ANTICUS INTERNATIONAL CORPORATION
(A DEVELOPMENT STAGE COMPANY)

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2008
(EXPRESSED IN U.S. FUNDS)
(UNAUDITED)

1. Basis of presentation

The accompanying unaudited interim financial statements have been prepared in accordance with U.S. generally accepted accounting principles for interim financial information and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the three months and for the six months ended December 2008, are not necessarily indicative of results that may be expected for the year ended June 30, 2009. The unaudited interim financial statements should be read in conjunction with the financial statements and notes thereto included in the Anticus International Corporation (A Company in the Development Stage) audited financial statements for the year ended June 30, 2008.

2. Nature of operations

a) Organization

The Company was incorporated in the State of Nevada, U.S.A., on May 1, 2002. On August 19, 2004, the Company effected a 3:1 forward stock split. On November 18, 2004, the Company effected a 3:1 forward stock split. All references in the accompanying financial statements to the number of common shares and per-share amounts have been restated to reflect the forward stock split.

b) Development stage activities

The Company is a development stage company as defined in the Statements of Financial Accounting Standards No. 7. The Company is devoting substantially all of its present efforts to establish a new business and none of its planned principal operations have commenced. All losses accumulated since inception has been considered as part of the Company's development stage activities.

The Company continues to develop its business pursuant to its exclusive world-wide license to convert waste materials from beer, soft drink and cheese manufacturers into yeast.

c) Going concern

The accompanying financial statements have been prepared assuming the Company will continue as a going concern.

As shown in the accompanying financial statements, the Company has incurred a net loss of \$2,180,884 for the period from inception, May 1, 2002 to December 31, 2008, and has no sales. The Company expects that it will need to raise substantial additional capital to accomplish its business plan over the next several years. The Company is actively seeking additional funding through the issuance of convertible debentures and private placements. It is the Company's intention is to bring a pilot plant into operation as soon as possible. This will allow the Company to manufacture its own products and start generating revenues. Should the Company be unable to continue as a going concern, it may be unable to realize the carrying value of its assets and to meet its liabilities as they become due.

3. Change in Accounting Policies

On July 1, 2008, the Company adopted the U.S. dollar as its functional currency. Previously, the functional currency was the Canadian dollar. This change resulted from the increase in new and projected financing and equity activity denominated in U.S. dollars compared to the transactions denominated in Canadian dollars. Exchange gains and losses resulting from transactions denominated in currencies other than U.S. dollars are included in the results of operation for the period.

4. Adoption of New Accounting Standards

a) Fair Value Measurements

SFAS 157 is effective for financial assets and liabilities in fiscal years beginning after November 15, 2007, and for non-financial assets and liabilities in fiscal years beginning after November 15, 2008. The Company adopted SFAS 157 for financial assets and liabilities with no material impact to the consolidated financial statements. The Company is currently evaluating the potential impact of the application of SFAS 157 on the non-financial assets and liabilities found on its consolidated financial statements.

ANTICUS INTERNATIONAL CORPORATION
(A DEVELOPMENT STAGE COMPANY)

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2008
(EXPRESSED IN U.S. FUNDS)
(UNAUDITED)

4. Adoption of New Accounting Standards (continuation)

SFAS No. 157 applies to all assets and liabilities that are being measured and reported on a fair value basis. SFAS No.157 requires new disclosure that establishes a framework for measuring fair value in GAAP, and expands disclosure about fair value measurements. This statement enables the reader of the financial statements to assess the inputs used to develop those measurements by establishing a hierarchy for ranking the quality and reliability of the information used to determine fair values. The statement requires that assets and liabilities carried at fair value be classified and disclosed in one of the following three categories :

Level 1: Quoted market prices in active markets for identical assets or liabilities.

Level 2: Observable market based inputs or unobservable inputs that are corroborated by market data.

Level 3: Unobservable inputs that are not corroborated by market data.

In determining the appropriate levels, the Company performs a detailed analysis of the assets and liabilities that are subject to SFAS No. 157. At each reporting period, all assets and liabilities for which the fair value measurement is based on significant unobservable inputs are classified as Level 3.

a) Fair Value of Financial Instruments

The table below presents the carrying value and fair value of Company's financial instruments. The disclosure excludes leases.

The fair value represents management's best estimates based on a range of methodologies and assumptions. The carrying value of receivables and payables arising in the ordinary course of business and the receivable from taxing authorities approximate fair value because of the relatively short period of time between their origination and expected realization.

