. Annual fund operating expenses are paid out of fund assets, so their effect is included in the share price.

Fee table	
Annual fund operating expenses	
<i>% of average daily net assets</i>	
Management fees	0.10%
Rule 12b-1 fee	None
Other expenses	0.10%
Total	0.20%

Expense example			
1 Year	3 Years	5 Years	10 Years
\$20	\$64	\$113	\$255
This example shows what an investor could pay in expenses over time. It uses the same hypothetical conditions other funds use in their prospectuses: \$10,000 initial investment, 5% total return each year and no changes in expenses. The figures shown would be the same whether investors sold their shares at the end of a period or kept them. Because actual returns and expenses will be different, the example is for comparison only.			

Concepts to understand

Management fee: the fee paid to the investment adviser for managing the fund's portfolio and assisting in all aspects of the fund's operations.

From time to time, the investment adviser may limit expenses to the extent it deems appropriate to enhance the yield of the fund, or a particular class of the fund, during periods when fixed expenses have a significant impact on the yield of the fund, or a particular class of the fund, as applicable, because of low interest rates. This expense limitation policy is voluntary and temporary and may be revised or terminated by the investment adviser at any time without notice.

Other expenses: these expenses include an omnibus account services fee of 0.10% payable to Citizens or other institutions for providing certain services to beneficial owners of fund shares.

CITIZENSSELECT TREASURY MONEY MARKET FUND

GOAL/APPROACH

The fund seeks as high a level of current income as is consistent with the preservation of capital and the maintenance of liquidity.

To pursue this goal, the fund only invests in securities issued or guaranteed as to principal and interest by the U.S. government.

MAIN RISKS

The fund's yield will fluctuate as the short-term securities in its portfolio mature and the proceeds are reinvested in securities with different interest rates.

A security backed by the U.S. Treasury or the full faith and credit of the United States is guaranteed only as to the timely payment of interest and principal when held to maturity. The market prices for such securities are not guaranteed and will fluctuate.

While the fund has maintained a constant share price since inception, and will continue to try to do so, the fund is subject to the risk that interest rates could rise sharply, causing the value of the fund's investments and its share price to drop.

PAST PERFORMANCE

The bar chart and table shown illustrate the risks of investing in Class A shares of the fund. The bar chart shows the performance of the fund's Class A shares from year to year. The table shows the average annual total returns for the fund's Class A shares over time. All returns assume reinvestment of dividends and distributions. Of course, past performance is no guarantee of future results.

The year-to-date total return for the fund's Class A shares as of 6/30/05 was 1.14%.

Average annual total returns *as of 12/31/04*

1 Year	Since inception (5/1/02)
1.03%	1.08%

For the fund's current 7-day yield, call toll-free: **1-800-242-2224.**

Other expenses: these expenses include an omnibus account services fee of 0.10% payable to Citizens or other institutions for providing certain services to beneficial owners of fund shares.

MANAGEMENT

Investment adviser

The investment adviser for each fund is The Dreyfus Corporation (Dreyfus), 200 Park Avenue, New York, New York 10166. Founded in 1947, Dreyfus manages one of the nation's leading mutual fund complexes, with approximately \$168 billion in approximately 200 mutual fund portfolios. For the past fiscal year, CitizensSelect Prime Money Market Fund paid Dreyfus a management fee at the annual rate of 0.10% of the fund's average daily net assets, and CitizensSelect Treasury Money Market Fund paid Dreyfus a management fee at the annual rate of 0.10% of the fund's average daily net assets.

In early 2004, two purported class and derivative actions were filed against Mellon Financial, Mellon Bank, N.A., Dreyfus, Founders Asset Management LLC, and certain directors of the Dreyfus Funds and the Dreyfus Founders Funds (together, the Funds) in the United States District Court for the Western District of Pennsylvania. In September 2004, plaintiffs served a Consolidated Amended Complaint (the Amended Complaint) on behalf of a purported class of all persons who acquired interests in any of the Funds between January 30, 1999 and November 17, 2003, and derivatively on behalf of the Funds. The Amended Complaint in the newly styled *In re Dreyfus Mutual Funds Fee Litigation* also named Dreyfus Service Corporation, Premier Mutual Fund Services, Inc. and two additional Fund directors as defendants and alleges violations of the Investment Company Act of 1940, the Investment Advisers Act of 1940, the Pennsylvania Unfair Trade Practices and Consumer Protection Law and common-law claims. Plaintiffs seek to recover allegedly improper and excessive Rule 12b-1 and advisory

fees allegedly charged to the Funds for marketing and distribution services. More specifically, plaintiffs claim, among other things, that 12b-1 fees and directed brokerage were improperly used to pay brokers to recommend the Funds over other funds, and that such payments were not disclosed to investors. In addition, plaintiffs assert that economies of scale and soft-dollar benefits were not passed on to the Funds. Plaintiffs further allege that 12b-1 fees were improperly charged to certain of the Funds that were closed to new investors. The Amended Complaint seeks compensatory and punitive damages, rescission of the advisory contracts, and an accounting and restitution of any unlawful fees, as well as an award of attorneys' fees and litigation expenses. As noted, some of the claims in this litigation are asserted derivatively on behalf of the Funds that have been named as nominal defendants. With respect to such derivative claims, no relief is sought against the Funds. Dreyfus believes the allegations to be totally without merit and intends to defend the action vigorously. In November 2004, all named defendants moved to dismiss the Amended Complaint in whole or substantial part. Briefing was completed in May 2005.

Additional lawsuits arising out of these circumstances and presenting similar allegations and requests for relief may be filed against the defendants in the future. Neither Dreyfus nor the Funds believe that any of the pending actions will have a material adverse effect on the Funds or Dreyfus' ability to perform its contract with the Funds.

Distributor

Each fund's distributor is Dreyfus Service Corporation (DSC), a wholly-owned subsidiary of Dreyfus. Dreyfus or DSC may provide additional cash payments out of its own resources to financial intermediaries that sell shares of the funds or provide other services. These additional payments may be made to intermediaries, including affiliates, that provide shareholder servicing, sub-administration, recordkeeping and/or sub-transfer agency services, marketing support and/or access to sales meetings, sales representatives and management representatives of the financial intermediary. Cash compensation also may be paid to intermediaries for inclusion of the funds on a sales list, including a preferred or select sales list or in other sales programs. These payments sometimes are referred to as "revenue sharing." In some cases, these payments may create an incentive for a financial intermediary or its employees to recommend or sell shares of a fund to you. Please contact your financial representative for details about any payments they or their firm may receive in connection with the sale of fund shares or the provision of services to the funds.

From time to time, Dreyfus or DSC also may provide cash or non-cash compensation to financial intermediaries or their representatives in the form of occasional gifts; occasional meals, tickets or other entertainment; support for due diligence trips; educational conference sponsorship; support for recognition programs; and other forms of cash or non-cash compensation permissible under broker-dealer regulations, as periodically amended.

Code of ethics

The funds, Dreyfus and the distributor have each adopted a code of ethics that permits its personnel, subject to such code, to invest in securities, including securities that may be purchased or held by each fund. Dreyfus' code of ethics restricts the personal securities transactions of its employees, and requires portfolio managers and other investment personnel to comply with the code's preclearance and disclosure procedures. The primary purpose of the code is to ensure that personal trading by employees of Dreyfus does not disadvantage any fund managed by Dreyfus.

FINANCIAL HIGHLIGHTS

The following tables describe the performance of each fund's Class A shares for the fiscal periods indicated. "Total return" shows how much your investment in each fund would have increased (or decreased) during each period assuming you had

reinvested all dividends and distributions. These figures have been independently audited by Ernst & Young LLP, whose report, along with the fund's financial statements, is included in the annual report, which is available upon request.

Account Information

ACCOUNT POLICIES

Each fund is sold exclusively to Citizens and certain other institutional investors, acting for themselves, or in a fiduciary, advisory, agency, brokerage, custodial or similar capacity. Fund shares may not be purchased directly by individuals, although Citizens, and certain other approved institutions, may purchase shares for accounts maintained by individuals. Generally, investors will be required to open a single master account with the fund for all purposes. In certain cases, the fund may require investors to maintain separate master accounts for shares held by the investor (i) for its own account, for the account of other institutions and for accounts for which the institution acts as a fiduciary, and (ii) for accounts for which the investor acts in some other capacity. Each fund offers four classes of shares in separate prospectuses. Individuals or entities for whom Citizens purchases fund shares should consult their Citizens representative to determine which class of shares is made available to them and to purchase or sell fund shares. Citizens may impose policies, limitations and fees which are different from those described in this prospectus.

Buying shares

Fund shares are sold at net asset value per share (NAV), which is generally calculated at 5:00 p.m. and 8:00 p.m. every day the New York Stock Exchange, or the transfer agent (as on Good Friday) as to CitizensSelect Prime Money Market Fund only, is open for regular business. Orders in proper form will be priced at the NAV next calculated after the orders and Federal Funds are received by the fund's custodian or other authorized entity. Each fund's investments are valued based on amortized cost.

As to CitizensSelect Prime Money Market Fund only, orders in proper form placed prior to 5:00 p.m., and payments for which are received in or converted into Federal Funds by the fund's custodian by 6:00 p.m., will become effective at the price determined at 5:00 p.m. on that day, and the shares so purchased will receive the dividend declared on that day.

As to CitizensSelect Treasury Money Market Fund only, orders in proper form placed prior to 3:00 p.m., and payments for which are received in or converted into Federal Funds by the fund's custodian by 6:00 p.m., will become effective at the price determined at 5:00 p.m. on that day. Shares so purchased will receive the dividend declared on that day. Orders for shares placed between 3:00 p.m. and 5:00 p.m. will not be accepted and executed, and notice of the purchase order being rejected will be given to the institution placing the order, and any funds received will be returned promptly to the sending institution.

Orders effected through compatible computer facilities after 5:00 p.m., but prior to 8:00 p.m., will become effective at the price determined at 8:00 p.m. on that day, if Federal Funds are received by the fund's custodian by 11:00 a.m. on the following business day. In this case, shares purchased will start earning dividends on the business day following the date the order became effective. Orders in proper form effected between 5:00 p.m. and 8:00 p.m., by means other than a compatible computer facility, will become effective on the following business day.

All times are Eastern time.

Minimum investments		
	Initial	Additional
Regular accounts	\$1 billion[†]	none

[†] Each fund may waive the minimum initial purchase requirement.

Selling shares

Investors may sell (redeem) shares at any time and the shares will be sold at the next determined NAV.

If a redemption request is received in proper form and transmitted to the fund's custodian by 5:00 p.m. Eastern time, the proceeds of the redemption, if transfer by wire is requested, ordinarily will be transmitted in Federal Funds on the same day, and the shares will not receive the dividend declared on that day. If a request for redemption is received in proper form by the fund's custodian after 5:00 p.m., but by 8:00 p.m., the proceeds of the redemption ordinarily will be transmitted in Federal Funds on the next business day, and the shares will receive the dividend declared on that day. Any certificates representing fund shares being sold must be returned with the redemption request.

The processing of redemptions and the delivery of the proceeds may be delayed beyond the same or next business day, depending on the circumstances, for any period (i) during which the New York Stock Exchange is closed (other than on holidays or weekends), or during which trading on the New York Stock Exchange is restricted; (ii) when an emergency exists that makes difficult the disposal of securities owned by a fund or the determination of the fair value of the fund's net assets; or (iii) as permitted by order of the Securities and Exchange Commission for the protection of fund shareholders. If, for one of these reasons, the processing of redemptions and the delivery of redemption proceeds is delayed beyond the same or next business day, the delay may be for up to seven days. For these purposes, the Securities and Exchange Commission determines the conditions under which trading shall be deemed to be restricted and an emergency shall be deemed to exist.

Concepts to understand

Net asset value (NAV): a mutual fund's share price on a given day. A fund's NAV is calculated by dividing the value of its net assets by the number of its existing shares outstanding.

When calculating its NAV, a fund compares the NAV using amortized cost to its NAV using available market quotations or market equivalents which generally are provided by an independent pricing service approved by the fund's board. The pricing service's procedures are reviewed under the general supervision of the board.

Amortized cost: a method of valuing a money market fund's portfolio securities, which does not take into account unrealized gains or losses. As a result, portfolio securities are valued at their acquisition cost, adjusted over time based on the discounts or premiums reflected in their purchase price. This method of valuation is designed for a fund to be able to price its shares at \$1.00 per share.

General policies

Unless an investor declines teleservice privileges on the application, the investor may be responsible for any fraudulent telephone or online order as long as the fund's transfer agent or other authorized agent takes reasonable measures to verify the order.

Money market funds generally are used by investors for short-term investments, often in place of bank checking or savings accounts or for cash management purposes. Investors value the ability to add and withdraw their funds quickly, without restriction. For this reason, although Dreyfus discourages excessive trading and other abusive trading practices, the funds have not adopted policies and procedures, or imposed redemption fees or other restrictions such as minimum holding periods, to deter frequent purchases and redemptions of fund shares. Dreyfus also believes that money market funds, such as the funds, are not targets of abusive trading practices, because money market funds seek to maintain a \$1.00 per share price and typically do not fluctuate in value based on market prices. However, frequent purchases and redemptions of a fund's shares could increase the fund's transaction costs, such as market spreads and custodial fees, and may interfere with the efficient management of the fund's portfolio, which could detract from the fund's performance. Accordingly, each fund reserves the right to refuse any purchase or exchange request.

Each fund reserves the right to:

- refuse any purchase or exchange request
- change or discontinue its exchange privilege, or temporarily suspend the privilege during unusual market conditions
- change its minimum investment amounts
- "redeem in kind," or make payments in securities rather than cash, if the amount redeemed is large enough to affect fund operations (for example, if it exceeds 1% of the fund's assets)

Each fund also may process purchase and sale orders and calculate its NAV on days that the fund's primary trading markets are open and the fund's management determines to do so.

DISTRIBUTIONS AND TAXES

Each fund earns dividends, interest and other income from its investments, and distributes this income (less expenses) to shareholders as dividends. Each fund also realizes capital gains from its investments, and distributes these gains (less any losses) to shareholders as capital gain distributions. Each fund normally pays dividends once a month and capital gain distributions annually. Fund dividends and capital gain distributions will be reinvested in the fund unless the investor instructs the fund otherwise. There are no fees or sales charges on reinvestments.

Distributions paid by each fund are subject to federal income tax, and may also be subject to state or local taxes (unless the shareholder holds fund shares through a tax-advantaged retirement account). For federal tax purposes, in general, certain fund distributions, including distributions of short-term capital gains, are taxable to investors as ordinary income. Other fund distributions are taxable to investors as qualified dividends and capital gains.

The tax status of any distribution generally is the same regardless of how long an investor has been in the fund and whether distributions are reinvested or taken in cash.

An investor's sale of shares, including exchanges into other funds, may result in a capital gain or loss for tax purposes. A capital gain or loss on an investment in a fund generally is the difference between the cost of the investor's shares and the amount received when the investor sells them.

The tax status of an investor's distributions will be detailed in the investor's annual tax statement from the fund. Because everyone's tax situation is unique, please consult a tax advisor before investing.

SERVICES FOR FUND INVESTORS

Exchange privilege

An investor may purchase, in exchange for Class A shares of one fund, Class A shares of the other fund. An exchange may be requested in writing or by telephone. Any new account established through an exchange will have the same privileges as the original account (as long as they are available). There is currently no fee for exchanges.

Auto-Exchange privilege

Auto-Exchange privilege enables an investor to invest regularly (on a monthly, semi-monthly, quarterly or annual basis), in exchange for Class A shares of one fund, in Class A shares of the other fund, if the investor is a shareholder in such other fund. There is currently no fee for this privilege.

The Funds

INTRODUCTION

Each fund is a money market mutual fund with a separate investment portfolio. The operations and results of one fund are unrelated to those of the other fund. This combined prospectus has been prepared for the convenience of investors so that investors can consider two investment choices in one document.

As a money market fund, each fund is subject to maturity, quality and diversification requirements designed to help it maintain a stable share price.

Generally, each fund is required to invest at least 95% of its assets in the securities of issuers with the highest credit rating, with the remainder invested in securities with the second-highest credit rating, or the unrated equivalent as determined by the investment adviser. CitizensSelect Prime Money Market Fund intends to purchase only securities with the highest credit rating, or the unrated equivalent. CitizensSelect Treasury Money Market Fund will purchase only U.S. government securities.

An investment in a fund is not insured or guaranteed by the Federal Deposit Insurance Corporation (FDIC) or any other government agency. Although each fund seeks to preserve the value of a shareholder's investment at \$1.00 per share, it is possible to lose money by investing in a fund.

Concepts to understand

Money market fund: a specific type of fund that seeks to maintain a \$1.00 price per share. Money market funds are subject to strict federal requirements and must:

- maintain an average dollar-weighted portfolio maturity of 90 days or less
- buy individual securities that have remaining maturities of 13 months or less
- invest only in high quality, dollar-denominated obligations

Credit rating: a measure of the issuer's expected ability to make all required interest and principal payments in a timely manner. An issuer with the highest credit rating has a very strong degree of certainty (or safety) with respect to making all payments. An issuer with the second-highest credit rating has a strong capacity to make all payments, but the degree of safety is somewhat less.

CITIZENSSELECT PRIME MONEY MARKET FUND

GOAL/APPROACH

The fund seeks as high a level of current income as is consistent with the preservation of capital and the maintenance of liquidity. To pursue this goal, the fund invests in a diversified portfolio of high quality, short-term debt securities, including:

- securities issued or guaranteed by the U.S. government or its agencies or instrumentalities
- certificates of deposit, time deposits, bankers' acceptances, and other short-term securities issued by domestic or foreign banks or their subsidiaries or branches
- repurchase agreements, including tri-party repurchase agreements
- asset-backed securities
- high grade commercial paper, and other short-term corporate obligations, including those with floating or variable rates of interest

Normally, the fund invests at least 25% of its net assets in bank obligations.

MAIN RISKS

The fund's yield will fluctuate as the short-term securities in its portfolio mature and the proceeds are reinvested in securities with different interest rates.

While the fund has maintained a constant share price since inception, and will continue to try to do so, the following factors could reduce the fund's income level and/or share price:

- interest rates could rise sharply, causing the value of the fund's investments and its share price to drop
- interest rates could drop, thereby reducing the fund's yield
- any of the fund's holdings could have its credit rating downgraded or could default
- the risks generally associated with concentrating investments in the banking industry, such as interest rate risk, credit risk and regulatory developments relating to the banking industry
- the risk that a counterparty in a repurchase agreement could fail to honor the terms of its agreement

Concepts to understand

Repurchase agreement: a U.S. commercial bank or securities dealer sells securities, typically U.S. government securities, to the fund and agrees to repurchase them at an agreed-upon date (usually the next day) and price. These agreements offer the fund a means of investing money for a short period of time.

