1. Nature of Operations

Bi-Optic Ventures Inc. (the "Company") was incorporated in the Province of British Columbia, Canada on May 31, 1984. The Company filed a 10-SB Registration Statement with the U.S. Securities Exchange Commission in 2003. On March 22, 2007, the Company entered into an agreement to acquire Pacific Bio-Pharmaceuticals, Inc. ("Pacific"). See Note 5.

The Company is in the earliest development stage. In a development stage company, management devotes most of its activities in evaluating various business opportunities. The ability of the Company to emerge from the development stage is dependent upon its successful efforts in evaluating and acquiring or developing a business opportunity, raising additional equity financing and/or generating significant revenue. There is no guarantee that the Company will be able to raise enough equity to develop and implement a business plan. As at May 31, 2007, the Company has a working capital deficit of \$130,866, has incurred operating losses since inception totalling \$3,880,374 and has not generated any revenues in its operation. Based on the above factors, there is substantial doubt regarding the Company's ability to continue as a going concern. These financial statements do not include any adjustments to the recoverability and classification of recorded asset amounts and classification of liabilities that might be necessary should the Company be unable to continue as a going concern.

2. Summary of Significant Accounting Policies

(a) Basis of Presentation

These financial statements and related notes are presented in accordance with accounting principles generally accepted in the United States and are expressed in Canadian dollars. The Company has not produced any revenue and is a development stage company as defined by Statement of Financial Accounting Standard ("SFAS") No. 7. There are no financial statements using Canadian generally accepted accounting principles, however, there would be no material reconciling items other than presentation items.

(b) Use of Estimates

The preparation of financial statements in accordance with United States generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses in the reporting period. The Company regularly evaluates estimates and assumptions related to the recoverability of long-lived assets and deferred income tax asset valuations. The Company bases its estimates and assumptions on current facts, historical experience and various other factors that it believes to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities and the accrual of costs and expenses that are not readily apparent from other sources. The actual results experienced by the Company may differ materially and adversely from the Company's estimates. To the extent there are material differences between the estimates and the actual results, future results of operations will be affected.

(c) Cash and Cash Equivalents

The Company considers all highly liquid instruments with a maturity of three months or less at the time of issuance to be cash equivalents.

(d) Property and Equipment

Property and equipment is recorded at cost. Amortization is computed on a declining balance basis at the following rates:

Computer equipment	30%
Furniture and equipment	20%
Leasehold improvements	5 years straight line

2. Summary of Significant Accounting Policies (continued)

(e) Long-lived Assets

In accordance with Financial Accounting Standards Board ("FASB") SFAS No. 144, Accounting for the Impairment or Disposal of Long-Lived Assets", the carrying value of intangible assets and other long-lived assets is reviewed on a regular basis for the existence of facts or circumstances that may suggest impairment. The Company recognizes an impairment when the sum of the expected undiscounted future cash flows is less than the carrying amount of the asset. Impairment losses, if any, are measured as the excess of the carrying amount of the asset over its estimated fair value.

(f) Income Taxes

Potential benefits of income tax losses are not recognized in the accounts until realization is more likely than not. The Company has adopted SFAS No. 109, "Accounting for Income Taxes", as of its inception. Pursuant to SFAS No. 109 the Company is required to compute tax asset benefits for net operating losses carried forward. The potential benefits of net operating losses have not been recognized in these financial statements because the Company cannot be assured it is more likely than not it will utilize the net operating losses carried forward in future years.

(g) Financial Instruments

The carrying values of cash, amounts receivable, accounts payable, accrued liabilities and due to related party approximate their fair values due to the relatively short maturity of these instruments.

(h) Comprehensive Loss

SFAS No. 130, "Reporting Comprehensive Income," establishes standards for the reporting and display of comprehensive loss and its components in the financial statements. As at May 31, 2007 and 2006, the Company has no items that represent comprehensive loss and, therefore, has not included a schedule of comprehensive loss in the financial statements.

(i) Basic and Diluted Net Income (Loss) per Share

The Company computes net income (loss) per share in accordance with SFAS No. 128, "Earnings per Share" SFAS No. 128 requires presentation of both basic and diluted earnings per share (EPS) on the face of the income statement. Basic EPS is computed by dividing net income (loss) available to common shareholders (numerator) by the weighted average number of common shares outstanding (denominator) during the period. Diluted EPS gives effect to all dilutive potential common shares outstanding during the period including stock options, using the treasury stock method, and convertible preferred stock, using the if-converted method. In computing diluted EPS, the average stock price for the period is used in determining the number of shares assumed to be purchased from the exercise of stock options or warrants. Diluted EPS excludes all dilutive potential common shares if their effect is anti dilutive.

