INTRODUCTORY NOTE TO FORM 10-Q/A

This amendment number one on Form 10-Q/A (this “Amendment”) amends the Company’s Quarterly Report on Form 10-Q for the quarter ended December 31, 2008, as filed with the Securities and Exchange Commission (the “SEC”) on February 17, 2009 (the “Original Report”) and is being made to clarify certain information and disclosures as follows:

- **Item 1 – Financial Information** – We clarified and expanded our disclosure in (a) Note 4 regarding our Bridge Loan Financing, (b) Note 5 regarding our Long Term Debt, and (c) Note 8 regarding our Stock Options.
- **Item 2 – Management’s Discussion and Analysis of Financial Condition and Results of Operations** – We clarified and expanded our disclosure on our working capital position and our revenue recognition policy in this Item 2.
- **Item 4 – Controls and Procedures** – We clarified our disclosure on Changes in Internal Control Over Financial Reporting.
- **Officer Certifications** – We corrected an inadvertent error in our Officer Certifications filed pursuant to Rule 13a-14 of the Exchange Act.

Aside from the foregoing clarifications, this Amendment has not been amended or updated for events or information subsequent to the date of filing of the Original Report. Accordingly, this Amendment should be read in conjunction with the Company’s other filings made with the SEC.

The Company anticipates that the costs stemming from this Amendment will not have a material effect on the Company. No adjustments are necessary for financial statements for periods subsequent to December 31, 2008. The filing of this Amendment shall not be deemed an admission that the Original Report, when made, included any known, untrue statement of material fact or knowingly omitted to state a material fact necessary to make a statement not misleading.

For financial statements and a discussion of events and developments subsequent to December 31, 2008, see the Company’s subsequent filings made with the SEC.

INDEX

PART I - FINANCIAL INFORMATION

Item 1.	Consolidated Financial Statements (Unaudited).	
	Consolidated Balance Sheets for the three months ended December 31, 2008 and the year ended September 30, 2008	6
	Consolidated Statements of Operations for the three months ended December 31, 2008 and 2007	7
	Consolidated Statements of Cash Flows for the three months ended December 31, 2008 and 2007	8
	Notes to Consolidated Financial Statements	9
Item 2.	Management's Discussion and Analysis of Financial Condition and Results of Operations.	19
Item 3.	Quantitative and Qualitative Disclosures About Market Risk.	24
Item 4.	Controls and Procedures.	24

Timberline Resources Corporation and Subsidiaries

Notes to Consolidated Financial Statements

NOTE 1 – ORGANIZATION AND DESCRIPTION OF BUSINESS:

Timberline Resources Corporation (“Timberline” or “the Company”) was incorporated in August of 1968 under the laws of the state of Idaho as Silver Crystal Mines, Inc., for the purpose of exploring for precious metal deposits and advancing them to production.

During the first quarter of 2006, the Company acquired Kettle Drilling, Inc. (“Kettle Drilling” or “Kettle”) and its Mexican subsidiary, World Wide Exploration S.A. de C.V. (“World Wide”). Kettle provides drilling services to the mining and mineral exploration industries across North America and worldwide. In September 2008, Kettle Drilling, Inc. changed its name to Timberline Drilling Incorporated (“Timberline Drilling”).

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

- a. *Basis of presentation* – The accompanying unaudited consolidated financial statements have been prepared by the Company in accordance with accounting principles generally accepted in the United States of America for interim financial information, as well as the instructions to Form 10-Q. Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States of America for complete financial statements. In the opinion of the Company’s management, all adjustments (consisting of only normal recurring accruals) considered necessary for a fair presentation of the interim financial statements have been included. Operating results for the three month period ended December 31, 2008 are not necessarily indicative of the results that may be expected for the full year ending September 30, 2009.

For further information refer to the financial statements and footnotes thereto in the Company’s Annual Report on Form 10-KSB for the year ended September 30, 2008.

- b. *Exploration Expenditures* – All exploration expenditures are expensed as incurred. Significant property acquisition payments for active exploration properties are capitalized. If no mineable ore body is discovered, previously capitalized costs are expensed in the period the property is abandoned.
- c. *Estimates and assumptions* – The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires the use of estimates and assumptions that affect the reported amounts of assets and liabilities at the dates of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from these estimates and assumptions and could have a material effect on the Company’s reported financial position and results of operations.
- d. *Intangible Assets* – Intangible assets, including employment contracts and customer drilling contracts, arose from the acquisition of Kettle Drilling in 2006 and are stated at estimated fair value at the date of acquisition. Amortization of employment contracts was initially calculated on a straight-line basis over a useful life of three years. Amortization of the drilling contracts was calculated on a straight-line basis over the life of the contracts (typically one year or less). The value of intangible assets is periodically tested for impairment. At December 31, 2008 all intangible assets (excluding goodwill) were fully amortized.
- e. *Accounts Receivable* – Accounts receivable are carried at original invoice amount less an estimate for doubtful accounts. Management determines the allowance for doubtful accounts by regularly evaluating individual customer receivables and considering a customer’s financial condition, credit history, and current economic conditions. Trade receivables are written off when deemed uncollectible. Recoveries of receivables previously written off are recorded as income when received. The allowance for doubtful accounts was \$250,740 and \$150,740 at December 31, 2008 and September 30, 2008, respectively.

Timberline Resources Corporation and Subsidiaries

Notes to Consolidated Financial Statements

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, (continued):

- f. *Materials and supplies inventory* — The Company values its materials and supplies inventory at the lower of average cost or market. Allowances are recorded for inventory considered to be in excess or obsolete. Inventories consist primarily of parts, operating supplies, drill rods and drill bits.
- g. *Reclassifications* – Certain amounts in the prior period financial statements have been reclassified for comparative purposes to conform to current period presentation with no effect on previously reported net loss.
- h. *Provision for Taxes* – Income taxes are provided based upon the liability method of accounting pursuant to Statement of Financial Accounting Standards No. 109, “Accounting for Income Taxes” (hereafter “SFAS No. 109”). Under this approach, deferred income taxes are recorded to reflect the tax consequences in future years of differences between the tax basis of assets and liabilities and their financial reporting amounts at each year-end. A valuation allowance is recorded against the deferred tax asset if management believes it is more likely than not that some portion or all of the deferred tax assets will not be realized (See Note 6).
- i. *Stock-based compensation* – The Company accounts for its stock based compensation in accordance with Statement of Financial Accounting Standards No. 123 (revised 2004), *Share-based Payment* (“SFAS 123(R)”).

