## EXPLANATORY NOTE

This amendment is being filed for the purpose of correcting certain figures in the consolidated statements of operations and proforma statement of operations that were erroneously reported in the Form 10-QSB for the quarterly period ending June 30, 2006. In addition, corresponding corrections consistent with the changes in the financial statements have been made in Management's Discussion and Analysis or Plan of Operation (Item 2 of Part I).

The errors were a result of clerical errors in preparing the financial statements and were not detected by the certifying officers. In addition, review by certifying officers failed to detect the errors. The errors were limited primarily to the statement of operations for the three months ended June 30, 2006, and to the pro forma statement of operations, resulting in an understatement of the net loss for the three month period by \$577,642. The errors included incorrect amounts for certain expense, the failure to include one expense description and amount and the related subtotalling. There was one subtotal that was incorrect in the statement of operations for the nine months ended June 30, 2006; however the net loss for reported for that period is correct. There were also erroneous figures in the balance sheet and the statement of cash flows although the totals were shown correctly.

In addition, during further review of the financial statements, it was also concluded that the company erroneously recorded an expense related to stock option compensation. The amount of the (non-cash) charge was \$86,667 and was based on the vesting schedule included in the stock option plan in effect at the time. It was determined that the actual option agreement had not been documented. Thereafter, and subsequent to the end of the quarter ending June 30, 2006, at the company's annual meeting of shareholders, the shareholders approved an amendment to the existing stock option plan that included among other things a different vesting schedule. Accordingly, the amended stock option plan was implemented in November 2006 and was reflected correctly in the financial statements and related footnotes for the year ended September 30, 2006 included in the company's Annual Report on Form 10SB, as amended, for that period. Because the error was detected and corrected in the fourth quarter and because it was a non-cash charge and is considered not material, these amended financial statements do not reflect the change.

Finally, this amendment also corrects an error in the number of shares listed on the cover page herein, as issued and outstanding.

**TIMBERLINE RESOURCES CORPORATION**  
**CONDENSED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**June 30, 2006**

**NOTE 1 – BASIS OF PRESENTATION**

The foregoing unaudited interim financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions to Form 10-QSB and Regulation S-B as promulgated by the Securities and Exchange Commission (“SEC”). Accordingly, these financial statements do not include all of the disclosures required by generally accepted accounting principles in the United States of America for complete financial statements. These unaudited interim financial statements should be read in conjunction with the Company’s audited financial statements for the year ended September 30, 2005. In the opinion of management, the unaudited interim financial statements furnished herein include all adjustments, all of which are of a normal recurring nature, necessary for a fair statement of the results for the interim period presented. Operating results for the nine month period ended June 30, 2006 are not necessarily indicative of the results that may be expected for the year ending September 30, 2006.

The preparation of financial statements in accordance with generally accepted accounting principles in the United States of America requires the use of estimates and assumptions that affect the reported amounts of asset and liabilities, disclosure of contingent assets and liabilities known to exist as of the date the financial statements are published, and the reported amounts of revenues and expenses during the reporting period. Uncertainties with respect to such estimates and assumptions are inherent in the preparation of the Company’s financial statements; accordingly, it is possible that the actual results could differ from these estimates and assumptions and could have a material effect on the reported amounts of the Company’s financial position and results of operations.

**NOTE 2 – ORGANIZATION AND DESCRIPTION OF BUSINESS**

Timberline Resources Corporation (hereinafter “Timberline” or “the Company”) was incorporated in August of 1968 under the laws of the State of Idaho as Silver Crystal Mines, Inc., for the purpose of exploring for precious metal deposits and advancing them to production. Silver Crystal Mines operated and produced ore from the Silver Crystal (Ione) and Bear Top Mines in the Summit Mining District east of Murray, Idaho during the late 1960’s and into the 1980’s. During the 1990’s, the Company entered a period of dormancy, which lasted until the change of control in January 2004. Effective February 2004, the Company’s name was changed to Timberline Resources Corporation. The Company’s fiscal year-end is September 30.

On January 15, 2004, at the same time as the change in control, the Company entered a new exploration stage coinciding with the acquisition of new mining properties. Upon entering the new exploration stage, the Company did not continue owning or developing any properties it owned previously, nor has the Company re-acquired any previously owned properties.

During the first quarter of 2006, the Company completed the acquisition of Kettle Drilling Inc. (“Kettle”) and its subsidiary, World Wide Exploration S.A. de C.V. (“World Wide”) by paying the owners of Kettle the following: \$2.4 million in cash; entering into a loan agreement for \$400,000; issuing 100,000 shares of common stock at \$0.53 per share for a value of \$53,000 and issuing five million shares of preferred stock, at a deemed price of \$0.40 per share or \$2,000,000 which contained beneficial conversion features with a value of \$1,950,000. Timberline also agreed to issue 64,000 shares of common stock valued at \$50,560 for incentives tied to the completion of the acquisition. The total purchase price was \$6.85 million. Kettle Drilling is an operating company and thereby results in Timberline Resources Corporation being considered an operating company in terms of its consolidated financial reporting. Timberline plans to continue with the exploration of its mineral properties as a continuing business. See Notes 3, 12, and 15.

**NOTE 3 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

This summary of significant accounting policies is presented to assist in understanding the financial statements. The financial statements and notes are representations of the Company’s management, which is responsible for their integrity and objectivity. These accounting policies conform to accounting principles generally accepted in the United States of America and have been consistently applied in the preparation of the financial statements.

