NOTES TO THE FINANCIAL STATEMENTS (unaudited)

1. BASIS OF PRESENTATION

We are a limited partner of Enbridge Energy Partners, L.P., or the Partnership, through our ownership of i-units, a special class of the Partnership's limited partner interests. We have prepared the accompanying unaudited interim financial statements in accordance with accounting principles generally accepted in the United States of America for interim financial information and with the instructions to Form 10-Q and Rule 10-01 of Regulation S-X. Accordingly, they do not include all the information and footnotes required by accounting principles generally accepted in the United States of America for complete financial statements. In the opinion of management, they contain all adjustments, consisting only of normal recurring adjustments, which management considers necessary to present fairly our financial position at June 30, 2010, our results of operations for the three and six month periods ended June 30, 2010 and 2009 and our cash flows for the six month periods ended June 30, 2010 and 2009. We derived our statement of financial position as of December 31, 2009 from the audited financial statements included in our Annual Report on Form 10-K for the fiscal year ended December 31, 2009. Our results of operations for the three and six month periods ended June 30, 2010 should not be taken as indicative of the results to be expected for the full year. The interim financial statements should be read in conjunction with our financial statements and notes thereto presented in our Annual Report on Form 10-K for the fiscal year ended December 31, 2009. Our results of operations, financial position and cash flows are dependent on the results of operations, financial position and cash flows of the Partnership. As a result, you should also read these interim financial statements in conjunction with the Partnership's consolidated financial statements and notes thereto presented in its Annual Report on Form 10-K for the fiscal year ended December 31, 2009, as well as the Partnership's interim consolidated financial statements presented in its Quarterly Report on Form 10-Q for the quarterly period ended June 30, 2010.

3. CAPITAL ACCOUNT ADJUSTMENTS ON ISSUANCES OF COMMON UNITS BY ENBRIDGE ENERGY PARTNERS, L.P.

The Partnership records an adjustment to the carrying value of its book capital accounts when it issues additional common units and the new issuance price per unit is greater than or less than the average cost per unit for each class of units. We refer to these adjustments as capital account adjustments. We recognize any capital account adjustments recorded by the Partnership to the book capital account it maintains for our i-units by increasing or decreasing our investment in the Partnership and recording a corresponding capital account

adjustment directly to “Stockholders’ equity” on our statements of financial position in conjunction with our adoption of the authoritative accounting guidance for noncontrolling interests in consolidated financial statements.

In June 2010, the Partnership entered into an Equity Distribution Agreement, or EDA, for the issue and sale from time to time of its Class A common units up to an aggregate amount of \$150.0 million. The Partnership issued 287,345 Class A common units at an average sales price of \$52.52 per unit, for proceeds of approximately \$14.8 million, net of commissions and issuance costs for the three and six month periods ended June 30, 2010. Our ownership interest in the Partnership remained the same at 14.1 percent, immediately prior to and following the issuances. We increased the book value of our investment in the Partnership by \$0.7 million as a result of the capital account adjustments recorded by the Partnership in connection with the sale and issuance of its Class A common units, with an offsetting entry recorded to “Stockholders’ equity.”

5. SUBSEQUENT EVENTS

Share Distribution

On July 23, 2010, our board of directors declared a share distribution payable on August 13, 2010 to shareholders of record as of August 5, 2010 based on the \$1.0275 per limited partner unit distribution declared by the Partnership. The Partnership’s distribution increases the number of i-units we own. The amount of this increase is calculated by dividing the cash amount distributed by the Partnership per common unit, by the average closing price of one of our listed shares on the New York Stock Exchange, or NYSE, for the 10-trading day period immediately preceding the ex-dividend date for our shares, multiplied by the number of shares outstanding on the record date. We distribute additional Listed Shares to our listed shareholders and additional shares to the general partner in respect of these additional i-units.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

RESULTS OF OPERATIONS

Our results of operations consist of our share of earnings of Enbridge Energy Partners, L.P., or the Partnership, attributed to the i-units we own. At June 30, 2010 and 2009, through our ownership of i-units, we had an approximate 14.1 percent and 13.2 percent limited partner interest in the Partnership, respectively. Our percentage ownership of the Partnership will change over time as the number of i-units we own becomes a different percentage of the total limited partner interests outstanding due to our ownership of additional i-units and other issuances of limited partner interests by the Partnership.