Under SFAS 123(R), the Company is required to select a valuation technique or option-pricing model that meets the criteria as stated in the standard. At present, the Company is continuing to use the Black-Scholes model, which requires the input of some subjective assumptions. These assumptions include estimating the length of time employees will retain their vested stock options before exercising them (“expected life”), the estimated volatility of the Company’s common stock price over the expected term (“volatility”), employee forfeiture rate, the risk-free interest rate and the dividend yield. Changes in the subjective assumptions can materially affect the estimate of fair value of stock-based compensation.

- j. *Net loss per share* – Basic EPS is computed as net income (loss) divided by the weighted average number of common shares outstanding for the period. Diluted EPS reflects the potential dilution that could occur from common shares issuable through stock options, warrants, and other convertible securities.

The dilutive effect of convertible and exercisable securities, in periods of future income as of December 31, 2008 and 2007, is as follows:

	December 31, 2008	December 31, 2007
Stock options	6,455,835	3,020,001
Warrants	1,337,934	3,223,649
Convertible debt	3,333,333	-
Convertible preferred stock	-	4,700,000
Total possible dilution	11,127,102	10,943,650

At December 31, 2008 and 2007, the effect of the Company’s outstanding options and common stock equivalents would have been anti-dilutive.

Timberline Resources Corporation and Subsidiaries

Notes to Consolidated Financial Statements

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, (continued):

- k. *New accounting pronouncements* – In September 2006, the Financial Accounting Standards Board (FASB) issued SFAS No. 157, *Fair Value Measurements*, (SFAS 157). SFAS 157 establishes a framework for measuring fair value and expands disclosure about fair value measurements, but does not require any new fair value measurements. The adoption of SFAS 157 on October 1, 2008 did not have a material effect on the Company's consolidated financial statements.

The FASB issued Statement No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities – Including an Amendment of FASB Statement No. 115*, in the first quarter 2007. The statement allows entities to value financial instruments and certain other items at fair value. The statement provides guidance over the election of the fair value option, including the timing of the election and specific items eligible for the fair value accounting. Changes in fair values would be recorded in earnings. The adoption of this statement on October 1, 2008 did not have a material effect on the Company's consolidated financial statements.

In December 2007, the FASB issued SFAS No. 141R “*Business Combinations*” effective for fiscal years beginning after December 15, 2008. SFAS 141R, which will replace FAS 141, is applicable to business combinations consummated after the effective date of December 15, 2008.

In December 2007, the FASB also issued SFAS No. 160, “Non-controlling Interests in Consolidated Financial Statements, an amendment of ARB 51”. SFAS No. 160 will change the accounting and reporting for minority interests, which will be re-characterized as non-controlling interests and classified as a component of equity. SFAS No. 160 requires retroactive adoption of the presentation and disclosure requirements for existing minority interests. SFAS No. 160 is effective for fiscal years beginning on or after December 15, 2008 and interim periods within those fiscal years. The adoption of this statement is not expected to have a material effect on the Company's future reported financial position or results of operations.

In March 2008, the FASB issued SFAS 161 “Disclosures about Derivative Instruments and Hedging Activities – an amendment of SFAS 133. This Statement requires enhanced disclosures about an entity's derivative and hedging activities and thereby improves the transparency of financial reporting. This Statement is effective for financial statements issued for fiscal years and interim periods beginning after November 15, 2008, with early application encouraged. This Statement encourages, but does not require, comparative disclosures for earlier periods at initial adoption. The adoption of this statement is not expected to have a material effect on the Company's future reported financial position or results of operations.

NOTE 3 – RELATED PARTY TRANSACTIONS:

On March 10, 2008, the Company entered into an agreement with Douglas Kettle and David and Margaret Deeds providing for severance arrangements relating to the resignation of Messrs. Kettle and Deeds, the President and CEO, respectively, of Timberline Drilling.

Messrs. Kettle and Deeds resigned from Timberline Drilling on May 15, 2008. In connection with the resignations, the Company paid each of Mr. Kettle and Mr. Deeds a cash severance amount of \$600,000 at the time of their resignation, as well as the balance of their 2007 bonuses (\$135,822 each) and paid additional cash severance of \$300,000 in \$25,000 installments from July through November 2008 and a \$175,000 payment in December 2008.

Timberline Resources Corporation and Subsidiaries

Notes to Consolidated Financial Statements

NOTE 3 – RELATED PARTY TRANSACTIONS, (continued):

Additionally, the Company also transferred certain personal property to Mr. Kettle and Mr. Deeds. The Company has not paid the severance amounts due per the agreement as of December 31, 2008 pending ongoing negotiations between the Company and its former management at the Kettle Drilling subsidiary.

On October 31, 2008, Timberline Resources Corporation (the “Company”) entered into two convertible notes (see Notes 5 and 7); one with Ronald Guill, a director of the Company, and his wife, Stacey Guill, and the other with Small Mine Development, LLC (“SMD”), an Idaho limited liability company owned by Mr. Guill. The Company used the proceeds of the notes to pay off the \$8.0 million bridge loan previously provided to the Company by Auramet Trading, LLC (“Auramet”) (See Note 4) and for general working capital purposes.

NOTE 4 – BRIDGE LOAN FINANCING:

On June 24, 2008, the Company entered into a bridge loan financing arrangement for \$8,000,000 with Auramet Trading, LLC (“Auramet”) under which the Company could draw funds at any time before June 30, 2008. On June 27, 2008 the Company withdrew \$8,000,000, net of a fee equal to 4% of the principal amount of the loan, to repurchase the Company’s outstanding Series A Preferred Shares.