**TIMBERLINE RESOURCES CORPORATION**  
**CONDENSED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**June 30, 2006**

Going Concern

As shown in the accompanying financial statements, the Company has recurring losses from operations and has an accumulated deficit \$4,264,662. These factors indicate that the Company may be unable to continue in existence. The financial statements do not include any adjustments related to the recoverability and classification of recorded assets, or the amounts and classification of liabilities that might be necessary in the event the Company cannot continue in existence. Management plans to seek additional funding by means of a private placement of the Company's stock to carry out exploration and development of its acquired mineral properties and to exploit its newly acquired drilling activities.

Principles of Consolidation

The consolidated financial statements include the accounts of the Company and its wholly owned subsidiaries, after elimination of the intercompany accounts and transactions. Wholly owned subsidiaries of the Company are listed in Note 2.

Provision for Taxes

At June 30, 2006 and September 30, 2005, the Company had a deferred tax asset calculated at an expected rate of 34% of approximately \$1,397,000 and \$1,020,000, respectively, principally arising from net operating loss carryforwards for income tax purposes. As management of the Company cannot determine that it is more likely than not that the Company will realize the benefit of the deferred tax asset, a valuation allowance equal to the deferred tax asset has been recorded at June 30, 2006.

	<u>June 30,</u> <u>2006</u>	<u>September 30,</u> <u>2005</u>
<b>Net operating loss carryforwards</b>	\$ <u><u>4,110,000</u></u>	\$ <u><u>3,028,000</u></u>
<b>Deferred tax asset</b>	\$ <u><u>1,397,000</u></u>	\$ <u><u>1,020,000</u></u>
<b>Deferred tax asset valuation allowance</b>	\$ <u><u>(1,397,000)</u></u>	\$ <u><u>(1,020,000)</u></u>

At June 30, 2006, the Company has a net operating loss carryforward of approximately \$4,110,000, which will expire in the years September 30, 2006 through September 30, 2025. Not included in the calculation of deferred tax assets is approximately \$153,000 in stock options granted to officers that are not deductible for tax purposes.

The Tax Reform Act of 1986 substantially changed the rules relative to the use of net operating loss and general business credit carryforwards in the event of an "ownership change" of a corporation. Due to the change in ownership during January 2004, the Company is restricted in the future use of net operating loss and tax credit carryforwards generated before the ownership change. As of June 30, 2006, this limitation is applicable to accumulated net operating losses of approximately \$2,000,000, which were incurred prior to the change of ownership and would substantially limit the use of the Company's respective, existing losses. The change in the allowance account from September 30, 2005 to June 30, 2006 was \$377,000.

The above estimates are based upon management's decisions concerning certain elections which could change the relationship between net income and taxable income. Management decisions are made annually and could cause the estimates to vary significantly.

Revenue Recognition

Generally, the Company recognizes drilling service revenues as the drilling services are provided to the customer. In some cases, the customer is responsible for mobilization and "stand by" costs when the Company deploys its personnel and equipment to a specific drilling site, but for reasons beyond the Company's control, drilling activities are not able to take place. Usually, the specific terms of each drilling job are agreed to by the customer and the Company prior to the commencement of drilling. Revenues from leases are recognized when realized and earned according to the lease provisions and receipt of the lease payments. The Company will recognize revenue from the sales of its mining

**TIMBERLINE RESOURCES CORPORATION**  
**CONDENSED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**June 30, 2006**

properties at the time title is transferred.

Accounts Receivable

The Company's accounts receivable are not subject to discounts and are generally due within 15 to 20 days of invoicing. The Company records an allowance for doubtful accounts based on specifically identified amounts that the Company believes to be uncollectible and for those accounts that are past due beyond a certain date. If actual collections experience changes, revisions to the allowance may be required. If all attempts to collect a receivable fail, the receivable is written off against the allowance.

Inventories

The Company values inventories at the lower of average cost or market. Allowances are recorded for inventory considered to be in excess or obsolete. Inventories consist primarily of parts and supplies. At June 30, 2006, the Company did take physical counts of its supplies and parts inventories. The Company has estimated the value of its supplies and parts inventories based upon management's physical inventory records and available inventory cost information. In addition, management has reviewed the unit cost of its supplies and parts inventories to ensure that the costs are stated at the lower of cost or market value. At June 30, 2006, the Company had materials and supplies inventories of \$1,036,730.

Interim Financial Statements

The interim financial statements for the periods ended June 30, 2006 and 2005 included herein have not been audited, at the request of the Company. They reflect all adjustments, which are, in the opinion of management, necessary to present fairly the results of operations for the period. All such adjustments are normal recurring adjustments. The results of operations for the period presented is not necessarily indicative of the results to be expected for the full fiscal year.

**NOTE 4 – MINERAL PROPERTY INTERESTS**

Lincoln and Sanders County (with Sterling Mining Company)

On November 26, 2004, the Company signed a mineral property lease with Sterling Mining Company (as lessee) on four groups of unpatented lode mining claims (88 individual claims) located in Lincoln and Sanders County, Montana. Upon execution of the lease, the Company was paid cash of \$19,600 and Sterling Mining Corporation forgave loans totaling \$65,000 and related interest of \$2,669. In return, Sterling received the right to explore and mine the aforementioned claims through May 31, 2007. In addition, Sterling can renew the lease on an annual basis after 2007 by making annual lease payments of \$5,000 per claim group and paying a one percent (1%) net smelter return royalty on any production from the claims that are subject to the agreement. The Company is recognizing the \$87,269 of lease income over the period of the initial lease which expires on June 1, 2007. The Company has recognized for the nine months ended June 30, 2006, \$25,336 in lease income and the remaining balance is included in the financial statements as "deferred lease income".

