(An Exploration Stage Company)

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

June 30, 2013

(Expressed in United States dollars)

1. NATURE AND CONTINUANCE OF OPERATIONS

Entrée Gold Inc. was incorporated under the laws of the Province of British Columbia on July 19, 1995 and continued under the laws of the Yukon Territory on January 22, 2003. On May 27, 2005, Entrée Gold Inc. changed its governing jurisdiction from the Yukon Territory to British Columbia by continuing into British Columbia under the *Business Corporations Act* (British Columbia). The principal business activity of Entrée Gold Inc., together with its subsidiaries (collectively referred to as “the Company”), is the exploration of mineral property interests. To date, the Company has not generated significant revenues from its operations and is considered to be in the exploration stage.

All amounts are expressed in United States dollars, except for certain amounts denoted in Canadian dollars (“C\$”), and Australian dollars (“A\$”).

These consolidated financial statements have been prepared on the assumption that the Company will be able to realize its assets and discharge its liabilities in the normal course of business. The Company currently earns no operating revenues. Continued operations of the Company are dependent upon the Company’s ability to secure additional equity capital or receive other financial support, and in the longer term to generate profits from business operations. Management believes that the Company has sufficient working capital to maintain its operations for the next fiscal year.

2. BASIS OF PRESENTATION

The interim period financial statements have been prepared by the Company in conformity with generally accepted accounting principles in the United States of America. The preparation of financial data is based on accounting principles and practices consistent with those used in the preparation of annual financial statements, and in the opinion of management these financial statements contain all adjustments necessary (consisting of normally recurring adjustments) to present fairly the financial information contained therein. Certain information and footnote disclosure normally included in the financial statements prepared in conformity with generally accepted accounting principles in the United States of America have been condensed or omitted. These interim period statements should be read together with the most recent audited financial statements and the accompanying notes for the year ended December 31, 2012. The results of operations for the six months ended June 30, 2013 are not necessarily indicative of the results to be expected for the year ending December 31, 2013.

3. SIGNIFICANT ACCOUNTING POLICIES

These consolidated financial statements follow the same significant accounting principles as those outlined in the notes to the audited consolidated financial statements for the year ended December 31, 2012.

4. CASH AND CASH EQUIVALENTS

Cash and cash equivalents consist of cash at bank and in hand of \$52,051,940 as at June 30, 2013 (December 31, 2012 - \$4,255,508).

5. LONG-TERM INVESTMENTS***Equity Method Investment***

The Company has a 20% interest in a joint venture with Oyu Tolgoi LLC (“OTLLC”), a company owned 66% by Turquoise Hill Resources Ltd. (formerly Ivanhoe Mines Ltd.) (“Turquoise Hill”) and 34% by the Government of Mongolia (Note 7). The Company’s share of the loss of the joint venture is \$93,246 for the six months ended June 30, 2013 (June 30, 2012 - \$492,113) plus accrued interest expense of \$128,809 for the six months ended June 30, 2013 (June 30, 2012 - \$107,520).

7. MINERAL PROPERTY INTERESTS

Title to mineral property interests involves certain inherent risks due to the difficulties of determining the validity of certain claims as well as the potential for problems arising from the frequently ambiguous conveyancing history characteristic of many mineral property interests. The Company has investigated title to its mineral property interests and, except as otherwise disclosed below, to the best of its knowledge, title to the mineral property interests is in good standing.

Material Properties

The Company's two principal assets are its interest in the Lookout Hill property in Mongolia, and the Ann Mason project (the "Ann Mason Project") in Nevada.

Lookout Hill, Mongolia

The Lookout Hill property in the South Gobi region of Mongolia is comprised of two mining licences, Shivee Tolgoi and Javhlant, granted by the Mineral Resources Authority of Mongolia ("MRAM") in October 2009. Title to the two licences is held by the Company.