PAST PERFORMANCE

The bar chart and table shown illustrate the risks of investing in Class B shares of the fund. The bar chart shows the performance of the fund's Class B shares from year to year. The table shows the average annual total returns for the fund's Class B shares over time. All returns assume reinvestment of dividends and distributions. Of course, past performance is no guarantee of future results.

The year-to-date total return for the fund's Class B shares as of 6/30/05 was 1.14%.

Average annual total returns *as of 12/31/04*

1 Year	Since inception (5/1/02)
0.96%	0.97%

For the fund's current 7-day yield, call toll-free:
1-800-242-2224.

What the fund is – and isn't

The fund is a mutual fund: a pooled investment that is professionally managed and gives an investor the opportunity to participate in financial markets. It strives to reach its stated goal, although as with all mutual funds, it cannot offer guaranteed results.

An investment in the fund is not a bank deposit. It is not insured or guaranteed by the FDIC or any other government agency. It is not a complete investment program. An investor could lose money in the fund, but also has the potential to make money.

EXPENSES

Investors pay certain fees and expenses in connection with the fund, which are described for Class B shares in the table below. Annual fund operating expenses are paid out of fund assets, so their effect is included in the share price.

Fee table	
Annual fund operating expenses	
<i>% of average daily net assets</i>	
Management fees	0.10%
Rule 12b-1 fee	None
Administrative services fee	0.25%
Other expenses	0.10%
Total	0.45%

Expense example			
1 Year	3 Years	5 Years	10 Years
\$46	\$144	\$252	\$567
This example shows what an investor could pay in expenses over time. It uses the same hypothetical conditions other funds use in their prospectuses: \$10,000 initial investment, 5% total return each year and no changes in expenses. The figures shown would be the same whether investors sold their shares at the end of a period or kept them. Because actual returns and expenses will be different, the example is for comparison only.			

Concepts to understand

- Management fee:** the fee paid to the investment adviser for managing the fund's portfolio and assisting in all aspects of the fund's operations.

From time to time, the investment adviser may limit expenses to the extent it deems appropriate to enhance the yield of the fund, or a particular class of the fund, during periods when fixed expenses have a significant impact on the yield of the fund, or a particular class of the fund, as applicable, because of low interest rates. This expense limitation policy is voluntary and temporary and may be revised or terminated by the investment adviser at any time without notice.
- Administrative services fee:** the fee paid to Citizens and other institutions for providing account services directly to their clients who hold Class B shares.
- Other expenses:** these expenses include an omnibus account services fee of 0.10% payable to Citizens or other institutions for providing certain services to beneficial owners of fund shares.

CITIZENSSELECT TREASURY MONEY MARKET FUND

GOAL/APPROACH

The fund seeks as high a level of current income as is consistent with the preservation of capital and the maintenance of liquidity.

To pursue this goal, the fund only invests in securities issued or guaranteed as to principal and interest by the U.S. government.

MAIN RISKS

The fund's yield will fluctuate as the short-term securities in its portfolio mature and the proceeds are reinvested in securities with different interest rates.

A security backed by the U.S. Treasury or the full faith and credit of the United States is guaranteed only as to the timely payment of interest and principal when held to maturity. The market prices for such securities are not guaranteed and will fluctuate.

While the fund has maintained a constant share price since inception, and will continue to try to do so, the fund is subject to the risk that interest rates could rise sharply, causing the value of the fund's investments and its share price to drop.

PAST PERFORMANCE

The bar chart and table shown illustrate the risks of investing in Class B shares of the fund. The bar chart shows the performance of the fund's Class B shares from year to year. The table shows the average annual total returns for the fund's Class B shares over time. All returns assume reinvestment of dividends and distributions. Of course, past performance is no guarantee of future results.

The year-to-date total return for the fund's Class B shares as of 6/30/05 was 1.01%.

Average annual total returns *as of 12/31/04*

1 Year	Since inception (5/1/02)
0.78%	0.83%

Other expenses: these expenses include an omnibus account services fee of 0.10% payable to Citizens or other institutions for providing certain services to beneficial owners of fund shares.

MANAGEMENT

Investment adviser

The investment adviser for each fund is The Dreyfus Corporation (Dreyfus), 200 Park Avenue, New York, New York 10166. Founded in 1947, Dreyfus manages one of the nation's leading mutual fund complexes, with approximately \$168 billion in approximately 200 mutual fund portfolios. For the past fiscal year, CitizensSelect Prime Money Market Fund paid Dreyfus a management fee at the annual rate of 0.10% of the fund's average daily net assets, and CitizensSelect Treasury Money Market Fund paid Dreyfus a management fee at the annual rate of 0.10% of the fund's average daily net assets.

In early 2004, two purported class and derivative actions were filed against Mellon Financial, Mellon Bank, N.A., Dreyfus, Founders Asset Management LLC, and certain directors of the Dreyfus Funds and the Dreyfus Founders Funds (together, the Funds) in the United States District Court for the Western District of Pennsylvania. In September 2004, plaintiffs served a Consolidated Amended Complaint (the Amended Complaint) on behalf of a purported class of all persons who acquired interests in any of the Funds between January 30, 1999 and November 17, 2003, and derivatively on behalf of the Funds. The Amended Complaint in the newly styled *In re Dreyfus Mutual Funds Fee Litigation* also named Dreyfus Service Corporation, Premier Mutual Fund Services, Inc. and two additional Fund directors as defendants and alleges violations of the Investment Company Act of 1940, the Investment Advisers Act of 1940, the Pennsylvania Unfair Trade Practices and Consumer Protection Law and common-law claims. Plaintiffs seek to recover allegedly improper and excessive Rule 12b-1 and advisory fees allegedly charged to the Funds for marketing

and distribution services. More specifically, plaintiffs claim, among other things, that 12b-1 fees and directed brokerage were improperly used to pay brokers to recommend the Funds over other funds, and that such payments were not disclosed to investors. In addition, plaintiffs assert that economies of scale and soft-dollar benefits were not passed on to the Funds. Plaintiffs further allege that 12b-1 fees were improperly charged to certain of the Funds that were closed to new investors. The Amended Complaint seeks compensatory and punitive damages, rescission of the advisory contracts, and an accounting and restitution of any unlawful fees, as well as an award of attorneys' fees and litigation expenses. As noted, some of the claims in this litigation are asserted derivatively on behalf of the Funds that have been named as nominal defendants. With respect to such derivative claims, no relief is sought against the Funds. Dreyfus believes the allegations to be totally without merit and intends to defend the action vigorously. In November 2004, all named defendants moved to dismiss the Amended Complaint in whole or substantial part. Briefing was completed in May 2005.

Additional lawsuits arising out of these circumstances and presenting similar allegations and requests for relief may be filed against the defendants in the future. Neither Dreyfus nor the Funds believe that any of the pending actions will have a material adverse effect on the Funds or Dreyfus' ability to perform its contract with the Funds.

Distributor

Each fund's distributor is Dreyfus Service Corporation (DSC), a wholly-owned subsidiary of Dreyfus. Dreyfus or DSC may provide additional cash payments out of its own resources to financial intermediaries that sell shares of the funds or provide other services. These additional payments may be made to intermediaries, including affiliates, that provide shareholder servicing, sub-administration, recordkeeping and/or sub-transfer agency services, marketing support and/or access to sales meetings, sales representatives and management representatives of the financial intermediary. Cash compensation also may be paid to intermediaries for inclusion of the funds on a sales list, including a preferred or select sales list or in other sales programs. These payments sometimes are referred to as "revenue sharing." In some cases, these payments may create an incentive for a financial intermediary or its employees to recommend or sell shares of a fund to you. Please contact your financial representative for details about any payments they or their firm may receive in connection with the sale of fund shares or the provision of services to the funds.

From time to time, Dreyfus or DSC also may provide cash or non-cash compensation to financial intermediaries or their representatives in the form of occasional gifts; occasional meals, tickets or other entertainment; support for due diligence trips; educational conference sponsorship; support for recognition programs; and other forms of cash or non-cash compensation permissible under broker-dealer regulations, as periodically amended.

Code of ethics

The funds, Dreyfus and the distributor have each adopted a code of ethics that permits its personnel, subject to such code, to invest in securities, including securities that may be purchased or held by each fund. Dreyfus' code of ethics restricts the personal securities transactions of its employees, and requires portfolio managers and other investment personnel to comply with the code's preclearance and disclosure procedures. The primary purpose of the code is to ensure that personal trading by employees of Dreyfus does not disadvantage any fund managed by Dreyfus.

FINANCIAL HIGHLIGHTS

The following tables describe the performance of each fund's Class B shares for the fiscal periods indicated. "Total return" shows how much your investment in each fund would have increased (or decreased) during each period, assuming you had

reinvested all dividends and distributions. These figures have been independently audited by Ernst & Young LLP, whose report, along with the fund's financial statements, is included in the annual report, which is available upon request.

Account Information

ACCOUNT POLICIES

Each fund is sold exclusively to Citizens and certain other institutional investors, acting for themselves, or in a fiduciary, advisory, agency, brokerage, custodial or similar capacity. Fund shares may not be purchased directly by individuals, although Citizens, and certain other approved institutions, may purchase shares for accounts maintained by individuals. Generally, investors will be required to open a single master account with the fund for all purposes. In certain cases, the fund may require investors to maintain separate master accounts for shares held by the investor (i) for its own account, for the account of other institutions and for accounts for which the institution acts as a fiduciary, and (ii) for accounts for which the investor acts in some other capacity. Each fund offers four classes of shares in separate prospectuses. Individuals or entities for whom Citizens purchases fund shares should consult their Citizens representative to determine which class of shares is made available to them and to purchase and sell fund shares. Citizens may impose policies, limitations and fees which are different from those described in this prospectus.

Buying shares

Fund shares are sold at net asset value per share (NAV), which is generally calculated at 5:00 p.m. and 8:00 p.m. every day the New York Stock Exchange, or the transfer agent (as on Good Friday) as to CitizensSelect Prime Money Market Fund only, is open for regular business. Orders in proper form will be priced at the NAV next calculated after the orders and Federal Funds are received by the fund's custodian or other authorized entity. Each fund's investments are valued based on amortized cost.

As to CitizensSelect Prime Money Market Fund only, orders in proper form placed prior to 5:00 p.m., and payments for which are received in or converted into Federal Funds by the fund's custodian by 6:00 p.m., will become effective at the price determined at 5:00 p.m. on that day, and the shares so purchased will receive the dividend declared on that day.

As to CitizensSelect Treasury Money Market Fund only, orders in proper form placed prior to 3:00 p.m., and payments for which are received in or converted into Federal Funds by the fund's custodian by 6:00 p.m., will become effective at the price determined at 5:00 p.m. on that day. Shares so purchased will receive the dividend declared on that day. Orders for shares placed between 3:00 p.m. and 5:00 p.m. will not be accepted and executed, and notice of the purchase order being rejected will be given to the institution placing the order, and any funds received will be returned promptly to the sending institution.

Orders effected through compatible computer facilities after 5:00 p.m., but prior to 8:00 p.m., will become effective at the price determined at 8:00 p.m. on that day, if Federal Funds are received by the fund's custodian by 11:00 a.m. on the following business day. In this case, shares purchased will start earning dividends on the business day following the date the order became effective. Orders in proper form effected between 5:00 p.m. and 8:00 p.m., by means other than a compatible computer facility, will become effective on the following business day.

All times are Eastern time.

Minimum investments		
	Initial	Additional
Regular accounts	\$1 billion [†]	none

[†] Each fund may waive the minimum initial purchase requirement.

Selling shares

Investors may sell (redeem) shares at any time and the shares will be sold at the next determined NAV.

If a redemption request is received in proper form and transmitted to the fund's custodian by 5:00 p.m. Eastern time, the proceeds of the redemption, if transfer by wire is requested, ordinarily will be transmitted in Federal Funds on the same day, and the shares will not receive the dividend declared on that day. If a request for redemption is received in proper form by the fund's custodian after 5:00 p.m., but by 8:00 p.m., the proceeds of the redemption ordinarily will be transmitted in Federal Funds on the next business day, and the shares will receive the dividend declared on that day. Any certificates representing fund shares being sold must be returned with the redemption request.

The processing of redemptions and the delivery of the proceeds may be delayed beyond the same or next business day, depending on the circumstances, for any period (i) during which the New York Stock Exchange is closed (other than on holidays or weekends), or during which trading on the New York Stock Exchange is restricted; (ii) when an emergency exists that makes difficult the disposal of securities owned by a fund or the determination of the fair value of the fund's net assets; or (iii) as permitted by order of the Securities and Exchange Commission for the protection of fund shareholders. If, for one of these reasons, the processing of redemptions and the delivery of redemption proceeds is delayed beyond the same or next business day, the delay may be for up to seven days. For these purposes, the Securities and Exchange Commission determines the conditions under which trading shall be deemed to be restricted and an emergency shall be deemed to exist.

Concepts to understand

Net asset value (NAV): a mutual fund's share price on a given day. A fund's NAV is calculated by dividing the value of its net assets by the number of its existing shares outstanding.

When calculating its NAV, a fund compares the NAV using amortized cost to its NAV using available market quotations or market equivalents which generally are provided by an independent pricing service approved by the fund's board. The pricing service's procedures are reviewed under the general supervision of the board.

Amortized cost: a method of valuing a money market fund's portfolio securities, which does not take into account unrealized gains or losses. As a result, portfolio securities are valued at their acquisition cost, adjusted over time based on the discounts or premiums reflected in their purchase price. This method of valuation is designed for a fund to be able to price its shares at \$1.00 per share.

General policies

Unless an investor declines teleservice privileges on the application, the investor may be responsible for any fraudulent telephone or online order as long as the fund's transfer agent or other authorized agent takes reasonable measures to verify the order.

Money market funds generally are used by investors for short-term investments, often in place of bank checking or savings accounts or for cash management purposes. Investors value the ability to add and withdraw their funds quickly, without restriction. For this reason, although Dreyfus discourages excessive trading and other abusive trading practices, the funds have not adopted policies and procedures, or imposed redemption fees or other restrictions such as minimum holding periods, to deter frequent purchases and redemptions of fund shares. Dreyfus also believes that money market funds, such as the funds, are not targets of abusive trading practices, because money market funds seek to maintain a \$1.00 per share price and typically do not fluctuate in value based on market prices. However, frequent purchases and redemptions of a fund's shares could increase the fund's transaction costs, such as market spreads and custodial fees, and may interfere with the efficient management of the fund's portfolio, which could detract from the fund's performance. Accordingly, each fund reserves the right to refuse any purchase or exchange request.

Each fund reserves the right to:

- refuse any purchase or exchange request
- change or discontinue its exchange privilege, or temporarily suspend the privilege during unusual market conditions
- change its minimum investment amounts
- "redeem in kind," or make payments in securities rather than cash, if the amount redeemed is large enough to affect fund operations (for example, if it exceeds 1% of the fund's assets)

Each fund also may process purchase and sale orders and calculate its NAV on days that the fund's primary trading markets are open and the fund's management determines to do so.

DISTRIBUTIONS AND TAXES

Each fund earns dividends, interest and other income from its investments, and distributes this income (less expenses) to shareholders as dividends. Each fund also realizes capital gains from its investments, and distributes these gains (less any losses) to shareholders as capital gain distributions. Each fund normally pays dividends once a month and capital gain distributions annually. Fund dividends and capital gain distributions will be reinvested in the fund unless the investor instructs the fund otherwise. There are no fees or sales charges on reinvestments.

Distributions paid by each fund are subject to federal income tax, and may also be subject to state or local taxes (unless the shareholder holds fund shares through a tax-advantaged retirement account). For federal tax purposes, in general, certain fund distributions, including distributions of short-term capital gains, are taxable to investors as ordinary income. Other fund distributions are taxable to investors as qualified dividends and capital gains.

The tax status of any distribution generally is the same regardless of how long an investor has been in the fund and whether distributions are reinvested or taken in cash.

An investor's sale of shares, including exchanges into other funds, may result in a capital gain or loss for tax purposes. A capital gain or loss on an investment in a fund generally is the difference between the cost of the investor's shares and the amount received when the investor sells them.

The tax status of an investor's distributions will be detailed in the investor's annual tax statement from the fund. Because everyone's tax situation is unique, please consult a tax advisor before investing.

SERVICES FOR FUND INVESTORS

Exchange privilege

An investor may purchase, in exchange for Class B shares of one fund, Class B shares of the other fund. An exchange may be requested in writing or by telephone. Any new account established through an exchange will have the same privileges as the original account (as long as they are available). There is currently no fee for exchanges.

Auto-Exchange privilege

Auto-Exchange privilege enables an investor to invest regularly (on a monthly, semi-monthly, quarterly or annual basis), in exchange for Class B shares of one fund, in Class B shares of the other fund, if the investor is a shareholder in such other fund. There is currently no fee for this privilege.

The Funds

INTRODUCTION

Each fund is a money market mutual fund with a separate investment portfolio. The operations and results of one fund are unrelated to those of the other fund. This combined prospectus has been prepared for the convenience of investors so that investors can consider two investment choices in one document.

As a money market fund, each fund is subject to maturity, quality and diversification requirements designed to help it maintain a stable share price.

Generally, each fund is required to invest at least 95% of its assets in the securities of issuers with the highest credit rating, with the remainder invested in securities with the second-highest credit rating, or the unrated equivalent as determined by the investment adviser. CitizensSelect Prime Money Market Fund intends to purchase only securities with the highest credit rating, or the unrated equivalent. CitizensSelect Treasury Money Market Fund will purchase only U.S. government securities.

An investment in a fund is not insured or guaranteed by the Federal Deposit Insurance Corporation (FDIC) or any other government agency. Although each fund seeks to preserve the value of a shareholder's investment at \$1.00 per share, it is possible to lose money by investing in a fund.

Concepts to understand

Money market fund: a specific type of fund that seeks to maintain a \$1.00 price per share. Money market funds are subject to strict federal requirements and must:

- maintain an average dollar-weighted portfolio maturity of 90 days or less
- buy individual securities that have remaining maturities of 13 months or less
- invest only in high quality, dollar-denominated obligations

Credit rating: a measure of the issuer's expected ability to make all required interest and principal payments in a timely manner. An issuer with the highest credit rating has a very strong degree of certainty (or safety) with respect to making all payments. An issuer with the second-highest credit rating has a strong capacity to make all payments, but the degree of safety is somewhat less.