Western Goldfields Inc.

The Company terminated its interest in the Western Goldfields lease agreement, which covered a group of unpatented lode mining claims adjacent to the Company's Snowstorm mineral rights holdings. The lease could potentially be renegotiated and reinstated in the future. The termination cancels the payment of 75,000 shares of the Company's common stock to Western Goldfields, which was scheduled to occur on April 1, 2006. Additional issuances of shares under the agreement due after April 1, 2006 were also cancelled in connection with the termination.

**NOTE 5 – PROPERTY AND EQUIPMENT**

Property and equipment are stated at cost. Depreciation is provided using the straight-line method over the estimated useful lives of the assets. The following is a summary of property, equipment, and accumulated depreciation:

**TIMBERLINE RESOURCES CORPORATION**  
**CONDENSED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**June 30, 2006**

	June 30,	September 30
	2006	2005
Equipment and vehicles	\$ 3,955,830	\$ 643
Leasehold improvements	132,634	-
Total property and equipment	4,088,464	643
Less accumulated depreciation	(207,309)	(186)
Property and equipment, net	\$ 3,881,155	\$ 457

Depreciation expense for the nine months ending June 30, 2006 and 2005 was \$208,314 and \$96, respectively. Maintenance and repairs are expensed as incurred.

**NOTE 6 – OBLIGATIONS UNDER LEASE**

The lease obligations as of June 30, 2006 were \$1,008,117. Future minimum lease payments at June 30, 2006, for the related obligations under capital leases were:

Year Ending June 30,	
2007	\$ 495,429
2008	334,351
2009	195,955
2010	91,283
Total minimum lease payments	1,117,018
Less amount representing interest	(108,901)
Present value of minimum lease payments	1,008,117
Less obligations due within one year	(439,900)
Obligations under capital leases, due after one year	\$ 568,217

**NOTE 7 – LONG-TERM DEBT – NOTES PAYABLE**

Long-term debt at June 30, 2006 consisted of the following:

Note payable to Allegiant Partners Incorporated,  
payable in monthly installments of \$7,097 at a rate of 21%. The note is  
collateralized by two pieces of large equipment. \$ 186,904

Notes payable to various lenders for vehicles and equipment, in monthly  
payments totaling \$48,308 per month, at rates ranging from 0.9% to 9.5%,  
with a weighted average interest rate of approximately 7%. The notes are  
collateralized by the vehicles and equipment that they represent. 1,409,051

Note payable to Brenda Kettle, a related party, payable in  
monthly installments of \$1,500. The note does not bear interest. See Note 8. 18,000

	1,613,955
Less current portion	(646,316)
	\$ 967,739

**TIMBERLINE RESOURCES CORPORATION**  
**CONDENSED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**June 30, 2006**

As of June 30, 2006, debt outstanding will mature as follows:

2007	\$ 646,316
2008	477,019
2009	360,315
2010	130,304
	<u>\$ 1,613,304</u>

**NOTE 8 – RELATED PARTY TRANSACTIONS**

The Company has entered into seven related party contracts with consultants for professional services, to be paid at customary hourly or daily rates, plus expenses. At June 30, 2006 \$2,380 was accrued to be paid to some of these related parties and is included on the financial statements under “accounts payable – related parties”.

The Company received a loan of \$125,000 from an officer of the Company, Mr. John Swallow, on August 24, 2005. On December 1, 2005, the Company entered into a loan agreement with Swallow Family, LLC, an entity owned by Mr. Swallow, the Company’s chairman, for the LLC to loan the Company \$100,000, repayable at 10% interest on an interest only basis. Monthly payments are \$833, beginning on January 1, 2006. The term of the loan is from December 1, 2005 to December 1, 2010. The loan is expected to be used to finance an exploration drilling program at the Snowstorm Project.

On March 1, 2006, the Company entered into an additional loan agreement with Mr. Swallow for a sum of \$400,000. The loan is repayable at 9% interest on an interest only basis and matures March 1, 2007. The loan was used to finance the purchase of Kettle Drilling. During the quarter ended June 30, 2006, the Company repaid \$98,654 of principal and \$10,346 of interest on this loan. The Company also entered into a short-term loan with Mr. Swallow for \$80,000 in April 2006 to assist with operating capital. This loan was repaid May 6, 2006.

Subsequent to the end of the quarter, Mr. Swallow transferred his loan of \$400,000 into a line of credit for the Company and the Company has agreed to take over payments directly to the financial institution rather than Mr. Swallow. The Company will continue to make monthly payments, based on the required payments of the line of credit.

The total outstanding balance owing to Mr. Swallow and Swallow Family LLC as of June 30, 2006 was \$526,344, including accrued interest.

During 2004, the Company’s subsidiary Kettle Drilling redeemed 98 shares of common stock for \$54,000 from Brenda Kettle, the wife of Mr. Doug Kettle, former president of Kettle. The redemption was recorded as a related party payable, with payment terms of \$1,500 per month. The note is not interest-bearing. See Note 8.

The Company periodically rents equipment from Hard Rock Drilling, Inc., a company owned by Doug Kettle. During the nine months ended June 30, 2006, there were no leases under this relationship.

