NOTES TO THE INTERIM FINANCIAL STATEMENTS
January 31, 2003
(Stated in Canadian Dollars)
(Unaudited – Prepared by Management)

Note 1 Interim Reporting

While the information presented in the accompanying interim financial statements is unaudited, it includes all adjustments which are, in the opinion of management, necessary to present fairly the financial position, results of operations and cash flows for the interim periods presented. Except as disclosed below, these interim financial statements follow the same accounting policies and methods of their application as the April 30, 2002 annual financial statements. It is suggested that these interim financial statements be read in conjunction with the Company's April 30, 2002 annual financial statements.

Note 2 Change in Accounting Policy

The Company has a stock-based compensation plan as disclosed in Note 3, whereby stock options are granted in accordance with the policies of regulatory authorities. The Company applies the "settlement method" of accounting for stock-based compensation awards. No compensation expense is recognized for those options when issued to employees and directors. Any consideration paid by employees and directors upon exercise of stock options is credited to share capital.

Effective for fiscal years beginning on or after January 1, 2002, public companies are required to adopt the new recommendations of the Canadian Institute of Chartered Accountants regarding accounting for Canadian Stock-based Compensation. These new requirements require that all stock based payments to non-employees and direct awards of stock to employees be accounted for using a fair value based method of accounting. However, the new standard permits the Company to continue its existing policy of not recording compensation cost on the grant of stock options to employees with the addition of pro forma information. The Company has elected to apply the pro forma disclosure provisions of the new standard to awards granted on or after May 1, 2002.

Stock-based Compensation Plan

The Company has granted directors and officers common share purchase options. Options are granted with an exercise price equal to the market price of the Company's stock on the date of the grant, however, the Company was not publicly listed at the date of the grant and the options were priced equal to the offering price on the Company's Initial Public Offering. Detail of stock options for the interim period is as follows:

	Nine months ended January 31,		2002	
	2003			
	Number of Shares	Weighted Average Exercise Price	Number of Shares	Weighted Average Exercise Price
Options outstanding and exercisable at beginning of period	487,500	\$0.15	400,000	\$0.15
Granted	-	-	-	-
Cancelled	-	-	-	-
Exercised	-	-	-	-
Options outstanding and exercisable at end of period	487,500	\$0.15	400,000	\$0.15

At January 31, 2003, directors and officers of the Company and the Agent of the Initial Public Offering held the 487,500 common share purchase options outstanding. Each option entitles the holder to purchase one share at \$0.15 each. 400,000 are exercisable by August 28, 2006 and 87,500 are exercisable by February 28, 2003. On February 28, 2003, the 87,500 options held by the agent of the initial public offering had not been exercised and consequently expired on that date.

Office supplies	2,250	1,250
Rent	6,750	3,750

QUARTERLY REPORT - FORM 51
for the nine months ended January 31, 2003

Schedule C: Management Discussion

Nature of Business

During the fiscal year ended April 30, 2002, the Company's activity was primarily related to the completion of the Company's initial public offering, including listing the Company for trading as a Capital Pool Company on the TSX Venture Exchange ("TSX"), formerly the Canadian Venture Exchange. Effectively August 1, 2001, the Company completed its initial public offering, having received approval from the British Columbia Securities Commission, the Alberta Securities Commission and the TSX, and issued 1,750,000 common shares at \$0.15 per share. On August 27, 2001, the common shares of the Company were listed for trading on the TSX.

During the nine months ended January 31, 2003, the Company's principle business has been to identify and evaluate opportunities for the acquisition of an interest in assets or businesses and, once identified and evaluated, to negotiate an acquisition or participation subject to receipt of shareholder approval and acceptance for filing by the TSX. The Company is required to complete an acquisition on or before March 31, 2003. At January 31, 2003, the Company had signed a Letter of Intent in respect to the acquisition of a business and has, since September 4, 2002, been undergoing the due diligence review of this business. The Company expects to have a formal agreement and initial submission delivered to the TSX within the month of March 2003.

