**NOTES TO FINANCIAL STATEMENTS**  
**December 31, 2022**

**NOTE A – SUMMARY OF ACCOUNTING POLICIES**

Accounting principles followed by the Company and the methods of applying those principles which materially affect the determination of financial position, results of operation and cash flows are summarized below:

Organization

CNS Securities, LLC (the Company) was formed as a Texas Limited Liability Company in June 2003. Mr. Chris Sifuentes of Plano, TX is the sole member. In June 2004, the Financial Industry Regulatory Authority, Inc. (FINRA) approved the Company's application to provide broker-dealer services for the sale of municipal securities, mutual funds and variable life insurance products. The Company has adopted a calendar year.

Description of Business

The Company, located in Sherman, TX is a broker and dealer in securities registered with the Securities and Exchange Commission ("SEC") and is a member of FINRA. The Company operates under SEC Rule 15c3-3(k)(1), which provides exemption to firms whose business is limited to mutual funds and/or variable insurance products.

Basis of Accounting

The financial statements of the Corporation have been prepared on the accrual basis of accounting and accordingly reflect all significant receivables, payables, and other liabilities.

Cash and Cash Equivalents

The Company considers as cash all short-term investments with an original maturity of three months or less to be considered cash and cash equivalents.

Accounts Receivable – Recognition of Bad Debt

The Corporation considers accounts receivable to be fully collectible; accordingly, no allowance for doubtful accounts is required. If amounts become uncollectible, they will be charged to operations when that determination is made.

Concentration of Credit Risk

Financial instruments that potentially subject the Company to concentrations of credit risk consist primarily of cash and cash equivalents. All of the Company's cash and cash equivalents are held at high credit quality financial institutions.

**CNS SECURITIES, LLC**  
**NOTES TO FINANCIAL STATEMENTS**  
**December 31, 2022**

NOTE A – SUMMARY OF ACCOUNTING POLICIES, continued

Revenue Recognition

Brokerage commissions. The Company buys and sells securities on behalf of its customers. Each time a customer enters into a buy or sell transaction, the Company charges a commission. Commissions and related clearing expenses are recorded on the trade date (the date that the Company fills the trade order by finding and contracting with a counterparty and confirms the trade with the customer). The Company believes that the performance obligation is satisfied on the trade date because that is when the underlying financial instrument or purchaser is identified, the pricing is agreed upon and the risks and rewards of ownership have been transferred to/from the customer.

Distribution fees. The Company enters into arrangements with managed accounts or other pooled investment vehicles (funds) to distribute shares to investors. The Company may receive distribution fees paid by the fund up front, over time, upon the investor's exit from the fund (that is, a contingent deferred sales charge), or as a combination thereof. The Company believes that its performance obligation is the sale of securities to investors and as such this is fulfilled on the trade date. Any fixed amounts are recognized on the trade date and variable amounts are recognized to the extent it is probable that a significant revenue reversal will not occur once the uncertainty is resolved. For variable amounts, as the uncertainty is dependent on the value of the shares at future points in time as well as the length of time the investor remains in the fund, both of which are highly susceptible to factors outside the Company's influence, the Company does not believe that it can overcome this constraint until the market value of the fund and the investor activities are known, which are usually monthly or quarterly. Distribution fees recognized in the current period are primarily related to performance obligations that have been satisfied in prior periods.

Other Miscellaneous Fees Earned. From time to time the Company performs functions for the convenience of its customers. In these cases, the Company performs a simple act for which it receives a fee. The performance obligation is satisfied on the date the service is delivered because there are no remaining tasks which are to be performed related to the service that is delivered. No miscellaneous fees were earned in the current year.

Fair Value of Financial Instruments

Financial instruments that are subject to fair value disclosure requirements are carried in the financial statements at an amount that approximates fair value and include cash and cash equivalents. Fair values are based on quoted market prices and assumptions concerning the amount and timing of estimated future cash flows and assumed discount rates reflecting varying degrees of perceived risk.

**CNS SECURITIES, LLC**  
**NOTES TO FINANCIAL STATEMENTS**  
**December 31, 2022**

NOTE A – SUMMARY OF ACCOUNTING POLICIES, continued

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Income Taxes

For federal income tax purposes, CNS, a limited liability company has elected to be taxed as corporation. Current provisions or benefits for income taxes are recorded based on estimates of actual income taxes or refunds thereof, as reported in federal and state tax returns.

The Company accounts for deferred income taxes using the asset liability method. Under this method, deferred tax assets and liabilities are recognized for the future tax consequence attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income during the period that includes the enactment date. Additionally, deferred tax assets may be reduced by a valuation allowance to reflect benefits that may not be realized.

NOTE B – NET CAPITAL REQUIREMENTS

The Company is subject to the Securities and Exchange Commission Uniform Net Capital Rule (SEC Rule 15c3-1), which requires the maintenance of minimum net capital and requires the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 15 to 1. As of December 31, 2021, The Company had net capital of \$26,580 which was \$21,580 in excess of its required net capital of \$5,000. The Company's net capital ratio was approximately .11 to 1.

NOTE C – POSSESSION OR CONTROL REQUIREMENTS

The Company does not have any possession or control of customer's funds or securities. There were no material inadequacies in the procedures followed in adhering to the exemptive provisions of SEC Rule 15c-3-3(k)(1).

NOTE D – FAIR VALUE

The Company uses various methods including market, income, and cost approaches. Based on these approaches, the Company often utilizes certain assumptions that market

NOTE D – FAIR VALUE, continued

participants would use in pricing the asset or liability, including assumptions about risk and or the risks inherent in the inputs to the valuation technique. These inputs can be readily observable, market corroborated, or generally unobservable inputs. The Company utilizes valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs. Based on the observability of the inputs used in the valuation techniques, the Company is required to provide the following information according to the fair value hierarchy. The fair value hierarchy ranks the quality and reliability of the information used to determine fair values. Financial assets and liabilities carried at fair value will be classified and disclosed in one of the following three categories:

Level 1 – Valuations for assets and liabilities traded in active exchange markets, such as the New York Stock Exchange. Level 1 also includes money market funds and U.S. Treasury and federal agency securities and federal agency mortgage-backed securities, which are traded by dealers or brokers in active markets. Valuations are obtained from readily available pricing sources for market transactions involving identical assets or liabilities.

Level 2 – Valuations for assets and liabilities traded in less active dealer or broker markets. Valuations are obtained from third party pricing services for identical or similar assets or liabilities.

Level 3 – Valuations for assets and liabilities that are derived from other valuation methodologies, including option pricing models, discounted cash flow models and similar techniques, and not based on market exchange, dealer, or broker traded transactions. Level 3 valuations incorporate certain assumptions and projections in determining the fair value assigned to such assets or liabilities.

For the year ended December 31, 2022, the application of valuation techniques applied to similar assets and liabilities has been consistent. The fair value of all securities owned are deemed to be Level 1 and Level 2 investments at December 31, 2022, and during the period then ended.

The following table presents the assets and liabilities that are measured at fair value on a recurring basis by level within the fair value hierarchy as reported on the statement of financial condition at December 31, 2022. As required by FASB ASC Topic 820, financial assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement.