	December 31, 2008		June 30, 2008	
	<u>Carrying Value</u>	<u>Estimated Fair Value</u>	<u>Carrying Value</u>	<u>Estimated Fair Value</u>
Financial assets				
Cash and cash equivalents	\$ 21,048	\$ 21,048	\$ 19,238	\$ 19,238
Receivable from taxing authorities	\$ 32,481	\$ 32,481	\$ 23,867	\$ 23,867
Financial liabilities				
Accounts payable and accrued expenses	\$ 38,808	\$ 38,808	\$ 34,010	\$ 34,010
Accrued interest on convertible debt	\$ 12,449	\$ 12,449	\$ 4,362	\$ 4,362
Convertible debentures	\$ 200,000	\$ 200,000	\$ 200,00	\$ 200,000

The convertible debentures use significant unobservable inputs and thus are shown as Level 3 hierarchy items. The fair value of the convertible debentures is calculated by discounting the stream of future payments of interest and principal at the prevailing market rate for a similar liability that does not have an associated equity component. Results of discounted cash flow calculations may be adjusted, as appropriate, to reflect other market conditions or the perceived changes in credit risk of the borrower.

5. Recent accounting pronouncements

The FASB issued FSP 133-1 and FIN 45-4, "Disclosures about Credit Derivatives and Certain Guarantees : An Amendment of FASB Statement No. 133 and FASB Interpretation No. 45; and Clarification of the Effective Date of FASB Statement No. 161". This FSP is intended to improve disclosures about credit derivatives by requiring more information about the potential adverse effects of changes in credit risk on the financial position, financial performance and cash flows of the sellers of credit derivatives. In addition, it requires an additional disclosure about the current status of the payment/performance risk of a guarantee. It also clarifies the effective date in FASB Statement No. 161, Disclosures about Derivative Instruments and Hedging Activities. This FSP is effective for reporting periods (annual and interim) ending after November 15, 2008. The adoption of FSP 133-1 and FIN 45-4 is not expected to have a material effect on the Company's financial position or results of operations.

5. Recent accounting pronouncements (continuation)

The FASB issued FSP FAS 132(R)-1, "Employers' Disclosures about Postretirement Benefit Plan Assets". This FSP provides guidance on an employer's disclosures about plan assets of a defined benefit pension or other postretirement plan. This FSP also includes a technical amendment to Statement 132R that requires a nonpublic entity to disclose net periodic benefit cost for each annual period for which a statement of income is presented. This FSP is effective for fiscal years ending after December 15, 2008. The adoption of FSP FAS 132(R)-1 is not expected to have a material effect on the Company's financial position or results of operations.

The EITF issued EITF 08-6, "Equity Method Investment Accounting Considerations". This EITF considers whether all of the provisions of Statement 141(R) and Statement 160 should be applied when accounting for an equity method investment. This EITF is effective on a prospective basis in fiscal years beginning on or after December 15, 2008 and interim periods within those fiscal years. The adoption of EITF 08-6 is not expected to have a material effect on the Company's financial position or results of operations.

The EITF issued EITF 08-7, "Accounting for Defensive Intangible Assets". This issue discusses how defensive intangible assets should be accounted for subsequent to their acquisition, including the estimated useful life that should be assigned to such assets. This EITF is effective prospectively for intangible assets acquired on or after the beginning of the first annual reporting period beginning on or after December 15, 2008. The adoption of EITF 08-7 is not expected to have a material effect on the Company's financial position or results of operations.

The EITF issued EITF 08-8, "Accounting for an Instrument (or an Embedded Feature) with a Settlement Amount That Is Based on the Stock of an Entity's Consolidated Subsidiary". This Issue addresses the determination of whether a financial instrument for which the payoff to the counterparty is based, in whole or in part, on the stock of an entity's consolidated subsidiary, is indexed to the reporting entity's own stock and therefore should not be precluded from qualifying for the first part of the scope exception in paragraph 11(a) of Statement 133 or being within the scope of Issue 00-19. This EITF is effective for fiscal years beginning on or after December 15, 2008, and interim periods within those fiscal years. The adoption of EITF 08-8 is not expected to have a material effect on the Company's financial position or results of operations.

8. Basic and diluted loss per common share

Basic and diluted loss per common share is calculated based on the weighted average number of shares outstanding during the period. The warrants, share-based compensation and convertible notes have been excluded from the calculation of diluted loss per share since they are anti-dilutive.

9. Comparable figures

Certain reclassifications of September 30, 2008 have been made to facilitate comparison with the current period.

10. Subsequent event

In February 2009, the Company sold 1,666,667 units of the authorized private placement for a cash consideration of \$100,000.

Item 2 - Management's Discussion and Analysis of Financial Condition and Results of Operations

This statement may include projections of future results and “forward looking statements” as that term is defined in Section 27A of the Securities Act of 1933 as amended (the “Securities Act”), and Section 21E of the Securities Exchange Act of 1934 as amended (the “Exchange Act”). All statements that are included in this Quarterly Report, other than statements of historical fact, are forward looking statements. Although management believes that the expectations reflected in these forward looking statements are reasonable, it can give no assurance that such expectations will prove to have been correct.

Summary of Operations

The Company continues to pursue its goals of commercializing the Prolactis™ microbiological process.