The information set forth under "Part I, Item 2—Management's Discussion and Analysis of Financial Condition and Results of Operations" of the Partnership's Quarterly Report on Form 10-Q for the quarterly period ended June 30, 2010 is hereby incorporated by reference, as our results of operations, financial position and cash flows are dependent on the results of operations, financial position and cash flows of the Partnership.

The following table presents the Partnership's allocation of net income to Enbridge Energy Company, Inc., the general partner of the Partnership, referred to as the general partner, and limited partners for the periods presented.

	For the three month period ended June 30,		For the six month period ended June 30,	
	2010	2009	2010	2009
	(unaudited; in millions)			
Net income attributable to general and limited partner ownership interests in Enbridge Energy Partners, L.P. . .	\$140.0	\$117.5	\$255.4	\$186.1
Less: Net income allocated to the general partner	18.5	14.9	33.6	28.8
Net income allocated to limited partners	<u>\$121.5</u>	<u>\$102.6</u>	<u>\$221.8</u>	<u>\$157.3</u>

Our net income of \$10.9 million and \$8.6 million for the three month periods ended June 30, 2010 and 2009, respectively, and \$19.8 million and \$13.3 million for the six month periods ended June 30, 2010 and 2009, respectively, represents equity in earnings attributable to the i-units that we own reduced by deferred income tax expense. Deferred income tax expense is calculated based on the difference between the accounting and tax basis of our investment in the Partnership and the combined federal and state income tax rate of 36.8% and 36.7% for the three and six month periods ended June 30, 2010 and 2009, respectively, applied to our share of the earnings of the Partnership for the respective periods.

For the three months ended June 30, 2010, our net income increased by \$2.3 million as compared to the same period in 2009. The increase is primarily attributable to the \$3.7 million increase in equity income from the Partnership resulting from the increase in its net income in relation to the same period in 2009. This increase was offset by an additional \$1.4 million of income taxes associated with the increase in our net income.

For the six months ended June 30, 2010, our net income increased by \$6.5 million as compared to the same period in 2009. The components comprising our net income changed during the six month period ended June 30, 2010 compared with the same period in 2009 for the same reasons as noted above in the three-month analysis.

The Partnership records an adjustment to the carrying value of its book capital accounts when it issues additional common units and the new issuance price per unit is greater than or less than the average cost per unit for each class of units. We refer to these adjustments as capital account adjustments. We recognize any capital account adjustments recorded by the Partnership to the book capital account it maintains for our i-units by increasing or decreasing our investment in the Partnership and recording a corresponding capital account adjustment directly to "Stockholders' equity" on our statements of financial position in conjunction with our adoption of the authoritative accounting guidance for noncontrolling interests in consolidated financial statements.

In June 2010, the Partnership entered into an Equity Distribution Agreement, or EDA, for the issue and sale from time to time of its Class A common units up to an aggregate amount of \$150.0 million. The Partnership issued 287,345 Class A common units at an average sales price of \$52.52 per unit, for proceeds of approximately \$14.8 million, net of commissions and issuance costs for the three and six month periods ended June 30, 2010. Our ownership interest in the Partnership remained the same at 14.1 percent immediately prior to and following the issuances. We increased the book value of our investment in the Partnership by \$0.7 million as a result of the capital account adjustments recorded by the Partnership in connection with the sale and issuance of its Class A common units, with an offsetting entry recorded to "Stockholders' equity."

LIQUIDITY AND CAPITAL RESOURCES

Our authorized capital structure consists of two classes of membership interests: (1) our Listed Shares, which represent limited liability company interests with limited voting rights, and (2) our voting shares, which represent limited liability company interests with full voting rights. At June 30, 2010, our issued capitalization consisted of \$695.6 million associated with our 17,024,589 Listed Shares outstanding.