The loan incurred interest at 12% per annum, with interest payable monthly in arrears commencing August 1, 2008, and the principal amount outstanding was due October 31, 2008. On October 31, 2008 the bridge loan principal amount was repaid in full.

Pursuant to the loan’s terms, the Company also issued 160,000 shares of the Company’s common stock to Auramet after the Company’s drawdown of the loan on June 27, 2008. The fair market value of the 160,000 common shares (\$484,800) was recorded on the balance sheet in common stock, additional paid-in capital and deferred financing cost, net. The deferred financing costs were ratably charged to interest expense over the term of the loan. In addition, Auramet received a written put option for the 160,000 shares of common stock issued. Ninety days from the maturity date of the bridge loan, on January 29, 2009, Auramet has a onetime option to put some or all of the 160,000 common shares back to the Company at a redemption price of \$2.00 per share.

Subsequent to December 31, 2008, Auramet indicated its intention to exercise the put option and return the shares to the Company. The Company and Auramet agreed that the Company would issue an additional 535,652 shares of common stock valued at \$0.46 per share to Auramet rather than settle the option with a cash payment. As a result of this transaction, a liability of \$246,400 for this put option has been recognized by the Company and the change in fair value of the option was recorded as interest expense during the quarter.

NOTE 5 – LONG TERM DEBT:

On October 31, 2008, the Company entered into a series of agreements with SMD in connection with a \$5 million loan from SMD. The loan documents included: a convertible note (the “Convertible Term Note”), a credit agreement (the “Credit Agreement”), a collateral assignment and pledge of stock and security agreement (the “Pledge Agreement”), a security agreement (the “Security Agreement”) and a right of first refusal over the Company’s Butte Highlands property (the “Right of First Refusal”).

The Convertible Term Note has a principal amount of \$5.0 million and is secured pursuant to the Security Agreement by a pledge of all of the stock of Timberline Drilling, Inc. (“TDI”), a wholly-owned Company subsidiary incorporated in Idaho, pursuant to the Pledge Agreement, and a deed of trust to be entered into covering the Company’s Butte Highlands property in Silver Bow county, Montana (the “Butte Highlands Property”).

Timberline Resources Corporation and Subsidiaries

Notes to Consolidated Financial Statements

NOTE 5 – LONG TERM DEBT, (continued):

Pursuant to the terms of the Credit Agreement, the Convertible Term Note bears interest at 10% annually, compounded monthly, with interest due at maturity. The Convertible Term Note is convertible by SMD at any time prior to payment of the note in full, at a conversion price of \$1.50 per share. Should the Company issue any form of equity security other than the Company's common stock, SMD may also convert all or any portion of the outstanding amount under the Convertible Term Note into the new form of equity security at the issuance price of the new form of equity security. Management analyzed the conversion features contained in this note considering EITF No. 00-27 "Application of Issue No. 98-5 to Certain Convertible Instruments", EITF 00-19 "Accounting for Derivative Financial Instruments Indexed to, and Potentially Settled in, a Company's Own Stock," EITF No. 98-5, "Accounting for Convertible Securities with Beneficial Conversion Features or Contingently Adjustable Conversion Ratios", and APB 14, "Accounting for Convertible Debt and Debt Issued with Stock Purchase Warrants." Management's conclusion was that these convertible features are conventional convertible instruments and thus would qualify for equity classification under EITF 00-19. As conventional convertible instruments, the embedded conversion options qualify for the scope exception under FAS 133, and therefore would not be bifurcated from the host instrument.

Under the Right of First Refusal, the Company granted SMD a right of first refusal to purchase the Butte Highlands Property on the same terms as those of any bona fide offer from a third-party upon 60 days' notice from the Company of any such offer. In addition, the Company granted SMD a right to develop the Butte Highlands Property on the same terms as those of any bona fide offer to develop the property from a third-party upon 60 days' notice from the Company of any such offer.

NOTE 6 – INCOME TAXES:

Income (loss) from continuing operations before income taxes for the three months ended December 31, 2008 and 2007 are as follows:

	2008	2007
Current:		
Domestic	\$ (4,697,729)	\$ (2,004,292)
Foreign	114,127	10,597
	<u>\$ (4,583,602)</u>	<u>\$ (1,993,695)</u>

Significant components of income tax expense as of December 31, 2008 and 2007 are as follows:

	2008	2007
Current:		
Federal	\$ -	\$ -
State	-	-
Foreign	34,802	-
Total current income tax expense	<u>34,802</u>	<u>-</u>
Deferred:		
Federal	-	-
State	-	-
Foreign	-	-
Total deferred income tax expense	<u>-</u>	<u>-</u>
Total income tax expense	<u>\$ 34,802</u>	<u>\$ -</u>

Timberline Resources Corporation and Subsidiaries

Notes to Consolidated Financial Statements

NOTE 6 – INCOME TAXES, (continued):

	2008	2007
Statutory Federal income tax rate	34%	34%
Expected income tax expense (benefit) based on statutory rate	\$ (1,597,228)	\$ (677,856)
Non-recognition of tax benefits related to losses	1,597,228	677,856
Foreign tax expense	34,802	-
Total income tax expense	<u>\$ 34,802</u>	<u>\$ -</u>

NOTE 7 – COMMON STOCK AND WARRANTS:

During September, 2007, the Company initiated a private placement of the Company's restricted common stock. Under the private placement subscription agreement, the Company can sell up to 2,545,455 units for a total of \$7,000,000, plus up to 5% in over-subscriptions. Each unit consists of one share of common stock and one half of one Class A Warrant; with each whole warrant exercisable to acquire one additional share of common stock at an exercise price of \$3.50 per share for the period of twenty-four months from the Issue Date. The Company sold a total of 2,626,694 units for total proceeds of \$7,223,408; with 1,780,972 units for proceeds of \$4,897,673 closing on September 30, 2007, 288,182 units for proceeds of \$792,500 closing on October 1, 2007, and 557,540 units for proceeds of \$1,533,235 closing on October 11, 2007. As of December 31, 2008, there are 1,337,934 warrants outstanding from this placement.

