NOTES TO FINANCIAL STATEMENTS

1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Description of Business

UOB Kay Hian (U.S.) Inc. (the “Company”) is a broker-dealer organized as a Corporation under the laws of the State of New Jersey. The Company became registered on November 4, 2003 with the Securities and Exchange Commission and is a member of the Financial Industry Regulatory Authority, Inc. The Company acts exclusively on behalf of institutional customers in the buying and selling of Asian securities through a related company, UOB Kay Hian Private Limited, located in Singapore. The Company engages in the distribution of research to institutional clients. The parent of both companies is UOB-Kay Hian Holdings Limited (the “Parent”), located in Singapore. The Company’s principal office is located in Ontario Canada and has a branch office in Maplewood, New Jersey.

Use of Estimates

Management uses estimates and assumptions in preparing financial statements. Those estimates and assumptions affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities and the reported revenues and expenses. Actual results could differ from those estimates.

Cash and Equivalents

Cash and cash equivalents include short-term, highly liquid investments with original maturities of three months or less and all money market accounts.

Concentrations of Credit Risk for Cash

The Company’s cash balances in banks are insured by the Federal Deposit Insurance Corporation subject to certain limitations.

Accounts Receivable

Accounts receivable are stated at the amounts management expects to collect. An allowance for doubtful accounts is recorded based on a combination of historical experience, aging analysis and information on specific accounts. Account balances are written off against the allowance after all means of collection have been exhausted and the potential for recovery is considered remote. Management has determined that no allowance is required at December 31, 2021.

Depreciation and Amortization

Depreciation is computed on a straight-line basis over the estimated useful lives of the respective assets for a term of three years. Leasehold improvements are amortized on a straight-line basis over the life of the related lease, which approximates three years.

UOB KAY HIAN (U.S.) INC.

NOTES TO FINANCIAL STATEMENTS

1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Revenue Recognition

Securities transactions and the related revenues and expenses are recorded on a trade date basis.

Effective January 1, 2018, the Company adopted ASC Topic 606, Revenue from Contracts with Customers ("ASC Topic 606"). The new revenue recognition guidance requires that an entity recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The guidance requires an entity to follow a five step model to (a) identify the contract(s) with a customer, (b) identify the performance obligations in the contract, (c) determine the transaction price, (d) allocate the transaction price to the performance obligations in the contract, and (e) recognize revenue when (or as) the entity satisfies a performance obligation.

Brokerage commissions:

The Company buys and sells securities on behalf of its customers. Each time a customer enters into a buy or sell transaction, the Company charges a commission. Commissions and related clearing expenses are recorded on the trade date. The Company believes that the performance obligation is satisfied on the trade date because that is when the underlying financial instrument or purchaser is identified, the pricing is agreed upon and the risks and rewards of ownership have been transferred to/from the customer.

Research services:

The Company engages in the distribution of research to institutional clients. Research services meets the requirements of a contract. Although there is no formal contract, the customer and Company agree via word of mouth and through performance of the obligations (step 1). The contract contains only one revenue obligation, which is the agreed upon research to be performed (step 2). The revenue price for research services is variable and the amount of consideration is highly susceptible to factors outside of the Company's influence. There is uncertainty about the amount of consideration and when it will be resolved. Historically, there are research services contracts that are consistent period over period and are readily estimable while other research services contracts are not estimable. These contracts have a large number and broad range of possible consideration amounts (step 3). Contracts that are readily estimable are recognizable over the period of time in which the services were performed. These research contracts are generally performed in short periods of time (i.e. by month or quarterly - the Company does not historically have any contract periods over a year). For contracts that are not estimable, the revenue is recognizable at a specific point in time when the price becomes available (step 4 and 5).

UOB KAY HIAN (U.S.) INC.

NOTES TO FINANCIAL STATEMENTS

1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Lease Accounting

The Company recognizes and measures its leases in accordance with FASB ASC 842, Leases, which was adopted January 1, 2019. The Company is a lessee in a noncancellable operating lease for office space. The lease liability is initially and subsequently recognized based on the present value of its future lease payments. The discount rate is the implicit rate. If the implicit rate is not readily determinable, the Company uses its incremental borrowing rate. The implicit rate of our lease is not readily determinable and accordingly, the Company used its incremental borrowing rate based on the information available at the commencement date for the lease. The Company's incremental borrowing rate for a lease is the rate of interest it would have to pay on a collateralized basis to borrow an amount equal to the lease payments under similar terms and in a similar economic environment. The right-of-use ("ROU") asset is subsequently measured throughout the lease term at the amount of the remeasured lease liability (i.e., present value of the remaining lease payments), plus unamortized initial direct costs, plus (minus) any prepaid (accrued) lease payments, less the unamortized balance of lease incentives received, and any impairment recognized. Lease cost for lease payments is recognized on a straight-line basis over the lease term.