CITIZENSSELECT PRIME MONEY MARKET FUND

GOAL/APPROACH

The fund seeks as high a level of current income as is consistent with the preservation of capital and the maintenance of liquidity. To pursue this goal, the fund invests in a diversified portfolio of high quality, short-term debt securities, including:

- securities issued or guaranteed by the U.S. government or its agencies or instrumentalities
- certificates of deposit, time deposits, bankers' acceptances, and other short-term securities issued by domestic or foreign banks or their subsidiaries or branches
- repurchase agreements, including tri-party repurchase agreements
- asset-backed securities
- high grade commercial paper, and other short-term corporate obligations, including those with floating or variable rates of interest

Normally, the fund invests at least 25% of its net assets in bank obligations.

MAIN RISKS

The fund's yield will fluctuate as the short-term securities in its portfolio mature and the proceeds are reinvested in securities with different interest rates.

While the fund has maintained a constant share price since inception, and will continue to try to do so, the following factors could reduce the fund's income level and/or share price:

- interest rates could rise sharply, causing the value of the fund's investments and its share price to drop
- interest rates could drop, thereby reducing the fund's yield
- any of the fund's holdings could have its credit rating downgraded or could default
- the risks generally associated with concentrating investments in the banking industry, such as interest rate risk, credit risk and regulatory developments relating to the banking industry
- the risk that a counterparty in a repurchase agreement could fail to honor the terms of its agreement

Concepts to understand

Repurchase agreement: a U.S. commercial bank or securities dealer sells securities, typically U.S. government securities, to the fund and agrees to repurchase them at an agreed-upon date (usually the next day) and price. These agreements offer the fund a means of investing money for a short period of time.

PAST PERFORMANCE

The bar chart and table shown illustrate the risks of investing in Class C shares of the fund. The bar chart shows the performance of the fund's Class C shares from year to year. The table shows the average annual total returns for the fund's Class C shares over time. All returns assume reinvestment of dividends and distributions. Of course, past performance is no guarantee of future results.

The year-to-date total return for the fund's Class C shares as of 6/30/05 was 1.02%.

Average annual total returns *as of 12/31/04*

1 Year	Since inception (5/1/02)
0.71%	0.74%

For the fund's current 7-day yield, call toll-free:
1-800-242-2224.

What the fund is – and isn't

The fund is a mutual fund: a pooled investment that is professionally managed and gives an investor the opportunity to participate in financial markets. It strives to reach its stated goal, although as with all mutual funds, it cannot offer guaranteed results.

An investment in the fund is not a bank deposit. It is not insured or guaranteed by the FDIC or any other government agency. It is not a complete investment program. An investor could lose money in the fund, but also has the potential to make money.

EXPENSES

Investors pay certain fees and expenses in connection with the fund, which are described for Class C shares in the table below. Annual fund operating expenses are paid out of fund assets, so their effect is included in the share price.

Fee table	
Annual fund operating expenses	
<i>% of average daily net assets</i>	
Management fees	0.10%
Rule 12b-1 fee	0.25%
Administrative services fee	0.25%
Other expenses	0.10%
Total	0.70%

Expense example			
1 Year	3 Years	5 Years	10 Years
\$72	\$224	\$390	\$871
This example shows what an investor could pay in expenses over time. It uses the same hypothetical conditions other funds use in their prospectuses: \$10,000 initial investment, 5% total return each year and no changes in expenses. The figures shown would be the same whether investors sold their shares at the end of a period or kept them. Because actual returns and expenses will be different, the example is for comparison only.			

Concepts to understand

Management fee: the fee paid to the investment adviser for managing the fund's portfolio and assisting in all aspects of the fund's operations.

From time to time, the investment adviser may limit expenses to the extent it deems appropriate to enhance the yield of the fund, or a particular class of the fund, during periods when fixed expenses have a significant impact on the yield of the fund, or a particular class of the fund, as applicable, because of low interest rates. This expense limitation policy is voluntary and temporary and may be revised or terminated by the investment adviser at any time without notice.

Rule 12b-1 fee: the fee paid to the fund's distributor for distributing Class C shares, and for advertising and marketing related to Class C shares. The distributor may pay all or part of this fee to Citizens or other institutions that have purchased Class C shares for the benefit of others. Because this fee is paid on an ongoing basis out of fund assets attributable to Class C shares, over time it will increase the cost of an investment in Class C shares and could cost investors more than paying other types of sales charges.

Administrative services fee: the fee paid to Citizens or other institutions for providing account services directly to their clients who hold Class C shares.

Other expenses: these expenses include an omnibus account services fee of 0.10% payable to Citizens or other institutions for providing certain services to beneficial owners of fund shares.

CITIZENSSELECT TREASURY MONEY MARKET FUND

GOAL/APPROACH

The fund seeks as high a level of current income as is consistent with the preservation of capital and the maintenance of liquidity.

To pursue this goal, the fund only invests in securities issued or guaranteed as to principal and interest by the U.S. government.

MAIN RISKS

The fund's yield will fluctuate as the short-term securities in its portfolio mature and the proceeds are reinvested in securities with different interest rates.

A security backed by the U.S. Treasury or the full faith and credit of the United States is guaranteed only as to the timely payment of interest and principal when held to maturity. The market prices for such securities are not guaranteed and will fluctuate.

While the fund has maintained a constant share price since inception, and will continue to try to do so, the fund is subject to the risk that interest rates could rise sharply, causing the value of the fund's investments and its share price to drop.

PAST PERFORMANCE

The bar chart and table shown illustrate the risks of investing in Class C shares of the fund. The bar chart shows the performance of the fund's Class C shares from year to year. The table shows the average annual total returns for the fund's Class C shares over time. All returns assume reinvestment of dividends and distributions. Of course, past performance is no guarantee of future results.

The year-to-date total return for the fund's Class C shares as of 6/30/05 was 0.89%.

Average annual total returns *as of 12/31/04*

1 Year	Since inception (5/1/02)
0.53%	0.59%

Other expenses: these expenses include an omnibus account services fee of 0.10% payable to Citizens or other institutions for providing certain services to beneficial owners of fund shares.

MANAGEMENT

Investment adviser

The investment adviser for each fund is The Dreyfus Corporation (Dreyfus), 200 Park Avenue, New York, New York 10166. Founded in 1947, Dreyfus manages one of the nation's leading mutual fund complexes, with approximately \$168 billion in approximately 200 mutual fund portfolios. For the past fiscal year, CitizensSelect Prime Money Market Fund paid Dreyfus a management fee at the annual rate of 0.10% of the fund's average daily net assets, and CitizensSelect Treasury Money Market Fund paid Dreyfus a management fee at the annual rate of 0.10% of the fund's average daily net assets.

In early 2004, two purported class and derivative actions were filed against Mellon Financial, Mellon Bank, N.A., Dreyfus, Founders Asset Management LLC, and certain directors of the Dreyfus Funds and the Dreyfus Founders Funds (together, the Funds) in the United States District Court for the Western District of Pennsylvania. In September 2004, plaintiffs served a Consolidated Amended Complaint (the Amended Complaint) on behalf of a purported class of all persons who acquired interests in any of the Funds between January 30, 1999 and November 17, 2003, and derivatively on behalf of the Funds. The Amended Complaint in the newly styled *In re Dreyfus Mutual Funds Fee Litigation* also named Dreyfus Service Corporation, Premier Mutual Fund Services, Inc. and two additional Fund directors as defendants and alleges violations of the Investment Company Act of 1940, the Investment Advisers Act of 1940, the Pennsylvania Unfair Trade Practices and Consumer Protection Law and common-law claims. Plaintiffs seek to recover allegedly improper and excessive Rule 12b-1 and advisory fees allegedly charged to the Funds for marketing

and distribution services. More specifically, plaintiffs claim, among other things, that 12b-1 fees and directed brokerage were improperly used to pay brokers to recommend the Funds over other funds, and that such payments were not disclosed to investors. In addition, plaintiffs assert that economies of scale and soft-dollar benefits were not passed on to the Funds. Plaintiffs further allege that 12b-1 fees were improperly charged to certain of the Funds that were closed to new investors. The Amended Complaint seeks compensatory and punitive damages, rescission of the advisory contracts, and an accounting and restitution of any unlawful fees, as well as an award of attorneys' fees and litigation expenses. As noted, some of the claims in this litigation are asserted derivatively on behalf of the Funds that have been named as nominal defendants. With respect to such derivative claims, no relief is sought against the Funds. Dreyfus believes the allegations to be totally without merit and intends to defend the action vigorously. In November 2004, all named defendants moved to dismiss the Amended Complaint in whole or substantial part. Briefing was completed in May 2005.

Additional lawsuits arising out of these circumstances and presenting similar allegations and requests for relief may be filed against the defendants in the future. Neither Dreyfus nor the Funds believe that any of the pending actions will have a material adverse effect on the Funds or Dreyfus' ability to perform its contract with the Funds.

Distributor

Each fund's distributor is Dreyfus Service Corporation (DSC), a wholly-owned subsidiary of Dreyfus. Dreyfus or DSC may provide additional cash payments out of its own resources to financial intermediaries that sell shares of the funds or provide other services. These additional payments may be made to intermediaries, including affiliates, that provide shareholder servicing, sub-administration, recordkeeping and/or sub-transfer agency services, marketing support and/or access to sales meetings, sales representatives and management representatives of the financial intermediary. Cash compensation also may be paid to intermediaries for inclusion of the funds on a sales list, including a preferred or select sales list or in other sales programs. These payments sometimes are referred to as "revenue sharing." In some cases, these payments may create an incentive for a financial intermediary or its employees to recommend or sell shares of a fund to you. Please contact your financial representative for details about any payments they or their firm may receive in connection with the sale of fund shares or the provision of services to the funds.

From time to time, Dreyfus or DSC also may provide cash or non-cash compensation to financial intermediaries or their representatives in the form of occasional gifts; occasional meals, tickets or other entertainment; support for due diligence trips; educational conference sponsorship; support for recognition programs; and other forms of cash or non-cash compensation permissible under broker-dealer regulations, as periodically amended.

Code of ethics

The funds, Dreyfus and the distributor have each adopted a code of ethics that permits its personnel, subject to such code, to invest in securities, including securities that may be purchased or held by each fund. Dreyfus' code of ethics restricts the personal securities transactions of its employees, and requires portfolio managers and other investment personnel to comply with the code's preclearance and disclosure procedures. The primary purpose of the code is to ensure that personal trading by employees of Dreyfus does not disadvantage any fund managed by Dreyfus.

FINANCIAL HIGHLIGHTS

The following tables describe the performance of each fund's Class C shares for the fiscal periods indicated. "Total return" shows how much your investment in each fund would have increased (or decreased) during each period assuming you had

reinvested all dividends and distributions. These figures have been independently audited by Ernst & Young LLP, whose report, along with the fund's financial statements, is included in the annual report, which is available upon request.

Account Information

ACCOUNT POLICIES

Each fund is sold exclusively to Citizens and certain other institutional investors, acting for themselves, or in a fiduciary, advisory, agency, brokerage, custodial or similar capacity. Fund shares may not be purchased directly by individuals, although Citizens, and certain other approved institutions, may purchase shares for accounts maintained by individuals. Generally, investors will be required to open a single master account with the fund for all purposes. In certain cases, the fund may require investors to maintain separate master accounts for shares held by the investor (i) for its own account, for the account of other institutions and for accounts for which the institution acts as a fiduciary, and (ii) for accounts for which the investor acts in some other capacity. Each fund offers four classes of shares in separate prospectuses. Individuals or entities for whom Citizens purchases fund shares should consult their Citizens representative to determine which class of shares is made available to them and to purchase or sell fund shares. Citizens may impose policies, limitations and fees which are different from those described in this prospectus.

Buying shares

Fund shares are sold at net asset value per share (NAV), which is generally calculated at 5:00 p.m. and 8:00 p.m. every day the New York Stock Exchange, or the transfer agent (as on Good Friday) as to CitizensSelect Prime Money Market Fund only, is open for regular business. Orders in proper form will be priced at the NAV next calculated after the orders and Federal Funds are received by the fund's custodian or other authorized entity. Each fund's investments are valued based on amortized cost.

As to CitizensSelect Prime Money Market Fund only, orders in proper form placed prior to 5:00 p.m., and payments for which are received in or converted into Federal Funds by the fund's custodian by 6:00 p.m., will become effective at the price determined at 5:00 p.m. on that day, and the shares so purchased will receive the dividend declared on that day.

As to CitizensSelect Treasury Money Market Fund only, orders in proper form placed prior to 3:00 p.m., and payments for which are received in or converted into Federal Funds by the fund's custodian by 6:00 p.m., will become effective at the price determined at 5:00 p.m. on that day. Shares so purchased will receive the dividend declared on that day. Orders for shares placed between 3:00 p.m. and 5:00 p.m. will not be accepted and executed, and notice of the purchase order being rejected will be given to the institution placing the order, and any funds received will be returned promptly to the sending institution.

Orders effected through compatible computer facilities after 5:00 p.m., but prior to 8:00 p.m., will become effective at the price determined at 8:00 p.m. on that day, if Federal Funds are received by the fund's custodian by 11:00 a.m. on the following business day. In this case, shares purchased will start earning dividends on the business day following the date the order became effective. Orders in proper form effected between 5:00 p.m. and 8:00 p.m., by means other than a compatible computer facility, will become effective on the following business day.

All times are Eastern time.

Minimum investments		
	Initial	Additional
Regular accounts	\$1 billion [†]	none

[†] Each fund may waive the minimum initial purchase requirement.

Selling shares

Investors may sell (redeem) shares at any time and the shares will be sold at the next determined NAV.

If a redemption request is received in proper form and transmitted to the fund's custodian by 5:00 p.m. Eastern time, the proceeds of the redemption, if transfer by wire is requested, ordinarily will be transmitted in Federal Funds on the same day, and the shares will not receive the dividend declared on that day. If a request for redemption is received in proper form by the fund's custodian after 5:00 p.m., but by 8:00 p.m., the proceeds of the redemption ordinarily will be transmitted in Federal Funds on the next business day, and the shares will receive the dividend declared on that day. Any certificates representing fund shares being sold must be returned with the redemption request.

The processing of redemptions and the delivery of the proceeds may be delayed beyond the same or next business day, depending on the circumstances, for any period (i) during which the New York Stock Exchange is closed (other than on holidays or weekends), or during which trading on the New York Stock Exchange is restricted; (ii) when an emergency exists that makes difficult the disposal of securities owned by a fund or the determination of the fair value of the fund's net assets; or (iii) as permitted by order of the Securities and Exchange Commission for the protection of fund shareholders. If, for one of these reasons, the processing of redemptions and the delivery of redemption proceeds is delayed beyond the same or next business day, the delay may be for up to seven days. For these purposes, the Securities and Exchange Commission determines the conditions under which trading shall be deemed to be restricted and an emergency shall be deemed to exist.

Concepts to understand

Net asset value (NAV): a mutual fund's share price on a given day. A fund's NAV is calculated by dividing the value of its net assets by the number of its existing shares outstanding.

When calculating its NAV, a fund compares the NAV using amortized cost to its NAV using available market quotations or market equivalents which generally are provided by an independent pricing service approved by the fund's board. The pricing service's procedures are reviewed under the general supervision of the board.

Amortized cost: a method of valuing a money market fund's portfolio securities, which does not take into account unrealized gains or losses. As a result, portfolio securities are valued at their acquisition cost, adjusted over time based on the discounts or premiums reflected in their purchase price. This method of valuation is designed for a fund to be able to price its shares at \$1.00 per share.

General policies

Unless an investor declines teleservice privileges on the application, the investor may be responsible for any fraudulent telephone or online order as long as the fund's transfer agent or other authorized agent takes reasonable measures to verify the order.

Money market funds generally are used by investors for short-term investments, often in place of bank checking or savings accounts or for cash management purposes. Investors value the ability to add and withdraw their funds quickly, without restriction. For this reason, although Dreyfus discourages excessive trading and other abusive trading practices, the funds have not adopted policies and procedures, or imposed redemption fees or other restrictions such as minimum holding periods, to deter frequent purchases and redemptions of fund shares. Dreyfus also believes that money market funds, such as the funds, are not targets of abusive trading practices, because money market funds seek to maintain a \$1.00 per share price and typically do not fluctuate in value based on market prices. However, frequent purchases and redemptions of a fund's shares could increase the fund's transaction costs, such as market spreads and custodial fees, and may interfere with the efficient management of the fund's portfolio, which could detract from the fund's performance. Accordingly, each fund reserves the right to refuse any purchase or exchange request.

Each fund reserves the right to:

- refuse any purchase or exchange request
- change or discontinue its exchange privilege, or temporarily suspend the privilege during unusual market conditions
- change its minimum investment amounts
- "redeem in kind," or make payments in securities rather than cash, if the amount redeemed is large enough to affect fund operations (for example, if it exceeds 1% of the fund's assets)

Each fund also may process purchase and sale orders and calculate its NAV on days that the fund's primary trading markets are open and the fund's management determines to do so.

DISTRIBUTIONS AND TAXES

Each fund earns dividends, interest and other income from its investments, and distributes this income (less expenses) to shareholders as dividends. Each fund also realizes capital gains from its investments, and distributes these gains (less any losses) to shareholders as capital gain distributions. Each fund normally pays dividends once a month and capital gain distributions annually. Fund dividends and capital gain distributions will be reinvested in the fund unless the investor instructs the fund otherwise. There are no fees or sales charges on reinvestments.

Distributions paid by each fund are subject to federal income tax, and may also be subject to state or local taxes (unless the shareholder holds fund shares through a tax-advantaged retirement account). For federal tax purposes, in general, certain fund distributions, including distributions of short-term capital gains, are taxable to investors as ordinary income. Other fund distributions are taxable to investors as qualified dividends and capital gains.

The tax status of any distribution generally is the same regardless of how long an investor has been in the fund and whether distributions are reinvested or taken in cash.

An investor's sale of shares, including exchanges into other funds, may result in a capital gain or loss for tax purposes. A capital gain or loss on an investment in a fund generally is the difference between the cost of the investor's shares and the amount received when the investor sells them.

The tax status of an investor's distributions will be detailed in the investor's annual tax statement from the fund. Because everyone's tax situation is unique, please consult a tax advisor before investing.

SERVICES FOR FUND INVESTORS

Exchange privilege

An investor may purchase, in exchange for Class C shares of one fund, Class C shares of the other fund. An exchange may be requested in writing or by telephone. Any new account established through an exchange will have the same privileges as the original account (as long as they are available). There is currently no fee for exchanges.