In October, 2008, the Company entered into a short-term convertible note (the "Short-Term Convertible Note") for \$5 million. The Short-Term Convertible Note principal automatically converted into 5,555,556 shares of Company stock (valued at \$0.90 per share) upon approval of the issuance of the additional shares for listing by NYSE Alternext US LLC in December 2008.

Under the Subscription Agreement, Mr. and Mrs. Guill subscribed to purchase 5,555,556 shares of the Company's common stock at a price of \$0.90 per share. Should the Company decide to issue and sell any equity securities or securities convertible into equity securities, the Subscription Agreement also obligates the Company to offer a pro rata share of such securities to Mr. and Mrs. Guill on the same terms and conditions as the proposed sale and issuance.

During the quarter ended December 31, 2008, 963,800 warrants expired. The warrants were granted pursuant to a private placement during 2006 and were exercisable at a price of \$1.00 per warrant.

Timberline Resources Corporation and Subsidiaries

Notes to Consolidated Financial Statements

NOTE 7 – COMMON STOCK AND WARRANTS, (continued):

The following is a summary of the Company's warrants outstanding:

	Warrants	Weighted Average Exercise Price
Outstanding at September 30, 2008	2,301,734	\$ 2.45
Issued	-	-
Expired	(963,800)	(1.00)
Outstanding at December 31, 2008	<u>1,337,934</u>	<u>3.50</u>

These warrants expire as follows:

Warrants	Price	Expiration Date
<u>1,337,934</u>	\$3.50	September 30, 2009
<u>1,337,934</u>		

NOTE 8 – STOCK OPTIONS:

The Company has established an Equity Incentive Plan (as amended August 31, 2006 and August 22, 2008) to authorize the granting of up to 7,000,000 stock options to employees, directors and consultants. Upon exercise of options, shares are issued from the available authorized shares of the Company. Option awards are generally granted with an exercise price equal to the market price of the Company's stock at the date of grant. The fair value of option awards granted on December 19, 2008 and October 24, 2007 (the only grants during the quarters ended December 31, 2008 and 2007, respectively) is estimated on the date of grant using the assumptions noted in the following table. Total compensation cost charged against operations under the plan for employees was \$700,744 and \$474,444 for the three months ended December 31, 2008 and 2007, respectively, and is classified under salaries and benefits expense. Total compensation cost charged against operations under the plan for directors and consultants was \$103,453 and \$70,898 for the three months ended December 31, 2008 and 2007, respectively, and is classified under other general and administrative expenses.

	December 19, 2008	October 24, 2007
Expected volatility	106.60%	82.30%
Weighted-average volatility	106.60%	82.30%
Expected dividends	-	-
Expected term (in years)	3	3
Risk-free rate	0.02%	3.75%

Timberline Resources Corporation and Subsidiaries

Notes to Consolidated Financial Statements

NOTE 8 – STOCK OPTIONS, (continued):

The following is a summary of the Company's options issued under the Amended 2005 Equity Incentive Plan:

	Options	Weighted Average Exercise Price
Outstanding at September 30, 2008	3,917,502	\$ 2.65
Granted	2,855,000	0.33
Exercised	75,000	0.80
Expired	<u>(241,667)</u>	<u>2.41</u>
Outstanding at December 31, 2008	<u>6,455,835</u>	\$ <u>1.65</u>
Exercisable at December 31, 2008	<u>3,280,438</u>	\$ <u>1.96</u>
Weighted average fair value of options granted during the period ended December 31, 2008		\$ <u>0.20</u>

The average remaining contractual term of the options outstanding and exercisable at December 31, 2008 is 4.24 and 3.88 years, respectively. As of December 31, 2008, total unrecognized compensation expense related to options was \$2,032,886 and the related weighted-average period over which it is expected to be recognized is approximately 1.03 years. The aggregate intrinsic value of options exercised during the three months ended December 31, 2008 and 2007 was \$52,500 and none, respectively.

NOTE 9 – PREFERRED STOCK:

Timberline is authorized to issue up to 10,000,000 shares of preferred stock, \$.01 par value. The Board of Directors of Timberline is authorized to issue the preferred stock from time to time in series and is further authorized to establish such series, to fix and determine the variations in the relative rights and preferences as between series, to fix voting rights, if any, for each series, and to allow for the conversion of preferred stock into Common Stock.

NOTE 10 – COMMITMENTS AND CONTINGENCIES:

Real Estate Lease Commitments

The Company has real estate lease commitments related to its main office in Coeur d'Alene, Idaho, a facility in Butte, Montana, offices and a storage shop of Timberline Drilling in Coeur d'Alene, Idaho; and its operational facility in Elko, Nevada. The Company's Mexico subsidiary also leases facilities for its administrative office and warehouse under defined term lease agreements which are for one year. Total office and storage rental expense aggregated \$79,623 and \$51,805 for the three months ended December 31, 2008 and 2007, respectively.

Timberline Resources Corporation and Subsidiaries

Notes to Consolidated Financial Statements

NOTE 10 – COMMITMENTS AND CONTINGENCIES, (continued):

Environmental Contingencies

The Company has in past years been engaged in mining in northern Idaho, which is currently the site of a federal Superfund cleanup project. Although the Company is no longer involved in mining in this or other areas at present, the possibility exists that environmental cleanup or other environmental restoration procedures could remain to be completed or mandated by law, causing unpredictable and unexpected liabilities to arise. At the date of these financial statements, the Company is not aware of any environmental issues or litigation relating to any of its current or former properties.

Severance Agreements

As discussed in Note 3 - Related Party Transactions, in the year ended September 30, 2008 the Company announced a change in management at its Kettle Drilling subsidiary. As a result of this change, the Company had a commitment to pay severance of \$350,000 due December 31, 2008. The Company has not paid the outstanding severance amounts due on December 31, 2008 pending ongoing negotiations between the Company and its former management at the Kettle Drilling subsidiary.

