

RepliCel Presenting at InvestMNT Investor Conference in Minneapolis

Conference attracts investment professionals in the Twin Cities area

VANCOUVER, BC – August 3, 2015 – RepliCel Life Sciences Inc. (TSX.V: RP) (OTCQB: REPCF), a clinical stage regenerative medicine company focused on the development of autologous cell therapies, announced today that RepliCel's CEO, David Hall, will be presenting at the InvestMNT conference held in Minneapolis, Minnesota on August 5th at 8:15 AM local time. Hall's presentation will highlight RepliCel's 18-month milestones including CE Mark for its RCI-02 dermal injector for sale in Europe, clinical data from both RCT-01 (tendon) and RCS-01 (skin) clinical trials in Canada and Germany, as well as Shiseido's proposed pattern baldness clinical trial in Japan using RepliCel's RCH-01 (hair) product. The conference is hosted by the CFA Society of Minnesota and will take place at the Schulze School of Entrepreneurship, University of St. Thomas, Minneapolis Campus, 1000 LaSalle Avenue, Minneapolis. About InvestMNT

This year's InvestMNT conference will feature approximately 60 companies hosted by the CFA Society Minnesota, a professional organization for investment professionals located in the Twin Cities and throughout the Upper Midwest region consisting of approximately 1,300 members in five states, across a broad scope of firms.

About RepliCel

RepliCel is a regenerative medicine company focused on developing autologous cell therapies that address diseases caused by a deficit of healthy cells required for normal healing and function. The company's RCT-01, RCS-01, and RCH-01 cell therapies are designed to treat chronic tendinosis, damaged or aging skin, and pattern baldness. All product candidates are based on RepliCel's innovative technology utilizing cell populations isolated from a patient's own healthy hair follicles. The company has also developed a propriety injection device optimized for the administration of its products and licensable for use with other dermatology applications.