2. Summary of Significant Accounting Policies (continued)

(j) Stock-based Compensation

Prior to March 1, 2006, the Company accounted for stock based awards under SFAS No. 123, "*Accounting for Stock-Based Compensation*". All transactions in which goods or services are the consideration received for the issuance of equity instruments are accounted for based on the fair value of the consideration received or the fair value of the equity instrument issued, whichever is more reliably measurable. Equity instruments issued to employees and the cost of the services received as consideration are measured and recognized based on the fair value of the equity instruments issued. Effective March 1, 2006, the Company adopted the fair value recognition provisions of SFAS No. 123R "*Share Based Payments*", using the modified retrospective transition method. The Company does not currently have a stock option plan. Accordingly, there was no effect on the Company's reported loss from operations, cash flows or loss per share as a result of adopting SFAS No 123R.

Common shares issued to third parties for non-cash consideration are valued based on the fair market value of the services provided or the fair market value of the common stock on the measurement date, whichever is more readily determinable.

(k) Recent Accounting Pronouncements

In February 2007, the FASB issued SFAS No. 159, "The Fair Value Option for Financial Assets and Financial Liabilities – Including an Amendment of FASB Statement No. 115". This statement permits entities to choose to measure many financial instruments and certain other items at fair value. Most of the provisions of SFAS No. 159 apply only to entities that elect the fair value option. However, the amendment to SFAS No. 115 "Accounting for Certain Investments in Debt and Equity Securities" applies to all entities with available-for-sale and trading securities. SFAS No. 159 is effective as of the beginning of an entity's first fiscal year that begins after November 15, 2007. Early adoption is permitted as of the beginning of a fiscal year that begins on or before November 15, 2007, provided the entity also elects to apply the provision of SFAS No. 157, "Fair Value Measurements". The adoption of this statement is not expected to have a material effect on the Company's future reported financial position or results of operations.

In September 2006, the FASB issued SFAS No. 157, "Fair Value Measurements". The objective of SFAS No. 157 is to increase consistency and comparability in fair value measurements and to expand disclosures about fair value measurements. SFAS No. 157 defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles, and expands disclosures about fair value measurements. SFAS No. 157 applies under other accounting pronouncements that require or permit fair value measurements and does not require any new fair value measurements. The provisions of SFAS No. 157 are effective for fair value measurements made in fiscal years beginning after November 15, 2007. The adoption of this statement is not expected to have a material effect on the Company's future reported financial position or results of operations.

In June 2006, the FASB issued FASB Interpretation No. 48, "Accounting for Uncertainty in Income Taxes, an interpretation of FASB Statements No. 109" ("FIN 48"). FIN 48 clarifies the accounting for uncertainty in income taxes by prescribing a two-step method of first evaluating whether a tax position has met a more likely than not recognition threshold and second, measuring that tax position to determine the amount of benefit to be recognized in the financial statements. FIN 48 provides guidance on the presentation of such positions within a classified statement of financial position as well as on derecognition, interest and penalties, accounting in interim periods, disclosure, and transition. FIN 48 is effective for fiscal years beginning after December 15, 2006. The adoption of this statement did have a material effect on the Company's reported financial position or results of operations.

2. Summary of Significant Accounting Policies (continued)

(k) Recent Accounting Pronouncements (continued)

In March 2006, the FASB issued SFAS No. 156, "Accounting for Servicing of Financial Assets, an amendment of FASB Statement No. 140, Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities". This statement requires all separately recognized servicing assets and servicing liabilities be initially measured at fair value, if practicable, and permits for subsequent measurement using either fair value measurement with changes in fair value reflected in earnings or the amortization and impairment requirements of Statement No. 140. The subsequent measurement of separately recognized servicing assets and servicing liabilities at fair value eliminates the necessity for entities that manage the risks inherent in servicing assets and servicing liabilities with derivatives to qualify for hedge accounting treatment and eliminates the characterization of declines in fair value as impairments or direct write-downs. SFAS No. 156 is effective for an entity's first fiscal year beginning after September 15, 2006. The adoption of this statement did not have a material effect on the Company's reported financial position or results of operations.

In February 2006, the FASB issued SFAS No. 155, "Accounting for Certain Hybrid Financial Instruments—an amendment of FASB Statements No. 133 and 140", to simplify and make more consistent the accounting for certain financial instruments. SFAS No. 155 amends SFAS No. 133, "Accounting for Derivative Instruments and Hedging Activities", to permit fair value re-measurement for any hybrid financial instrument with an embedded derivative that otherwise would require bifurcation, provided that the whole instrument is accounted for on a fair value basis. SFAS No. 155 amends SFAS No. 140, "Accounting for the Impairment or Disposal of Long-Lived Assets", to allow a qualifying special-purpose entity to hold a derivative financial instrument that pertains to a beneficial interest other than another derivative financial instrument. SFAS No. 155 applies to all financial instruments acquired or issued after the beginning of an entity's first fiscal year that begins after September 15, 2006, with earlier application allowed. The adoption of this statement did not have a material effect on the Company's reported financial position or results of operations.