Offering Costs Arising From the Proposed Acquisition of SMD

On October 24, 2008, the Company and Ronald Guill mutually agreed by written consent to terminate the Stock Purchase Agreement previously entered into between the Company and Mr. Guill on February 23, 2008, which would have provided for the purchase by the Company of all of Mr. Guill's membership interests in SMD.

The Company had engaged a full service investment banking and institutional securities firm to render an opinion to the Company's Board as to whether the consideration to be paid by the Company for the membership interests of SMD was fair, from a financial point of view. The Company also engaged this firm to arrange for financing of the acquisition of SMD's membership interests. All fees to be paid by the Company for these services were contemplated to be paid out of proceeds raised during the financing.

Subsequent to the termination of the acquisition of SMD and the failure of the investment banking firm to arrange financing, an invoice was received by the Company from the investment banking firm for the provision of the fairness opinion, as well as legal fees incurred by the firm during the course of the financing. The total charged for the services provided was \$923,957. Company management continues to negotiate the amount of the fees charged for the services provided. However, the Company recognized these fees as a charge to operations during the quarter ended December 31, 2008. The expense has been classified with professional fees in the statement of operations.

NOTE 11 – SEGMENT INFORMATION:

The Company has three operating segments at December 31, 2008: drilling revenues from Timberline Drilling; drilling revenues in Mexico through Timberline Drilling's subsidiary, World Wide Exploration; and Timberline's exploration activities.

Timberline Resources Corporation and Subsidiaries

Notes to Consolidated Financial Statements

NOTE 11 – SEGMENT INFORMATION, (continued):

Segment information (after intercompany eliminations) for the three months ended December 31, 2008 and 2007 is as follows:

	Three months ending December 31	
	2008	2007
Revenues:		
Timberline	\$ -	\$ -
Timberline Drilling	2,428,845	4,942,179
World Wide Exploration	2,261,851	1,492,946
Total revenues	<u>\$ 4,690,696</u>	<u>\$ 6,435,125</u>
Income / (Loss) before income taxes:		
Timberline	\$ (3,076,763)	\$ (1,678,877)
Timberline Drilling	(1,737,835)	(325,415)
World Wide Exploration	114,127	10,597
Loss before income taxes	<u>\$ (4,700,471)</u>	<u>\$ (1,993,695)</u>
Total assets:	December 31, 2008	September 30, 2008
Timberline	\$ 2,522,934	\$ 2,803,202
Timberline Drilling	11,063,084	12,456,114
World Wide Exploration	4,193,720	5,110,471
Total assets	<u>\$ 17,779,738</u>	<u>\$ 20,369,787</u>

The accounting policies of the segments are the same as those described in the notes to the consolidated financial statements included in the Company's annual report filed on Form 10-KSB for the fiscal year ended September 30, 2008, after considering newly adopted accounting pronouncements described elsewhere herein. Separate management of each segment is required because each business unit is subject to different marketing, production, and technology strategies.

During the three months ended December 31, 2008, revenues from transactions with three customers each amounted to 10% or more of our total revenues. Customer A accounted for revenue of \$2,197,004, customer B accounted for revenue of \$1,676,146 and customer C accounted for revenue of \$614,689. The revenue for customers B and C is reported through Timberline Drilling, while the revenue for customer A is reported through World Wide Exploration.

The assets of Timberline are located in the United States. The assets of Timberline Drilling are also located in the United States and their revenues are derived from drilling contracts in the United States. The assets of World Wide Exploration are located in Mexico and their revenues are derived from drilling contracts in Mexico.

Timberline is not an operating entity at this point insofar as they are not generating revenues from the sales of their properties, but they are actively exploring several properties for their mining potential.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

NOTE: The Company has clarified the disclosure in this Item 2 by revising certain of its disclosure related to its working capital position and its revenue recognition policy. No other disclosure in this Item 2 has been clarified or amended.

You should read the following discussion and analysis of our financial condition and results of operations together with our financial statements and related notes appearing elsewhere in this quarterly report.

Forward-Looking Statements

The information in this Quarterly Report on Form 10-Q contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. These forward-looking statements involve risks and uncertainties, including statements regarding our capital needs, business plans and expectations. Such forward-looking statements involve risks and uncertainties regarding the market price of metals, commodities and precious metals, availability of funds, government regulations, common share prices, operating costs, capital costs, outcomes of ore reserve exploration and other factors. Forward-looking statements are made, without limitation, in relation to operating plans, property exploration, availability of funds, environmental reclamation, operating costs and permit acquisition. Any statements contained herein that are not statements of historical facts may be deemed to be forward-looking statements. In some cases, you can identify forward-looking statements by terminology such as “may”, “will”, “should”, “expect”, “plan”, “intend”, “anticipate”, “believe”, “estimate”, “predict”, “potential” or “continue”, the negative of such terms or other comparable terminology. Our actual results may differ materially from those anticipated in these forward-looking statements as a result of many factors, including, but not limited to, those set forth under “Risk Factors and Uncertainties” in our Annual Report on Form 10-KSB, filed with the SEC on December 30, 2008. We disclaim any obligation to publicly update these statements, or disclose any difference between our actual results and those reflected in these statements. Given these uncertainties, readers are cautioned not to place undue reliance on such forward-looking statements.

Corporate Background and History

We commenced our exploration stage in January 2004 with the change in the management of the Company. From January 2004 until March 2006, we were strictly a mineral exploration company. Beginning with the management appointments of John Swallow and Paul Dirksen, the addition of Randal Hardy, our acquisition of a drilling services company, and the acquisition of Butte Highlands, we continue to advance our business plan. Prior to our new business model, the addition of new management, the purchase of Timberline Drilling (formerly known as Kettle Drilling), and a more active and focused exploration division, the Company had no reported revenues and accumulated losses.