In 2006, Kettle Drilling entered into loan agreements with its former officers, Messrs. David Deeds and Doug Kettle. These loans totaled \$75,000 and \$367,000, respectively. These loans bear interest of 10% and are due sixty days after origination and converted to being due on demand. During the quarter ended June 30, 2006, the Company accrued interest of 18,198.

As part of the acquisition of Kettle Drilling, Timberline issued to the aforementioned officers notes in the amounts of \$300,000 and \$100,000, respectively. These notes are due September 1, 2006. The outstanding balance as of June 30, 2006 to Mr. Kettle and Mr. Deeds was \$209,246 and \$3,082, respectively.

**TIMBERLINE RESOURCES CORPORATION**  
**CONDENSED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**June 30, 2006**

**NOTE 9 – CONVERTIBLE DEBT**

On August 24, 2005, the Company entered into a loan agreement with Swallow Family, LLC, an entity owned by Mr. John Swallow, the Company's chairman, for the LLC to loan the Company \$125,000, repayable at 10% interest on an interest only basis. Monthly payments are \$1,042, beginning on September 1, 2005. The term of the loan is from September 1, 2005 to September 1, 2008. The loan is convertible to shares of the Company's stock, at a price of \$0.25 per share or the market price of the stock when the loan is repaid, whichever is less. The loan has been used to finance an exploration drilling program at the Snowstorm Project. As of the note's origination and as of December 31, 2005, the note principal could be converted into 500,000 shares of common stock.

On December 1, 2005, the Company entered into a second loan agreement with Swallow Family, LLC, for the LLC to loan the Company \$100,000, repayable at 10% interest on an interest only basis. Monthly payments are \$833, beginning on January 1, 2006. The term of the loan is from December 1, 2006 to December 1, 2010. The loan is convertible to shares of the Company's stock, at a price of \$0.25 per share or the market price of the stock when the loan is repaid, whichever is less. The loan has been used to finance an exploration drilling program at the Snowstorm Project. As of the note's origination and as of December 31, 2005, the note principal could be converted into 400,000 shares of common stock.

The Company determined that the aforementioned convertible debt includes embedded derivatives which will be treated as stock purchase options and liabilities because of the underlying terms of the contracts.

Following EITF 00-19, "Accounting for Derivative Financial Instruments Indexed to, and Potentially Settled in, a Company's Own Stock," and SFAS No. 133, the Company has recognized an embedded derivative in the convertible debentures. For accounting and fair value purposes, the derivatives will be accounted for as stock options, following SFAS No. 123(R) for valuation purposes. The fair value of each derivative was estimated on the grant date using the Black-Scholes Option Price Calculation. The following assumptions were made in estimating fair value: risk-free interest rate of 5%; volatility of 18.3% and 75.72%; expected life of 3 years; no dividends to be paid. The initial fair value of the derivative embedded in the \$125,000 debt was \$102,690 and the initial fair value of the \$100,000 debt was \$113,120, which are being recognized in the liabilities section of the balance sheet as derivatives from convertible debt.

The excess of the fair value of the derivative related to the \$100,000 loan (a total of \$13,120) was immediately expensed in the current period. The convertible debt is discounted for the derivative and the discount is being amortized over the life of the loan using the effective interest method (for the September loan) and a modified effective interest method (for the December loan). This modified method is materially the same as the effective interest method. Amortization expense for the three months ended December 31, 2005 was \$15,365.

Under the guidance of SFAS No. 133 and EITF 00-19, all derivatives are restated to their fair value on each reporting date. To do so, the Company again values the convertible options using the Black-Scholes Option Price Calculation. Any change to the fair value of the derivatives is recognized on the income statement and recorded as other income or expense. At December 31, 2005, the Company recognized an increase in the fair value of the derivatives of \$23,765.

During the quarter ended March 31, 2006, the Company and Mr. Swallow agreed to remove the conversion feature of the debt. The result of this was to also eliminate the embedded derivative. The result on the financial statements at June 30, 2006 was to increase the notes payable to their full value (by removing the discount) and to reduce the derivative value to zero. The net change is recognized on the income statement as a change in fair value of derivatives.

**NOTE 10 – COMMON STOCK AND WARRANTS**

During the quarter ended March 31, 2006, the Company initiated a private placement of the Company's common stock. Under the private placement agreement, the Company can sell up to 8,000,000 shares of stock for a total of \$4,400,000. The stock was being sold in units, with each "unit" offered containing one share of common stock and one warrant to purchase ½ of a share of the Company's common stock (two warrants would be needed to purchase one share of common stock). The units were sold for \$0.55 per unit. The Company sold 6,193,090 units for a total of \$3,074,438, net of commissions of \$309,750.

**TIMBERLINE RESOURCES CORPORATION**  
**CONDENSED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**June 30, 2006**

Following the Statement of Financial Accounting Standards No. 123(R), "Accounting for Stock-Based Compensation", the Company made following assumptions in estimating fair value: risk-free interest rate of 5%; volatility of 75.72%; no dividends; and an expected life of 2 years. The value attributed to the warrants was \$523,547.

In connection with the acquisition of Kettle, the Company issued 100,000 shares of common stock in December 2005 to the officers of Kettle Drilling for an exclusive 75-day due diligence period. The shares were issued at \$0.53 per share, or \$53,000, and are included in the acquisition price of Kettle.

In connection with the acquisition of Kettle, the Company issued 64,000 shares of stock to employees of Kettle and as a finders fee to one individual. The shares were issued at \$0.79 per share, or \$50,560, and are included in the acquisition price of Kettle.