Auto-Exchange privilege

Auto-Exchange privilege enables an investor to invest regularly (on a monthly, semi-monthly, quarterly or annual basis), in exchange for Class C shares of one fund, in Class C shares of the other fund, if the investor is a shareholder in such other fund. There is currently no fee for this privilege.

The Funds

INTRODUCTION

Each fund is a money market mutual fund with a separate investment portfolio. The operations and results of one fund are unrelated to those of the other fund. This combined prospectus has been prepared for the convenience of investors so that investors can consider two investment choices in one document.

As a money market fund, each fund is subject to maturity, quality and diversification requirements designed to help it maintain a stable share price.

Generally, each fund is required to invest at least 95% of its assets in the securities of issuers with the highest credit rating, with the remainder invested in securities with the second-highest credit rating, or the unrated equivalent as determined by the investment adviser. CitizensSelect Prime Money Market Fund intends to purchase only securities with the highest credit rating, or the unrated equivalent. CitizensSelect Treasury Money Market Fund will purchase only U.S. government securities.

An investment in a fund is not insured or guaranteed by the Federal Deposit Insurance Corporation (FDIC) or any other government agency. Although each fund seeks to preserve the value of a shareholder's investment at \$1.00 per share, it is possible to lose money by investing in a fund.

Concepts to understand

Money market fund: a specific type of fund that seeks to maintain a \$1.00 price per share. Money market funds are subject to strict federal requirements and must:

- maintain an average dollar-weighted portfolio maturity of 90 days or less
- buy individual securities that have remaining maturities of 13 months or less
- invest only in high quality, dollar-denominated obligations

Credit rating: a measure of the issuer's expected ability to make all required interest and principal payments in a timely manner. An issuer with the highest credit rating has a very strong degree of certainty (or safety) with respect to making all payments. An issuer with the second-highest credit rating has a strong capacity to make all payments, but the degree of safety is somewhat less.

CITIZENSSELECT PRIME MONEY MARKET FUND

GOAL/APPROACH

The fund seeks as high a level of current income as is consistent with the preservation of capital and the maintenance of liquidity. To pursue this goal, the fund invests in a diversified portfolio of high quality, short-term debt securities, including:

- securities issued or guaranteed by the U.S. government or its agencies or instrumentalities
- certificates of deposit, time deposits, bankers' acceptances, and other short-term securities issued by domestic or foreign banks or their subsidiaries or branches
- repurchase agreements, including tri-party repurchase agreements
- asset-backed securities
- high grade commercial paper, and other short-term corporate obligations, including those with floating or variable rates of interest

Normally, the fund invests at least 25% of its net assets in bank obligations.

MAIN RISKS

The fund's yield will fluctuate as the short-term securities in its portfolio mature and the proceeds are reinvested in securities with different interest rates.

While the fund has maintained a constant share price since inception, and will continue to try to do so, the following factors could reduce the fund's income level and/or share price:

- interest rates could rise sharply, causing the value of the fund's investments and its share price to drop
- interest rates could drop, thereby reducing the fund's yield
- any of the fund's holdings could have its credit rating downgraded or could default
- the risks generally associated with concentrating investments in the banking industry, such as interest rate risk, credit risk and regulatory developments relating to the banking industry
- the risk that a counterparty in a repurchase agreement could fail to honor the terms of its agreement

Concepts to understand

Repurchase agreement: a U.S. commercial bank or securities dealer sells securities, typically U.S. government securities, to the fund and agrees to repurchase them at an agreed-upon date (usually the next day) and price. These agreements offer the fund a means of investing money for a short period of time.

PAST PERFORMANCE

The bar chart and table shown illustrate the risks of investing in Class D shares of the fund. The bar chart shows the performance of the fund's Class D shares from year to year. The table shows the average annual total returns for the fund's Class D shares over time. All returns assume reinvestment of dividends and distributions. Of course, past performance is no guarantee of future results.

The year-to-date total return for the fund's Class D shares as of 6/30/05 was 0.84%.

Average annual total returns *as of 12/31/04*

1 Year	Since inception (5/1/02)
0.53%	0.55%

For the fund's current 7-day yield, call toll-free:
1-800-242-2224.

What the fund is – and isn't

The fund is a mutual fund: a pooled investment that is professionally managed and gives an investor the opportunity to participate in financial markets. It strives to reach its stated goal, although as with all mutual funds, it cannot offer guaranteed results.

An investment in the fund is not a bank deposit. It is not insured or guaranteed by the FDIC or any other government agency. It is not a complete investment program. An investor could lose money in the fund, but also has the potential to make money.

EXPENSES

Investors pay certain fees and expenses in connection with the fund, which are described for Class D shares in the table below. Annual fund operating expenses are paid out of fund assets, so their effect is included in the share price.

Fee table	
Annual fund operating expenses	
<i>% of average daily net assets</i>	
Management fees	0.10%
Rule 12b-1 fee	0.65%
Administrative services fee	0.25%
Other expenses	0.10%
Total	1.10%

Expense example			
1 Year	3 Years	5 Years	10 Years
\$112	\$350	\$606	\$1,340
This example shows what an investor could pay in expenses over time. It uses the same hypothetical conditions other funds use in their prospectuses: \$10,000 initial investment, 5% total return each year and no changes in expenses. The figures shown would be the same whether investors sold their shares at the end of a period or kept them. Because actual returns and expenses will be different, the example is for comparison only.			

Concepts to understand

- Management fee:** the fee paid to the investment adviser for managing the fund’s portfolio and assisting in all aspects of the fund’s operations.

From time to time, the investment adviser may limit expenses to the extent it deems appropriate to enhance the yield of the fund, or a particular class of the fund, during periods when fixed expenses have a significant impact on the yield of the fund, or a particular class of the fund, as applicable, because of low interest rates. This expense limitation policy is voluntary and temporary and may be revised or terminated by the investment adviser at any time without notice.

For the fiscal year ended April 30, 2005, the investment adviser assumed certain fund expenses related to Class D shares pursuant to an undertaking, reducing total expenses to 1.02%. This undertaking was voluntary.
- Rule 12b-1 fee:** the fee paid to the fund’s distributor for distributing Class D shares, and for advertising and marketing related to Class D shares. The distributor may pay all or part of this fee to Citizens or other institutions that have purchased Class D shares for the benefit of others. Because this fee is paid on an ongoing basis out of fund assets attributable to Class D shares, over time it will increase the cost of an investment in Class D shares and could cost investors more than paying other types of sales charges.
- Administrative services fee:** the fee paid to Citizens or other institutions for providing account services directly to their clients who hold Class D shares.
- Other expenses:** these expenses include an omnibus account services fee of 0.10% payable to Citizens or other institutions for providing certain services to beneficial owners of fund shares.

CITIZENSSELECT TREASURY MONEY MARKET FUND

GOAL/APPROACH

The fund seeks as high a level of current income as is consistent with the preservation of capital and the maintenance of liquidity.

To pursue this goal, the fund only invests in securities issued or guaranteed as to principal and interest by the U.S. government.

MAIN RISKS

The fund's yield will fluctuate as the short-term securities in its portfolio mature and the proceeds are reinvested in securities with different interest rates.

A security backed by the U.S. Treasury or the full faith and credit of the United States is guaranteed only as to the timely payment of interest and principal when held to maturity. The market prices for such securities are not guaranteed and will fluctuate.

While the fund has maintained a constant share price since inception, and will continue to try to do so, the fund is subject to the risk that interest rates could rise sharply, causing the value of the fund's investments and its share price to drop.

PAST PERFORMANCE

The bar chart and table shown illustrate the risks of investing in Class D shares of the fund. The bar chart shows the performance of the fund's Class D shares from year to year. The table shows the average annual total returns for the fund's Class D shares over time. All returns assume reinvestment of dividends and distributions. Of course, past performance is no guarantee of future results.

The year-to-date total return for the fund's Class D shares as of 6/30/05 was 0.71%.

Other expenses: these expenses include an omnibus account services fee of 0.10% payable to Citizens or other institutions for providing certain services to beneficial owners of fund shares.

MANAGEMENT

Investment adviser

The investment adviser for each fund is The Dreyfus Corporation (Dreyfus), 200 Park Avenue, New York, New York 10166. Founded in 1947, Dreyfus manages one of the nation's leading mutual fund complexes, with approximately \$168 billion in approximately 200 mutual fund portfolios. For the past fiscal year, CitizensSelect Prime Money Market Fund paid Dreyfus a management fee at the annual rate of 0.10% of the fund's average daily net assets, and CitizensSelect Treasury Money Market Fund paid Dreyfus a management fee at the annual rate of 0.10% of the fund's average daily net assets.

In early 2004, two purported class and derivative actions were filed against Mellon Financial, Mellon Bank, N.A., Dreyfus, Founders Asset Management LLC, and certain directors of the Dreyfus Funds and the Dreyfus Founders Funds (together, the Funds) in the United States District Court for the Western District of Pennsylvania. In September 2004, plaintiffs served a Consolidated Amended Complaint (the Amended Complaint) on behalf of a purported class of all persons who acquired interests in any of the Funds between January 30, 1999 and November 17, 2003, and derivatively on behalf of the Funds. The Amended Complaint in the newly styled *In re Dreyfus Mutual Funds Fee Litigation* also named Dreyfus Service Corporation, Premier Mutual Fund Services, Inc. and two additional Fund directors as defendants and alleges violations of the Investment Company Act of 1940, the Investment Advisers Act of 1940, the Pennsylvania Unfair Trade Practices and Consumer Protection Law and common-law claims. Plaintiffs seek to recover allegedly improper and excessive Rule 12b-1 and advisory fees allegedly charged to the Funds for marketing

and distribution services. More specifically, plaintiffs claim, among other things, that 12b-1 fees and directed brokerage were improperly used to pay brokers to recommend the Funds over other funds, and that such payments were not disclosed to investors. In addition, plaintiffs assert that economies of scale and soft-dollar benefits were not passed on to the Funds. Plaintiffs further allege that 12b-1 fees were improperly charged to certain of the Funds that were closed to new investors. The Amended Complaint seeks compensatory and punitive damages, rescission of the advisory contracts, and an accounting and restitution of any unlawful fees, as well as an award of attorneys' fees and litigation expenses. As noted, some of the claims in this litigation are asserted derivatively on behalf of the Funds that have been named as nominal defendants. With respect to such derivative claims, no relief is sought against the Funds. Dreyfus believes the allegations to be totally without merit and intends to defend the action vigorously. In November 2004, all named defendants moved to dismiss the Amended Complaint in whole or substantial part. Briefing was completed in May 2005.

Additional lawsuits arising out of these circumstances and presenting similar allegations and requests for relief may be filed against the defendants in the future. Neither Dreyfus nor the Funds believe that any of the pending actions will have a material adverse effect on the Funds or Dreyfus' ability to perform its contract with the Funds.

Distributor

Each fund's distributor is Dreyfus Service Corporation (DSC), a wholly-owned subsidiary of Dreyfus. Dreyfus or DSC may provide additional cash payments out of its own resources to financial intermediaries that sell shares of the funds or provide other services. These additional payments may be made to intermediaries, including affiliates, that provide shareholder servicing, sub-administration, recordkeeping and/or sub-transfer agency services, marketing support and/or access to sales meetings, sales representatives and management representatives of the financial intermediary. Cash compensation also may be paid to intermediaries for inclusion of the funds on a sales list, including a preferred or select sales list or in other sales programs. These payments sometimes are referred to as "revenue sharing." In some cases, these payments may create an incentive for a financial intermediary or its employees to recommend or sell shares of a fund to you. Please contact your financial representative for details about any payments they or their firm may receive in connection with the sale of fund shares or the provision of services to the funds.

From time to time, Dreyfus or DSC also may provide cash or non-cash compensation to financial intermediaries or their representatives in the form of occasional gifts; occasional meals, tickets or other entertainment; support for due diligence trips; educational conference sponsorship; support for recognition programs; and other forms of cash or non-cash compensation permissible under broker-dealer regulations, as periodically amended.

Code of ethics

The funds, Dreyfus and the distributor have each adopted a code of ethics that permits its personnel, subject to such code, to invest in securities, including securities that may be purchased or held by each fund. Dreyfus' code of ethics restricts the personal securities transactions of its employees, and requires portfolio managers and other investment personnel to comply with the code's preclearance and disclosure procedures. The primary purpose of the code is to ensure that personal trading by employees of Dreyfus does not disadvantage any fund managed by Dreyfus.

FINANCIAL HIGHLIGHTS

The following tables describe the performance of each fund's Class D shares for the fiscal periods indicated. "Total return" shows how much your investment in each fund would have increased (or decreased) during each period assuming you had

reinvested all dividends and distributions. These figures have been independently audited by Ernst & Young LLP, whose report, along with the fund's financial statements, is included in the annual report, which is available upon request.

Account Information

ACCOUNT POLICIES

Each fund is sold exclusively to Citizens and certain other institutional investors, acting for themselves, or in a fiduciary, advisory, agency, brokerage, custodial or similar capacity. Fund shares may not be purchased directly by individuals, although Citizens, and certain other approved institutions, may purchase shares for accounts maintained by individuals. Generally, investors will be required to open a single master account with the fund for all purposes. In certain cases, the fund may require investors to maintain separate master accounts for shares held by the investor (i) for its own account, for the account of other institutions and for accounts for which the institution acts as a fiduciary, and (ii) for accounts for which the investor acts in some other capacity. Each fund offers four classes of shares in separate prospectuses. Individuals or entities for whom Citizens purchases fund shares should consult their Citizens representative to determine which class of shares is made available to them and to purchase or sell fund shares. Citizens may impose policies, limitations and fees which are different from those described in this prospectus.

Buying shares

Fund shares are sold at net asset value per share (NAV), which is generally calculated at 5:00 p.m. and 8:00 p.m. every day the New York Stock Exchange, or the transfer agent (as on Good Friday) as to CitizensSelect Prime Money Market Fund only, is open for regular business. Orders in proper form will be priced at the NAV next calculated after the orders and Federal Funds are received by the fund's custodian or other authorized entity. Each fund's investments are valued based on amortized cost.

As to CitizensSelect Prime Money Market Fund only, orders in proper form placed prior to 5:00 p.m., and payments for which are received in or converted into Federal Funds by the fund's custodian by 6:00 p.m., will become effective at the price determined at 5:00 p.m. on that day, and the shares so purchased will receive the dividend declared on that day.

As to CitizensSelect Treasury Money Market Fund only, orders in proper form placed prior to 3:00 p.m., and payments for which are received in or converted into Federal Funds by the fund's custodian by 6:00 p.m., will become effective at the price determined at 5:00 p.m. on that day. Shares so purchased will receive the dividend declared on that day. Orders for shares placed between 3:00 p.m. and 5:00 p.m. will not be accepted and executed, and notice of the purchase order being rejected will be given to the institution placing the order, and any funds received will be returned promptly to the sending institution.

Orders effected through compatible computer facilities after 5:00 p.m., but prior to 8:00 p.m., will become effective at the price determined at 8:00 p.m. on that day, if Federal Funds are received by the fund's custodian by 11:00 a.m. on the following business day. In this case, shares purchased will start earning dividends on the business day following the date the order became effective. Orders in proper form effected between 5:00 p.m. and 8:00 p.m., by means other than a compatible computer facility, will become effective on the following business day.

All times are Eastern time.

Minimum investments		
	Initial	Additional
Regular accounts	\$1 billion[†]	none

[†] Each fund may waive the minimum initial purchase requirement.

Selling shares

Investors may sell (redeem) shares at any time and the shares will be sold at the next determined NAV.

If a redemption request is received in proper form and transmitted to the fund's custodian by 5:00 p.m. Eastern time, the proceeds of the redemption, if transfer by wire is requested, ordinarily will be transmitted in Federal Funds on the same day, and the shares will not receive the dividend declared on that day. If a request for redemption is received in proper form by the fund's custodian after 5:00 p.m., but by 8:00 p.m., the proceeds of the redemption ordinarily will be transmitted in Federal Funds on the next business day, and the shares will receive the dividend declared on that day. Any certificates representing fund shares being sold must be returned with the redemption request.

The processing of redemptions and the delivery of the proceeds may be delayed beyond the same or next business day, depending on the circumstances, for any period (i) during which the New York Stock Exchange is closed (other than on holidays or weekends), or during which trading on the New York Stock Exchange is restricted; (ii) when an emergency exists that makes difficult the disposal of securities owned by a fund or the determination of the fair value of the fund's net assets; or (iii) as permitted by order of the Securities and Exchange Commission for the protection of fund shareholders. If, for one of these reasons, the processing of redemptions and the delivery of redemption proceeds is delayed beyond the same or next business day, the delay may be for up to seven days. For these purposes, the Securities and Exchange Commission determines the conditions under which trading shall be deemed to be restricted and an emergency shall be deemed to exist.

Concepts to understand

Net asset value (NAV): a mutual fund's share price on a given day. A fund's NAV is calculated by dividing the value of its net assets by the number of its existing shares outstanding.

When calculating its NAV, a fund compares the NAV using amortized cost to its NAV using available market quotations or market equivalents which generally are provided by an independent pricing service approved by the fund's board. The pricing service's procedures are reviewed under the general supervision of the board.

Amortized cost: a method of valuing a money market fund's portfolio securities, which does not take into account unrealized gains or losses. As a result, portfolio securities are valued at their acquisition cost, adjusted over time based on the discounts or premiums reflected in their purchase price. This method of valuation is designed for a fund to be able to price its shares at \$1.00 per share.

General policies

Unless an investor declines teleservice privileges on the application, the investor may be responsible for any fraudulent telephone or online order as long as the fund's transfer agent or other authorized agent takes reasonable measures to verify the order.

Money market funds generally are used by investors for short-term investments, often in place of bank checking or savings accounts or for cash management purposes. Investors value the ability to add and withdraw their funds quickly, without restriction. For this reason, although Dreyfus discourages excessive trading and other abusive trading practices, the funds have not adopted policies and procedures, or imposed redemption fees or other restrictions such as minimum holding periods, to deter frequent purchases and redemptions of fund shares. Dreyfus also believes that money market funds, such as the funds, are not targets of abusive trading practices, because money market funds seek to maintain a \$1.00 per share price and typically do not fluctuate in value based on market prices. However, frequent purchases and redemptions of a fund's shares could increase the fund's transaction costs, such as market spreads and custodial fees, and may interfere with the efficient management of the fund's portfolio, which could detract from the fund's performance. Accordingly, each fund reserves the right to refuse any purchase or exchange request.

Each fund reserves the right to:

- refuse any purchase or exchange request
- change or discontinue its exchange privilege, or temporarily suspend the privilege during unusual market conditions
- change its minimum investment amounts
- "redeem in kind," or make payments in securities rather than cash, if the amount redeemed is large enough to affect fund operations (for example, if it exceeds 1% of the fund's assets)

Each fund also may process purchase and sale orders and calculate its NAV on days that the fund's primary trading markets are open and the fund's management determines to do so.