On Oct 16, 2007, the Company announced that the demonstration and operating unit of the Quebec science complex has started production of lactic yeast (*Kluyveromyces marxianus*) samples. Green Yeast began distributing these yeast samples to its potential customers and partners, so that they can analyze this yeast themselves, suggest adjustments specific to their needs (e.g., live or inactive yeast, dried or not, according to different drying methods (spray, drum, fluidized bed), suggest adjustments to the nutrient content, etc.), and recognize the product's quality. The objective of this sampling campaign was to show with certainty our ability to produce a quality yeast strain that meets the market's expectations. This phase also had the aim of refining the process to achieve production efficiency.

The demonstration stage has indicated that potential customers being satisfied with the analysis of the small samples provided; require larger samples of up to 500 kilograms to further evaluate the product. The demonstration unit lacked this production capacity.

Anticus is expanding this production capacity by building an expandable production line which will have a bioreactor capable of producing the small 500 kilogram evaluation orders. This line will have all the supporting separators and drying systems and can be expanded by adding additional bioreactors as order levels increase.

The Company has reevaluated the capital required to bring a suitable facility into operation and is estimating an additional \$1,400,000 may be required. The Company is looking into ways to reduce this cost by trying to acquire used equipment suitable for our needs and potentially leasing new or used equipment if available.

On June 25, 2008, the Company entered into an agreement with Redal, Inc, to construct a bioreactor capable of the larger sample quantities required. The cost was \$26,649. The equipment is now completed and in storage until the support equipment required to process the larger samples can be purchased.

On June 18, 2008 the Company authorized a private placement to raise Eight Hundred Thousand Dollars (\$800 000 USD) through the issuance of a maximum of Thirteen Million Three Hundred Thirty-three Thousand and Three Hundred Thirty-four common shares (13,333,334) at \$0.06 USD each. Each unit consists of one share of common stock at \$0.06 USD per share, as well as one warrant exercisable at \$0.12 per share no later than July 01, 2009;

In July 2008, the Company sold 1,666,667 units of this offering for \$100,000 to a single investor.

In November 2008, the company sold 1,666,667 units of this offering for \$100,000 to a single investor.

In February 2009, the Company sold 1,666,667 units of the authorized private placement for a cash consideration of \$100,000.

Contingent upon our financing requirements, we look forward to bringing our pilot plant into operation as soon as possible. Once we have the necessary supporting equipment for our larger capacity bio-reactor we will require approximately 12 weeks to activate the reactor for production.

Payments on Convertible Debentures

On January 17, 2008 the Company authorized a private placement to raise Six Hundred Thousand Dollars (\$600 000) through the issuance of non guaranteed convertible debentures (the "Debentures"), bearing interest at the rate of 8% per year and maturing on the second anniversary of their issuance date, such Debentures to be convertible at the option of the holder into common shares of the Corporation at a price of \$0.08 per common share, subject to the right of the Corporation to force conversion if the common shares trade at a minimum price of \$0.16 per common share for fifteen consecutive trading days. The Company sold \$200,000 through this convertible debt financing and no additional placements were accepted on this offering. The company paid a 6 percent commission.

The Company was late in paying the accrued interest that was due on December 31, 2008 but paid it current on February 9, 2009. As of December 31, 2008, none of the amounts owed under the debentures have been converted to equity.

Going Concern

Our continuation as a going concern is dependent upon obtaining the additional working capital necessary to sustain our operations. The Company has incurred a net loss of \$2,180,884 for the period from inception, May 1, 2002 to December 31, 2008, and has not generated any revenue since its inception. The future of the Company is dependent upon its ability to obtain financing and upon future profitable operations. Management plans to seek additional financing through the sale of its common stock through private placements. There is no assurance that the Company's current operations will be profitable or the Company will raise sufficient funds to continue operating.

Item 3 - Quantitative and Qualitative Disclosures About Market Risk

Not Applicable

Item 4T - Controls and Procedures

Evaluation of Disclosure Controls and Procedures

The Company's Chief Executive Officer and Chief Financial Officer, Mr. Trudeau, has evaluated the effectiveness of our disclosure controls and procedures as of the end of the period covered by this report pursuant to Rule 13a-15(b) under the Securities Exchange Act of 1934 (the "Exchange Act"). Based on that evaluation, the Company's Chief Executive Officer and Chief Financial Officer has concluded that, as of the end of the period covered by this report, our disclosure controls and procedures are effective in ensuring that information required to be disclosed in our Exchange Act reports is (1) recorded, processed, summarized and reported in a timely manner, and (2) accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

Changes in Internal Controls

There has been no change in the Company's internal controls over financial reporting that occurred during our last fiscal quarter that has materially affected, or is reasonably likely to materially affect, our internal controls over financial reporting.

Internal control systems, no matter how well designed and operated, have inherent limitations. Therefore, even a system which is determined to be effective cannot provide absolute assurance that all control issues have been detected or prevented. Our systems of internal controls are designed to provide reasonable assurance with respect to financial statement preparation and presentation.