On March 5, 2006, the Company issued 500,000 shares of common stock for the exercise of warrants at a price of \$0.40 per share. The original securities were sold to a single investor in a non-brokered private placement. The Company realized net proceeds of \$200,000 from this transaction.

**NOTE 11 – STOCK OPTIONS**

In February 2004, the Company's board adopted the 2004 Non-Qualified Stock Grant and Option Plan in order to provide incentives to directors, employees and others rendering services to the Company. No options have been granted under this plan.

On February 6, 2005, the Company's board of directors approved the 2005 Stock Incentive Plan. The Plan authorizes the granting of up to 750,000 non-qualified stock options to officers, directors and consultants. At September 30, 2005, 412,500 options were granted to ten individuals at \$0.56 per share, with options vesting incrementally through December 31, 2005, and expiring in 5 years. At June 30, 2006, all options have vested.

The fair value of each option granted is estimated on the grant date using the Black-Scholes Option Price Calculation. The following assumptions were made in estimating fair value: risk-free interest rate of 5%; volatility of 18.3%; expected life of 5 years; dividend yield of 0.

There is no express termination date for the options, although the Board may vote to terminate the Plan. The exercise price of the options will be determined at the date of grant.

During the nine months ended June 30, 2006 the Company granted stock options to an employee of the Company as part of his employment agreement. See Note 14. The 500,000 options vest equally over a period of three years, beginning May 1, 2006. These options were granted under the 2005 Stock Incentive Plan. These options exceeded the original authorized shares under the plan by 162,000 shares; however, the Company is in the process of amending the plan to increase the number of shares. The vested portion of the shares is covered by the current authorized shares under the plan.

The fair value of the options granted was estimated on their grant date using the Black-Scholes Option Price Calculation. The following assumptions were made in estimating fair value: risk-free interest rate of 5%; volatility of 75.72%; expected life of 5 years. The options were valued at \$0.52 per share.

The following is a summary of the Company's options issued under the non-qualified 2005 Stock Incentive Plan:

**TIMBERLINE RESOURCES CORPORATION**  
**CONDENSED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**June 30, 2006**

	<u>Shares</u>	<u>Weighted Average Exercise Price</u>
Outstanding at October 1, 2004	-	\$ -

Weighted average period of nonvested stock options as of September 30, 2005		<u>16 months</u>

**NOTE 12 – PREFERRED STOCK AND BENEFICIAL CONVERSION**

In connection with the acquisition of Kettle Drilling, the Company issued 5,000,000 shares of convertible preferred stock for \$0.40 per share, or \$2,000,000. The shares are convertible into common stock at a rate of at least \$0.40 per share and are included in the acquisition price of Kettle.

The Company analyzed the transaction under EITF 00-27, “Application of Issue No. 98-5 to Certain Convertible Instruments,” and determined that it did not give rise to a derivative, specifically because there is no cash repayment option.

**TIMBERLINE RESOURCES CORPORATION**  
**CONDENSED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**June 30, 2006**

However, following EITF 00-27, "Application of Issue No. 98-5 to Certain Convertible Instruments," the Company determined that there was a beneficial conversion feature due to the fair market value on the date of issuance versus the deemed price of the shares within the acquisition agreement. The Company calculated the value of the beneficial conversion feature of the note and recorded the value as part of the acquisition price which was then allocated to goodwill upon consolidation. The beneficial conversion was valued and recorded at \$1,950,000, which is difference between the \$0.40 stated price per share in the agreement and the market value of the underlying common stock totaling \$0.79 per share.

**NOTE 13 – COMMITMENTS AND CONTINGENCIES**

Real Estate Lease Commitments

The Company has real estate lease commitments related to offices of Kettle Drilling in Coeur d'Alene, Idaho, a storage shop in Rathdrum, Idaho, and its operational facility in Winnemucca, Nevada.

Annual lease obligations until the termination of the leases are as follows:

2006	\$ 29,200
2007	\$ 15,400

Employment Agreement

On March 15, 2006, the Company entered into an employment agreement with Paul Dirksen, the vice president of exploration. The three year term of the agreement was effective May 1, 2006. Under the agreement, Mr. Dirksen will be paid \$162,000 annually with additional payments of health insurance and vehicle costs. As a signing bonus, the Company issued 50,000 shares of common stock valued at \$39,500. The Company also granted 500,000 options to purchase shares of common stock at \$0.75 per share. See Note 11.

**NOTE 14 – SEGMENT INFORMATION**

The Company adopted Statement of Financial Accounting Standards No. 131, "Disclosures about Segments of an Enterprise and Related Information," (hereinafter "SFAS No. 131") during the nine months ended June 30, 2006. SFAS No. 131 established standards for reporting information about operating segments in annual financial statements and requires selected information about operating segments in interim financial reports issued to stockholders. It also established standards for related disclosures about products and services and geographic areas. Operating segments are defined as components of an enterprise about which separate financial information is available, evaluated regularly by the chief operating decision makers, or a decision making group, in deciding how to allocate resources and in assessing performance. The Company has two operating segments at June 30, 2006: drilling revenues from Kettle Drilling and its subsidiary and Timberline's exploration activities.

