NEWS RELEASE 03-18

September 9, 2003

TSX Venture: GC

Gold City Announces Drill Program at Lexington

Paul Cowley, VP Exploration, is pleased to announce the Company's planned drill program on its Lexington-Lone Star property, located near Greenwood, British Columbia. The program will commence upon lifting of forest use and travel restrictions, which are currently in effect due to the extreme fire hazard in southern British Columbia.

The Lexington-Lone Star property is part of the Company's near term gold production Greenwood Gold Project, which also encompasses the Golden Crown/JD property, located 7 kilometres north northeast of the Lexington-Lone Star property and the Roberts Mill, located 5 kilometres south of Greenwood, BC. Previous explorers have conducted in excess of \$7.5 million in drilling and underground development on the Lexington-Lone Star Property, which covers four past producing copper/gold mines (Lone Star, City of Paris, Lincoln and No. 7) and seven gold/copper exploration prospects along a 5 kilometre long trend. Previous drilling on the Lexington-Lone Star property includes: the SW Zone, which returned an intercept of 15.24 metres grading 0.863 ounces/ton gold at a depth of 76.2 metres from surface and the TG-81 Zone, which returned 4.4 metres grading 0.825 ounces/ton gold and 2.18% copper, and 4.8 metres grading 0.494 ounces/ton gold and 1.48% copper at a depth of 80 metres from surface.

Preliminary metallurgical testwork has indicated that high gold and copper recoveries are achievable in a conventional gravity/flotation mill. The current drill program will provide material for additional metallurgical testing of the Grenoble/Main Zone in order to optimize the mill flowsheet design, prior to the planned mining of a 10,000 tonne bulk sample.

NEWS RELEASE

03-14

August 29, 2003

TSX Venture: GC

FINANCIAL RESULTS – SIX MONTHS ENDED JUNE 30, 2003

The Company has released its BC Form 51-901F Second Quarter Report containing financial statements in Canadian funds, prepared without audit, for the six months ended June 30, 2003. This news release provides a summary of the information contained therein, pursuant to the requirements of National Instrument 45-102. Concurrently, with this news release the Company is filing the Second Quarter Report with the regulatory authorities through SEDAR (www.sedar.com) and has mailed it to shareholders whose names appear on the Company's supplemental list. A copy of the Second Quarter Report is available from the Company on request.

Results of Operations

During the six months ended June 30, 2003, the Company reported a net loss of \$218,742 compared to a net loss of \$439,661 reported in the six months ended June 30, 2002. Administrative expenses increased by \$54,587, while other expenses decreased by \$276,595 for the six months ended June 30, 2003 compared to the six months ended June 30, 2002. Differences in administrative expenses were primarily due to: an increase of \$70,864 in financing fees, including finder's fees, which was partially offset by a decrease in office and general expenses of \$20,934, due primarily to a reduction in management fees. Differences in other expenses for the period were attributable to a gain of \$8,501 on the sale of marketable securities, which were acquired by the Company pursuant to property option agreements; a decrease of \$21,777 in mineral property evaluation; a decrease of \$5,994 in stock-based compensation related to stock options granted to consultants of the Company in the second quarter of 2002; and a decrease of \$255,755 in mineral properties written off compared to the six months ending June 30, 2002.

Financing Activities

During the period the Company closed a non-brokered private placement for total gross proceeds of \$210,500, which was announced on March 6, 2003. Each unit is comprised of one flow-through common share and one non-flow-through, non-transferable share purchase warrant, with every two share purchase warrants entitling the holder to purchase one additional common share, at an exercise price of \$0.30 per share, prior to April 2, 2004. Finder's fees totalling \$9,850 were paid pursuant to the private placement. The private placement was accepted for filing by the TSX Venture Exchange on April 2, 2004. Proceeds from the private placement will be used for qualifying exploration expenditures on the Company's British Columbia properties, primarily the Greenwood Gold Project.

Also during the period ending June 30, 2003 the Company issued 30,000 shares and realized proceeds of \$5,400 pursuant to the exercise of warrants related to a private placement dated March 26, 2002.

