NOTES TO THE FINANCIAL STATEMENTS
SEPTEMBER 30, 2005

(UNAUDITED – PREPARED BY MANAGEMENT)
(STATED IN U.S. DOLLARS)

Note 1 - Basis of Presentation

While the information presented in the accompanying interim financial statements is unaudited, it includes all adjustments which are, in the opinion of management, necessary to present fairly the financial position, results of operations and cash flows for the interim periods presented. Except as disclosed below, these interim financial statements follow the same accounting policies and methods of their application as the Company's audited June 30, 2005 annual financial statements. It is suggested that these interim financial statements be read in conjunction with the Company's June 30, 2005 audited financial statements.

Note 2 – Nature of Operations

a. Organization

The Company was incorporated in the State of Nevada, U.S.A., on May 1, 2002.

b. Development Stage Activities

The Company is a development stage company as defined in the Statements of Financial Accounting Standards No. 7. The Company is devoting substantially all of its present efforts to establish a new business and none of its planned principal operations have commenced. All losses accumulated since inception have been considered as part of the Company's development stage activities.

The Company was formerly engaged in the development of specialized educational programs for the food services industry. The Company discontinued its involvement in these operations during the year.

c. Going Concern

The accompanying financial statements have been prepared assuming the Company will continue as a going concern.

As shown in the accompanying financial statements, the Company has incurred a net loss of \$427,108 for the period from inception, May 1, 2002, to September 30, 2005, and has no sales. The future of the Company is dependent upon its ability to obtain financing and upon future profitable operations. Management has plans to seek additional financing through a public offering of its common stock. The financial statements do not include any adjustments relating to the recoverability and classification of recorded assets, or the amounts of and classification of liabilities that might be necessary in the event the Company cannot continue in existence.

Note 3 – Significant Accounting Policies

The financial statements of the Company have been prepared in accordance with generally accepted accounting principles in the United States. The application of Canadian generally accepted accounting principles to these financial statements would not result in material measurement or disclosure differences. Because a precise determination of many assets and liabilities is dependent upon future events, the preparation of financial statements for a period necessarily involves the use of estimates, which have been made using careful judgement.

The financial statements have, in management's opinion, been properly prepared within reasonable limits of materiality and within the framework of the significant accounting policies summarized below:

a) Organizational and Start-up Costs

Costs of start-up activities, including organizational costs, are expensed as incurred.

ANTICUS INTERNATIONAL CORPORATION
(A DEVELOPMENT STAGE COMPANY)

NOTES TO THE FINANCIAL STATEMENTS
SEPTEMBER 30, 2005

(UNAUDITED – PREPARED BY MANAGEMENT)
(STATED IN U.S. DOLLARS)

b) Foreign Currency Translation

Transaction amounts denominated in foreign currencies are translated at exchange rates prevailing at transaction dates. Carrying values of monetary assets and liabilities are adjusted at each balance sheet date to reflect the exchange rate at that date. Non-monetary assets and liabilities are translated at the exchange rate on the original transaction date. Gains and losses from restatement of foreign currency monetary and non-monetary assets and liabilities are included in the statements of operations. Revenues and expenses are translated at the rates of exchange prevailing on the dates such items are recognized in the statements of operations.

c) Income Taxes

The Company follows Statement of Financial Accounting Standards No. 109 – “Accounting for Income Taxes”. This standard requires the use of an asset and liability approach for financial accounting, and reporting on income taxes. If it is more likely than not that some portion or all of a deferred tax asset will not be realized, a valuation allowance is recognized.

d) Basic and Diluted Loss Per Share

In accordance with Statement of Financial Accounting Standards No. 128 – “Earnings Per Share”, basic loss per common share is computed by dividing net loss available to common stockholders by the weighted average number of common shares outstanding. Diluted loss per common share is computed similar to basic loss per common share except that the denominator is increased to include the number of additional common shares that would have been outstanding if the potential common shares had been issued and if the additional common shares were dilutive. At September 30, 2005, the Company has no stock equivalents that were anti-dilutive.

e) New Accounting Standards

Management does not believe that any recently issued, but not yet effective accounting standards, if currently adopted, would have a material effect on the accompanying financial statements.

