MEDIA RELEASE

GOLD FIELDS' OPERATIONS – UPDATE ON COVID-19 IMPACT

Johannesburg, 24 March 2020: Gold Fields Limited (Gold Fields) (JSE, NYSE: GFI) fully supports the measures and policies to curb the Covid-19 pandemic implemented by the countries in which we operate.

“The world finds itself facing an unprecedented situation - the Covid-19 pandemic has forced governments across the globe to take decisive actions to safeguard the lives of their people. Gold Fields is fully committed to first and foremost protecting the health and safety of our people and communities, and supports all governments' efforts to contain the spread of the virus,” says Gold Fields CEO Nick Holland.

“In particular, we note yesterday's announcement by South African President Cyril Ramaphosa of a 21-day lockdown commencing this Friday. It is a painful, but necessary and bold decision and one that we support to the fullest,” he adds.

The nature and extent of incidences of infections at our global operations will determine the company's action with regards to continued operations at the mine sites.

The following provides an update on the situation in each Region and the additional measures we have now put in place:

- Our South Deep mine in South Africa will be safely put on care and maintenance as from 27 March 2020. South Deep is seeking permission from the regulator for the following activities to continue: pumping, security, essential plant maintenance, managerial oversight and medical services. Employees who will be providing these essential services will be accommodated in our residences. The majority of employees will be sent home as from Thursday and will continue to receive their base pay during the 21-day lock-down period. Where possible, select employees will work from home. Based on the current run-rate, the 21-day lockdown is expected to result in 16koz (500kg) of lost production at South Deep.

- Peru imposed a 15-day curfew on 16 March 2020. Our Cerro Corona mine is still continuing operations as the workforce stays in a self-contained camp on-site. We have just over 700 employees currently at Cerro Corona. Once the curfew period has ended we will reassess our ability to safely continue operations depending on the government's next actions.
- Our Tarkwa and Damang mines in Ghana continue operating and production has to date not been impacted.
- While there are restrictions on interstate travel in Australia, this currently does not apply to our Fly-In Fly-Out employees who continue to travel to and from our mines in Western Australia. Production has also not been impacted to date.
- In Chile, a three-month curfew-based lockdown was imposed on 19 March 2020. Project activities at Salares Norte continue, with construction only scheduled to begin later this year. Non-critical employees have been demobilized.
- All corporate office employees will be working from home from 27 March 2020 until the lockdown period in South Africa is lifted.

The company is in a strong financial position with significantly reduced debt at the end of December 2019. At the time of this release Gold Fields had approximately US\$600m in cash and in excess of US\$1.5bn of committed, unutilised debt facilities. "We have sufficient liquidity to withstand an interruption to our operations for a considerable period of time, but will work towards minimising the impact of Covid-19 on our operations," Holland says

We will review the situation at regular intervals to decide on further actions if required and will keep the market updated accordingly.
