***NORTEK REPORTS INCREASED SALES
FOR THIRD QUARTER***

PROVIDENCE, RI, November 16, 2004—**Nortek, Inc.** ("**Nortek**"), a leading international designer, manufacturer and marketer of high-quality branded building products, today announced increased third-quarter sales from continuing operations as its core residential housing and home-improvement markets remained strong.

On August 27, 2004, corporations affiliated with Thomas H. Lee Partners L.P., in partnership with certain members of **Nortek's** management purchased all of the outstanding capital stock of **Nortek's** parent company, the former **Nortek Holdings, Inc.** ("**Nortek Holdings**"), in a transaction valued at approximately \$1.74 billion before fees and expenses (the "THL transaction") from affiliates of Kelso and Company L.P. and certain other parties.

Net sales for the period from July 4, 2004 to August 27, 2004 and the period from August 28, 2004 to October 2, 2004 were \$267 million and \$161 million, respectively.

Nortek sales for the combined periods from July 4, 2004 to October 2, 2004 from continuing operations totaled \$428 million, up 8 percent from the comparable period in 2003. The results from continuing operations exclude **Nortek's** formerly owned subsidiary, Ply Gem Industries, Inc. ("Ply Gem"), which has been sold and accordingly treated as a discontinued operation.

Richard L. Bready, Chairman and Chief Executive Officer, said, "**Nortek** achieved another solid quarter of revenue growth as it moved forward under its new management partnership." Bready said, "Third-quarter sales growth was particularly strong in our Residential Building Products segment overcoming the impact in our residential air conditioning markets of an unseasonably cool summer and an active hurricane season, higher commodity prices and lower-than-expected productivity in our new facilities. Productivity continues to improve entering the fourth quarter."

Expenses and charges arising from the THL transaction of approximately \$83.7 million were charged to operating earnings in the third quarter of 2004. In addition, **Nortek** incurred a loss during the 2004 third quarter of \$119 million from early retirement of debt as new financing was put in place.

Nortek's new capitalization includes \$625 million 8½% Senior Subordinated Notes due 2014 and a \$700 million bank term loan due 2011. In addition, as of October 2, 2004, **Nortek** had approximately \$71 million in unrestricted cash and cash equivalents and has no borrowings outstanding under its \$100-million revolving credit facility.

On January 9, 2003, certain affiliates of Kelso & Company, L.P. and certain members of management acquired control of **Nortek** in a recapitalization transaction. Net sales for the nine-day period ending January 9, 2003 and the period from January 10 to October 4, 2003 were \$25 million and \$1,117 million, respectively. Operating earnings (loss) from continuing operations for the nine-day period ending January 9, 2003 and the period from January 10 to October 4, 2003 were \$(81.8) million and \$128 million, respectively.

Key financial highlights from continuing operations for the combined periods from January 1, 2004 to October 2, 2004 included:

- Net sales of \$1,279 million, an increase of 12 percent compared to the \$1,142 million recorded for the combined period in 2003.
- Operating earnings of \$48.1 million, compared to \$46.2 million for the combined period in 2003. Operating earnings for the combined periods in 2004 is net of expenses and charges arising from the THL transaction of

approximately \$83.7 million. Operating earnings (loss) for the combined period in 2003 is net of expenses and charges of approximately \$83.0 million arising from the recapitalization transaction.

Mr. Bready added, "Housing activity continued at respectable levels, and it is expected that overall residential housing markets will continue to be solid for the remainder of the year. However, the manufactured housing and commercial HVAC markets continued to be soft during the quarter. Our operating margins continue to be impacted by increases in material costs, which have been partially offset by cost savings in other areas and some price increases."