Subsequent to the period ending June 30, 2003, the Company has received on August 28, 2003 loan proceeds of £960,000 (the "Loan") from Ocean Resources Capital Holdings Plc. ("ORCH"), pursuant to an Amended Investment Agreement dated August 14, 2003, amending a previously announced investment agreement with ORCH dated January 30, 2003. As security for the Loan, the Company will issue an Investment Note which will include, among other provisions: (a) a term of three years; (b) the re-payment of the principal by the delivery of gold bullion priced at USD \$315/oz.; (c) interest will accrue on the outstanding principal at 12% per annum (with 60% of the accrued interest to be paid by the issue of common shares at the greater of: (i) \$0.75/share in the first year, \$0.88/share per year in the second and third years, or (ii) the market price of the Company's shares at the time of the interest payments; and 40% of the accrued interest will be paid in cash). Interest will be paid semi-annually commencing from January 31, 2004; and (d) a first ranking security interest over all of

the Company's present assets. As additional consideration the Company will issue and deliver 4,279,488 common shares priced at \$0.75/share. The Company will pay a broker's commission of \$C 117,686 to Keith, Bayley, Rogers & Co. in London, UK and a finder's fee of \$C53,494 to Mr. Peter Maclean of Vancouver. The transaction is subject to final acceptance for filing by the TSX Venture Exchange.

Property Agreements

On April 17, 2003 the Company entered into an option agreement with Jantri Resources Inc. (TSX-V: JNT), whereby Jantri may earn a 50% interest in the Company's Caramelia gold property, comprised of 44 mineral claims, covering 2,000 hectares, located near Rock Creek, British Columbia. To earn its interest, Jantri will make cash payments of \$150,000, issue 600,000 common shares and conduct exploration of \$500,000 over a period of five years. In year 1 of the agreement Jantri is required to make a minimum expenditure of \$50,000 on exploration and the issuance of 300,000 shares. Subsequent to the period ending June 30, 2003, the agreement was accepted for filing by the TSX Venture Exchange on July 10, 2003.

On June 5, 2003 the Company entered into an option agreement with XMP Mining Limited (TSX-V: XMP.T) whereby XMP may earn a 50% interest in the Dominion Creek Property, comprised of 17 mineral claims encompassing 1,950 hectares, located 45 kilometres northeast of the town of Wells, British Columbia. The Company has the right to earn a 100% interest, subject to a 2% net smelter return royalty, pursuant to an underlying option agreement dated April 17, 2000. To earn its interest, XMP will make cash payments totalling \$255,000, issue 800,000 common shares (post consolidation), and make exploration expenditures of \$750,000 over a four year period. In year 1 of the agreement XMP is required to make a cash payment of \$5,000, incur exploration expenditures of \$50,000 and issue 400,000 post consolidation shares. The agreement is subject to acceptance for filing by the TSX Venture Exchange.

Liquidity and Capital Resources

At June 30, 2003 the Company had a working capital deficiency of \$256,998. Proceeds of the Ocean Resources Capital Holdings Plc. £960,000 financing (see "Financing Activities" above) will provide funding for property option payments, as well as capital and exploration expenditures to enable the Company to advance its Greenwood Gold Project. Additional funding will be required to develop the project to production. The Company currently has no revenue producing properties.

To date the Company's capital needs have been met by equity financings. The Company is dependent on future equity/debt financings or joint venture arrangements to fund its operations and exploration work commitments. The Company intends to fund ongoing exploration programs on its Canadian mineral properties, in part, through flow-through financing.

Subsequent Events

Subsequent to the six month period ending June 30, 2003, Mr. Amir J. Hirani was appointed Vice Chair on July 16, 2003. Mr. Hirani is an international financier who has resided in Vancouver since 1979. His mandate will be to arrange financing for the Company in Canada and internationally.

Outlook

The Company is focusing on advancing its Greenwood Gold Project. Management continues to evaluate small to medium size mineral projects, primarily gold, with the intent of acquiring additional advanced stage mineral projects, which can be quickly advanced to production.