By the aforementioned Letter of Intent, dated September 4, 2002, the Company agreed to acquire 100% of the common shares of a private company, Cyberhand Technologies Inc. ("Cyberhand") in consideration for the issuance of 7,000,000 common shares of the Company at a price of \$0.20 per share. Cyberhand, incorporated in Alberta Canada, is developing new technologies specific to consumer electronics.

The Company has also agreed to issue up to a maximum of 1,250,000 common shares of the Company under bridge financing arrangements at an estimated \$0.40 per share. A finders fee will be payable upon closing of the transaction. The entire transaction is subject to the completion of a formal agreement and to shareholder and regulatory approval.

The Company has advanced \$60,000 to Cyberhand pursuant to two promissory notes which bear interest at 10% per annum, are secured by a general security agreement on the assets of Cyberhand. The principal and interest is due and payable on the earlier of the closing of the formal agreement, the date the Letter of Intent is terminated by the parties and the receipt of proceeds with respect to government grants and scientific research and experimental development tax credits, such proceeds to be applied against the promissory notes.

The Company also advanced \$25,000 in respect to a sponsorship agreement for the acquisition noted above and has agreed to pay \$5,000 per month to the sponsor for advisory and fiscal agreement fees on a month to month basis.

In connection with the aforementioned acquisition, the Company agreed to an agency agreement for an offering of up to \$1,500,000. The agent will be entitled to a commission of 4 to 10% of the offering and an agents warrant equal to an amount up to 15% of the total offering exercisable for two years. The price per share and per warrant of the offering will be determined in accordance with the policies of the regulatory authorities and will be subject to regulatory approval.

Discussion of Operations and Financial Condition

Operations during the nine months ended January 31, 2003 were primarily related to identifying and evaluating potential Qualifying Transactions and due diligence in respect to the Letter of Intent noted above. There were no investor relations arrangements entered into during the period. There were no transactions with related parties during the nine months ended January 31, 2003 other than office rent charges (\$6,750), equipment rent charges (\$4,500), office supplies charges (\$2,250) and accounting fees (\$4,180). There also were no legal proceedings, contingent liabilities, defaults under debt or other contractual obligations, breach of any laws or special resolutions during the period.

At January 31, 2003 the Company had total working capital of \$282,683. It is expected that these funds are sufficient to complete its business as discussed in Nature of Business above.

Accounts receivable at January 31, 2003 includes \$4,255 due to the Company in respect to accrued interest receivable on term deposits and GST receivable of \$3,392.

Effective on June 24, 2002, the Company became registered and fully reporting with the United States Securities and Exchange Commission. The Company is currently considering alternatives with respect to having its common shares trade on an Exchange in the United States.

Financings, Principal Purposes and Milestones

Effective August 1, 2001, the Company completed its initial public offering, having received approval from the British Columbia Securities Commission and the TSX, and issued 1,750,000 common shares at \$0.15 per share for net proceeds of approximately \$189,717. The proceeds were net of commissions (\$26,250), brokerage fees (\$7,000), legal fees (\$30,433), filing fees (\$6,500) and other miscellaneous costs (\$2,600). These amounts were consistent with the disclosure in the initial public offering prospectus. All costs incurred after the receipt of the prospectus have been consistent with the intended use of the net proceeds from the prospectus and initial seed offering as indicated in the prospectus, except for additional accounting, audit and legal fees and consulting fees relating to the preparation and filing of the Form 20-F.

On September 26, 2001, the agent of the initial public offering exercised 87,500 agent's share purchase options at \$0.15 per share for net proceeds to the Company of \$13,125.

Liquidity and Solvency

At January 31, 2003 the Company had total working capital of \$282,683. It is expected that these funds are sufficient to complete its business as discussed in Nature of Business above.

Subsequent Events

On February 20, 2003, the Company announced the appointment of Brad Kitchen as a director of the Company, to fill the vacancy created by the resignation of Michael Weingarten. Mr. Kitchen is the proposed Chief Financial Officer of the Company and since August 2002 has been working in the capacity of corporate finance consultant to Cyberhand.

In addition, an agreement has been reached wherein the 450,000 discount seed shares previously held by Michael Weingarten will be purchased equally by Kevin Hanson and Terry Amisano, directors of the Company.

On February 28, 2003, 87,500 the agent's common share purchase options expired.