Segment information (after intercompany eliminations) for the nine months ended June 30, 2006 are as follows:

**TIMBERLINE RESOURCES CORPORATION**  
**CONDENSED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**June 30, 2006**

	June 30, 2006	June 30, 2005
Revenues:		
Timberline	\$ -	\$ -
Kettle Drilling	<u>3,195,333</u>	<u>-</u>
Total Revenues	<u>\$ 3,195,333</u>	<u>\$ -</u>
Income (loss) before income taxes:		
Timberline	\$ (601,625)	\$ (311,921)
Kettle Drilling	<u>(549,553)</u>	<u>-</u>
Income (loss) before income taxes	<u>\$ (1,151,178)</u>	<u>\$ (311,921)</u>
Identifiable assets:		
Timberline	\$ 860,894	\$ 69,012
Kettle Drilling	<u>9,486,653</u>	<u>-</u>
Total Identifiable Assets	<u>\$ 10,347,547</u>	<u>\$ 69,012</u>
Depreciation and amortization:		
Timberline	\$ 399	\$ 64
Kettle Drilling	<u>208,100</u>	<u>-</u>
Total Depreciation and Amortization	<u>\$ 208,499</u>	<u>\$ 64</u>

Separate management of each segment is required because each business unit is subject to different marketing, production, and technology strategies.

Timberline is not generating revenues from the sales of its properties, but is actively exploring several properties for their mining potential. Kettle's revenues are derived from drilling contracts in North America.

**NOTE 15 – ACQUISITION OF KETTLE DRILLING**

On December 19, 2005, the Company signed a letter of intent ("LOI") to acquire Kettle Drilling, Inc. ("Kettle"), a privately held corporation. Under the terms of the LOI, the Company issued to Kettle 100,000 non-refundable shares of its common in exchange for a 75-day option within which to acquire an initial 60% stake in Kettle for \$2.8 million. At closing, the Company received an additional option to acquire the remaining 40% of Kettle for \$2 million over 2 years. Key management personnel at Kettle have agreed to stay on with the Company for a minimum of three years after the initial transaction closes.

On March 1, 2006, the Company acquired 100% of Kettle for \$2.4 million in cash; entering into a loan agreement for \$400,000; issuing 100,000 shares of common stock at \$0.53 per share for a value of \$53,000 and issuing five million shares of preferred stock, at a deemed price of \$0.40 per share or \$2,000,000 which contained beneficial conversion features with a value of \$1,950,000. Timberline also agreed to issue 64,000 shares of common stock valued at \$50,560 for incentives tied to the completion of the acquisition, for a total purchase price of \$6.85 million.

The Company acquired the following assets and liabilities from its acquisition of Kettle Drilling:

**TIMBERLINE RESOURCES CORPORATION**  
**CONDENSED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**June 30, 2006**

Accounts Receivable	\$	1,044,565

Notes Payable and Obligations Under Lease		<u>(1,536,134)</u>
Total Liabilities	\$	<u>(2,416,986)</u>
Net Assets Acquired	\$	<u>386,526</u>
Allocation of the purchase price and net assets acquired based on appraisals was as follows:		
Inventory	\$	741,179
Equipment		2,309,796
Goodwill		3,416,059
Net assets acquired		<u>386,526</u>
Total consideration paid for acquisition	\$	<u>6,853,560</u>

**NOTE 16 – SUBSEQUENT EVENTS**

Subsequent to the date of the financials, the Company paid commissions to four individuals for work performed during the Company's recent private placement. They received units of the placement totaling 179,000 units. The units were valued using the same terms of the private placement and were considered payable at May 19, 2006, the closing date of the placement. Their value, totaling \$103,950, is included as a cost of the placement in Note 10.

**TIMBERLINE RESOURCES CORPORATION**  
**NOTES TO PROFORMA FINANCIAL STATEMENTS**

On March 1, 2006, Timberline Resources Corporation (hereinafter “the Company” or “Timberline” effectively completed the acquisition of 100% of the net assets of Kettle Drilling, Inc. (hereinafter “Kettle”) in consideration of cash of \$2,400,000, 100,000 shares of common stock valued at \$53,000, 5,000,000 shares of preferred stock valued at \$2,000,000 containing beneficial conversion rights valued at \$1,950,000, and notes totaling \$400,000, to the selling shareholders pursuant to the agreement. Timberline will also issue 64,000 shares of common stock valued at \$50,560 for incentives tied to the completion of the acquisition.

The accompanying proforma financial statements contain adjustments to characterize the transactions of Kettle as those of Timberline for the periods presented. The Kettle statements of operations six months ended June 30, 2006 with Timberline’s nine months of operations ended June 30, 2006.

The weighted average number of common shares outstanding included both the common and preferred shares issued as if the preferred shares had been fully converted into stock on March 1, 2006. In the June 30, 2006 Proforma Statements of Operations, the activity for the month of March 2006 is removed, since it is included in both of the companies reporting periods. The March 2006 loss from Kettle’s operations was \$115,344.

## ITEM 2 - MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATION

### OVERVIEW

We commenced our exploration stage in January 2004 with the change in the control the Company, and, until our acquisition of Kettle Drilling, Inc. on March 6, 2006, we had not had any revenues and only losses since well before that time. Accordingly, a comparison of our financial information for accounting periods would likely not be meaningful or helpful in making an investment decision regarding our Company. Since the exploration business is essentially a research and development activity, our future business focus depends upon current results where future plans can change radically at any time. Accordingly, it would not be meaningful, and perhaps would be misleading, to make estimates of anticipated expenditures beyond the next 12 months.

Our plan of operations for the next twelve months is to complete initial exploration programs on our mineral properties and to acquire and initiate exploration on a number of additional mineral exploration properties. We anticipate that the exploration programs of our existing properties will cost at least \$284,515, and that the cost of the acquisition and exploration of new properties (including professional and geological fees) to be approximately \$275,000. In addition, we anticipate spending an additional \$1,858,945 in other fees and expenses over the next year including for our salaries and those of our wholly owned subsidiary, Kettle.

