Dear Mr. Jiade:

We have reviewed your September 29, 2009 response to our September 9, 2009 comment letter and have the following comment. In our comment, we ask you to provide us with information to better understand your disclosure. After reviewing the information provided, we may raise additional comments and/or request that you amend your filing.

36 Reconciliation of HKFRS and United States generally accepted accounting principles,
page F-70

1. We have read your response to our prior comment number one. We do not believe that your accounting analysis supports your conclusion that consolidation of this subsidiary for which you have only 30% of the outstanding voting interest albeit with a majority of the board but not a supermajority of the board, which is required for certain transaction, is appropriate under US GAAP. We will not, however, object to your accounting for this subsidiary for US GAAP purposes based solely on your conclusion in your response that the effect on your reconciliation to US GAAP would not be material. If you wish to pursue this issue further, please advise; otherwise please confirm to us that you understand our position and that you will evaluate the materiality of consolidating at each future balance sheet date and consult us about the accounting in the event the difference becomes material.