Item 2. Management's Discussion and Analysis of Financial Condition and Plan of Operations

This statement may include projections of future results and “forward looking statements” as that term is defined in Section 27A of the Securities Act of 1933 as amended (the “Securities Act”), and Section 21E of the Securities Exchange Act of 1934 as amended (the “Exchange Act”). All statements that are included in this Quarterly Report, other than statements of historical fact, are forward looking statements. Although management believes that the expectations reflected in these forward looking statements are reasonable, it can give no assurance that such expectations will prove to have been correct.

Management Plan of Operations

The Company has been unsuccessful in any of the marketing efforts of its student training and is presently seeking potential acquisitions.

On January 20, 2005, the Company acquired the rights to acquire Nova Plasma Technology Incorporated, a Canadian based provider of high barrier and ultra high barrier coatings and processes for the flat panel industry.

On June 03, 2005 we disclosed on Form 8-K that the Agreement and the associated rights acquired by Anticus have expired without a merger occurring between the parties. There are no continuing negotiations with Nova Plasma Technology Incorporated.

On July 19, 2005, Anticus International Corporation (“Anticus”) acquired the rights to enter into a merger agreement with Deltacrypt Technologies, Inc. (“Delta”), a Canadian-based technology developer and provider of versatile encryption technology. Anticus acquired the rights to merge with Delta from 610051 N.B. Inc., a private Canadian corporation, which entered into an agreement with Delta regarding the merger of Delta into a public company (the “Agreement”).

610051 N.B. Inc. is owned by Michele Delisle, who owns 26,252 shares of Anticus, which represents less than 5% of Anticus’ total issued and outstanding shares. A finders fee of up to 1,500,000 common shares may be payable to 610051 N.B. Inc., no shares have been issued as of the date of this report.

Pursuant to the Agreement, the shareholders of Deltacrypt will receive such number of common shares of Anticus as to equal approximately 66.6% of the shares of Anticus’ common stock as calculated after such issuance. The agreement is contingent upon Anticus providing a minimum of \$750,000 of additional capital. Anticus is obligated to reduce all of its debts and liabilities to a maximum of \$25,000 prior to completion of the acquisition of Deltacrypt. The acquisition is subject to the approval by the shareholders of both Deltacrypt and Anticus. As part of the acquisition, Anticus will change its name to “Deltacrypt Inc.” or a similar name to reflect the new business of Anticus following the acquisition. Anticus will expand its board of directors to five (5).

On September 8, 2005 Anticus and Deltacrypt modified the prior agreement to include an additional condition requiring the acquirer (Anticus or 610051 N.B) to advance Deltacrypt an estimated \$27,000 CDN per month from August 1, 2005 to fund Deltacrypt operations until full completion of the merger. All funds advanced are to be applied to the condition requiring Anticus to provide a minimum of \$750,000 of available capital to Deltacrypt at the close of the merger.

Anticus and Deltacrypt may be unable to complete the intended merger based on the rights acquired in the agreement with 610051 N.B. Inc. Deltacrypt was to provide a detailed market commercialization plan to assist Anticus in efforts to provide the \$750,000 in available capital which was a condition of the merger. The materials provided were not sufficient and has resulted in Anticus being unable to secure the required capital to complete the merger. We are discussing alternatives with Deltacrypt. There can be no assurance that this intended merger will be successful. We recently attempted to merge with Nova Plasma Technology Incorporated and were unsuccessful. Anticus believes that under the current terms a merger with Deltacrypt is very unlikely.

Until such time as we complete an acquisition of an operating entity or adopt a new business plan we believe we should be considered a shell company as defined in rule 12b-2 of the Exchange Act. We base this belief on the factors that we have nominal operations and nominal assets.

Our continuation as a going concern is dependent upon obtaining the additional working capital necessary to sustain our limited operations. Accordingly, there is substantial doubt as to our ability to continue as a going concern. Our auditors have made reference to the substantial doubt about our ability to continue as a going concern in their audit report on our audited financial statements for the year ended June 30, 2005.
