**Recently Issued Accounting Pronouncement**

In June 2016, the FASB issued ASU 2016-13, Financial Instruments - Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments. The main objective of this new standard is to provide financial statement users with more decision-useful information about the expected credit losses on financial assets and other commitments to extend credit held by a reporting entity at each reporting date. ASU 2016-13 applies to all entities and is effective for fiscal years beginning after December 15, 2019 for "public entities", including non-public registered broker-dealers, with early adoption permitted. In October 2019, the FASB voted to defer implementation of the standard for smaller reporting companies, such as the Company, to fiscal years beginning after December 15, 2022. The Company has assessed the impact to the Statement of Financial Condition and no material impact was noted.

**Recently Adopted Accounting Pronouncement**

On January 1, 2019, the Company adopted ASU No. 2016-02 "Lease (Topic 842)" and subsequent amendments thereto, which requires the Company to recognize most leases on the Statement of Financial Condition. The Company adopted the standard under a modified retrospective approach as of the date of adoption and elected to apply several of the available practical expedients, including:

- Carry over of historical lease determination and lease classification conclusions;
- Carry over of historical initial direct cost balances for existing leases;
- Accounting for lease and non-lease components in contracts in which the Company is a lessee as a single lease component.

Adoption of the leasing standard resulted in the recognition of operating right-of-use assets of \$226,896 and operating lease liabilities of \$226,896 as of January 1, 2019. These amounts were determined based on the present value of remaining minimum lease payments, discounted using the Company's incremental borrowing rate as of the date of adoption. There was no material impact to the timing of expense or income recognition in the Company's Statement of Income. Prior periods were not restated and continue to be presented under legacy GAAP. Disclosures about the Company's leasing activities are presented in Note 4 – Leases.

**Securities borrowed and securities loaned transactions**

**Quantex Clearing, LLC**  
**Notes to Statement of Financial Condition**  
**December 31, 2019**

---

Securities borrowed transactions require the Company to deposit cash and other collateral with lender. At December 31, 2019, the Company has advanced cash under securities borrowed agreements of \$80,496,750. With respect to securities loaned, the Company receives collateral generally in an amount in excess of the market value of the securities loaned. At December 31, 2019, the Company has received collateral under securities loaned agreements of \$66,928,689. The Company monitors the market value of the securities borrowed and loaned on a daily basis, with additional collateral obtained or refunded as necessary.

**Note 3 – Regulatory Requirements**

**Net Capital Requirements**

The Company is subject to the SEC Uniform Net Capital Rule (Rule 15c3-1) which requires the maintenance of minimum net capital. The Company has elected to use the alternative method permitted by the rule, which requires that the Company maintain net capital, as defined, equal to the greater of \$250,000 or 2% of aggregate debit items arising from customer transactions, as defined in SEC Rule 15c3-3. At December 31, 2019, the Company had net capital, as defined, of \$37,876,867 which was \$37,626,867 in excess of its required net capital of \$250,000.

**Cash and Securities Segregated under Regulations**

As a registered broker-dealer, the Company is subject to the SEC Customer Protection Rule (“Rule 15c3-3”) under the Securities Exchange Act of 1934. The Rule requires the deposit of cash and/or qualified securities, as defined, in a special reserve account for the exclusive benefit of customers.

The Company did not engage in clearing activity during the calendar year; however, the Company is approved as a clearing broker, and when it is engaged as such, the Company will be subject to SEC Rule 15c3-3. As of December 31, 2019, there was no amount deposit requirement required to be segregated in a special reserve account for the exclusive benefit of customers. During 2019, the Company did not hold customer funds or securities.

**Note 4 – Leases**

Effective January 1, 2019, the Company adopted ASU 2016-02, Leases (Topic 842). The Company has obligations as a lessee for office spaces with initial noncancelable terms in excess of one year. The Company classified these leases as operating leases. These leases do not contain renewal options. The weighted average remaining life of the lease term for these leases was 4.09 years as of December 31, 2019.

The operating lease asset and lease liability are determined at the commencement date of the lease based on the present value of the lease payments. As most of our leases do not provide an implicit rate, the Company used its incremental borrowing rate, the rate of interest to borrow on a collateralized basis for a similar term, at the lease commencement date. The Company utilized a weighted average discount rate of 5.17% in determining the lease liability as of December 31, 2019.

The Company made a policy election to exclude the recognition requirements of ASU 2016-02 to short-term leases, those leases with original terms of 12 months or less. Short-term lease payments are recognized in the income statement on a straight-line basis over the lease term. Certain real estate leases may contain lease and non-lease components, such as common area maintenance charges, real estate taxes, and insurance, which are generally accounted for separately and are not included in the measurement of the lease liability since they are generally able to be segregated. The Company does not sublease any of its leased properties. There were no sale and leaseback transactions, leveraged leases or lease transactions with related parties during the year ended December 31, 2019.

**Quantex Clearing, LLC**  
**Notes to Statement of Financial Condition**  
**December 31, 2019**

---

The Company enters into securities borrowed and securities loaned transactions to, among other things, settle other securities obligations, accommodate customers' needs and conduit matched book activities. The Company manages credit exposure arising from such transactions by entering into master netting agreements and collateral agreements with counterparties that provide the Company, in the event of a counterparty default (such as bankruptcy or a counterparty's failure to pay or perform), the right to net a counterparty's rights and obligations under such agreement and liquidate and setoff collateral against the net amount owed by the counterparty. The Company monitors the fair value of the underlying securities as compared with the related receivable or payable, as necessary, requests additional collateral as provided under the applicable agreement to ensure such transactions are adequately collateralized.

In accordance with applicable accounting guidance, there were no eligible items for netting. All securities borrowed and securities loaned transactions were executed on a overnight or open basis, with rights to terminate by either counterparty. At December 31, 2019, the underlying collateral for securities borrowed and securities lending transactions were US denominated equities.

At December 31, 2019, the approximate fair values of collateral received which may be sold or repledged by the Company were:

In the normal course of business, the Company executes and settles securities financing activities with securities lending counterparties. These securities transactions are on a cash basis performed under a master securities lending agreement. The Company is exposed to risk of loss on these transactions in the event the counterparty or affiliate fails to satisfy its obligations in which case the Company may be required to purchase or sell financial instruments at prevailing fair value prices.

The Company's exposure to credit risk associated with the nonperformance of these counterparties in fulfilling their contractual obligations pursuant to these activities can be directly impacted by volatile trading markets which may impair the ability of the counterparties to satisfy their obligations to the Company.

In connection with securities financing activities, the Company enters into securities borrowing and lending arrangements which may result in significant credit exposure in the event the counterparty to the transaction is unable to fulfill its contractual obligations.