On March 6, 2006, we acquired Kettle Drilling, Inc. ("Kettle") as a wholly owned subsidiary. Kettle, formerly a closely-held company, provides drilling services to the mining and mineral exploration industries across North America and worldwide. Kettle recorded over \$5 million in revenues for 2005 and has been profitable every year since its inception in 1996. Kettle had revenues of over \$2,500,000 for the quarter ending June 30, 2006, which was an increase of approximately 50% over the quarter ending June 30, 2005. The revenues earned in the quarter ending June 30, 2006, were primarily derived from contracts entered into in 2005, and were governed by the Kettle 2005 price schedule. Renewal of those contracts, if that occurs, will be subject to price increases in the range of 30% to 70%. Included in the acquisition, are all of Kettle's assets and liabilities, such as existing contracts and account's receivable and payable. The purchase price was \$6,853,560 (comprised of a cash payment of \$2,400,000 and two promissory notes in the total principal amount of \$400,000 issued by the two Kettle principals, 164,000 shares of common stock, and 5,000,000 shares of convertible preferred stock (the "Acquisition")). The table below represents our estimate of anticipated expenditures over the next 12 months including those of our subsidiary, Kettle.

<b>Anticipated Expenditure Over the Next 12 Months</b>	<b>Amount</b>
Anticipated Acquisition and Exploration Costs (including professional and geological fees)	275,000
Exploration Activity (Downeyville Property)	62,750
Exploration Activity (Spencer Property)	8,140
Exploration Activity (Sanger Property)	13,625
Exploration Activity (Snowstorm Property)	25,000
Initiate Exploration Activity (Long Canyon—newly acquired)	70,000
Initiate Exploration Activity (East Camp Douglas—newly acquired)	105,000
Salaries and Wages (including those of Kettle Drilling, Inc., our wholly owned subsidiary)	1,310,000
Travel Expenses	50,000
Other Administrative Expenses (including interest on loans)	100,000
Interest Expense (including that of Kettle Drilling, Inc.)	398,945
<b>Total</b>	<b>\$ 2,418,460</b>

During the quarter ending June 30, 2006, we raised \$1,011,838 from the sale of 1,839,706 units of our securities in completing our “best efforts” private placement to accredited investors only. Each unit is comprised of one share of common stock and one-half of a warrant; two warrants permit the purchase of an additional share of common stock at \$1.00 per share. Virtually all of the proceeds from these transactions will be used for working capital.

We believe that we have sufficient capital along with anticipated revenues from our drilling subsidiary to fund our anticipated expenditures over the next 12 months. However, if we do not, may also seek to obtain short-term loans from our directors or principal shareholders and/or raise additional capital from the sale of our securities (including the exercise of our outstanding warrants). At this time, we cannot provide investors with any assurance that we will be able to raise sufficient funding from the sale of our securities (through the exercise of warrants or otherwise) or through loans from our directors or principal shareholders to meet our obligations over the next twelve months. Regarding our exploration activities, if we are unable to raise sufficient additional funding through equity financing and/or loans, we will next attempt to obtain joint venture partners on a project by project basis to help lessen the expenses involved on each project (which would correspondingly reduce our portion of any revenues that may result if a property is successfully developed, of which there can be no assurance.) If we are unsuccessful with that approach, we will attempt to renegotiate the underlying agreements on all or some of the properties to lower the obligations and allow us to maintain the properties. These factors raise substantial doubt that the Company will be able to continue as a going concern. To the extent management’s plans are unsuccessful in overcoming the going concern uncertainty; the Company will cease all operations and no longer continue as a going concern.

### **Results of Operations for Years Ending September 30, 2004 and 2005**

We did not earn any revenues during the years ending September 30, 2004 and 2005. We do not anticipate earning revenues from exploration activities until such time, if at all, that we have successful exploration results. Since our acquisition of Kettle on March 6, 2006, we have derived de minimus income from its drilling activities as our wholly owned subsidiary. We are presently in the exploration stage of our mining exploration business. We can provide no assurance that we will discover economic mineralization levels of minerals, or if such minerals are discovered, that we will enter into commercial production.

We incurred operating expenses in the amount of \$515,344 for the fiscal year ended September 30, 2004, and \$552,424 for the year ended September 30, 2005.

Our net loss increased from \$1,505 in fiscal 2003 to \$517,266 in fiscal 2004 primarily due to a general increase in company activity since the takeover of the new management team and commencement of our exploration stage both in January 2004.

Our net loss increased from \$517,266 during the year ended September 30, 2004 to \$523,246 during the year ended September 30, 2005 primarily due to increased mineral exploration expenses, but was offset by lease income from one of our properties. Mining and exploration expenses increased from \$364,320 to \$389,321 and our general and administrative expenses increased from \$151,024 to \$163,103. These increases are due mainly to general increases in individual costs and increased exploration activity.

Prior to our acquisition of Kettle Drilling, Inc. on March 6, 2006, we had not attained profitable operations and were dependent upon obtaining financing to pursue exploration activities. For these reasons, our auditors stated in their report at September 30, 2005 (the end of our last fiscal year) that they had substantial doubt that we would be able to continue as a going concern.

At September 30, 2005, we had assets of \$174,727 consisting of cash in the amount of \$174,270, and other assets of \$457.