DISTRIBUTIONS AND TAXES

Each fund earns dividends, interest and other income from its investments, and distributes this income (less expenses) to shareholders as dividends. Each fund also realizes capital gains from its investments, and distributes these gains (less any losses) to shareholders as capital gain distributions. Each fund normally pays dividends once a month and capital gain distributions annually. Fund dividends and capital gain distributions will be reinvested in the fund unless the investor instructs the fund otherwise. There are no fees or sales charges on reinvestments.

Distributions paid by each fund are subject to federal income tax, and may also be subject to state or local taxes (unless the shareholder holds fund shares through a tax-advantaged retirement account). For federal tax purposes, in general, certain fund distributions, including distributions of short-term capital gains, are taxable to investors as ordinary income. Other fund distributions are taxable to investors as qualified dividends and capital gains.

The tax status of any distribution generally is the same regardless of how long an investor has been in the fund and whether distributions are reinvested or taken in cash.

An investor's sale of shares, including exchanges into other funds, may result in a capital gain or loss for tax purposes. A capital gain or loss on an investment in a fund generally is the difference between the cost of the investor's shares and the amount received when the investor sells them.

The tax status of an investor's distributions will be detailed in the investor's annual tax statement from the fund. Because everyone's tax situation is unique, please consult a tax advisor before investing.

SERVICES FOR FUND INVESTORS

Exchange privilege

An investor may purchase, in exchange for Class D shares of one fund, Class D shares of the other fund. An exchange may be requested in writing or by telephone. Any new account established through an exchange will have the same privileges as the original account (as long as they are available). There is currently no fee for exchanges.

Auto-Exchange privilege

Auto-Exchange privilege enables an investor to invest regularly (on a monthly, semi-monthly, quarterly or annual basis), in exchange for Class D shares of one fund, in Class D shares of the other fund, if the investor is a shareholder in such other fund. There is currently no fee for this privilege.

DESCRIPTION OF THE COMPANY AND FUNDS

The Company is a Massachusetts business trust that commenced operations on May 1, 2002. Each Fund is a separate portfolio of the Company, an open-end management investment company, known as a money market mutual fund. Each Fund is a diversified fund, which means that, with respect to 75% of the Fund's total assets, the Fund will not invest more than 5% of its assets in the securities of any single issuer nor hold more than 10% of the outstanding voting securities of any single issuer (other than, in each case, securities of other investment companies and securities issued or guaranteed by the U.S. Government, its agencies or instrumentalities). The Dreyfus Corporation (the "Manager") serves as each Fund's investment adviser.

Certain Portfolio Securities

The following information supplements (except as noted) and should be read in conjunction with the Funds' Prospectus.

U.S. Government Securities. Each Fund may invest in securities issued and guaranteed by the U.S. Government, such as U.S. Treasury securities which include Treasury Bills, Treasury Notes and Treasury Bonds that differ in their interest rates, maturities and times of issuance. Treasury Bills have initial maturities of one year or less; Treasury Notes have initial maturities of one to ten years; and Treasury Bonds generally have initial maturities of greater than ten years.

U.S. Government Agency Securities. (CitizensSelect Prime Money Market Fund only) The Fund may invest in securities issued or guaranteed by U.S. Government agencies or instrumentalities. Some obligations issued or guaranteed by U.S. Government agencies and instrumentalities are supported by the full faith and credit of the U.S. Treasury; others by the right of the issuer to borrow from the U.S. Treasury; others by discretionary authority of the U.S. Government to purchase certain obligations of the agency or instrumentality; and others only by the credit of the agency or instrumentality. These securities bear fixed, floating or variable rates of interest. Interest rates may fluctuate based on generally recognized reference rates or the relationship of rates. While the U.S. Government currently provides financial support to such U.S. Government-sponsored agencies or instrumentalities, no assurance can be given that it will always do so, since it is not so obligated by law.

Bank Obligations. (CitizensSelect Prime Money Market Fund only) The Fund may purchase certificates of deposit ("CDs"), time deposits ("TDs"), bankers' acceptances and other short-term obligations issued by domestic banks, foreign subsidiaries or foreign branches of domestic banks, domestic and foreign branches of foreign banks, domestic savings and loan associations and other banking institutions.

CDs are negotiable certificates evidencing the obligation of a bank to repay funds deposited with it for a specified period of time.

TDs are non-negotiable deposits maintained in a banking institution for a specified period of time (in no event longer than seven days) at a stated interest rate.

Bankers' acceptances are credit instruments evidencing the obligation of a bank to pay a draft drawn on it by a customer. These instruments reflect the obligation both of the bank and

the drawer to pay the face amount of the instrument upon maturity. The other short-term obligations may include uninsured, direct obligations bearing fixed, floating or variable interest rates.

The Fund may invest in TDs and CDs issued by domestic banks, foreign subsidiaries or foreign branches of domestic banks, and domestic and foreign branches of foreign banks. The Fund is authorized to purchase CDs issued by banks, savings and loan associations and similar institutions with less than \$1 billion in assets, the deposits of which are insured by the Federal Deposit Insurance Corporation ("FDIC"), provided the Fund purchases any such CD in a principal amount of no more than \$100,000, which amount would be fully insured by the Bank Insurance Fund or the Savings Association Insurance Fund administered by the FDIC. Interest payments on such a CD are not insured by the FDIC. The Fund would not own more than one such CD per such issuer.

Domestic commercial banks organized under Federal law are supervised and examined by the Comptroller of the Currency and are required to be members of the Federal Reserve System and to have their deposits insured by the FDIC. Domestic banks organized under state law are supervised and examined by state banking authorities but are members of the Federal Reserve System only if they elect to join. In addition, state banks whose CDs may be purchased by the Fund are insured by the FDIC (although such insurance may not be of material benefit to the Fund, depending on the principal amount of the CDs of each bank held by the Fund) and are subject to Federal examination and to a substantial body of Federal law and regulation. As a result of Federal or state laws and regulations, domestic branches of domestic banks whose CDs may be purchased by the Fund generally are, among other things, required to maintain specified levels of reserves and are subject to other supervision and regulation designed to promote financial soundness. However, not all of such laws and regulations apply to the foreign branches of domestic banks.

CDs held by the Fund, other than those issued by banks with less than \$1 billion in assets as described above, do not benefit materially, and time deposits do not benefit at all, from insurance from the Bank Insurance Fund or the Savings Association Insurance Fund administered by the FDIC.

Obligations of foreign branches and foreign subsidiaries of domestic banks and domestic and foreign branches of foreign banks may be general obligations of the parent banks in addition to the issuing branch, or may be limited by the terms of a specific obligation and governmental regulation. Such obligations are subject to different risks than are those of domestic banks. These risks include foreign economic and political developments, foreign governmental restrictions that may adversely affect payment of principal and interest on the obligations, foreign exchange controls and foreign withholding and other taxes on interest income. Foreign branches and subsidiaries are not necessarily subject to the same or similar regulatory requirements that apply to domestic banks, such as mandatory reserve requirements, loan limitations, and accounting, auditing and financial recordkeeping requirements. In addition, less information may be publicly available about a foreign branch of a domestic bank or about a foreign bank than about a domestic bank.

Obligations of United States branches of foreign banks may be general obligations of the parent bank in addition to the issuing branch, or may be limited by the terms of a specific obligation or by Federal or state regulation as well as governmental action in the country in which the foreign bank has its head office. A domestic branch of a foreign bank with assets in excess of \$1 billion may or may not be subject to reserve requirements imposed by the Federal Reserve System or by the state in which the branch is located if the branch is licensed in that state.

In addition, Federal branches licensed by the Comptroller of the Currency and branches licensed by certain states ("State Branches") may be required to: (1) pledge to the regulator, by depositing assets with a designated bank within the state, a certain percentage of their assets as fixed from time to time by the appropriate regulatory authority; and (2) maintain assets within the state in an amount equal to a specified percentage of the aggregate amount of liabilities of the foreign bank payable at or through all of its agencies or branches within the state. The deposits of Federal and State Branches generally must be insured by the FDIC if such branches take deposits of less than \$100,000.

In view of the foregoing factors associated with the purchase of CDs and TDs issued by foreign branches or foreign subsidiaries of domestic banks, or by foreign branches or domestic branches of foreign banks, the Manager carefully evaluates such investments on a case-by-case basis.

Commercial Paper. (CitizensSelect Prime Money Market Fund only) The Fund may purchase commercial paper consisting of short-term, unsecured promissory notes issued to finance short-term credit needs. The commercial paper purchased by the Fund will consist only of direct obligations issued by domestic entities. The other corporate obligations in which the Fund may invest consist of high quality, U.S. dollar denominated short-term bonds and notes (including variable amount master demand notes).

Floating and Variable Rate Obligations. (CitizensSelect Prime Money Market Fund only) The Fund may purchase floating and variable rate demand notes and bonds, which are obligations ordinarily having stated maturities in excess of 13 months, but which permit the holder to demand payment of principal at any time, or at specified intervals not exceeding 13 months, in each case upon not more than 30 days' notice. Variable rate demand notes include master demand notes which are obligations that permit the Fund to invest fluctuating amounts, at varying rates of interest, pursuant to direct arrangements between the Fund, as lender, and the borrower. These obligations permit daily changes in the amounts borrowed. Because these obligations are direct lending arrangements between the lender and borrower, it is not contemplated that such instruments generally will be traded, and there generally is no established secondary market for these obligations, although they are redeemable at face value, plus accrued interest. Accordingly, where these obligations are not secured by letters of credit or other credit

support arrangements, the Fund's right to redeem is dependent on the ability of the borrower to pay principal and interest on demand.

Asset-Backed Securities. (CitizensSelect Prime Money Market Fund only) The Fund may invest in asset-backed securities, which are securities issued by special purpose entities whose primary assets consist of a pool of mortgages, loans, receivables or other assets. Payment of principal and interest may depend largely on the cash flows generated by the assets backing the securities and in certain cases, supported by letters of credit, surety bonds or other forms of credit or liquidity enhancements. The value of these asset-backed securities also may be affected by the creditworthiness of the servicing agent for the pool of assets, the originator of the loans or receivables or the financial institutions providing the credit support.

Repurchase Agreements. (CitizensSelect Prime Money Market Fund only) The Fund may enter into repurchase agreements. In a repurchase agreement, the Fund buys, and the seller agrees to repurchase, a security at a mutually agreed upon time and price (usually within seven days). The repurchase agreement thereby determines the yield during the purchaser's holding period, while the seller's obligation to repurchase is secured by the value of the underlying security. The Fund's custodian or sub-custodian engaged in connection with tri-party repurchase agreement transactions will have custody of, and will segregate securities acquired by the Fund under a repurchase agreement. Repurchase agreements are considered by the staff of the Securities and Exchange Commission to be loans by the Fund. Repurchase agreements could involve risks in the event of a default or insolvency of the other party to the agreement, including possible delays or restrictions upon a Fund's ability to dispose of the underlying securities. In an attempt to reduce the risk of incurring a loss on a repurchase agreement, the Fund will enter into repurchase agreements only with domestic banks with total assets in excess of \$1 billion, or primary government securities dealers reporting to the Federal Reserve Bank of New York, with respect to securities of the type in which the Fund may invest, and will require that additional securities be deposited with it if the value of the securities purchased should decrease below resale price.

Illiquid Securities. Each Fund may invest up to 10% of the value of its net assets in securities as to which a liquid trading market does not exist, provided such investments are consistent with the Fund's investment objective. These securities may include securities that are not readily marketable, such as securities that are subject to legal or contractual restrictions on resale, and repurchase agreements providing for settlement in more than seven days after notice. As to these securities, a Fund is subject to the risk that should the Fund desire to sell them when a ready buyer is not available at a price the Fund deems representative of their value, the value of the Fund's net assets could be adversely affected.

Investment Techniques

The following information supplements and should be read in conjunction with the Funds' Prospectus.

Borrowing Money. Each Fund is permitted to borrow to the extent permitted under the Investment Company Act of 1940, as amended (the "1940 Act"), which permits an investment company to borrow an amount up to 33-1/3% of the value of its total assets. Each Fund

currently intends to borrow money from banks for temporary or emergency (not leveraging) purposes in an amount up to 15% of the value of its total assets (including the amount borrowed) valued at the lesser of cost or market, less liabilities (not including the amount borrowed) at the time the borrowing is made. While such borrowings exceed 5% of the value of a Fund's total assets, the Fund will not make any additional investments.

Certain Investment Considerations and Risks

General. Each Fund attempts to increase yields by trading to take advantage of short-term market variations. This policy is expected to result in high portfolio turnover but should not adversely affect the Funds since the Funds usually do not pay brokerage commissions when purchasing short-term obligations. The value of the portfolio securities held by a Fund will vary inversely to changes in prevailing interest rates. Thus, if interest rates have increased from the time a security was purchased, such security, if sold, might be sold at a price less than its cost. Similarly, if interest rates have declined from the time a security was purchased, such security, if sold, might be sold at a price greater than its purchase cost. In either instance, if the security was purchased at face value and held to maturity, no gain or loss would be realized.

Bank Securities. (CitizensSelect Prime Money Market Fund only) To the extent the Fund's investments are concentrated in the banking industry, the Fund will have correspondingly greater exposure to the risk factors which are characteristic of such investments. Sustained increases in interest rates can adversely affect the availability or liquidity and cost of capital funds for a bank's lending activities, and a deterioration in general economic conditions could increase the exposure to credit losses. In addition, the value of and the investment return on the Fund's shares could be affected by economic or regulatory developments in or related to the banking industry, which industry also is subject to the effects of competition within the banking industry as well as with other types of financial institutions. The Fund, however, will seek to minimize its exposure to such risks by investing only in debt securities which are determined to be of the highest quality.

Foreign Securities. (CitizensSelect Prime Money Market Fund only) The Fund may invest in securities issued by foreign subsidiaries or foreign branches of domestic banks, and domestic and foreign branches of foreign banks. Accordingly, the Fund may be subject to additional investment risks with respect to those securities that are different in some respects from those incurred by a money market fund which invests only in debt obligations of U.S. domestic issuers, although such obligations may be higher yielding when compared to the securities of U.S. domestic issuers. Such risks include possible future political and economic developments, seizure or nationalization of foreign deposits, imposition of foreign withholding taxes on interest income payable on the securities, establishment of exchange controls, or adoption of other foreign governmental restrictions which might adversely affect the payment of principal and interest on these securities.

Simultaneous Investments. Investment decisions for each Fund are made independently from those of the other Fund and other investment companies advised by the Manager. If,

however, such other Fund or investment companies desire to invest in, or dispose of, the same securities as the Fund, available investments or opportunities for sales will be allocated equitably to each. In some cases, this procedure may adversely affect the size of the position obtained for or disposed of by a Fund or the price paid or received by a Fund.

Investment Restrictions

Under normal circumstances, CitizensSelect Treasury Money Market Fund invests at least 80% of its net assets, plus any borrowings for investment purposes, in U.S. Treasury securities (or other instruments with similar economic characteristics). CitizensSelect Treasury Money Market Fund has adopted a policy to provide its shareholders with at least 60 days' prior notice of any change in its policy to so invest 80% of its assets. Each Fund's investment objective is a fundamental policy, which cannot be changed without approval by the holders of a majority (as defined in the 1940 Act) of the Fund's outstanding voting shares. In addition, the Company has adopted investment restrictions numbered 1 through 9, with respect to each Fund, investment restriction number 10, with respect to CitizensSelect Prime Money Market Fund only, and investment restriction number 11, with respect to CitizensSelect Treasury Money Market Fund only, as fundamental policies. Investment restrictions numbered 12 and 13 are not fundamental policies and may be changed, as to a Fund, by vote of a majority of the Company's Board members at any time. Neither Fund may:

1. Invest in commodities.
2. Borrow money, except to the extent permitted under the 1940 Act, which currently limits borrowing to up to 33-1/3% of the value of the Fund's total assets.
3. Lend any securities or make loans to others, if, as a result, more than 33-1/3% of its total assets would be lent to others, except that this limitation does not apply to the purchase of debt obligations and the entry into repurchase agreements. However, the Fund may lend its portfolio securities in an amount not to exceed 33-1/3% of the value of its total assets. Any loans of portfolio securities will be made according to guidelines established by the Securities and Exchange Commission and the Company's Board.
4. Purchase or sell securities on margin.
5. Issue any senior security (as such term is defined in Section 18(f) of the 1940 Act).
6. Act as underwriter of securities of other issuers, except to the extent the Fund may be deemed an underwriter under the Securities Act of 1933, as amended, by virtue of disposing of portfolio securities.
7. Purchase, hold or deal in real estate, or oil, gas, or other mineral leases or exploration or development programs, but the Fund may purchase and sell securities that are secured by real estate or issued by companies that invest in or deal in real estate.

8. Invest more than 5% of its assets in the obligations of any single issuer, except that up to 25% of the value of the Fund's total assets may be invested, and securities issued or guaranteed by the U.S. Government, its agencies or instrumentalities may be purchased, without regard to any such limitation.
9. Hold more than 10% of the outstanding voting securities of any single issuer. This Investment Restriction applies only with respect to 75% of the Fund's total assets.

* * *

The following investment restriction number 10 is a fundamental policy which applies only to CitizensSelect Prime Money Market Fund:

10. Invest less than 25% of its total assets in securities issued by banks or invest more than 25% of its total assets in the securities of issuers in any other industry, provided that there shall be no limitation on the purchase of obligations issued or guaranteed by the U.S. Government, its agencies or instrumentalities. Notwithstanding the foregoing, for temporary defensive purposes the Fund may invest less than 25% of its assets in bank obligations.

* * *

The following investment restriction number 11 is a fundamental policy which applies only to CitizensSelect Treasury Money Market Fund:

11. Invest more than 25% of its total assets in the securities of issuers in any single industry, provided that there shall be no such limitation on investments in obligations issued and guaranteed by the U.S. Government.

* * *

12. Pledge, mortgage, hypothecate or otherwise encumber its assets, except to the extent necessary to secure permitted borrowings and to the extent related to the deposit of assets in escrow in connection with the purchase of securities on a when-issued or forward commitment basis.
13. Enter into repurchase agreements providing for settlement in more than seven days after notice or purchase securities which are illiquid if, in the aggregate, more than 10% of the value of the Fund's net assets would be so invested.