Timberline Resources Corporation has taken the complementary businesses of mine development, contract mining, drilling and mineral exploration and combined them into a unique, forward-thinking investment vehicle. The Timberline business model provides investors exposure to both the “picks and shovels” and “blue sky” aspects of the mining industry. The “picks and shovels” aspect of our business includes the mining services provided by Timberline Drilling and other potential operating businesses that we may acquire. We use the term “blue sky” to mean the potential of our exploration properties. Because of the nature of exploration for precious metals, a property’s exploration potential is not known until a significant amount of geologic information has been generated. As the work progresses, the potential of the property becomes more and more clear. If the exploration results are favorable, the value of the property may increase significantly. The term “blue sky” refers to the upside potential of that value. We believe our business model offers the opportunity to participate in both the “picks and shovels” and “blue sky” aspects of the business—our shareholders can participate in the markets for precious and base metal mining without the degree of risk inherent to mine operation and/or sole reliance on speculative early-stage drill-plays.

Overview

Timberline Drilling and its subsidiary, World Wide Exploration S.A. de C.V. ("WWE"), provide both surface and underground drilling services in the United States and Mexico, with their two largest clients being Newmont Mining and Exploraciones Mineras Penoles S.A. de C.V., respectively. Both units specialize in underground, hardrock core drilling – a niche business that we believe is well-positioned as the industry matures and exploration projects are advanced into producing mines. Our underground focus has also provided a solid base of operations as a large percentage of the above-ground and more speculative exploration drilling has been cut back and/or delayed during the current industry slowdown. We believe that right-sizing efforts initiated at Timberline Drilling since our management transition in May 2008, a more balanced level of input costs, availability of qualified labor, and our ongoing focus on profitability will continue to improve the operating results of our drilling subsidiaries.

Our Exploration Division continues to advance our Butte Highlands Gold Project in southwestern Montana. During the quarter, we concluded our drill program and continued the permitting process and our evaluation of the anticipated mineralization. Results from that program are very promising, with the potential for the extension of known mineralized areas as well as a potential new discovery. Our exploration staff believes both the extension and the discovery have the potential to greatly increase mineralization estimates at Butte Highlands. We also completed a hydrogeologic study at the Butte Highlands Gold Project. The positive results of the study represent a significant milestone in the permitting process and the proposed underground exploration and development schedule. The study was a requirement for permit application and we anticipate submitting the underground permit application to the State of Montana Department of Environmental Quality in the first quarter of 2009.

In support of the study, the Company drilled a 1,167-foot groundwater monitoring well to identify groundwater quantity and quality at the project site and sampled surface water from local stream systems. The borehole tests yielded 12 gallons of water per minute for the full length of the monitoring well which is within the range anticipated by Timberline and Small Mine Development, LLC ("SMD"). The hydrogeologic study considered local geology, precipitation, hydrologic basins, and other pertinent information needed to predict water inflow into the anticipated underground workings. Resulting data was used by AMEC Geomatrix to develop a Conceptual Hydrological Model of the deposit to predict potential mine inflow during planned exploration and mine production activities.

In October, we announced plans to form a 50/50 joint-venture with SMD at Butte Highlands. Under terms of the agreement, Timberline will be carried to production by SMD which will fund all project development costs and begin development in the summer of 2009. Timberline's 50-percent share of project costs will be paid out of proceeds from future mine production. The partnership is mutually regarded by Timberline and SMD as a model for future opportunities in underground mine development and mining.

Pending proper approvals and permitting, we anticipate by late summer of this year, SMD will begin development of the Decline to access the mineralized areas to allow for additional underground drilling and exploration. The exploration and development phase of the program is expected to take approximately one year and, assuming acceptable permitting and results, is expected to be followed by production in mid to late 2010.

During the quarter, the Company announced termination of the agreement to acquire SMD. For most of the previous year, management expended considerable effort, focus and expense on the acquisition process. However, in these unprecedented market conditions, it proved extremely difficult to complete the acquisition of SMD under acceptable terms. Therefore, we jointly agreed that the unpredictability in the current economic climate presented too great of a risk to the Company and our shareholders. Given the uncertainty of the marketplace and credit markets, we believe that our strategic partnership with SMD at Butte Highlands provides an excellent opportunity for our shareholders by placing our most-advanced project on a development track with considerably less share dilution. We believe this partnership is a model for future opportunities in underground mine development and mining with SMD.

Also in the quarter, in conjunction with our announced plans to form a 50/50 Joint Venture with SMD for the advancement of the Butte Highlands project, the Company announced the completion of a \$10 million debt/equity financing to retire the \$8 million bridge loan facility and for working capital.

It is the opinion of management that projects similar to Butte Highlands are a good fit in the current environment and with the unique qualifications of our people and strategic partners. As a result, during the quarter, the Company

announced it will not focus on early stage properties or continue to expend capital or time on the Conglomerate Mesa project unless it can be done at a minimal cost to the company. Company management believes these projects have value; however, given the complexities and challenges of some of the property agreements when viewed in the context of market realities, the current economic environment, and our strategic partnership with SMD, a more refined focus is warranted at this time.

We believe the global economic environment and monetary situation favor a solid and relatively steady gold price for the foreseeable future. Volatility is to be expected, however our view is that we don't necessarily need a higher gold price in order to advance our business model. As a company we are focused on our drilling subsidiaries, advancing Butte Highlands and evaluating new opportunities. We have evaluated a number of projects and opportunities in both the services and production sides of the business and will continue to do so. Our industry and the world have changed in the past year and we anticipate a number of changes in the year ahead. We feel we have the knowledge base to evaluate opportunities – either organically or through mergers and acquisitions – and continue to do so.

Results of Operations for the Three Month Periods ended December 31, 2008 and 2007

Combined Results – Timberline Corporate, Timberline Exploration, Kettle Drilling and WWE

For the three months ended December 31, 2008, we reported \$4,690,696 in revenue compared to \$6,435,125 in the same period of 2007. Our revenues are derived entirely from our drilling subsidiaries and are comprised of \$2,428,845 from Timberline Drilling and \$2,261,851 from WWE for the three months ended December 31, 2008. Our revenue decrease was primarily due to a reduction in the number of drill rigs operating this year versus last year. Gross profit(loss) from Timberline Drilling and WWE was \$(663,668) and \$446,318, respectively, for the three months ended December 31, 2008.

