NOTES TO INTERIM FINANCIAL STATEMENTS  
SEPTEMBER 30, 2008  
(EXPRESSED IN U.S. FUNDS)  
(UNAUDITED)

---

**1. Basis of presentation**

The accompanying unaudited interim financial statements have been prepared in accordance with U.S. generally accepted accounting principles for interim financial information and item 310(b) of Regulation S-B. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the three months ended September 30, 2008 are not necessarily indicative of the results that may be expected for the year ended June 30, 2009. The unaudited interim financial statements should be read in conjunction with the financial statements and notes thereto included in the Anticus International Corporation (A Company in the Development Stage) audited financial statements for the year ended June 30, 2008.

**2. Nature of operations**

**a) Organization**

The Company was incorporated in the State of Nevada, U.S.A., on May 1, 2002. On August 19, 2004, the Company effected a 3:1 forward stock split. On November 18, 2004, the Company effected a 3:1 forward stock split. All references in the accompanying financial statements to the number of common shares and per-share amounts have been restated to reflect the forward stock split.

**b) Development stage activities**

The Company is a development stage company as defined in the Statements of Financial Accounting Standards No. 7. The Company is devoting substantially all of its present efforts to establish a new business and none of its planned principal operations have commenced. All losses accumulated since inception has been considered as part of the Company's development stage activities.

The Company continues to develop its business pursuant to its exclusive world-wide license to convert waste materials from beer, soft drink and cheese manufacturers into yeast.

**c) Going concern**

The accompanying financial statements have been prepared assuming the Company will continue as a going concern. As shown in the accompanying financial statements, the Company has incurred a net loss of \$2,023,974 for the period from inception, May 1, 2002 to September 30, 2008, and has no sales. The future of the Company is dependent upon its ability to obtain financing and upon future profitable operations. Management has plans to seek additional financing through a public offering of its common stock. The financial statements do not include any adjustments relating to the recoverability and classification of recorded assets, or the amounts of and classification of liabilities that might be necessary in the event the Company cannot continue in existence.

**3. Recent accounting pronouncements**

The FASB issued FSP 133-1 and FIN 45-4, "Disclosures about Credit Derivatives and Certain Guarantees: An Amendment of FASB Statement No. 133 and FASB Interpretation No. 45; and Clarification of the Effective Date of FASB Statement No. 161". This FSP is intended to improve disclosures about credit derivatives by requiring more information about the potential adverse effects of changes in credit risk on the financial position, financial performance and cash flows of the sellers of credit derivatives. In addition, it requires an additional disclosure about the current status of the payment/performance risk of a guarantee. It also clarifies the effective date in FASB Statement No. 161, Disclosures about Derivative Instruments and Hedging Activities. This FSP is effective for reporting periods (annual or interim) ending after November 15, 2008. The adoption of FSP 133-1 and FIN 45-4 did not have a material effect on the company's financial position or results of operations.

## **Item 2 - Management's Discussion and Analysis of Financial Condition and Results of Operations**

This statement may include projections of future results and “forward looking statements” as that term is defined in Section 27A of the Securities Act of 1933 as amended (the “Securities Act”), and Section 21E of the Securities Exchange Act of 1934 as amended (the “Exchange Act”). All statements that are included in this Quarterly Report, other than statements of historical fact, are forward looking statements. Although management believes that the expectations reflected in these forward looking statements are reasonable, it can give no assurance that such expectations will prove to have been correct.

### **Summary of Operations**

The Company continues to pursue its goals of commercializing the Prolactis™ microbiological process.

On Oct 16, 2007, the Company announced that the demonstration and operating unit of the Quebec science complex has started production of lactic yeast (*Kluyveromyces marxianus*) samples. Green Yeast began distributing these yeast samples to its potential customers and partners, so that they can analyze this yeast themselves, suggest adjustments specific to their needs (e.g., live or inactive yeast, dried or not, according to different drying methods (spray, drum, fluidized bed), suggest adjustments to the nutrient content, etc.), and recognize the product's quality. The objective of this sampling campaign was to show with certainty our ability to produce a quality yeast strain that meets the market's expectations. This phase also had the aim of refining the process to achieve production efficiency.

The demonstration stage has indicated that potential customers being satisfied with the analysis of the small samples provided; require larger samples of up to 500 kilograms to further evaluate the product. The demonstration unit lacked this production capacity.

Anticus is expanding this production capacity by building an expandable production line which will have a bioreactor capable of producing the small 500 kilogram evaluation orders. This line will have all the supporting separators and drying systems and can be expanded by adding additional bioreactors as order levels increase.

The Company has recently reevaluated the capital required to bring a suitable facility into operation and is estimating an additional \$1,400,000 may be required. The Company is looking into ways to reduce this cost by trying to acquire used equipment suitable for our needs and potentially leasing new or used equipment if available.

On January 17, 2008 the Company authorized a private placement to raise Six Hundred Thousand Dollars (\$600 000 USD) through the issuance of non guaranteed convertible debentures (the “Debentures”) in tranches of \$1,000 each, bearing interest at the rate of 8% per year and maturing on the second anniversary of their issuance date, such Debentures to be convertible at the option of the holder into common shares of the Corporation at a price of \$0.08 per common share, subject to the right of the Corporation to force conversion if the common shares trade at a minimum price of \$0.16 per common share for fifteen consecutive trading days. The company may pay a 6 percent commission. The Company sold \$200,000 through this convertible debt financing and no additional placements are being accepted on this offering. The Company was late in paying the accrued interest that was due on September 30, 2008. As of September 30, 2008, none of the amounts owed under the debentures have been converted to equity.

