CONNING INVESTMENT PRODUCTS, INC
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2018

NOTE 1 – ORGANIZATION

Conning Investment Products, Inc. (the “Company”) is a securities broker-dealer registered with the Securities and Exchange Commission (“SEC”) under the Securities Exchange Act of 1934 and is a member of the Financial Industry Regulatory Authority, Inc. (“FINRA”). The Company serves as an introducing broker-dealer for the purpose of placing institutional investors and does not receive customer funds or securities during the course of its operations and is exempt from the calculation of a reserve requirement pursuant to Rule 15c3-3 subparagraph (k)(2)(i) under the Securities Exchange Act of 1934.

The Company also provides asset management services primarily for institutional clients that are located in Canada. The Company is registered as an investment adviser with the SEC pursuant to section 203(c)(2)(A) of the Investment Advisors Act of 1940 and is registered with the Ontario Securities Commission as an investment adviser under the provisions of the Securities Act (Ontario) in the category of investment counsel and portfolio management.

The Company is a wholly-owned subsidiary of Conning & Company (the “Parent”). The Parent is a wholly-owned subsidiary of Conning Holdings Corp. (“CHC”). CHC is a wholly owned subsidiary of Conning U.S. Holdings, Inc. (“CUSH”) and CUSH is a wholly owned subsidiary of Conning Holdings Limited (“CHL”), which is the ultimate parent of all Conning entities. CHL is a wholly owned subsidiary of Cathay Life Insurance Co., Ltd. (“Cathay Life”), a life insurance company based in Taipei, Taiwan, ROC. Cathay Life is a wholly owned subsidiary of Cathay Financial Holding Co., Ltd (“Cathay”), which is also based in Taipei, Taiwan, ROC. Cathay is the ultimate parent of the Company and is publicly traded on the Taiwan Stock Exchange.

NOTE 2 – SUMMARY OF ACCOUNTING POLICIES

The accompanying financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP). The significant accounting policies followed by the Company are summarized below.

Revenue Recognition – The Company adopted ASC 606, Revenue from Contracts with Customers, on January 1, 2018. There was no impact to the Company from adopting ASC 606.

The Company provides investment advisory services. The performance obligation for providing investment advisory services is satisfied over time since the customer is receiving and consuming the benefits of investment advisory services as they are provided by the Company. Fee arrangements for investment advisory services are based on a percentage applied to the customer’s assets under management and fees are accrued

into income in the period in which the service is provided. Sales and marketing fees are recognized when earned and performance obligations under the terms of placement or partnership agreements have been met.

Cash and Cash Equivalents – Cash and cash equivalents represent cash and highly liquid investments with original maturities of three months or less.

Concentration of Credit Risk – Financial instruments which potentially expose the Company to concentration of credit risk consist primarily of cash and cash equivalents held at a creditworthy financial institution. During the year, cash was in excess of the Federal Deposit Insurance Corporation insurance limit of \$250,000. The Company has not experienced any losses in such accounts and believes it is not exposed to any significant credit risk on cash.

Income Taxes – Income tax expense or benefit is based on income or loss reported in the financial statements. In accordance with FASB's income tax guidance (ASC 740), deferred federal and state income taxes are provided based on an asset and liability approach which requires the recognition of deferred income tax assets and liabilities for the expected future tax consequences of temporary differences between the financial statement carrying amounts and the tax basis of assets and liabilities. The future benefits of deferred tax assets are recognized when the realization of such benefits is more likely than not. The Company records a valuation allowance against the deferred income tax asset for that portion of the asset that may not be realized. As of December 31, 2018, the Company recorded a total valuation allowance of \$86,637 (Note 5).

The Company is a member of an affiliated group and files a consolidated federal income tax return and combined state and local income tax returns with CUSH. Under a tax allocation agreement, the separate return basis is utilized, whereby each member computes and pays its tax liability on a separate return basis. In computing their income tax liability on a separate return basis, member companies have the ability to recover taxes paid in a prior year or offset future taxable income to the extent net operating losses or other tax attributes that they generated are carried back or forward in any manner permitted under the Internal Revenue Code.

The Company has applied Accounting for Uncertainty in Income Taxes (ASC 740) which clarifies the accounting for income taxes by prescribing a minimum recognition threshold a tax position is required to meet before being recognized in the financial statements. ASC 740 also provides guidance on derecognition, measurement, classification, interest and penalties, accounting in interim periods, disclosure and transition. The impact of the provisions of ASC 740 is described in greater detail within the income taxes footnote (Note 5).

Use of Estimates – Management of the Company has made a number of estimates and assumptions relating to the reporting of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from these estimates.