(l) Interim Financial Statements

These interim unaudited financial statements have been prepared on the same basis as the annual financial statements and in the opinion of management, reflect all adjustments, which include only normal recurring adjustments, necessary to present fairly the Company's financial position, results of operations and cash flows for the periods shown. The results of operations for such periods are not necessarily indicative of the results expected for a full year or for any future period.

5. Commitment

On March 22, 2007 the Company entered into an agreement with Pacific, PRB Pharmaceuticals, Inc. ("PRB"), and all of the shareholders of Pacific pursuant to which the Company has agreed to acquire all of the issued and outstanding shares and share purchase warrants of Pacific in exchange for one common share and one share purchase warrant of the Company, as applicable (the "Acquisition"). The Company has agreed to issue a maximum of 20,000,000 common shares and 2,500,000 share purchase warrants to acquire Pacific, assuming the completion of Pacific's planned private placement financing prior to the closing of the Acquisition. Pacific is a privately held Nevada corporation with offices in California that holds rights, directly and through a license from PRB, to certain biopharmaceutical technologies that have demonstrated potential effectiveness against several influenza strains. Provisional patent applications have been made in the United States for certain aspects of the technologies.

Gateway Securities Inc. ("Gateway") has, subject to completion of satisfactory due diligence, agreed to act as sponsor to the Company in connection with the Acquisition. In addition to acting as the sponsor for the Company, Gateway has also agreed to act as agent of the Company in connection with a Brokered private placement offering (the "Brokered Offering") of 1,000,000 units (the "Brokered Units") at a price of \$0.50 per Brokered Unit for gross proceeds of \$500,000. In addition to the Brokered Offering, the Company will be conducting a non-brokered private placement of up to 3,000,000 units (the "NB Units") at a price of \$0.50 per NB Unit for gross proceeds of up to \$1,500,000. Each Brokered Unit and each NB Unit will consist of one common share and one-half of one transferable share purchase warrant. Each whole share purchase warrant will be exercisable into one common share for a period of one year from closing at a price of \$0.65 per share.

Gateway will be paid a cash fee equal to 7% of the gross proceeds raised in the financing and agent's options (the "Agent's Options") equal to 7% of the units sold thereunder, as well as a corporate finance fee of \$25,000 plus GST. Each Agent's Option will be exercisable into a unit (an "Agent's Unit") at a price of \$0.50 per Agent's Unit for a period of 12 months from closing. The Agent's Units shall have the same terms as the Brokered Units and the NB Units. Gateway will also be reimbursed for reasonable out-of-pocket expenses and disbursements including legal fees incurred.

Concurrently with the closing, the Company will change its name to "Pacific Bio-Pharmaceuticals International Inc.", or such other name as may be determined by the directors, subject to TSX Venture Exchange (the "Exchange") and shareholder approval.

A finder's fee of 500,000 common shares will be payable by the Company on closing of the Acquisition subject to Exchange approval.

6. Subsequent Event

On June 1, 2007, the Company announced it has terminated its sponsorship agreement with Gateway as disclosed in Note 5. The Company has entered into a new sponsorship agreement with Global Maxfin Capital Inc. ("Global"). Global has, subject to completion of satisfactory due diligence, agreed to act as sponsor to the Company in connection with the acquisition of Pacific. Under the terms of the sponsorship agreement, Global will be paid \$15,000 plus reimbursement for its reasonable out-of-pocket expenses and disbursements including legal fees incurred.

The Company also changed the terms of the private placement as disclosed in Note 5. The new private placement will be a non-brokered placement of up to 4,000,000 units at a price of \$0.50 per unit for gross proceeds of up to \$2,000,000. Each unit will consist of one common share and one-half transferable share purchase warrant. Each whole purchase warrant will be exercisable into one common share for a period of one year from closing at a price of \$0.65 per share.

An additional finder's fee of cash and share purchase warrants, in accordance with Exchange policies, will be paid on a portion of the placement.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

This Quarterly Report on Form 10-QSB contains forward-looking statements, principally in ITEM #2, "Management's Discussion and Analysis of Financial Condition and Results of Operations". These statements may be identified by the use of words like "plan", "expect", "aim", "believe", "project", "anticipate", "intend", "estimate", "will", "should", "could" and similar expressions in connection with any discussion, expectation, or projection of future operating or financial performance, events or trends. In particular, these include statements about the Company's strategy for growth, property exploration, mineral prices, future performance or results of current or anticipated mineral production, interest rates, foreign exchange rates, and the outcome of contingencies, such as acquisitions and/or legal proceedings.