## **Results of Operations for Three Month and Nine Month Periods Ending June 30, 2005 and June 30, 2006.**

We have begun to have revenues due to and since our March 6, 2006 acquisition of Kettle. Prior to that we did not have revenues and only had losses. We are presently in the exploration stage of our mining exploration business. We can provide no assurance that we will discover economic mineralization levels of minerals, or if such minerals are discovered, that we will enter into commercial production.

We incurred operating expenses in the amount of \$199,111 for the three months ended June 30, 2005, and \$1,810,341 for the three months ended June 30, 2006. We incurred operating expenses in the amount of \$398,443 for the nine months ended June 30, 2005, and \$2,502,777 for the nine months ended June 30, 2006

Our net loss increased from \$199,111 for three months ended June 30, 2005 to \$780,229 for the three months ended June 30, 2006 primarily due to a general increase in general expenses including legal and accounting expenses and expenses related to the acquisition and operation of Kettle. Our general and administrative expenses increased from \$199,111 to \$1,810,341. These increases are due mainly to the operation of Kettle.

Our net loss increased from \$311,921 for nine months ended June 30, 2005 to \$1,151,178 for the nine months ended June 30, 2006 primarily due to a general increase in general expenses including legal and accounting expenses and expenses related to the acquisition and operation of Kettle. Mining and exploration expenses increased from \$225,586 to \$301,792 and our general and administrative expenses increased from \$172,857 to \$2,200,985. These increases are due primarily to the operation of Kettle Drilling, Inc. and secondarily to increased exploration activity.

At June 30, 2006, we had current assets of \$3,002,307 including cash in the amount of \$887,499, inventory of \$1,036,730 and account receivables of \$989,120. We had other assets totaling \$7,345,240 consisting of property and equipment of \$3,881,155, deposits of \$48,026 and goodwill of \$3,464,085.

We believe that, with the March 6, 2006, acquisition of Kettle Drilling, Inc., within the foreseeable future we will obtain profitable operations, and are no longer dependent upon obtaining financing to pursue exploration activities.

### **Off Balance Sheet Arrangements**

We do not have any off balance sheet arrangements that are reasonably likely to have a current or future effect on our financial condition, revenues, results of operations, liquidity or capital expenditures.

### **ITEM 3. CONTROLS AND PROCEDURES**

An evaluation was performed by the Company's Chief Executive Officer and Chief Financial Officer of the effectiveness of the design and operation of our disclosure controls and procedures. And on that evaluation, the Company has concluded that disclosure controls and procedures were effective as of December 31, 2005, in ensuring that all material information required to be filed in this quarterly report has been made known to them in a timely fashion.

There has been no change in our internal controls over financial reporting during the quarter ended June 30, 2006 that has materially affect or is reasonable likely to materially affect, our internal controls over financial reporting.

Since the filing of the original Form 10QSB for the quarter ended June 30, 2006, on August 22, 2006 and the filing of this amendment, the Company has appointed both a new Chief Financial Officer and new independent accountants of the Company. Both of these appointments preceded the discovery of the errors in the financial statements contained in the Form 10QSB for the quarter ended June 30, 2006, that are corrected in this amendment. The current certifying officers have reviewed and reconsidered the financial reporting procedures and controls of the Company and concluded that there are material weaknesses that still exist and existed as of the end of the fiscal year ended September 30, 2006. Those conclusions have been reported to the board of directors and mitigating steps are being taken to ensure the accuracy of current reporting and to correct the material weaknesses in the financial reporting and disclosure controls and procedures

## **PART II - OTHER INFORMATION**

### **ITEM 1. LEGAL PROCEEDINGS**

None

### **ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS**

The Registrant did not have any unregistered sales of equity securities during the quarter ended June 30, 2006, other than those reported in its Current Report on form 8K filed on May 23, 2006

### **ITEM 3. DEFAULT UPON SENIOR SECURITIES**

None

### **ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS**

None

## INDEX TO ATTACHED EXHIBITS

Exhibit 31.1 - Certification Chief Executive Officer required by Rule 13a-14(a) or Rule 15d-14(a), Swallow

Exhibit 31.2 - Certification Principal Financial Officer required by Rule 13a-14(a) or Rule 15d-14(a), Wilson

Exhibit 32.1 - Certification Required by Rule 13a-14(b) or Rule 15d-14(b) and section 906 of the Sarbanes-Oxley Act of 2002, 18 U.S.C. Section 1350, Swallow

Exhibit 32.2 - Certification Required by Rule 13a-14(b) or Rule 15d-14(b) and section 906 of the Sarbanes-Oxley Act of 2002, 18 U.S.C. Section 1350, Wilson

CERTIFICATION

I, John Swallow, certify that:

1. I have reviewed this amended quarterly report on Form 10-QSB of Timberline Resources Corporation;

2. Based on my knowledge, this report does not contain any untrue statements of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;

3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;

4. The small business issuer's other certifying officers and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) for the small business issuer and have:

(a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the small business issuer, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;

(b) Evaluated the effectiveness of the small business issuer's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and

(c) Disclosed in this report any change in the small business issuer's internal control over financial reporting that occurred during the small business issuer's most recent fiscal quarter (the small business issuer's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonable likely to materially affect, the small business issuer's internal control over financial reporting; and

5. The small business issuer's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the small business issuer's auditors and the audit committee of the small business issuer's board of directors (or persons performing the equivalent functions):

(a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the small business issuer's ability to record, process, summarize and report financial information; and

(b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the small business issuer's internal control over financial reporting.

Date: February 7, 2007.