The Company has elected, for all underlying classes of assets, to not recognize ROU assets and lease liabilities for short-term leases that have a lease term of 12 months or less at lease commencement, and do not include an option to purchase the underlying asset that the Company is reasonably certain to exercise. The Company recognizes the lease cost associated with its short-term leases on a straight-line basis over the lease term.

Income Taxes

Deferred income taxes are recognized for temporary differences between the bases of assets and liabilities for financial reporting and income tax purposes. Temporary differences result primarily from the Company's net operating loss carryforwards. A valuation allowance is established when it is more likely than not that all or a portion of a deferred tax asset will not be realized.

2 - PROPERTY AND EQUIPMENT

Property and equipment consist of the following:

Furniture and fixtures	\$ 23,307
Computer equipment	54,918
Office equipment	48,559
Leasehold improvements	45,560
	<hr/> 172,344
Less - Accumulated depreciation and amortization	157,151
	<hr/> \$ 15,193

UOB KAY HIAN (U.S.) INC.

NOTES TO FINANCIAL STATEMENTS

3 - INCOME TAXES

The Company has federal net operating loss carryforwards of approximately \$108,000 as of December 31, 2021, that may be applied against future taxable income which expire in various years through 2032. A valuation allowance has been established equal to 100% of the deferred tax asset totaling \$22,730 at December 31, 2021.

4 - RELATED PARTY TRANSACTIONS

UOB Kay Hian Private Limited provides clearing services for the Company in accordance with a clearing agreement. During the year ended December 31, 2021, the Company paid \$201,679 in clearing charges. UOB Kay Hian Private Limited also provides research services. During the year ended December 31, 2021, the Company paid \$88,270 in research fees to UOB Kay Hian Private Limited.

Receivable from affiliate represents commissions earned in December 2021 totaling \$12,871.

Payable to affiliate totaling \$2,989 as of December 31, 2021 consists primarily of research fees owed to UOB Kay Hian Private Limited.

5 - LIABILITIES SUBORDINATED TO CLAIMS OF GENERAL CREDITORS

The Company entered into a subordinated loan agreement for \$150,000 effective June 14, 2012 with its parent UOB-Kay Hian Holdings Limited. This renews every year unless on or before the thirteen months preceding the Scheduled Maturity Date, the lender notifies the broker-dealer that the maturity date is not extended. The loan has an interest rate of 2%, which is paid annually.

The loan was automatically extended per the agreement and will mature on June 30, 2023.

The subordinated borrowing is covered by an agreement approved by the Financial Industry Regulatory Authority, Inc. and is thus available in computing net capital under the Securities and Exchange Commission's net capital rule. To the extent that such borrowings are required for the Company's continued compliance with minimum net capital requirements, it may not be eligible for repayment.

6 - LEASE COMMITMENTS

The Company leases office space in New Jersey at an annual rental of \$25,800 from The Ridge Group, LLC. The current lease is expiring on February 28, 2022 and has been renewed for another six months through August 31, 2022.

The Company's Toronto office has ceased the tenancy agreement effective December 31, 2021.

UOB KAY HIAN (U.S.) INC.

NOTES TO FINANCIAL STATEMENTS

6 - LEASE COMMITMENTS (Continued)

Rent expense, including real estate taxes and related costs, was approximately \$69,000 for the year ended December 31, 2021.

7 - RETIREMENT PLAN

The Company has a 401(k) plan, which covers substantially all of its full-time employees. The plan provides for employee contributions and matching contributions by the Company subject to certain limitations. Company contributions to the plan for the year ended December 31, 2021 total \$28,634.

8 - REGULATORY REQUIREMENTS

As a registered broker-dealer, the Company is subject to the net capital provisions of Rule 15c3-1 of the Securities Exchange Act of 1934, which requires that the Company's aggregate indebtedness shall not exceed fifteen times net capital, as defined, under such provision. At December 31, 2021, the Company had net capital of \$990,548 which exceeded requirements by \$690,548. The ratio of aggregate indebtedness to net capital was 0.1093 to 1.

The Company operates its securities transactions under the provisions of (K)(2)(ii) of Rule 15c3-3 of the Securities and Exchange Commission as a fully disclosed broker-dealer and accordingly, customer accounts are carried on the books of the clearing broker.

9 - FINANCIAL INSTRUMENTS WITH OFF-BALANCE SHEET RISK

The Company utilizes the services of clearing brokers for the settlement of customer transactions. All customers' money balances and security positions (long and short) are carried on the books of the clearing brokers. These activities may expose the Company to off-balance sheet credit risk in the event that the clearing broker or the customer is unable to fulfill their obligations.