Our overall after tax net loss for the three months ended December 31, 2008 was \$4,735,273 compared to an overall net loss of \$1,993,695 for the three months ended December 31, 2007. Our net loss for the three months ended December 31, 2008 is comprised of \$3,076,763 for Timberline Corporate and Exploration and \$1,737,835 for Timberline Drilling, offset by income of \$79,325 at WWE.

Timberline Corporate and Exploration Division

The after tax net loss of \$3,076,763 for the combined Timberline Corporate and the Exploration division during the three months ended December 31, 2008 is comprised of non-cash charges of \$813,621, exploration expenditures of \$267,888, other general and administrative costs of \$1,481,160, and interest expense of \$520,507, less interest income of \$6,413. \$923,957 of our other general and administrative costs during the quarter were related to legal, accounting and financial advisory costs associated with our proposed acquisition of SMD. Included in the non-cash charges are \$804,197 in expenses related to stock options that vested during the quarter. Also included in the non-cash charges is \$9,424 in Depreciation and Amortization.

Timberline Drilling and WWE

For the three months ended December 31, 2008, Timberline Drilling had revenues of \$2,428,845 as compared to \$4,942,179 for the three months ended December 31, 2007. WWE had revenues of \$2,261,851 for the three months ended December 31, 2008 as compared to \$1,492,946 for the three months ended December 31, 2007. The decrease in revenues at Timberline Drilling is attributable to a reduction in the number of operating drill rigs, while the increase in revenues at WWE is attributable to the growth in the number of operating drill rigs in Mexico compared to the previous year.

For the three months ended December 31, 2008, net loss before taxes from Timberline Drilling was \$1,737,835 while net income before taxes at WWE was \$114,127 as compared to a net loss of \$325,415 for Timberline Drilling and net income of \$10,597 for WWE for the three months ended December 31, 2007. At Timberline Drilling, the current quarter loss is primarily attributable to a much greater than normal decrease in drilling revenue during the holiday quarter. At WWE, however, the net income grew compared to the corresponding quarter in 2007 due to the increased activity and number of drill rigs in Mexico.

Financial Condition and Liquidity

At December 31, 2008, we had assets of \$17,779,738 consisting of cash in the amount of \$2,653,120; accounts receivable, net of allowance for doubtful accounts, in the amount of \$1,029,656; inventories valued at \$1,483,565; property, mineral rights and equipment, net of depreciation of \$8,953,615; and other assets of \$3,659,782.

Recently, the deteriorating economic conditions experienced in the second half of 2008 in the U.S. housing market and the credit quality of mortgage backed securities have continued. This situation has caused a loss of confidence in the broader U.S. and global credit and financial markets and has resulted in the collapse of, and government intervention in, several major banks, financial institutions and insurers. The contraction and unavailability of credit has created a climate of greater volatility, less liquidity, widening of credit spreads, a lack of price transparency, increased credit losses and tighter credit conditions. These disruptions in the current credit and financial markets have had a significant material adverse impact on a number of financial institutions and have limited access to capital and credit for many companies. These disruptions could, among other things, make it more difficult for us to obtain, or increase our cost of obtaining, capital and financing for our operations if needed. Access to additional capital may not be available on terms acceptable to us or at all if the current economic situation persists.

We expect to rely upon the cash flow generated by our mine services subsidiaries. However, the recent economic instability makes it difficult for the Company's management to accurately predict revenues from these services through the remainder of the 2009 fiscal year. While the majority of Timberline Drilling's underground drilling rigs remained active during the fiscal year to date, surface drilling by our customers has been negatively impacted by the current economic instability. Although we do not expect fiscal 2009 revenues to match 2008 levels, we also believe that revenues will increase above the levels of our first fiscal quarter in future quarters and profitability will be attained. Subsequent to the quarter ended December 31, 2008, Timberline Drilling has mobilized two additional drilling rigs, one surface and one underground, and has received indications of interest in our surface drilling services from several potential customers.

At December 31, 2008 the Company has a working capital deficiency of \$1,541,595. Management expects to address this working capital deficiency via improvements in operating cash flows at the Company's drilling subsidiaries, reduction of exploration expenditures, reduced professional and consulting expenses, and potential sales of capital assets.

Management expects to improve operating cash flows at the Company's drilling subsidiaries by reducing hourly and salaried payroll expenses, reducing supplies inventory levels, and eliminating non-essential general and administrative costs. The Company plans to curtail exploration expenditures to focus on only our material exploration properties. This curtailment is expected to include a reduction in geological staff salaries expense and reduced use of outside geological consultants. The Company also expects to incur significantly reduced legal, accounting and financial advisor expenses in future periods as compared to the past fiscal year during our proposed acquisition of SMD. Finally, the Company's capital assets include drills, drilling related equipment and vehicles for which a resale market exists. The Company will consider sales of a portion of these capital assets, if necessary, to fund working capital.

Management believes that these remedies will provide it with sufficient working capital to meet the Company's ongoing operating expenses for the next 12 months. Additional financing may be required if the Company seeks to undertake further property acquisitions or expand its exploration or mine services operations.

If cash flow from our mine services subsidiaries are insufficient, our exploration activities and other operations will be reliant upon equity financings, or other outside funding, to continue into the future. The current market conditions could make it difficult or impossible for us to raise necessary funds to meet our capital requirements. We will continue to evaluate all available avenues to generate cash including, but not limited to, equity placements, asset sales, credit facilities or debt issuances.

On October 31, 2008, the Company entered into two convertible notes; one with Ron Guill, a director of the Company, and his wife, Stacey Guill, and the other with SMD, a company owned by Mr. Guill. Each of the notes was made for a principal amount of \$5 million dollars for an aggregate of \$10 million, and both are convertible into the Company's common stock, as described below. The Company used the proceeds of the notes to pay off the \$8.0 million loan (plus any applicable interest) previously provided to the Company by Auramet Trading, LLC ("Auramet") and described in the Company's Form 8-K filed on July 3, 2008 (such loan is hereafter referred to as

the “Auramet Loan”) and for general working capital purposes.