Forward-looking statements are based on certain assumptions and expectations of future events that are subject to risks and uncertainties.

Actual future results and trends may differ materially from historical results or those projected in any such forward-looking statements depending on a variety of factors, including, among other things, the factors discussed in this Registration Statement under ITEM #3, "Key Information, Risk Factors" and factors described in documents that we may furnish from time to time to the Securities and Exchange Commission. We undertake no obligation to update publicly or revise any forward-looking statements because of new information, future events or otherwise.

Results of Operations

The Company has not had any sources of revenue to date and has financed its activities substantially through equity financing. The Company has incurred net losses each year since inception and, as of 5/31/2007 had an accumulated deficit of (\$3,880,374).

On 3/22/2007, the Company agreed to acquire Pacific Bio-Pharmaceuticals, Inc. The Company also announced two planned private placements intended to raise up to \$2 million through the issuance of 4,000,000 units. Also, the Company announced plans, pending completion of the acquisition, to name new officers/directors and to change the corporate name. Completion of the Acquisition is subject to a number of conditions, including but not limited to, TSX Venture Exchange acceptance, disinterested shareholder approval, and successful due diligence by all parties. The transaction cannot close until the required shareholder approval is obtained. There can be no assurance that the transaction will be completed as proposed or at all. **At this time, completion cannot be considered "probable".**

Operating Expenses for the Three Months Ended 5/31/2007 were \$65,903 compared to \$105,288 for the same period last year, which included professional fees of \$24,320 (2006 = \$26,904), consulting/management fees of \$14,330 (2006 = \$43,001), office/rent/telephone of \$13,236 (2006 = \$11,350) and travel/promotion expenses of \$9,865 (2006 = \$20,325). The reported decrease was related to the current pending status of a potential acquisition versus last year's extensive search for, the negotiations with, and due diligence on potential acquisitions. Net Loss for the Three Months was (\$65,903) vs. (\$105,288). Loss Per Share was (\$0.01) vs (\$0.01).

Liquidity and Capital Resources

The Company had a working capital deficit of (\$130,866) at 5/31/2007, compared to a working capital deficit of (\$60,429) at 2/28/2007. Net Cash Provided by Operating Activities was \$6,624, including the (\$65,903) Net Loss; \$71,615 net changes in operating assets/liabilities was the significant adjustment; much of this was the \$80,457 in "due to related parties" regarding advances and loans made to the Company, and the (\$24,762) increase in "pre-paid expenses" regarding advances to various parties in connection with due diligence and sponsorship expenses with respect to the Company's proposed acquisition of Pacific Bio-Pharmaceuticals, Inc. Net Cash Provided by Financing Activities and Net Cash Used in Investing Activities were \$nil. Net Cash Used by Investing Activities was \$4,456 for costs incurred for the proposed acquisition.

ITEM 3. CONTROLS AND PROCEDURES

At the end of first fiscal quarter ended 5/31/2007 (the "Evaluation Date"), under the supervision and with the participation of the Company's management, including its Chief Executive Officer and Chief Financial Officer, the Company evaluated the effectiveness of the design and operation of its disclosure controls and procedures (as defined in Rule 13a-15e under the Exchange Act). Based upon that evaluation, the Company's management, including the Chief Executive Officer and Chief Financial Officer, concluded that, as of the Evaluation Date, concluded that the Company's disclosure controls and procedures were effective to ensure that information the Company is required to disclose in the reports that it files or submits with the Securities and Exchange Commission under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported, within the time periods specified in the Commission's rules and forms, and to ensure that information required to be disclosed by the Company in the reports that it files or submits under the Exchange Act is accumulated and communicated to the Company's management, including its principal executive officer and principal financial officer, as appropriate to allow timely decisions regarding required disclosure.

The Company's management, including the Chief Executive Officer and Chief Financial Officer, identified no change in the Company's internal control over financial reporting that occurred during the Company's Fiscal Quarter Ended May 31, 2007 that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

Exhibit 31
CERTIFICATIONS

I, Harry Chew, certify that:

- (1) I have reviewed this Form 10-QSB of Bi-Optic Ventures, Inc.;
- (2) Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
- (3) Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the small business issuer as of, and for, the periods presented in this report;
- (4) I am responsible for establishing and maintaining disclosure controls and procedures [as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)] and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the small business issuer and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the small business issuer, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the small business issuer's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the small business issuer's internal control over financial reporting that occurred during the small business issuer's most recent fiscal quarter (the small business issuer's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the small business issuer's internal control over financial reporting; and
- (5) I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the small business issuer's auditors and the audit committee of the small business issuer's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the small business issuer's ability to record, process, summarize and report financial information;
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the small business issuer's internal control over financial reporting.