If a percentage restriction is adhered to at the time of investment, a later increase or decrease in percentage resulting from a change in values or assets will not constitute a violation of that restriction. With respect to Investment Restriction No. 2, however, if borrowings exceed 33-1/3% of the value of the Fund's total assets as a result of a change in values or assets, the Fund must take steps to reduce such borrowings at least to the extent of such excess.

MANAGEMENT OF THE COMPANY AND FUNDS

The Company's Board is responsible for the management and supervision of each Fund, and approves all significant agreements with those companies that furnish services to the Funds. Board members of the Company, together with information as to their positions with the Company, principal occupations and other board memberships and affiliations, are shown below.

Board Members of the Company¹

<u>Name (Age)</u> <u>Position with Company (Since)</u>	<u>Principal Occupation</u> <u>During Past 5 Years</u>	<u>Other Board Memberships and Affiliations</u>
Joseph S. DiMartino (61) Chairman of the Board (2002)	Corporate Director and Trustee	The Muscular Dystrophy Association, <i>Director</i> Levcor International, Inc., an apparel fabric processor, <i>Director</i> Century Business Services, Inc., a provider of outsourcing functions for small and medium size companies, <i>Director</i> The Newark Group, a provider of a national market of paper recovery facilities, paperboard mills and paperboard converting plants, <i>Director</i> Azimuth Trust, an institutional asset management firm, <i>Member of Board of Managers and Advisory Board</i>
Clifford L. Alexander, Jr. (71) Board Member (2002)	President of Alexander & Associates, Inc., a management consulting firm (January 1981 – present) Chairman of the Board of Moody's Corporation (October 2000 – October 2003) Chairman of the Board and Chief Executive Officer of The Dun and Bradstreet Corporation (October 1999 – September 2000)	Mutual of America Life Insurance Company, <i>Director</i>
Lucy Wilson Benson (77) Board Member (2002)	President of Benson and Associates, consultants to business and government (1980 to present)	The International Executive Services Corps., <i>Director</i> Citizens Network for Foreign Affairs, <i>Vice Chairperson</i> Council on Foreign Relations, <i>Member</i> Lafayette College Board of Trustees, <i>Emeritus</i>

¹ None of the Board members are "interested persons" of the Company, as defined in the 1940 Act.

Board members are elected to serve for an indefinite term. The Company has standing audit, nominating and compensation committees, each comprised of its Board members who are not "interested persons" of the Company, as defined in the 1940 Act. The function of the audit committee is (i) to oversee the Company's accounting and financial reporting processes and the audits of each Fund's financial statements and (ii) to assist in the Board's oversight of the integrity of each Fund's financial statements, the Company's compliance with legal and regulatory requirements and the independent registered public accounting firm's qualifications,

independence and performance. The Company's nominating committee is responsible for selecting and nominating persons as members of the Board for election or appointment by the Board and for election by shareholders. In evaluating potential nominees, including any nominees recommended by shareholders, the committee takes into consideration various factors listed in the nominating committee charter, including character and integrity, business and professional experience, and whether the committee believes the person has the ability to apply sound and independent business judgment and would act in the interest of each Fund and its shareholders. The nominating committee will consider recommendations for nominees from shareholders submitted to the Secretary of the Company, c/o Legal Department, 200 Park Avenue, 8th Floor East, New York, New York 10166, which includes information regarding the recommended nominee as specified in the nominating committee charter. The function of the compensation committee is to establish the appropriate compensation for serving on the Board. The Company also has a standing evaluation committee comprised of any one Board member of the Company. The function of the evaluation committee is to assist in valuing the Funds' investments. The audit committee met five times and the compensation committee met once during the fiscal year ended April 30, 2005. The nominating committee and evaluation committee had no meetings during the last fiscal year.

The table below indicates the dollar range of each Board member's ownership of Fund shares and shares of other funds in the Dreyfus Family of Funds for which he or she is a Board member, in each case as of December 31, 2004.

<u>Name of Board Member</u>	<u>CitizensSelect Prime Money Market Fund</u>	<u>CitizensSelect Treasury Money Market Fund</u>	<u>Aggregate Holding of Funds in the Dreyfus Family of Funds for which Responsible as a Board Member</u>
Joseph S. DiMartino	None	None	Over \$100,000
Clifford L. Alexander, Jr.	None	None	Over \$100,000
Lucy Wilson Benson	None	None	\$50,001 - \$100,000

As of December 31, 2004, none of the Board members or their immediate family members owned securities of the Manager or the Distributor or any person (other than a registered investment company) directly or indirectly controlling, controlled by or under common control with the Manager or the Distributor.

The Company has agreed to pay its Board members an annual retainer of \$8,000 and a fee of \$2,000 per meeting (with a minimum of \$500 per meeting and per telephone meeting) attended and reimburses them for their expenses. The Chairman of the Board receives an additional 25% of such compensation. Emeritus Board members, if any, are entitled to receive an annual retainer and a per meeting attendance fee of one-half the amount paid to them as Board members. The aggregate amount of compensation paid to each Board member by the Company for the fiscal ended April 30, 2005, and by all funds in the Dreyfus Family of Funds for which such person is a Board member (the number of portfolios of such funds is set forth in parenthesis next to each Board member's total compensation) for the year ended December 31, 2004, were as follows:

Name of Board Member	Aggregate Compensation From the Company*	Total Compensation From the Company and Fund Complex Paid to Board Member(**)
Joseph S. DiMartino	\$25,000	\$874,754 (193)
Clifford L. Alexander, Jr.	\$20,000	\$218,500 (64)
Lucy Wilson Benson	\$20,000	\$129,500 (40)

* The compensation payable to each Board member was paid by the Manager, not the Company. See "Management Arrangements."

** Represents the number of separate portfolios comprising the investment companies in the Fund Complex, including the Funds, for which the Board member serves.

Officers of the Company

STEPHEN E. CANTER, President since February 2002. Chairman of the Board, Chief Executive Officer, and Chief Operating Officer of the Manager, and an officer of 90 investment companies (comprised of 184 portfolios) managed by the Manager. Mr. Canter also is a Board member and, where applicable, an Executive Committee Member of the other investment management subsidiaries of Mellon Financial Corporation, each of which is an affiliate of the Manager. He is 60 years old and has been an employee of the Manager since May 1995.

STEPHEN R. BYERS, Executive Vice President since November 2002. Chief Investment Officer, Vice Chairman and a director of the Manager, and an officer of 90 investment companies (comprised of 184 portfolios) managed by the Manager. Mr. Byers also is an officer, director or an Executive Committee Member of certain other investment management subsidiaries of Mellon Financial Corporation, each of which is an affiliate of the Manager. He is 51 years old and has been an employee of the Manager since January 2000.

J. CHARLES CARDONA, Executive Vice President since February 2002. Executive Vice President of Dreyfus Service Corporation (the "Distributor"), President of Dreyfus Institutional Services Division, a division of the Distributor, and an officer of 13 investment companies (comprised of 17 portfolios) managed by the Manager. He is 49 years old and has been an employee of the Manager since February 1981.

MARK N. JACOBS, Vice President since February 2002. Executive Vice President, General Counsel and Secretary of the Manager, and an officer of 91 investment companies (comprised of 200 portfolios) managed by the Manager. He is 59 years old and has been an employee of the Manager since June 1977.

JAMES WINDELS, Treasurer since February 2002. Director – Mutual Fund Accounting of the Manager, and an officer of 91 investment companies (comprised of 200 portfolios) managed by the Manager. He is 46 years old and has been an employee of the Manager since April 1985.

MICHAEL A. ROSENBERG, Vice President and Secretary since August 2005. Associate General Counsel of the Manager, and an officer of 91 investment companies (comprised of 200 portfolios) managed by the Manager. He is 45 years old and has been an employee of the Manager since October 1991.

JAMES BITETTO, Vice President and Assistant Secretary since August 2005. Assistant General Counsel and Assistant Secretary of the Manager, and an officer of 91 investment companies (comprised of 200 portfolios) managed by the Manager. He is 39 years old and has been an employee of the Manager since December 1996.

JONI LACKS CHARATAN, Vice President and Assistant Secretary since August 2005. Assistant General Counsel of the Manager, and an officer of 91 investment companies (comprised of 200 portfolios) managed by the Manager. She is 49 years old and has been an employee of the Manager since October 1988.

JOSEPH M. CHIOFFI, Vice President and Assistant Secretary since August 2005. Assistant General Counsel of the Manager, and an officer of 91 investment companies (comprised of 200 portfolios) managed by the Manager. He is 43 years old and has been an employee of the Manager since June 2000.

JANETTE E. FARRAGHER, Vice President and Assistant Secretary since August 2005. Associate General Counsel of the Manager, and an officer of 91 investment companies (comprised of 200 portfolios) managed by the Manager. She is 42 years old and has been an employee of the Manager since February 1984.

JOHN B. HAMMALIAN, Vice President and Assistant Secretary since August 2005. Associate General Counsel of the Manager, and an officer of 91 investment companies (comprised of 200 portfolios) managed by the Manager. He is 42 years old and has been an employee of the Manager since February 1991.

ROBERT R. MULLERY, Vice President and Assistant Secretary since August 2005. Associate General Counsel of the Manager, and an officer of 91 investment companies (comprising 200 portfolios) managed by the Manager. He is 53 years old and has been an employee of the Manager since May 1986.

JEFF PRUSNOFSKY, Vice President and Assistant Secretary since August 2005. Associate General Counsel of the Manager, and an officer of 91 investment companies (comprised of 200 portfolios) managed by the Manager. He is 40 years old and has been an employee of the Manager since October 1990.

GREGORY S. GRUBER, Assistant Treasurer since August 2005. Senior Accounting Manager – Municipal Bond Funds of the Manager, and an officer of 91 investment companies (comprised of 200 portfolios) managed by the Manager. He is 45 years old and has been an employee of the Manager since August 1981.

ERIK D. NAVILOFF, Assistant Treasurer since August 2005. Senior Accounting Manager – Taxable Fixed Income Funds of the Manager, and an officer of 91 investment companies

(comprised of 200 portfolios) managed by the Manager. He is 37 years old and has been an employee of the Manager since November 1992.

ROBERT S. ROBOL, Assistant Treasurer since August 2003. Senior Accounting Manager – Money Market Funds of the Manager, and an officer of 91 investment companies (comprised of 200 portfolios) managed by the Manager. He is 41 years old and has been an employee of the Manager since October 1988.

KENNETH J. SANDGREN, Assistant Treasurer since February 2002. Mutual Funds Tax Director of the Manager, and an officer of 91 investment companies (comprised of 200 portfolios) managed by the Manager. He is 50 years old and has been an employee of the Manager since June 1993.

ROBERT SVAGNA, Assistant Treasurer since August 2005. Senior Accounting Manager – Equity Funds of the Manager, and an officer of 91 investment companies (comprised of 200 portfolios) managed by the Manager. He is 37 years old and has been an employee of the Manager since November 1990.

WILLIAM GERMENIS, Anti-Money Laundering Compliance Officer since October 2002. Vice President and Anti-Money Laundering Compliance Officer of the Distributor, and the Anti-Money Laundering Compliance Officer of 87 investment companies (comprised of 196 portfolios) managed by the Manager. He is 34 years old and has been an employee of the Distributor since October 1998.

JOSEPH W. CONNOLLY, Chief Compliance Officer since October 2004. Chief Compliance Officer of the Manager and The Dreyfus Family of Funds (91 investment companies, comprised of 200 portfolios). From November 2001 through March 2004, Mr. Connolly was first Vice-President, Mutual Fund Servicing for Mellon Global Securities Services. In that capacity, Mr. Connolly was responsible for managing Mellon's Custody, Fund Accounting and Fund Administration services to third-party mutual fund clients. He is 48 years old and has served in various capacities with the Manager since 1980, including manager of the firm's Fund Accounting Department from 1997 through October 2001.

The address of each Board member and officer of the Fund is 200 Park Avenue, New York, New York 10166.

The Company's Board members and officers, as a group, owned less than 1% of each Fund's outstanding shares as of August 3, 2005. See "Information About the Company and Funds" for a list of shareholders known by the Company to own of record 5% or more of a Fund's outstanding voting securities as of August 3, 2005.

MANAGEMENT ARRANGEMENTS

Investment Adviser. The Manager is a wholly-owned subsidiary of Mellon Financial Corporation ("Mellon"). Mellon is a global financial holding company incorporated under Pennsylvania law in 1971 and registered under the Federal Bank Holding Company Act of 1956, as amended.

The Manager provides management services pursuant to the Management Agreement (the "Agreement") between the Manager and the Company. As to each Fund, the Agreement is subject to annual approval by (i) the Company's Board or (ii) vote of a majority (as defined in the 1940 Act) of the Fund's outstanding voting securities, provided that in either event the continuance also is approved by a majority of the Board members who are not "interested persons" (as defined in the 1940 Act) of the Company or the Manager, by vote cast in person at a meeting called for the purpose of voting on such approval. As to each Fund, the Agreement is terminable without penalty on 60 days' notice by the Board or by vote of the holders of a majority of the Fund's shares or, upon not less than 90 days' notice, by the Manager. The Agreement will terminate automatically, as to the relevant Fund, in the event of its assignment (as defined in the 1940 Act).

In approving the Agreement, the Board considered a number of factors, including the nature, extent and quality of the services provided by the Manager; the investment philosophy and investment approach applied to the Funds by the Manager; the investment management expertise of the Manager in respect of the Funds' investment strategies; the personnel, resources and experience of the Manager; each Fund's performance history and the management fees paid to the Manager relative to those of mutual funds with similar investment objectives, strategies and restrictions; the Manager's costs of providing services under the Agreement; the relationship between the fees paid to the Manager under the Agreement and the Company's Distribution Plan; and ancillary benefits the Manager may receive from its relationship with the Company.

The following persons are officers and/or directors of the Manager: Stephen E. Canter, Chair of the Board, Chief Executive Officer and Chief Operating Officer; Thomas F. Eggers, President and a director; Stephen R. Byers, Chief Investment Officer, Vice Chair and a director; J. Charles Cardona, Vice Chair and a director; Diane P. Durnin, Vice Chair and a director; J. David Officer, Vice Chair and a director; Ronald P. O'Hanley III, Vice Chair and a director; Mark N. Jacobs, Executive Vice President, General Counsel and Secretary; Patrice M. Kozlowski, Senior Vice President-Corporate Communications; Lisa A. Fox, Vice-President-Human Resources; Anthony Mayo, Vice President-Information Systems; Theodore A. Schachar, Vice President-Tax; Alex G. Sciulli, Vice President; Wendy H. Strutt, Vice President; Gary Pierce, Controller; Joseph W. Connolly, Chief Compliance Officer; James Bitetto, Assistant Secretary; and Steven G. Elliott, David F. Lamere, Martin G. McGuinn and Richard W. Sabo, directors.

The Manager manages each Fund's portfolio of investments in accordance with the stated policies of the Fund, subject to the approval of the Company's Board. The Manager is responsible for investment decisions, and provides the Funds with portfolio managers who are authorized by the Company's Board to execute purchases and sales of securities. The Funds' portfolio managers are Bernard Kiernan, Patricia A. Larkin and James O'Connor. The Manager also maintains a research department with a professional staff of securities analysts who provide research services for the Funds and for other funds advised by the Manager.

The Manager's Code of Ethics subjects its employees' personal securities transactions to various restrictions to ensure that such trading does not disadvantage any fund advised by the Manager. In that regard, portfolio managers and other investment personnel of the Manager must preclear and report their personal securities transactions and holdings, which are reviewed for compliance with the Code of Ethics, and are also subject to the oversight of Mellon's Investment Ethics Committee (the "Committee"). Portfolio managers and other investment personnel who comply with the preclearance and disclosure procedures of the Code of Ethics and the requirements of the Committee, may be permitted to purchase, sell or hold securities which also may be or are held in fund(s) they manage or for which they otherwise provide investment advice.

The Manager maintains office facilities on behalf of the Company and furnishes statistical and research data, clerical help, accounting, data processing, bookkeeping and internal auditing and certain other required services to the Company. The Manager may pay the Distributor for shareholder services from the Manager's own assets, including past profits but not including the management fee paid by the Funds. The Distributor may use part or all of such payments to pay securities dealers, banks and other financial institutions (collectively, "Service Agents") in respect of these services. The Manager also may make such advertising and promotional expenditures, using its own resources, as it from time to time deems appropriate.

All expenses incurred in the operation of the Company are borne by the Manager, except management fees, Rule 12b-1 fees, administrative and omnibus account services fees, taxes, interest, brokerage fees and commissions, if any, fees and expenses of non-interested Board members, fees and expenses of independent counsel to the Company and to the non-interested Board members, and any extraordinary expenses.

As compensation for the Manager's services, the Company has agreed to pay the Manager a monthly fee at the annual rate of 0.10% of the value of each Fund's average daily net assets. All fees and expenses are accrued daily and deducted before declaration of dividends to shareholders. The Manager has agreed to reduce its management fee in an amount equal to the accrued fees and expenses of the non-interested Board members, and the fees and expenses of independent counsel to the Company and to the non-interested Board members.

For the period May 1, 2002 (commencement of operations) through April 30, 2003 and the fiscal years ended April 30, 2004 and 2005, the management fees payable by each Fund to the Manager, the amounts waived by the Manager and the net fees paid by each Fund were as follows:

<u>Management Fees Payable</u>			
<u>Fund</u>	<u>2005</u>	<u>2004</u>	<u>2003¹</u>
CitizensSelect Prime Money Market Fund	\$398,377	\$491,356	\$513,879
CitizensSelect Treasury Money Market Fund	\$377,353	\$346,634	\$192,201

<u>Reduction In Fees</u>			
<u>Fund</u>	<u>2005</u>	<u>2004</u>	<u>2003¹</u>
CitizensSelect Prime Money Market Fund	\$-0-	\$-0-	\$80,744
CitizensSelect Treasury Money Market Fund	\$-0-	\$-0-	\$27,471

<u>Net Fees Paid</u>			
<u>Fund</u>	<u>2005</u>	<u>2004</u>	<u>2003¹</u>
CitizensSelect Prime Money Market Fund	\$398,377	\$491,356	\$433,105
CitizensSelect Treasury Money Market Fund	\$377,353	\$346,634	\$164,730

¹ From May 1, 2002 (commencement of operations) through April 30, 2003.

The aggregate of the fees payable to the Manager is not subject to reduction as the value of the Funds' net assets increases.

Distributor. The Distributor, a wholly-owned subsidiary of the Manager, located at 200 Park Avenue, New York, New York 10166, serves as each Fund's distributor on a best efforts basis pursuant to an agreement with the Company, which is renewable annually.

