Indicate by check mark if the registrant is submitting the Form 6-K in paper as permitted by Regulation S-T Rule 101(b)(1): _____

Indicate by check mark if the registrant is submitting the Form 6-K in paper as permitted by Regulation S-T Rule 101(b)(7): _____

Indicate by check mark whether by furnishing the information contained in this Form, the registrant is also thereby furnishing the information to the Commission pursuant to Rule 12g3-2(b) under the Securities Exchange Act of 1934.

Yes No ..x...

If "Yes" is marked, indicate below the file number assigned to the registrant in connection with Rule 12g3-2(b): 82- _____

GOLD FIELDS

MEDIA RELEASE

Gold Fields announces Mineral Resources of 179.3 million ounces and Ore Reserves of 65.3 million ounces

Johannesburg, 17 May 2006: Gold Fields Limited (Gold Fields) (NYSE: GFI; JSE: GFI) today published its Mineral Resource and Ore Reserve Statement for the six month period ended on 31 December 2005. This represents a change in the reporting cycle, from June 30 to December 31, in order to align with the Group's financial reporting schedule.

Mineral Resources, inclusive of Ore Reserves, increased by 3% to 179,343 million ounces and Ore Reserves by 1% to 65,319 million ounces, both numbers net of depletion.

Ian Cockerill, Chief Executive Officer of Gold Fields said:

"We are pleased that we have again been able to replace the reserves that we have mined, and to increase our overall resource and reserve position, despite having to use a SEC mandated 3 year trailing average gold price, which is considerably below prevailing spot prices."

"Conservatively estimated, if a spot price of R130,000 per kilogram was used for this declaration, the reserves at our South African operations would have been about 9.5 million ounces higher."

Mineral Resources were calculated using a gold price of R105,000 per kilogram in South Africa; A\$650 in Australia; and US\$475 in Ghana and Peru.

Ore Reserves were calculated using a gold price of R92,000 per kilogram in South Africa; A\$560 in Australia; and US\$400 in Ghana and Peru.

The full Mineral Resource and Ore Reserve Declaration is available on the Gold Fields Website at www.goldfields.co.za.

Gold Fields is one of the world's largest unhedged gold producers, with annual gold production of approximately 4.2 million ounces from mines in South Africa, Ghana, Australia and Australia, as well as a developing mine at Cerro Corona in Peru. The Company has reserves of 65 million ounces and mineral resources of 179 million ounces. Gold Fields has its primary listing on the Johannesburg Securities Exchange and secondary listings on the NYSE, LSE, Euronext in Paris and Brussels, and on the Swiss Exchange. All of Gold Fields' operations are ISO 14001 certified.
