Notes to Statement of Financial Condition

December 31, 2016

1. Description of Business

Cushman & Wakefield Securities, Inc. (the Company), a wholly-owned subsidiary of Cushman & Wakefield Inc. (the Parent), is a registered broker and dealer under the Securities Exchange Act of 1934 and is a member of the Financial Industry Regulatory Authority (FINRA). The Company primarily arranges real estate financing with accredited investors through placement of participations in debt or equity in real estate owned by its clients. In addition, the Company advises clients regarding real estate financing structures, which could involve the sale or exchange of stock or other securities. The Company is permitted, under its FINRA membership, to engage in other activities, however, it does not engage in these authorized activities. The Company was incorporated in Delaware on April 29, 2002 and commenced operations on April 7, 2003.

2. Summary of Significant Accounting Policies

Basis of Presentation

The Statement of Financial Condition is prepared in accordance with accounting principles generally accepted in the United States of America (US GAAP). Any material events that occurred subsequent to December 31, 2016 were reviewed for purposes of determining whether any adjustments or additional disclosures were required to be made to this Statement of Financial Condition.

Use of Estimates

The preparation of the Statement of Financial Condition in conformity with US GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the Statement of Financial Condition. Actual results could differ from those estimates.

The process of estimating accrued expenses involves identifying services that have been performed on our behalf and estimating the level of service performed and the associated cost incurred for the service when we have not yet been invoiced or otherwise notified of actual cost. The majority of our service providers invoice us on a monthly basis for services performed. We make estimates of our accrued expenses as of each Statement of Financial Condition date based on facts and circumstances known to us.

2. Summary of Significant Accounting Policies (continued)

Cash

Cash includes federally insured demand deposits that exceed the limit on insured deposits. The Company has not experienced any losses in such accounts.

Income Taxes

The Company accounts for income taxes in accordance with the asset and liability method prescribed in Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) Topic 740. The Company's taxable income is included in the taxable income of the Parent for federal income tax purposes, which is also included in the federal income tax return of DTZ US Holdings, LLC, through December 31, 2016.

Federal income taxes for the Company are provided for as if the Company was filing as a separate entity. The Company is included in combined state income tax returns with the Parent and certain other subsidiaries of the Parent.

Deferred income taxes are provided for the effects of temporary differences between the tax basis of an asset and liability and its reported amount on the Statement of Financial Condition. These temporary differences result in taxable or tax deductible amounts in future years and are measured using the enacted tax rates and laws expected to apply to taxable income in the periods in which the deferred tax liability or asset is anticipated to be settled or realized. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date.

In assessing the realizability of deferred tax assets, management considers whether it is more likely than not that some portion or all of the deferred tax assets will be realized and, when necessary, valuation allowances are established to offset their benefit. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income during the periods in which the temporary differences become deductible. Management considers the level of historical taxable income, projected future taxable income and tax planning strategies that can be implemented by the Company in making this assessment.

The Company accounts for uncertainties in income taxes pursuant to ASC 740-10. ASC 740-10 requires recognition and measurement of a tax position taken or expected to be taken in a tax return and provides guidance on de-recognition, classification, interest and penalties, and disclosure.

Fair Value of Assets and Liabilities

The financial assets and liabilities of the Company are reported on the Statement of Financial Condition at carrying amounts that approximate fair values due to the short maturities of the instruments. Such assets and liabilities include cash and accrued expenses, respectively.

3. Related Party Transactions

The accompanying Statement of Financial Condition has been prepared from the separate records maintained by the Company and may not necessarily be indicative of the conditions that would have existed if the Company operated as an unaffiliated company. Pursuant to the Restated Administrative Services Agreement dated April 1, 2014 ("Agreement"), the Company receives services, including use of office space, personnel and other general and administrative services from the Parent. For Company registered representatives who are members of the Parent's Corporate Finance & Investment Banking ("CFIB") business unit, the fee allocated to the Company pursuant to the Agreement for the twelve months ended December 31, 2016 was equal to 21.0% of CFIB's affiliated overhead expense based on the 2016 Annual Operating Plan. This percentage fee is calculated based on average revenue of the Company's registered representatives as a percentage of CFIB's total revenue for the past five years. For Company registered representatives who are members of the Parent's business units other than CFIB, the fee allocated to the Company pursuant to the Agreement for the twelve months ended December 31, 2016 was equal to 10% of the respective business unit's affiliated overhead expense based on the 2016 Annual Operating Plan.

The Due to Parent balance of \$3,082 on the Statement of Financial Condition at December 31, 2016 primarily relates to Parent cost allocations, federal and certain unitary state income taxes, transaction costs, royalty fees and other fees paid by the Parent. Due to Parent balances are settled on a periodic basis.