The Manager or the Distributor may provide cash payments out of its own resources to financial intermediaries that sell shares of the Funds or provide other services. These additional payments may be made to certain Service Agents, including affiliates, that provide shareholder servicing, sub-administration, recordkeeping and/or sub-transfer agency services, marketing support and/or access to sales meetings, sales representatives and management representatives of the Service Agent. Cash compensation also may be paid to Service Agents for inclusion of the Funds on a sales list, including a preferred or select sales list or in other sales programs. These payments sometimes are referred to as "revenue sharing." In some cases, these payments may create an incentive for a Service Agent to recommend or sell shares of the Funds. Investors should contact their Service Agent for details about any payments it may receive in connection with the sale of Fund shares or the provision of services to the Funds.

From time to time, the Manager or the Distributor also may provide cash or non-cash compensation to Service Agents in the form of: occasional gifts; occasional meals, tickets or other entertainment; support for due diligence trips; educational conference sponsorship; support for recognition programs; and other forms of cash or non-cash compensation permissible under broker-dealer regulations, as periodically amended.

Transfer and Dividend Disbursing Agent and Custodian. Dreyfus Transfer, Inc. (the "Transfer Agent"), a wholly-owned subsidiary of the Manager, 200 Park Avenue, New York, New York 10166, is the Company's transfer and dividend disbursing agent. Under a transfer agency agreement with the Company, the Transfer Agent arranges for the maintenance of shareholder account records for each Fund, the handling of certain communications between shareholders and the Fund and the payment of dividends and distributions payable by the Fund. For these services, the Transfer Agent will receive a monthly fee computed on the basis of the number of shareholder accounts it maintains for each Fund during the month, and will be reimbursed for certain out-of-pocket expenses. The Manager pays the Funds' transfer agency fees.

The Bank of New York (the "Custodian"), One Wall Street, New York, New York 10286, is each Fund's custodian. The Custodian has no part in determining the investment policies of the Funds or which securities are to be purchased or sold by the Funds. Under a custody agreement with the Company, the Custodian holds each Fund's securities and keeps all necessary accounts and records.

HOW TO BUY SHARES

Each Fund is sold exclusively to Citizens, and certain other institutional investors, acting for themselves, or in a fiduciary, advisory, agency, brokerage, custodial or similar capacity. Fund shares may not be purchased directly by individuals, although Citizens, and certain other approved institutions, may purchase shares for accounts maintained by individuals. Generally, investors will be required to open a single master account with the Fund for all purposes. In certain cases, the Fund may require investors to maintain separate master accounts for shares held by the investor (i) for its own account, for the account of other institutions and for accounts for which the institution acts as a fiduciary, and (ii) for accounts for which the investor acts in some other capacity. These omnibus accounts will be registered in nominee name for the benefit

of the clients of Citizens or other approved institutions purchasing Fund shares. Citizens and other approved institutions will provide omnibus account services pursuant to an agreement with the Fund. Such services may include aggregating and processing purchase and redemption requests, transmitting funds for the purchase of shares to the Funds, transmitting redemption proceeds to redeeming beneficial owners of the shares, maintaining records of Fund shares transactions, preparing shareholder statements, and such other related services as the Funds may reasonably request, other than those provided pursuant to the Funds' Administrative Services Plan. For these services, each Fund has agreed to pay Citizens and such other approved institutions a monthly fee at the annual rate of 0.10% of the value of the Fund's average daily net assets represented by Fund shares held by Citizens or such institutions, as the case may be.

Each Fund offers four classes of shares – Class A, Class B, Class C and Class D. Individuals or entities for whom Citizens or other approved institutions purchase Fund shares should consult their Citizens representative to determine which class of shares is made available to them. Citizens or other approved institutions purchasing Fund shares on behalf of their clients may impose policies, limitations and fees which are different from those described in this Statement of Additional Information.

The minimum initial investment for each class is \$1 billion, unless the investor has invested at least \$1 billion in the aggregate among any classes of shares of one Fund, in which case there would be no minimum initial investment amount for the other Fund, or the investor has, in the opinion of the Distributor, adequate intent and availability of funds to reach a future aggregate level of investment of \$1 billion among any classes of shares of the Funds. There is no minimum for subsequent purchases. The initial investment must be accompanied by the Account Application. Share certificates are issued only upon the investor's written request. No certificates are issued for fractional shares. The Company reserves the right to reject any purchase order.

Management understands that some Service Agents may impose certain conditions on their clients which are different from those described in the Funds' Prospectus and this Statement of Additional Information, and, to the extent permitted by applicable regulatory authority, may charge their clients direct fees. As discussed under "Management Arrangements-Distributor," Service Agents may receive revenue sharing payments from the Manager or the Distributor. The receipt of such payments could create an incentive for a Service Agent to recommend or sell shares of the Funds instead of other mutual funds where such payments are not received. Investors should contact their Service Agent for details about any payments it may receive in connection with the sale of Fund shares or the provision of services to the Funds.

Fund shares are sold on a continuous basis at the net asset value per share next determined after an order in proper form and Federal Funds (monies of member banks in the Federal Reserve System which are held on deposit at a Federal Reserve Bank) are received by the Custodian or by any agent or entity subject to the direction of such agents. If an investor does not remit Federal Funds, its payment must be converted into Federal Funds. This usually occurs within one business day of receipt of a bank wire and within two business days of receipt of a check drawn on a member bank of the Federal Reserve System. Checks drawn on banks which are not members of the Federal Reserve System may take considerably longer to convert into Federal Funds. Prior to receipt of Federal Funds, the investor's money will not be invested.

Each Fund's net asset value per share is generally calculated at 5:00 p.m. and 8:00 p.m. every day the New York Stock Exchange, or the Transfer Agent (as on Good Friday) as to CitizensSelect Prime Money Market Fund only, is open for regular business. Net asset value per share of each class is computed by dividing the value of the Fund's net assets represented by such class (i.e., the value of its assets less liabilities) by the total number of shares of such class outstanding. See "Determination of Net Asset Value."

As to CitizensSelect Prime Money Market Fund only, orders in proper form placed prior to 5:00 p.m., and payments for which are received in or converted into Federal Funds by the Fund's Custodian by 6:00 p.m., will become effective at the price determined at 5:00 p.m. on that day, and the shares so purchased will receive the dividend declared on that day.

As to CitizensSelect Treasury Money Market Fund only, orders in proper form placed prior to 3:00 p.m., and payments for which are received in or converted into Federal Funds by the Fund's Custodian by 6:00 p.m., will become effective at the price determined at 5:00 p.m. on that day. Shares so purchased will receive the dividend declared on that day. Orders for shares placed between 3:00 p.m. and 5:00 p.m. will not be accepted and executed, and notice of the purchase order being rejected will be given to the institution placing the order, and any funds received will be returned promptly to the sending institution.

Orders effected through an automated interface or trading system or other compatible computer facilities after 5:00 p.m., but prior to 8:00 p.m., will become effective at the price determined at 8:00 p.m. on that day, if Federal Funds are received by the Fund's Custodian by 11:00 a.m. on the following business day. In this case, shares purchased will start earning dividends on the business day following the date the order became effective. Orders in proper form effected between 5:00 p.m. and 8:00 p.m., by means other than a compatible computer facility, will become effective on the following business day.

All times are Eastern time.

DISTRIBUTION PLAN

Rule 12b-1 (the "Rule") adopted by the Securities and Exchange Commission under the 1940 Act, provides, among other things, that an investment company may bear expenses of distributing its shares only pursuant to a plan adopted in accordance with the Rule. The Company's Board has adopted such a plan (the "Distribution Plan") with respect to each Fund's Class C and Class D shares pursuant to which the Fund pays the Distributor for distributing, advertising and marketing each such Class of shares at the annual rate of 0.25% of the value of the average daily net assets of Class C shares and 0.65% of the value of the average daily net assets of Class D shares. The Distributor may pay all or a part of the fees paid pursuant to the Distribution Plan to Citizens or other approved institutions that have purchased Class C or Class D shares for the benefit of others. The Company's Board believes that there is a reasonable likelihood that the Distribution Plan will benefit each Fund and the holders of its Class C and Class D shares.

A quarterly report of the amounts expended under the Distribution Plan, and the purposes for which such expenditures were incurred, must be made to the Board for its review. In

addition, the Distribution Plan provides that it may not be amended to increase materially the costs which holders of a Fund's Class C or Class D shares may bear pursuant to the Distribution Plan without the approval of the holders of such shares and that other material amendments of the Distribution Plan must be approved by the Company's Board and by the Board members who are not "interested persons" (as defined in the 1940 Act) of the Company and have no direct or indirect financial interest in the operation of the Distribution Plan or in any agreements entered into in connection with the Distribution Plan, by vote cast in person at a meeting called for the purpose of considering such amendments. As to each Fund, the Distribution Plan is subject to annual approval by such vote of the Board cast in person at a meeting called for the purpose of voting on the Distribution Plan. As to the relevant Class of shares of a Fund, the Distribution Plan may be terminated at any time by vote of a majority of the Board members who are not "interested persons" and have no direct or indirect financial interest in the operation of the Distribution Plan or in any agreements entered into in connection with the Distribution Plan or by vote of the holders of a majority of such Class of shares.

For the fiscal year ended April 30, 2005, the fees paid pursuant to the Distribution Plan by each indicated Fund with respect to the Fund's Class C and Class D shares, the amounts waived and the net fees paid by the indicated Fund were as follows:

<u>Fund and Class</u>	<u>Total Amount Payable Pursuant to Distribution Plan</u>	<u>Reduction in Fees</u>	<u>Net Fees Paid</u>
CitizensSelect Prime Money			
Market Fund			
- Class C shares	\$105,113	\$ - 0 -	\$105,113
- Class D shares	\$63,029	\$7,608	\$55,421
Citizens Select Treasury Money			
Market Fund			
- Class C shares	\$40,574	\$ - 0 -	\$40,574
- Class D shares	\$8,004	\$780	\$7,224

ADMINISTRATIVE SERVICES PLAN

The Company has adopted an Administrative Services Plan with respect to Class B, Class C and Class D shares of each Fund. Pursuant to the Administrative Services Plan, each Fund pays Citizens or other approved institutions for the provision of certain services to the holders of such shares a fee at the annual rate of 0.25% of the value of the average daily net assets of Class B, Class C and Class D shares. These services may include: providing beneficial owners with statements showing their positions in the Funds; mailing periodic reports, prospectuses and other Fund communications to shareholders; withholding taxes on non-resident alien accounts; disbursing income dividends and capital gain distributions; reinvesting dividends and distributions; preparing and delivering to beneficial owners, and state and federal authorities, including the United States Internal Revenue Service and the Securities and Exchange Commission, such information respecting dividends and distributions paid by the Funds as may

be required by law, rule or regulation; withholding on dividends and distributions as may be required by state or Federal authorities from time to time; receiving, tabulating, and transmitting proxies executed by beneficial owners; and providing such other related services as the Funds may reasonably request.

A quarterly report of the amounts expended under the Administrative Services Plan, and the purposes for which such expenditures were incurred, must be made to the Board for its review. In addition, the Administrative Services Plan provides that material amendments must be approved by the Company's Board and by the Board members who are not "interested persons" (as defined in the 1940 Act) of the Company and have no direct or indirect financial interest in the operation of the Administrative Services Plan or in any agreements entered into in connection with the Administrative Services Plan, by vote cast in person at a meeting called for the purpose of considering such amendments. As to each Fund, the Administrative Services Plan is subject to annual approval by such vote of the Board members cast in person at a meeting called for the purpose of voting on the Administrative Services Plan. As to each Fund and relevant Class of shares, the Administrative Services Plan is terminable at any time by vote of a majority of the Board members who are not "interested persons" and who have no direct or indirect financial interest in the operation of the Administrative Services Plan or in any agreements entered into in connection with the Administrative Services Plan.

For the fiscal year ended April 30, 2005, the fees paid pursuant to the Administrative Services Plan by each indicated Fund with respect to its Class B, C and D shares were as follows:

<u>Fund</u>	<u>Total Amount Paid Pursuant to Administrative Services Plan</u>
CitizensSelect Prime Money Market Fund	
- Class B	\$581,764
- Class C	\$105,113
- Class D	\$24,242
CitizensSelect Treasury Money Market Fund	
- Class B	\$562,764
- Class C	\$40,574
- Class D	\$3,079

HOW TO REDEEM SHARES

Wire Redemption Privilege. By using this privilege, the investor authorizes the Transfer Agent to act on telephone or letter redemption instructions from any person representing himself or herself to be an authorized representative of the investor, and reasonably believed by the

Transfer Agent to be genuine. Ordinarily, the Company will initiate payment for shares redeemed pursuant to this privilege on the same business day if the Funds' Custodian or other authorized entity receives the redemption request in proper form by 5:00 p.m., Eastern time. Redemption proceeds will be transferred by Federal Reserve wire only to a bank that is a member of the Federal Reserve System.

Redemption Through Compatible Automated Facilities. Each Fund makes available to institutions the ability to redeem shares through a compatible automated interface or trading system. Investors desiring to redeem shares in this manner should call one of the telephone numbers listed on the cover of this Statement of Additional Information to determine whether their automated facilities are compatible and to receive instructions for redeeming shares in this manner.

Redemption Commitment. The Company has committed to pay in cash all redemption requests by any shareholder of record, limited in amount during any 90-day period to the lesser of \$250,000 or 1% of the value of a Fund's net assets at the beginning of such period. Such commitment is irrevocable without the prior approval of the Securities and Exchange Commission. In the case of requests for redemption in excess of such amount, the Company's Board reserves the right to make payments in whole or in part in securities or other assets of the Fund in case of an emergency or any time a cash distribution would impair the liquidity of the Fund to the detriment of the existing shareholders. In such event, the securities would be valued in the same manner as the Fund's portfolio is valued. If the recipient sells such securities, brokerage charges might be incurred.

Suspension of Redemptions. The right of redemption may be suspended or the date of payment postponed (a) during any period when the New York Stock Exchange is closed (other than customary weekend and holiday closings), (b) when trading in the markets the relevant Fund ordinarily utilizes is restricted, or when an emergency exists as determined by the Securities and Exchange Commission so that disposal of the Fund's investments or determination of its net asset value is not reasonably practicable, or (c) for such other periods as the Securities and Exchange Commission by order may permit to protect the Fund's investors.

DETERMINATION OF NET ASSET VALUE

Amortized Cost Pricing. The valuation of each Fund's portfolio securities is based upon their amortized cost which does not take into account unrealized capital gains or losses. This involves valuing an instrument at its cost and thereafter assuming a constant amortization to maturity of any discount or premium, regardless of the impact of fluctuating interest rates on the market value of the instrument. While this method provides certainty in valuation, it may result in periods during which value, as determined by amortized cost, is higher or lower than the price the Fund would receive if it sold the instrument.

The Company's Board has established, as a particular responsibility within the overall duty of care owed to each Fund's investors, procedures reasonably designed to stabilize each Fund's price per share as computed for the purpose of purchases and redemptions at \$1.00. Such procedures include review of each Fund's portfolio holdings by the Company's Board, at such

intervals as it deems appropriate, to determine whether the Fund's net asset value per share calculated by using available market quotations or market equivalents deviates from \$1.00 per share based on amortized cost. In such review, investments for which market quotations are readily available will be valued at the most recent bid price or yield equivalent for such securities or for securities of comparable maturity, quality and type, as obtained from one or more of the major market makers for the securities to be valued. Other investments and assets, to the extent a Fund is permitted to invest in such instruments, will be valued at fair value as determined in good faith by the Company's Board.

The extent of any deviation between a Fund's net asset value based upon available market quotations or market equivalents and \$1.00 per share based on amortized cost will be examined by the Company's Board. If such deviation exceeds 1/2%, the Company's Board will consider promptly what action, if any, will be initiated. In the event the Company's Board determines that a deviation exists which may result in material dilution or other unfair results to investors or existing shareholders, it has agreed to take such corrective action as it regards as necessary and appropriate including: selling portfolio instruments prior to maturity to realize capital gains or losses or to shorten average portfolio maturity; withholding dividends or paying distributions from capital or capital gains; redeeming shares in kind; or establishing a net asset value by using available market quotations or market equivalents.

New York Stock Exchange and Transfer Agent Closings. The holidays (as observed) on which both the New York Stock Exchange and the Transfer Agent are currently scheduled to be closed are: New Year's Day, Martin Luther King Jr. Day, Presidents' Day, Memorial Day, Independence Day, Labor Day, Thanksgiving and Christmas. The New York Stock Exchange also is closed on Good Friday.

SHAREHOLDER SERVICES

Fund Exchanges. Shares of one class of a Fund may be exchanged for shares of the same class of the other Fund. To request an exchange, exchange instructions must be given in writing or by telephone. By using the Telephone Exchange Privilege, the investor authorizes the Transfer Agent to act on exchange instructions from any person representing himself or herself to be an authorized representative of the investor and reasonably believed by the Transfer Agent to be genuine. Exchanges may be subject to limitations as to the amount involved or the number of exchanges permitted. Shares will be exchanged at the net asset value next determined after receipt of an exchange request in proper form. Shares in certificate form are not eligible for telephone exchange.

No fees currently are charged shareholders directly in connection with exchanges, although the Company reserves the right, upon not less than 60 days' written notice, to charge shareholders a nominal administrative fee in accordance with rules promulgated by the Securities and Exchange Commission.

Auto-Exchange Privilege. The Auto-Exchange Privilege permits an investor to purchase (on a semi-monthly, monthly, quarterly, or annual basis), in exchange for shares of one class of a Fund, shares of the same class of the other Fund if the investor is a shareholder in such other

Fund. This Privilege is available only for existing accounts. Shares will be exchanged on the basis of relative net asset value. Enrollment in or modification or cancellation of this Privilege is effective three business days following notification by the investor. An investor will be notified if its account falls below the amount designated under this Privilege. In this case, an investor's account will fall to zero unless additional investments are made in excess of the designated amount prior to the next Auto-Exchange transaction. Shares in certificate form are not eligible for this Privilege.

Fund Exchanges and the Auto-Exchange Privilege are available to investors resident in any state in which shares of the Fund being acquired may legally be sold. Shares may be exchanged only between accounts having identical names and other identifying designations.

The Company reserves the right to reject any exchange request in whole or in part. The availability of Fund Exchanges or the Auto-Exchange Privilege may be modified or terminated at any time upon notice to investors.

Citizens and other approved institutions may not make these services available.

DIVIDENDS, DISTRIBUTIONS AND TAXES

Management believes that each Fund has qualified for treatment as a “regulated investment company” under the Internal Revenue Code of 1986, as amended (the “Code”), for the fiscal year ended April 30, 2005. Each Fund intends to continue to so qualify as a “regulated investment company” under the Code, if such qualification is in the best interests of its shareholders. Such qualification relieves the Fund of any liability for Federal income tax to the extent its earnings are distributed in accordance with applicable provisions of the Code. If a Fund does not qualify as a regulated investment company, it will be treated for tax purposes as an ordinary corporation subject to Federal income tax.

