HAMERSLEY PARTNERS, LLC
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2017

1. ORGANIZATION AND NATURE OF BUSINESS

Hamersley Partners LLC (the “Company”) was organized as a Limited Liability Company on October 2, 2003. The Company was granted membership in the Financial Industry Regulatory Authority (“FINRA”) on September 7, 2004. It is a registered broker-dealer with the Securities and Exchange Commission (“SEC”), and is a member of the Securities Investor Protection Corporation (“SIPC”).

The Company serves as a marketing and solicitation agent for investment managers and investment advisors. Investors usually consist of institutional investors, pension plans and other legal entities meeting the regulatory definition of Qualified or Accredited investors. The Company is subject to regulations of certain federal and state agencies, and undergoes periodic examinations by the Financial Industry Regulatory Authority.

Going concern

The Company incurred a net loss of \$7,264 for the year ended December 31, 2017. This loss was generated as a result of the end of a revenue stream attributed to one client and because during the year 2017 the firm’s sole principal spent the majority of his time resolving a temporary matter with FINRA rather than focused on revenue generating initiatives. Therefore, during 2017, the Company’s revenue and cash position were less than anticipated and posed the appearance of doubt about the Company’s ability to continue as a going concern. The FINRA matter has been resolved and the Company expects revenue and cash to rise significantly from current levels.

Recent Issued Accounting Pronouncements

The Company does not believe that the adoption of any recently issued, but not yet effective, accounting standards will have a material effect on its financial position and results of operations.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying financial statements have been prepared in conformity with U.S generally accepted accounting principles (“GAAP”) and the rules and regulations of the United States Securities and Exchange Commission (the “Commission”). It is management’s opinion, that all material adjustments (consisting of normal recurring adjustments) have been made which are necessary for a fair financial statement presentation.

Cash and cash equivalents

The Company considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents. Cash equivalents are carried at cost, which approximates market value.

Accounting basis

The Company uses the accrual basis of accounting for financial statement reporting. Accordingly revenues are recognized when services are rendered and expenses realized when the obligation is incurred.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosure of contingent assets, and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Income Taxes

The Company is a limited liability company, taxed as a partnership for federal income tax purposes, and, thus, no federal income tax expense has been recorded in the financial statements. Taxable income of the Company is passed through to the members and reported on their individual tax returns.

The federal and state income tax returns are subject to examination by the IRS and state taxing authorities, generally for three years after they were filed.

Revenue Recognition

The Company's revenues are from fixed retainer fees, and incentive fees which are a percentage of the fees earned by its investment manager clients which are based on Assets Under Management. Agreements with Asset Managers are multi-year contracts. The income is recognized as revenue in the respective months for which these fees relate.

Depreciation

The Company capitalizes major capital expenditures. Depreciation is based on straight line method over the following useful lives:

Computer and office equipment	3 years
Furniture and fixtures	7 years

Depreciation expense for the year ended December 31, 2017 was \$258.

Accounts Receivable

Accounts receivable is recorded at the amount the company expects to collect on balances outstanding at year-end. The members closely monitor outstanding balances and write off, as of year-end, all balances over a year old that have not been collected by the time the financial statements are issued.

Fair Values of Financial Instruments

Financial Accounting Standards Board Accounting Standards Codification ("ASC") 825, "Financial Instruments," requires the Company to disclose estimated fair values for its financial instruments. Fair value estimates, methods, and assumptions are set forth below for the Company's financial instruments: The carrying amount of cash, accounts receivable, prepaid expenses and accounts payable and accrued expenses, approximate fair value because of the short maturity of those instruments.

Concentrations of Credit Risk

The Company places its cash with a high credit quality financial institution. The Company's account at this institution is insured by the Federal Deposit Insurance Corporation ("FDIC") up to \$250,000. To reduce its risk associated with the failure of such financial institution, the Company evaluates at least annually the rating of the financial institution in which it holds deposits.

At December 31, 2017, the Company had net capital of \$21,743, which was \$16,743 in excess of the FINRA minimum net capital requirement of \$5,000.