In October 2004, the Company entered into an arm's-length Equity Participation and Earn-In Agreement (the "Earn-In Agreement") with Turquoise Hill. Under the Earn-In Agreement, Turquoise Hill agreed to purchase equity securities of the Company, and was granted the right to earn an interest in what is now the eastern portion of the Shivee Tolgoi mining licence and all of the Javhlant mining licence (together the "Joint Venture Property"). Most of Turquoise Hill's rights and obligations under the Earn-In Agreement were subsequently assigned by Turquoise Hill to what was then its wholly-owned subsidiary, OTLLC. The Government of Mongolia subsequently acquired a 34% interest in OTLLC from Turquoise Hill.

On June 30, 2008, OTLLC gave notice that it had completed its earn-in obligations by expending a total of \$35 million on exploration of the Joint Venture Property. OTLLC earned an 80% interest in all minerals extracted below a sub-surface depth of 560 metres from the Joint Venture Property and a 70% interest in all minerals extracted from surface to a depth of 560 metres from the Joint Venture Property. In accordance with the Earn-In Agreement, the Company and OTLLC formed a joint venture (the "Entrée-OTLLC Joint Venture") on terms annexed to the Earn-In Agreement.

The portion of the Shivee Tolgoi mining licence outside of the Joint Venture Property ("Shivee West") is 100% owned by the Company, but is subject to a right of first refusal by OTLLC.

The conversion of the original Shivee Tolgoi and Javhlant exploration licences into mining licences was a condition precedent to the Investment Agreement (the "Investment Agreement") between Turquoise Hill, OTLLC, the Government of Mongolia and Rio Tinto International Holdings Limited. The licences are part

of the contract area covered by the Investment Agreement, although the Company is not a party to the Investment Agreement. The Shivee Tolgoi and Javhlant mining licences were each issued for a 30 year term and have rights of renewal for two further 20 year terms.

On February 27, 2013, notice (the "Notice") was delivered to the Company by MRAM that by Order No. 43 dated February 22, 2013, the Ministry of Mining had cancelled the July 10, 2009 Order of the Ministry of Mineral Resources and Energy (the "2009 Order") registering the Hugo Dummett (including the Hugo North Extension) and Heruga reserves. The registration of reserves is a pre-condition to applying for the conversion of an exploration licence into a mining licence. The Notice stated that the 2009 Order breached Clause 48.4 of the Minerals Law of Mongolia and Clause 9 of the Charter of the Minerals Resource Counsel. The Notice, which was not concerned with the issuance of the mining licences, further advised that the Company is temporarily restricted from transferring, selling or leasing the Shivee Tolgoi and Javhlant mining licences. The mining licences have not been revoked or cancelled, and the Company is currently working to resolve the temporary restriction.

As of June 30, 2013, the Entrée-OTLLC Joint Venture had expended approximately \$25.7 million to advance the Joint Venture Property. Under the terms of the Entrée-OTLLC Joint Venture, OTLLC contributed on behalf of the Company its required participation amount charging interest at prime plus 2% (Note 8).

Ann Mason, Nevada, United States

The Ann Mason Project is defined by a series of both unpatented lode claims on public land administered by the Bureau of Land Management, and title to patented lode claims. The Company assembled this package of claims through a combination of staking and a series of transactions undertaken since August 2009, including the June 30, 2010 acquisition of PacMag Metals Limited (now PacMag Metals Pty Ltd.) ("PacMag"). The project area includes the Ann Mason and the Blue Hill deposits, and several early-stage copper porphyry targets including the Blackjack IP, Blackjack Oxide, Roulette and Minnesota targets.

Certain of the unpatented lode claims (part of the area formerly known as the Blackjack property) are leased to the Company pursuant to a mining lease and option to purchase agreement ("MLOPA") with two individuals. Under the MLOPA, the Company is granted the option to purchase the claims for \$500,000. If the Company exercises its option, the claims will be subject to a 3% net smelter returns ("NSR") royalty (which may be bought down to a 1% NSR royalty for \$2 million). The MLOPA also provides for annual advance minimum royalty payments of \$27,500 which commenced in June 2011 and will continue until the commencement of sustained commercial production. The advance payments will be credited against future royalty payments or the buy down of the royalty.