The number of our shares outstanding, including the voting shares owned by the general partner, will at all times equal the number of i-units we own in the Partnership. Typically, the general partner and owners of the Partnership's Class A and B common units will receive distributions from the Partnership in cash. Instead of receiving cash distributions on the i-units we own, however, we receive additional i-units under the terms of the Partnership's limited partnership agreement. The amount of additional i-units we receive is calculated by dividing the amount of the cash distribution paid by the Partnership on each of its Class A and B common units by the average closing price of one of our Listed Shares on the New York Stock Exchange, or NYSE, for the 10-trading day period immediately preceding the ex-dividend date for our shares, multiplied by the number of our shares outstanding on the record date. We make share distributions to our shareholders concurrently with the i-unit distributions we receive from the Partnership that increases the number of i-units we own. As a result of our share distributions, the number of shares outstanding is equal to the number of i-units that we own in the Partnership.

INCOME TAXES

Our income tax expense of \$6.4 million and \$11.5 million for the three and six month periods ended June 30, 2010, respectively, is \$1.4 million and \$3.8 million more than the income tax expense we incurred for the corresponding periods in 2009. The increase in income tax expense for the three and six month periods ended June 30, 2010 as compared to the same periods in 2009 was due to the increase in our taxable income primarily associated with greater amounts of equity income we recognized from the Partnership.

We computed our income tax expense for the three and six month periods ended June 30, 2010 by applying a 36.8% effective income tax rate to our pre-tax income, which represents the federal statutory rate of 35.0% and the effective state income tax rate of 1.8%. We computed our income tax expense for the three and six month periods ended June 30, 2009 by applying a 36.7% effective income tax rate to our pre-tax income, which represents the federal statutory rate of 35.0% and the effective state income tax rate of 1.7%.

SUBSEQUENT EVENTS

Share Distribution

On July 23, 2010, our board of directors declared a share distribution payable on August 13, 2010 to shareholders of record as of August 5, 2010 based on the \$1.0275 per limited partner unit distribution declared by the Partnership. The Partnership's distribution increases the number of i-units we own. The amount of this increase is calculated by dividing the cash amount distributed by the Partnership per common unit, by the average closing price of one of our Listed Shares on the NYSE for the 10-trading day period immediately preceding the ex-dividend date for our shares, multiplied by the number of shares outstanding on the record date. We distribute additional Listed Shares to our listed shareholders and additional shares to the general partner in respect of these additional i-units.

Item 3. Quantitative And Qualitative Disclosures About Market Risk

The nature of our business and operations is such that we do not conduct activities or enter into transactions of the type requiring discussion under this item.

For a discussion of these matters as they pertain to the Partnership, please read the information set forth under “Part I, Item 3—Quantitative and Qualitative Disclosures about Market Risk” in the Partnership’s Quarterly Report on Form 10-Q for the quarterly period ended June 30, 2010, which is hereby incorporated by reference, as activities of the Partnership have an impact on our results of operations and financial position.

Item 4. Controls And Procedures

Enbridge Management and Enbridge Inc., or Enbridge, maintain systems of disclosure controls and procedures designed to provide reasonable assurance that we are able to record, process, summarize and report the information required to be disclosed in our annual and quarterly reports under the Securities Exchange Act of 1934, as amended, or the Exchange Act, within the time periods specified in the rules and forms of the Securities and Exchange Commission. These disclosure controls and procedures are designed to ensure that information required to be disclosed by us in the reports that we file or submit under the Exchange Act is accumulated and communicated to our management, including our principal executive and principal financial officers, as appropriate, to allow timely decisions regarding required disclosure. Our management has evaluated the effectiveness of our disclosure controls and procedures as of June 30, 2010. Based upon that evaluation, our principal executive and principal financial officers concluded that our disclosure controls and procedures are effective to accomplish their purpose. In conducting this assessment, our management relied on similar evaluations conducted by employees of Enbridge affiliates who provide certain treasury, accounting and other services on our behalf. We have not made any changes that materially affected, or are reasonably likely to materially affect, our internal control over financial reporting during the three month period ended June 30, 2010.

Our risk factors have not materially changed from the disclosures included in Part I, Item 1A of our Annual Report on Form 10-K for the fiscal year ended December 31, 2009.