NOTE 3 – VARIABLE INTEREST ENTITIES

The Company is a significant shareholder in two Variable Interest Entities, European Clean Energy Fund GP, Ltd and Clean Energy Partners, LLC, which are not consolidated because the Company is not considered to be the primary beneficiary.

European Clean Energy Fund GP Ltd (“ECEF GP”), a Cayman Islands limited liability company, is the general partner for the European Clean Energy Fund, L.P. (“ECEF”). The Company owns 25% and another unaffiliated shareholder owns 75% of ECEF GP. The Company continues to receive management fees for its role as a 25% shareholder of ECEF GP. The Company’s participation in ECEF GP began on January 31, 2013 when it replaced Clean Energy Partners, LLC as the GP of ECEF. The Company has no exposure to loss as a result of its involvement with ECEF GP as it has not committed capital to ECEF GP. The purpose of the Company’s participation in ECEF GP is to generate sales and marketing fees for the Company. The Company accounts for ECEF GP using the equity method of accounting. Total equity in earnings recognized by the Company for the year ended December 31, 2018 were \$31,262 and are reported as a component of sales and marketing fees.

Clean Energy Partners, LLC (“CEP”), a Cayman Islands limited liability company, is a Special Limited Partner of ECEF and the former general partner of ECEF up until January 31, 2013. The Company owns 25% of CEP and another unaffiliated shareholder owns 75%. CEP has been inactive since ECEF GP became the general partner of ECEF. The Company has no exposure to loss as a result of its involvement with CEP as it has not committed capital to CEP. As a 25% shareholder of CEP, the Company previously received management fees through January 31, 2013 and placement fees through 2010 for placing investors with ECEF, and carbon advisory services fees through 2009 for advising CEP on the monetization of carbon credits and renewable energy certificates. The Company’s participation in CEP began in the second quarter of 2006 until January 31, 2013 when ECEF GP became the general partner of ECEF. The Company accounts for CEP using the equity method of accounting. No equity in earnings was recognized by the Company for the year ended December 31, 2018.

NOTE 4 – RECEIVABLES

Sales and Marketing fees receivable for the year ended December 31, 2018 were \$20,352. The balance at December 31, 2018 consists of monthly rebates from Securis Fund I (“Securis”).

Asset management fees receivable for the year ended December 31, 2018 were \$66,846. These fees represent amounts due for asset management services.

An allowance for doubtful accounts for receivables would be established based on management’s judgment of the ultimate collectability of accounts receivable. For December 31, 2018, no allowances for doubtful accounts were necessary or recorded.

NOTE 5 – INCOME TAXES

The provision for federal and state income taxes for the year ended December 31, 2018 is as follows:

	<u>2018</u>
Current income tax benefit	
Federal	\$ (81,701)
State	3,616
Deferred income tax benefit	
Federal	47,320
State	6,119
Total income tax benefit	<u>\$ (24,646)</u>

The provision for federal income taxes incurred is different from that which could be obtained by applying the statutory federal income tax rate to income before taxes. The significant items causing this difference are as follows as of December 31, 2018:

	<u>2018</u>	<u>Effective Tax Rate</u>
Federal Tax Rate	\$ (39,481)	21.0%
State and Local Income Taxes	8,976	-4.8%
Valuation Allowance	37,097	-19.7%
Federal NOL Rate Differential	(31,238)	16.6%
Total	<u>\$ (24,646)</u>	<u>13.1%</u>

The Components of the net deferred tax assets as of December 31, 2018 are as follows:

	<u>2018</u>
Deferred tax assets:	
Federal net operating losses	\$ 44,580
State net operating losses	<u>51,651</u>
Gross deferred tax assets	96,231
Valuation allowance	<u>(86,637)</u>
Gross deferred tax assets	9,594
 Deferred tax liabilities:	
Partnerships	<u>9,594</u>
 Net deferred tax assets	 <u><u>\$ -</u></u>

The Company's deferred tax balances reflect Federal net operating losses of \$212,285 and state net operating losses of approximately \$871,747 as of December 31, 2018. Realization of the deferred tax asset is dependent upon the continued generation of sufficient taxable income prior to expiration of loss carryforwards.

The Company reviews all available evidence to evaluate the recovery of deferred tax assets; including the recent history of losses in all tax jurisdictions and the ability to generate taxable income in future periods. As of December 31, 2018, management believes that is more likely than not that the net carrying value of deferred tax assets will not be realized and has recorded an additional valuation allowance in 2018 of \$67,200 for a total of \$86,637, reflecting a full valuation allowance on its net deferred tax assets.

As of December 31, 2018, the total amount of unrecognized tax benefits, including interest and penalties was zero. The Company does not anticipate any significant changes with respect to unrecognized tax benefits within the next 12 months. The earliest federal tax year open for assessment by the Internal Revenue Service is 2016.