In September 2009, the Company entered into an agreement with Bronco Creek Exploration Inc. ("Bronco Creek"), a wholly-owned subsidiary of Eurasian Minerals Inc., whereby the Company may acquire an 80% interest in certain unpatented lode claims formerly known as the Roulette property. In order to acquire its interest, the Company must: (a) incur expenditures of \$1,000,000, make cash payments of \$140,000 and issue 85,000 common shares of the Company within three years (completed); (b) make aggregate advance royalty payments totalling \$375,000 between the fifth and tenth anniversaries of the agreement; and (c) deliver a bankable feasibility study before the tenth anniversary of the agreement.

Material Properties (cont'd...)

Ann Mason, Nevada, United States (cont'd...)

Certain of the patented lode claims are subject to a 2% NSR royalty in favour of AngloGold Ashanti (Nevada) Corp. In February 2013, the Company entered into an agreement with Sandstorm Gold Ltd. ("Sandstorm") whereby the Company granted Sandstorm a 0.4% NSR royalty over certain of the unpatented lode claims, including the claims covering the Ann Mason and Blue Hill deposits, in return for an upfront payment of \$5 million (the "Sandstorm NSR Payment") which was recorded as a recovery to acquisition costs.

Other Properties

During the six months ended June 30, 2013, the Company also had interests in non-material properties in Australia, United States, and Peru. Non-material properties include the following:

Australia Properties

The Company has mineral property interests in Australia which it acquired in conjunction with the PacMag acquisition, including the Blue Rose joint venture. The Company holds a 53.7% interest in the Blue Rose copper-iron-gold-molybdenum joint venture property, with Giralia Resources Pty Ltd., now a subsidiary of Atlas Iron Limited (ASX:AGO - "Atlas"), retaining the remaining 46.3% interest.

Lordsburg and Oak Grove

During the year ended December 31, 2012, the Company entered into an agreement with Empirical Discovery, LLC ("Empirical") to purchase a 100% interest in the Lordsburg and Oak Grove properties, New Mexico, subject to a 2% NSR royalty. Pursuant to the agreement, the Company paid \$100,000 to Empirical and issued 500,000 common shares valued at \$326,483. Subsequent to the end of the quarter, the Company informed Empirical of its intention to abandon the unpatented lode claims comprising the Oak Grove property.

During the six months ended June 30, 2013, the Company recorded an impairment of mineral property interests of \$437,732 on the Oak Grove property.

8. LOANS PAYABLE

Under the terms of the Entrée-OTLLC Joint Venture (Note 7), OTLLC will contribute funds to approved joint venture programs and budgets on the Company's behalf. Interest on each loan advance shall accrue at an annual rate equal to OTLLC's actual cost of capital or the prime rate of the Royal Bank of Canada, plus two percent (2%) per annum, whichever is less, as at the date of the advance. The loans will be repayable by the Company monthly from ninety percent (90%) of the Company's share of available cash flow from the Entrée-OTLLC Joint Venture. In the absence of available cash flow, the loans will not be repayable. The loans are not expected to be repaid within one year.

9. SANDSTORM FINANCING ARRANGEMENT

In February 2013, the Company entered into an equity participation and funding agreement with Sandstorm that provided an upfront deposit (the "Deposit") from Sandstorm of \$40 million. The Company will use future payments that it receives from its mineral property interests to purchase and deliver metal credits to Sandstorm, in amounts that are indexed to the Company's share of gold, silver and copper production from the Joint Venture Property as follows:

- 25.7% of the Company's share of gold and silver, and 2.5% of the Company's share of copper, produced from the portion of the Shivee Tolgoi mining licence included in the Joint Venture Property; and
- 33.8% of the Company's share of gold and silver, and 2.5% of the Company's share of copper, produced from the Javhlant mining licence.

In addition to the Deposit, upon delivery of the metal credits Sandstorm will make a cash payment to the Company equal to the lesser of the prevailing market price and \$220 per ounce of gold, \$5 per ounce of silver and \$0.50 per pound of copper (subject to inflation adjustments). After approximately 8.6 million ounces of gold, 40.3 million ounces of silver and 9.1 billion pounds of copper have been produced from the entire Joint Venture Property, the cash payment will increase to the lesser of the prevailing market price and \$500 per ounce of gold, \$10 per ounce of silver and \$1.10 per pound of copper (subject to inflation adjustments). To the extent that the prevailing market price is greater than the amount of the cash payment, the difference between the two will be credited against the Deposit (the net amount of the Deposit being the "Unearned Balance").