On May 9, 2008 the Company announced that its common shares are again listed on the Over the Counter Bulletin Board under the symbol ATCI.OB.

On June 25, 2008, the Company entered into an agreement with Redal, Inc, to construct a bioreactor capable of the larger sample quantities required. The cost is approximately \$30,000.

On June 18, 2008 the Company authorized a private placement to raise Eight Hundred Thousand Dollars (\$800 000 USD) through the issuance of a maximum of Thirteen Million Three Hundred Thirty-three Thousand and Three Hundred Thirty-four common shares (13,333,334) at \$0.06 USD each. Each unit consists of one share of common stock at \$0.06 USD per share, as well as one warrant exercisable at \$0.12 USD per share no later than July 01, 2009;

In July 2008, the Company sold 1,666,667 units of this offering for \$100,000 USD to a single investor.

In November 2008, the company sold 1,666,667 units of this offering for \$100,000 USD to a single investor.

Contingent upon our financing requirements, we look forward to bringing our pilot plant into operation as soon as possible.

## **Financial Summary**

The Company has incurred a net loss of \$2,023,974 for the period from inception, May 1, 2002 to September 30, 2008, and has not generated any revenue since its inception. The future of the Company is dependent upon its ability to obtain financing and upon future profitable operations. Management plans to seek additional financing through the sale of its common stock through private placements. There is no assurance that the Company's current operations will be profitable or the Company will raise sufficient funds to continue operating.

### **Item 3 - Quantitative and Qualitative Disclosures About Market Risk**

Not Applicable

### **Item 4T - Controls and Procedures**

We carried out an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) as of September 30, 2008. This evaluation was carried out under the supervision and with the participation of our Chief Executive Officer and Chief Financial Officer, Daniel Trudeau and with the assistance of an outside accountant. Based upon that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that, as of September 30, 2008, our disclosure controls and procedures have been identified utilizing the guidance provided by the PCAOB preliminary staff views published October 17, 2007 and the COSO publication "internal control over financial reporting – guidance for smaller public companies" published in June of 2006.

We have identified and tested the internal control procedures based on the referenced guidance. We have identified weaknesses regarding the fact that the Company has only one employee, which performs all accounting and bookkeeping for the Company through an outside accounting firm. To mitigate this weakness all transactions are approved by the Chief Financial Officer and the outside accountant as to how they are to be reported in the books and records to assure proper reporting in the financial statements. There have been no significant changes in our internal controls over financial reporting during the period ended September 30, 2008 that have materially affected or are reasonably likely to materially affect such controls.

Disclosure controls and procedures are controls and other procedures that are designed to ensure that information required to be disclosed in our reports filed or submitted under the Exchange Act are recorded, processed, summarized and reported, within the time periods specified in the SEC's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed in our reports filed under the Exchange Act is accumulated and communicated to management, including our Chief Executive Officer and Chief Financial Officer, to allow timely decisions regarding required disclosure.

The Company has established disclosure controls and procedures to ensure that information disclosed in this MD&A and the related financial statements was properly recorded, processed, summarized and reported to the Company's Board of Directors. A control system, no matter how well conceived or operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met.

Having identified weaknesses implicit to the scope of our operations and implementing procedures to mitigate those weaknesses our principal executive and principal financial officer, Mr. Daniel Trudeau, has determined that the effectiveness of our disclosure controls and procedures were effective as of the three month period ended September 30, 2008.

There has been no change in the Company's disclosure controls during the three month period ended September 30, 2008 that has materially affected or is likely to materially affect its control over financial reporting.

#### **Management's Report on Internal Control over Financial Reporting**

The CEO and CFO of the Company acknowledge that they are responsible for designing internal controls over financial reporting or causing them to be designed under their supervision in order to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with Rule 240.13a-15(f) or Rule 240.15d-15(f). This report shall not be deemed to be filed for purposes of Section 18 of the Exchange Act or otherwise subject to the liabilities of that section.

Management and the Board of Directors work to mitigate the risk of a material misstatement in financial reporting, however, there can be no assurance that this risk can be reduced to less than a remote likelihood of a material misstatement.

Management has identified the critical disclosure controls and procedures associated with the Company's internal control over financial reporting using the above guidance for the period ended September 30, 2008 and we have tested the effectiveness of these disclosure controls and procedures. The Company has identified weaknesses regarding the fact that the company has only one employee, which performs all accounting and bookkeeping for the company through our outside accounting firm. This material weakness could materially affect the Company's control over financial reporting. To mitigate this weakness all transactions are approved by the Chief Financial Officer and outside accountant as to how they are to be reported in the books and records to assure proper reporting in the financial statements. We will not be able to eliminate this weakness until such time as we expand our staff to enable additional controls to be implemented.

Having identified weaknesses implicit to the scope of our operations and implementing procedures to mitigate those weaknesses our principal executive and principal financial officer, Mr. Daniel Trudeau, has determined that the effectiveness of our internal controls over financial reporting are effective as of the period ended September 30, 2008.

#### **Limitations on the Effectiveness of Internal Controls**

Our management does not expect that our disclosure controls and procedures or our internal control over financial reporting will necessarily prevent all fraud and material error.

The Company's independent registered public accounting firm was not required to and has not issued a report concerning the effectiveness of the Company's internal control over financial reporting as of September 30, 2008.