Each Fund usually declares dividends from its net investment income every day the New York Stock Exchange, or, in the case of CitizensSelect Prime Money Market Fund, the Transfer Agent, is open for regular business. Each Fund's earnings for Saturdays, Sundays and holidays are declared as dividends on the preceding business day. Dividends usually are paid on the last calendar day of each month, and automatically are reinvested in additional shares of the Fund at net asset value or, at the investor's option, paid in cash. If an investor redeems all shares in its account at any time during the month, all dividends to which the investor is entitled are paid along with the proceeds of the redemption.

Ordinarily, gains and losses realized from portfolio transactions will be treated as capital gain or loss. However, all or a portion of any gain realized from the sale or other disposition of certain market discount bonds will be treated as ordinary income.

PORTFOLIO TRANSACTIONS

General. The Manager assumes general supervision over the placement of securities purchase and sale orders on behalf of the funds it manages. In cases where the Manager employs a sub-adviser, the sub-adviser, under the supervision of the Manager, places orders on behalf of the applicable fund(s) for the purchase and sale of portfolio securities.

Certain funds are managed by dual employees of the Manager and an affiliated entity in the Mellon organization. Funds managed by dual employees use the research and trading facilities, and are subject to the internal policies and procedures, of the affiliated entity. In this regard, the Manager places orders on behalf of those funds for the purchase and sale of securities through the trading desk of the affiliated entity, applying the written trade allocation procedures of such affiliate.

The Manager (and where applicable, a sub-adviser or Dreyfus affiliate) generally has the authority to select brokers (for equity securities) or dealers (for fixed income securities) and the commission rates or spreads to be paid. Allocation of brokerage transactions, including their frequency, is made in the best judgment of the Manager (and where applicable, a sub-adviser or Dreyfus affiliate) and in a manner deemed fair and reasonable to shareholders. The primary consideration in placing portfolio transactions is prompt execution of orders at the most favorable net price. In choosing brokers or dealers, the Manager (and where applicable, a sub-adviser or Dreyfus affiliate) evaluates the ability of the broker or dealer to execute the particular transaction (taking into account the market for the security and the size of the order) at the best combination of price and quality of execution.

In general, brokers or dealers involved in the execution of portfolio transactions on behalf of a fund are selected on the basis of their professional capability and the value and quality of their services. The Manager (and where applicable, a sub-adviser or Dreyfus affiliate) attempts to obtain best execution for the funds by choosing brokers or dealers to execute transactions based on a variety of factors, which may include, but are not limited to, the following: (i) price; (ii) the availability of natural liquidity; (iii) the nature and character of the relevant market for the security to be purchased or sold; (iv) the measured quality and efficiency of the broker's or dealer's execution; (v) the broker's or dealer's willingness to commit capital; (vi) the reliability of the broker or dealer in trade settlement and clearance; (vii) the level of counter-party risk (*i.e.*, the broker's or dealer's financial condition); (viii) the commission rate or the spread; (ix) the value of research provided; (x) the availability of electronic trade entry and reporting links; and (xi) the size and type of order (*e.g.*, foreign or domestic security, large block, illiquid security). In selecting brokers or dealers no factor is necessarily determinative; however, at various times and for various reasons, certain factors will be more important than others in determining which broker or dealer to use. Seeking to obtain best execution for all trades takes precedence over all other considerations.

With respect to the receipt of research, the brokers or dealers selected may include those that supplement the Manager's (and where applicable, a sub-adviser's or Dreyfus affiliate's) research facilities with statistical data, investment information, economic facts and opinions. Such information may be useful to the Manager (and where applicable, a sub-adviser or Dreyfus affiliate) in serving funds or accounts that it advises and, conversely, supplemental information

obtained by the placement of business of other clients may be useful to the Manager (and where applicable, a sub-adviser or Dreyfus affiliate) in carrying out its obligations to the funds. Information so received is in addition to, and not in lieu of, services required to be performed by the Manager (and where applicable, a sub-adviser or Dreyfus affiliate), and the Manager's (and where applicable, a sub-adviser's or Dreyfus affiliate's) fees are not reduced as a consequence of the receipt of such supplemental information. Although the receipt of such research services does not reduce the Manager's (and where applicable, a sub-adviser's or Dreyfus affiliate's) normal independent research activities, it enables it to avoid the additional expenses that might otherwise be incurred if it were to attempt to develop comparable information through its own staff.

Under the Manager's (and where applicable, a sub-adviser's or Dreyfus affiliate's) procedures, portfolio managers and their corresponding trading desks may seek to aggregate (or "bunch") orders that are placed or received concurrently for more than one fund or account. In some cases, this policy may adversely affect the price paid or received by a fund or an account, or the size of the position obtained or liquidated. As noted above, certain brokers or dealers may be selected because of their ability to handle special executions such as those involving large block trades or broad distributions, provided that the primary consideration of best execution is met. Generally, when trades are aggregated, each fund or account within the block will receive the same price and commission. However, random allocations of aggregate transactions may be made to minimize custodial transaction costs. In addition, at the close of the trading day, when reasonable and practicable, the completed securities of partially filled orders will generally be allocated to each participating fund and account in the proportion that each order bears to the total of all orders (subject to rounding to "round lot" amounts).

Portfolio turnover may vary from year to year as well as within a year. In periods in which extraordinary market conditions prevail, the Manager (and where applicable, a sub-adviser or Dreyfus affiliate) will not be deterred from changing a Fund's investment strategy as rapidly as needed, in which case higher turnover rates can be anticipated which would result in greater brokerage expenses. The overall reasonableness of brokerage commissions paid is evaluated by the Manager (and where applicable, a sub-adviser or Dreyfus affiliate) based upon its knowledge of available information as to the general level of commissions paid by other institutional investors for comparable services. Higher portfolio turnover rates usually generate additional brokerage commissions and transaction costs and any short-term gains realized from these transactions are taxable to shareholders as ordinary income.

To the extent that a fund invests in foreign securities, certain of a fund's transactions in those securities may not benefit from the negotiated commission rates available to a fund for transactions in securities of domestic issuers. For funds that permit foreign exchange transactions, such transactions are made with banks or institutions in the interbank market at prices reflecting a mark-up or mark-down and/or commission.

The Manager (and where applicable, a sub-adviser or Dreyfus affiliate) may deem it appropriate for one of its accounts to sell a security while another of its accounts is purchasing the same security. Under such circumstances, the Manager (and where applicable, a sub-adviser or Dreyfus affiliate) may arrange to have the purchase and sale transactions effected directly

between its accounts ("cross transactions"). Cross transactions will be effected in accordance with procedures adopted pursuant to Rule 17a-7 under the 1940 Act.

All portfolio transactions of each money market fund are placed on behalf of the fund by the Manager. Debt securities purchased and sold by a fund generally are traded on a net basis (*i.e.*, without a commission) through dealers acting for their own account and not as brokers, or otherwise involve transactions directly with the issuer of the instrument. This means that a dealer makes a market for securities by offering to buy at one price and sell at a slightly higher price. The difference between the prices is known as a "spread." Other portfolio transactions may be executed through brokers acting as agent. A fund will pay a spread or commission in connection with such transactions. The Manager uses its best efforts to obtain execution of portfolio transactions at prices that are advantageous to a fund and at spreads and commission rates (if any) that are reasonable in relation to the benefits received. The Manager also places transactions for other accounts that it provides with investment advice.

When more than one fund or account is simultaneously engaged in the purchase or sale of the same investment instrument, the prices and amounts are allocated in accordance with a formula considered by the Manager (and where applicable, a sub-adviser or Dreyfus affiliate) to be equitable to each fund or account. In some cases this system could have a detrimental effect on the price or volume of the investment instrument as far as a fund or account is concerned. In other cases, however, the ability of a fund or account to participate in volume transactions will produce better executions for the fund or account.

When transactions are executed in the over-the-counter market (*i.e.*, with dealers), the Manager will typically deal with the primary market makers unless a more favorable price or execution otherwise is obtainable.

A Fund may execute transactions with one or more of its "regular brokers or dealers", as defined in Rule 10b-1 under the 1940 Act. Rule 10b-1 provides that a "regular broker or dealer" is one of the ten brokers or dealers that, during the Fund's most recent fiscal year (i) received the greatest dollar amount of brokerage commissions from participating, either directly or indirectly, in the Fund's portfolio transactions, (ii) engaged as principal in the largest dollar amount of the Fund's portfolio transactions or (iii) sold the largest dollar amount of the Fund's securities. The following is a list of each such regular broker or dealer whose securities were acquired by a fund during the fiscal year ended April 30, 2005, the issuer of the securities and the aggregate value per issuer, as of April 30, 2005, of such securities:

Fund	Name of Regular Broker Dealer	Aggregate Value Per Issuer
CitizensSelect Prime Money Market Fund	BNP Paribas Securities Corp.	\$15,000,000
	Prudential Securities Incorporated	\$14,999,000
	UBS Warburg LLC	\$14,999,000
	State Street Bank & Trust Company	\$12,000,000

Fund	Name of Regular Broker Dealer	Aggregate Value Per Issuer
	Deutsche Bank Securities Inc.	\$14,999,000
	Barclays Global Investor Services	\$15,000,000
	Fortis Securities Inc.	\$15,000,000
	J.P. Morgan Chase & Co.	\$15,000,000

Disclosure of Portfolio Holdings. It is the policy of the Company to protect the confidentiality of each Fund's portfolio holdings and prevent the selective disclosure of non-public information about such holdings. The Company will publicly disclose its holdings in accordance with regulatory requirements, such as periodic portfolio disclosure in filings with the Securities and Exchange Commission. The Company will publicly disclose its complete schedule of portfolio holdings, as reported on a month-end basis, at www.dreyfus.com. The information will be posted with a one-month lag and will remain accessible until the Company files a report on Form N-Q or Form N-CSR for the period that includes the date as of which the information was current. In addition fifteen days following the end of each calendar quarter, the Company will publicly disclose on the website its complete schedule of portfolio holdings as of the end of such quarter.

If portfolio holdings are released pursuant to an ongoing arrangement with any party, the Company must have a legitimate business purpose for doing so, and neither the Company, nor the Manager or its affiliates, may receive any compensation in connection with an arrangement to make available information about a Fund's portfolio holdings. The Company may distribute portfolio holdings to mutual fund evaluation services such as Standard & Poor's, Morningstar or Lipper Analytical Services; due diligence departments of broker-dealers and wirehouses that regularly analyze the portfolio holdings of mutual funds before their public disclosure; and broker-dealers that may be used by the Company, for the purpose of efficient trading and receipt of relevant research, provided that: (a) the recipient does not distribute the portfolio holdings to persons who are likely to use the information for purposes of purchasing or selling Fund shares or Fund portfolio holdings before the portfolio holdings become public information; and (b) the recipient signs a written confidentiality agreement.

The Company may also disclose any and all portfolio information to its service providers and others who generally need access to such information in the performance of their contractual duties and responsibilities and are subject to duties of confidentiality, including a duty not to trade on non-public information, imposed by law and/or contract. These service providers include the Company's custodian, registered public accounting firm, investment adviser, administrator, and each of their respective affiliates and advisers.

Disclosure of a Fund's portfolio holdings may be authorized only by the Company's Chief Compliance Officer, and any exceptions to this policy are reported quarterly to the Company's Board.

INFORMATION ABOUT THE COMPANY AND THE FUNDS

Each Fund's shares are classified into four classes. Each Fund share has one vote and shareholders will vote in the aggregate and not by class, except as otherwise required by law or with respect to any matter which affects only one class. Each Fund share, when issued and paid for in accordance with the terms of the offering, is fully paid and nonassessable. Fund shares have no preemptive, subscription or conversion rights and are freely transferable.

Under Massachusetts law, shareholders of a Fund could, under certain circumstances, be held liable for the obligations of that Fund. However, the Company's Agreement and Declaration of Trust (the "Trust Agreement") disclaims shareholder liability for acts or obligations of the Company and requires that notice of such disclaimer be given in the agreement, obligation or instrument entered into or executed by the Company or its Board members. The Trust Agreement provides for indemnification from the Fund's property for all losses and expenses of any shareholder held personally liable for the obligations of the Fund. Thus, the risk of a shareholder incurring financial loss on account of shareholder liability is limited to circumstances in which the Fund itself would be unable to meet its obligations, a possibility which management believes is remote. Upon payment of any liability incurred by a Fund, the shareholder paying such liability will be entitled to reimbursement from the general assets of the Fund. The Company intends to conduct its operations in such a way so as to avoid, as far as possible, ultimate liability of the shareholders for liabilities of the Funds.

Unless otherwise required by the 1940 Act, ordinarily it will not be necessary for the Company to hold annual meetings of shareholders. As a result, shareholders may not consider each year the election of Board members or the appointment of auditors. However, the holders of at least 10% of the shares outstanding and entitled to vote may require the Company to hold a special meeting of shareholders for purposes of removing a Board member from office. Shareholders may remove a Board member by the affirmative vote of two-thirds of the Company's outstanding voting shares. In addition, the Board will call a meeting of shareholders for the purpose of electing Board members if, at any time, less than a majority of the Board members then holding office have been elected by shareholders.

The Company is a "series fund," which is a mutual fund divided into separate portfolios, each of which is treated as a separate entity for certain matters under the 1940 Act and for other purposes. Thus, a shareholder of one Fund is not deemed to be a shareholder of the other Fund. For certain matters shareholders vote together as a group; as to others they vote separately by Fund.

To date, the Board has authorized the creation of two series of shares. All consideration received by the Company for shares of a Fund, and all assets in which such consideration is invested, will belong to that Fund (subject only to the rights of creditors of the Company) and will be subject to the liabilities related thereto. The income attributable to, and the expenses of, a Fund will be treated separately from those of the other Fund. The Company has the ability to create, from time to time, new series without shareholder approval.

Rule 18f-2 under the 1940 Act provides that any matter required to be submitted under the provisions of the 1940 Act or applicable state law or otherwise to the holders of the

outstanding voting securities of an investment company, such as the Company, will not be deemed to have been effectively acted upon unless approved by the holders of a majority of the outstanding shares of each Fund affected by such matter. Rule 18f-2 further provides that a Fund shall be deemed to be affected by a matter unless it is clear that the interests of each Fund in the matter are identical or that the matter does not affect any interest of such Fund. However, the Rule exempts the selection of independent accountants and the election of Board members from the separate voting requirements of the Rule.

Each Fund will send annual and semi-annual financial statements to all its shareholders.

The following persons are known by the Company to own of record 5% or more of a Fund's outstanding voting securities as of August 3, 2005. A shareholder who beneficially owns, directly or indirectly, more than 25% of a Fund's voting securities may be deemed a "control person" (as defined in the 1940 Act) of the Fund.

COUNSEL AND INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Stroock & Stroock & Lavan LLP, 180 Maiden Lane, New York, New York 10038-4982, as counsel for the Company, has rendered its opinion as to certain legal matters regarding the due authorization and valid issuance of the shares being sold pursuant to the Funds' Prospectuses.

Ernst & Young LLP, 5 Times Square, New York, New York 10036, an independent registered public accounting firm, serves as independent auditors of the Company.

APPENDIX

Descriptions of the highest commercial paper, bond and other short- and long-term rating categories assigned by Standard & Poor's Ratings Services ("S&P"), Moody's Investors Service, Inc. ("Moody's"), Fitch Ratings ("Fitch") and Thomson BankWatch, Inc. ("BankWatch"):

Commercial Paper Ratings and Short-Term Ratings

The designation A-1 by S&P indicates that the degree of safety regarding timely payment is either overwhelming or very strong. Those issues determined to possess overwhelming safety characteristics are denoted with a plus sign (+) designation.

The rating Prime-1 (P-1) is the highest commercial paper rating assigned by Moody's. Issuers of P-1 paper must have a superior capacity for repayment of short-term promissory obligations, and ordinarily will be evidenced by leading market positions in well established industries, high rates of return on funds employed, conservative capitalization structures with moderate reliance on debt and ample asset protection, broad margins in earnings coverage of fixed financial charges and high internal cash generation, and well established access to a range of financial markets and assured sources of alternate liquidity.

The rating Fitch-1 (Highest Grade) is the highest commercial paper rating assigned by Fitch. Paper rated Fitch-1 is regarded as having the strongest degree of assurance for timely payment.

The rating TBW-1 is the highest short-term obligation rating assigned by BankWatch. Obligations rated TBW-1 are regarded as having the strongest capacity for timely repayment.

Bond Ratings and Long-Term Ratings

Bonds rated AAA are considered by S&P to be the highest grade obligation and possess an extremely strong capacity to pay principal and interest.

Bonds rated Aaa are judged by Moody's to be of the best quality. Bonds rated Aa by Moody's are judged by Moody's to be of high quality by all standards and, together with the Aaa group, they comprise what are generally known as high-grade bonds.

Bonds rated AAA by Fitch are judged by Fitch to be strictly high grade, broadly marketable and suitable for investment by trustees and fiduciary institutions and liable to but slight market fluctuation other than through changes in the money rate. The prime feature of an AAA bond is a showing of earnings several times or many times interest requirements, with such stability of applicable earnings that safety is beyond reasonable question whatever changes occur in conditions.

Fitch also assigns a rating to certain international and U.S. banks. A Fitch bank rating represents Fitch's current assessment of the strength of the bank and whether such bank would receive support should it experience difficulties. In its assessment of a bank, Fitch uses a dual

rating system comprised of Legal Ratings and Individual Ratings. In addition, Fitch assigns banks long- and short-term ratings as used in the corporate ratings discussed above. Legal Ratings, which range in gradation from 1 through 5, address the question of whether the bank would receive support provided by central banks or shareholders if it experienced difficulties, and such ratings are considered by Fitch to be a prime factor in its assessment of credit risk. Individual Ratings, which range in gradations from A through E, represent Fitch's assessment of a bank's economic merits and address the question of how the bank would be viewed if it were entirely independent and could not rely on support from state authorities or its owners.

In addition to ratings of short-term obligations, BankWatch assigns a rating to each issuer it rates, in gradations of A through E. BankWatch examines all segments of the organization including, where applicable, the holding company, member banks or associations, and other subsidiaries. In those instances where financial disclosure is incomplete or untimely, a qualified rating (QR) is assigned to the institution. BankWatch also assigns, in the case of foreign banks, a country rating which represents an assessment of the overall political and economic stability of the country in which the bank is domiciled.