9. SANDSTORM FINANCING ARRANGEMENT (cont'd...)

In the event of a partial expropriation of the Company's interest in the Joint Venture Property, which is not reversed during the abeyance period provided for in the equity participation and funding agreement, the Company will be required to return a pro rata portion of the Deposit (the amount of the repayment not to exceed the amount of the Unearned Balance) and the metal credits that the Company is required to deliver will be reduced proportionately. In the event of a full expropriation, the full amount of the Unearned Balance must be returned with interest.

The Company is not required to deliver actual metal, and the Company may use revenue from any of its assets to purchase the requisite amount of metal credits.

The Company recorded the Deposit as deferred revenue and will recognize amounts in revenue as metal credits are delivered to Sandstorm, which is expected to commence in 2019.

In addition, the Company entered into an agreement with Sandstorm whereby the Company granted Sandstorm a 0.4% NSR royalty over certain of the Ann Mason Project claims, including the claims covering the Ann Mason and Blue Hill deposits, in return for the Sandstorm NSR Payment of \$5 million which was recorded as a recovery to acquisition costs.

The Company also completed a private placement with Sandstorm for gross proceeds of \$9,722,897.

The transactions costs related to the Sandstorm financing arrangement are summarized as follows:

	Three Months Ended March 31, 2013
Consultancy & advisory fees	\$ 936,926

10. COMMON STOCK**Share issuances**

In March 2013, the Company completed a private placement to Sandstorm consisting of 17,857,142 common shares issued at a price of C\$0.56 per share for gross proceeds of \$9,722,897. Related share issuance costs were \$86,636.

Stock options

The Company has adopted a stock option plan (the "Plan") to grant options to directors, officers, employees and consultants. Under the Plan, the Company may grant options to acquire up to 10% of the issued and outstanding shares of the Company. Options granted can have a term of up to ten years and an exercise price typically not less than the Company's closing stock price on the last trading day before the date of grant. Vesting is determined at the discretion of the Board of Directors.

The Company uses the Black-Scholes option pricing model to determine the fair value of stock options granted. For employees, the compensation expense is amortized on a straight-line basis over the requisite

service period which approximates the vesting period. Compensation expense for stock options granted to non-employees is recognized over the contract services period or, if none exists, from the date of grant until the options vest. Compensation associated with unvested options granted to non-employees is re-measured on each balance sheet date using the Black-Scholes option pricing model.

The Company uses historical data to estimate option exercise, forfeiture and employee termination within the valuation model. The risk-free interest rate is based on a treasury instrument whose term is consistent with the expected term of the stock options. The Company has not paid and does not anticipate paying dividends on its common stock; therefore, the expected dividend yield is assumed to be zero. Companies are required to utilize an estimated forfeiture rate when calculating the expense for the reporting period.

Based on the best estimate, management applied the estimated forfeiture rate of Nil in determining the expense recorded in the accompanying Statements of Operations and Comprehensive Loss.

Stock option transactions are summarized as follows:

12. FINANCIAL INSTRUMENTS

The Company's financial instruments generally consist of cash and cash equivalents, receivables, deposits, accounts payable and accrued liabilities and loans payable. Unless otherwise noted, it is management's opinion that the Company is not exposed to significant interest or credit risks arising from these financial instruments. The fair value of these financial instruments approximates their carrying values, except as noted below.

The Company is exposed to currency risk by incurring certain expenditures in currencies other than the Canadian dollar. The Company does not use derivative instruments to reduce this currency risk.

Fair value measurement is based on a fair value hierarchy, which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The standard describes three levels of inputs that may be used to measure fair value which are:

Level 1 — Quoted prices that are available in active markets for identical assets or liabilities.

Level 2 — Quoted prices in active markets for similar assets that are observable.

Level 3 — Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

At June 30, 2013, the Company had Level 1 financial instruments, consisting of cash and cash equivalents, with a fair value of \$52,051,940.
