LOGAN RESOURCES ACQUIRES MAY CREEK SILVER PROJECT

Vancouver – Wednesday, December 6, 2006 - Logan Resources Ltd. (TSXV:LGR) today announced that it has entered into an option agreement with Shawn Ryan of Dawson City, Yukon Territory (the "Agreement"), whereby the Company has been granted an option to acquire a 100% interest in a mineral property consisting of 84 mineral claims, known as the May Creek Project. It is located in the Mayo Mining District of the Yukon Territory, 45 km west-northwest of the community of Mayo. Access to the property is via bulldozer trail system, which connects the property to the highway linking the community of Mayo to Whitehorse.

The property was discovered in 1922. It was originally explored as a silver project although exploration over the years has identified multiple targets prospective for gold, copper, lead, zinc and silver. There is significant exposure of surface mineralization and trenching as well as numerous accounts of silver and gold assays from trenches and float over the entire property. The property has never been drilled. Logan Resources intends to conduct a thorough evaluation of the property during the 2007 exploration season and will verify existing showings and historical assays.

The May Creek property covers what is believed to be a precious metal system associated with a Tombstone Intrusion. Numerous geochemical surveys have been conducted on the property. The most recent extended the soil geochemical analysis and provided additional coverage of the trenches. The results of this work indicate a Skarn-type deposit with aureoles of gold, silver, copper, and zinc mineralization extending over numerous kilometers. Larry LeBel, P.Eng, has been engaged to author a NI 43-101 on the property. Mr. LeBel visited the property in September 2006 to conduct a preliminary assessment.

"We are pleased to add this prospective property to our growing portfolio of Canadian exploration projects. We originally acquired the property for its outstanding silver potential. However, our geological compilation has since identified the potential for a base metal environment in addition to the precious metals. We look forward to being the first company to drill the ground and uncover its potential," said Seamus Young, President and CEO.

Under the terms of the Agreement, in order to exercise the option the Company must pay the sum of \$225,000, issue 750,000 common shares and incur \$500,000 of exploration work on the property over a period of five years. The owner has retained a 2% net smelter return royalty, one-half of which may be purchased by the Company for the sum of \$1,000,000. The Company holds a right of first refusal on the balance of the royalty. The Agreement is subject to the acceptance of the TSX Venture Exchange.

Michael Hibbitts, P. Geo, Vice President Exploration is the Qualified Person for this property. Logan Resources Ltd. is a mineral exploration company that specializes in acquiring, exploring and advancing Canadian mineral properties. For more information on the property portfolio and the Company, please visit www.loganresources.ca, www.sedar.com and www.sec.gov websites.

LOGAN RESOURCES ANNOUNCES FLOW-THROUGH FINANCING WITH MINERALFIELDS

Vancouver – Monday, December 18, 2006 - Logan Resources Ltd. (the “Company”) (TSXV:LGR) is pleased to announce a private placement consisting of 1,250,000 flow-through units (“FT Units”) at a price of \$0.40 per FT Unit for proceeds of \$500,000. Each FT Unit consists of one common share in the capital of the Company and one-quarter of one share purchase warrant (a “Warrant”). Each whole Warrant is exercisable for 12 months at \$0.60 per share. The financing was arranged by the MineralFields Group.

The Company has agreed to pay a 4% finders fee, a 2% due diligence fee and issue 125,000 share purchase warrants exercisable for 12 months at \$0.60 per share as finders fees in connection with the private placement. The proceeds from the sale of the FT Units will be used to incur qualifying expenses on the Company’s Canadian mineral properties.

Logan Resources Ltd. is a mineral exploration company that specializes in acquiring, exploring and advancing Canadian mineral properties. For more information on the property portfolio and the Company, please visit www.loganresources.ca, www.sedar.com and www.sec.gov websites.

MineralFields Group (a division of Pathway Asset Management) is a Toronto-based mining fund with significant assets under administration that offers its tax-advantaged super flow-through limited partnerships to investors throughout Canada during most of the calendar year, as well as hard-dollar resource limited partnerships to investors throughout the world. Information about the MineralFields Group is available at www.mineralfields.com.

Monday November 20, 2006

LOGAN RESOURCES COMPLETES FLOW-THROUGH FINANCING

Vancouver – December 22, 2006 - Logan Resources Ltd. (the “Company”) (TSXV:LGR) today announced the completion of a private placement consisting of 1,270,000 flow-through units (“Units”) at a price of \$0.40 per Unit for proceeds of \$508,000. Each Unit consists of one flow-through common share in the capital of the Company and one-quarter of one share purchase warrant (a “Warrant”). Each whole Warrant entitles the holder to purchase one non-flow-through common share at \$0.60 per share for 12 months. The financing was arranged by the MineralFields Group.

The Company paid compensation in connection with the financing consisting of: a \$20,000 cash finders fee; a \$10,000 due diligence fee; and issued 125,000 warrants which entitle the holders to purchase one non-flow-through common share at \$0.60 per share for 12 months. The proceeds from the sale of the Units will be used to incur qualifying expenses on the Company’s Canadian mineral properties.

“We are pleased to be entering into this relationship with MineralFields Group and look forward to working with them as we develop our Canadian mineral properties,” said Seamus Young, President and CEO.