Off-Balance Sheet Arrangements

We do not have any off balance sheet arrangements that are reasonably likely to have a current or future effect on our financial condition, revenues, results of operations, liquidity or capital expenditures.

Critical Accounting Policies and Estimates

See Note 2 to the financial statements contained elsewhere in this Quarterly Report for a complete summary of the significant accounting policies used in the presentation of our financial statements. The summary is presented to assist the reader in understanding the financial statements. The accounting policies used conform to accounting principles generally accepted in the United States of America and have been consistently applied in the preparation of the financial statements.

Our critical accounting policies are as follows:

Exploration Expenditures

All exploration expenditures are expensed as incurred. Significant property acquisition payments for active exploration properties are capitalized. If no mineable ore body is discovered, previously capitalized costs are expensed in the period the property is abandoned.

Revenue Recognition

The Company recognizes drilling service revenues as the drilling services are provided to the customer based on the actual amount drilled for each contract on a per foot or per hour drilled basis. In some cases, the customer is also responsible for paying for mobilization and stand-by costs. Mobilization is charged to a customer when the Company deploys its personnel and equipment to a specific drilling site. Stand-by is charged to a customer when the Company deploys its personnel and equipment to a specific drilling site, but for reasons beyond the Company’s control, drilling activities are not able to take place. Revenue related to reimbursement of mobilization and “stand by” costs is recognized in the same period as the costs of mobilization or stand-by are incurred by the Company. The specific terms of each drilling job are agreed to by the customer and the Company prior to the commencement of drilling. Contract losses are not recognized as the Company’s agreements with its customers do not put the Company at a risk of loss.

Intangible Assets

Intangible assets from the acquisition of Timberline Drilling, including employment contracts, and customer drilling contracts, are stated at the estimated fair value at the date of acquisition. Amortization of employment contracts was initially calculated on a straight-line basis over a useful life of three years. Amortization of the drilling contracts was calculated on a straight-line basis over the life of the contracts (typically one year or less). The value of employment and customer drilling contracts will be periodically tested for impairment. Any impairment loss revealed by this test would be reported in earnings for the period during which the loss occurred.

Materials and Supplies Inventory

The Company values its inventories at the lower of average cost or market, using the first-in-first-out (FIFO) method. Allowances are recorded for inventory considered to be in excess or obsolete. Inventories consist primarily of parts, operating supplies, drill rods and drill bits.

Review of Carrying Value of Property and Equipment for Impairment

The Company reviews the carrying value of property and equipment for impairment whenever events and circumstances indicate that the carrying value of an asset may not be recoverable from the estimated future cash

flows expected to result from its use and eventual disposition. In cases where undiscounted expected future cash flows are less than the carrying value, an impairment loss is recognized equal to an amount by which the carrying value exceeds the fair value of the asset. The factors considered by management in performing this assessment include current operating results, trends and prospects, the manner in which the property is used, and the effects of obsolescence, demand, competition, and other economic factors.

Goodwill

Goodwill relates to the acquisition of Timberline Drilling. In accordance with Statement of Financial Accounting Standards No. 142, "Goodwill and Other Intangible Assets," at least annually goodwill is tested for impairment by applying a fair value based test. In assessing the value of goodwill, assets and liabilities are assigned to the reporting units and a discounted cash flow analysis is used to determine fair value. There was no impairment loss revealed by this test as of September 30, 2008.

Derivative Financial Instruments

The Company does not use derivative instruments to hedge exposures to cash flow, market, or foreign currency risks. Derivative financial instruments are initially measured at their fair value. For derivative financial instruments that are accounted for as liabilities, the derivative instrument is initially recorded at its fair value, with changes in the fair value reported as charges or credits to income. For option-based derivative financial instruments, we use the Black-Scholes option pricing model to value the derivative instruments.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Not applicable.

ITEM 4. CONTROLS AND PROCEDURES

NOTE: The Company has clarified the disclosure in this Item 4 by revising certain of its disclosure related to Changes in Internal Control Over Financial Reporting. No other disclosure in this Item 4 has been clarified or amended.

Conclusions of Management Regarding Effectiveness of Disclosure Controls and Procedures

At the end of the period covered by this report, an evaluation was carried out under the supervision of and with the participation of the Company's management, including the Chief Executive Officer and Chief Financial Officer, Randal Hardy ("CEO/CFO") and Chief Accounting Officer, Craig Crowell, ("CAO"), of the effectiveness of the design and operations of the Company's disclosure controls and procedures (as defined in Rule 13a – 15(e) and Rule 15d – 15(e) under the Exchange Act). Based on that evaluation the CEO/CFO and the CAO have concluded that as of the end of the period covered by this report, the Company's disclosure controls and procedures were adequately designed and effective in ensuring that: (i) information required to be disclosed by the Company in reports that it files or submits to the Securities and Exchange Commission under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in applicable rules and forms and (ii) material information required to be disclosed in our reports filed under the Exchange Act is accumulated and communicated to our management, including our CEO/CFO and CAO, as appropriate, to allow for accurate and timely decisions regarding required disclosure.

Changes in Internal Controls over Financial Reporting

During the quarter ended December 31, 2008, changes were made that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting. In December 2008, during management's evaluation of effectiveness of internal control over financial reporting for the year ended September 30, 2008, management identified material weaknesses in the Company's internal control over financial reporting (as defined in Rule 13a-15(f) or 15d-15(f)). The material weaknesses identified include the lack of sufficient knowledge of complex accounting issues and inconsistent application of accounting policies at our WWE subsidiary. During the quarter ended December 31, 2008, management instituted remediation efforts to address the weaknesses which materially affected the Company's internal control over financial reporting. These efforts include

continued training for accounting staff, reinforcing to accounting staff the importance of consistent application of accounting policies and consulting independent experts when complex transactions are entered into by the Company. These changes were implemented by management of the Company, including the Chief Executive Officer/Chief Financial Officer, Randal Hardy, and the Chief Accounting Officer, Craig Crowell. There were no material costs in implementing the new procedures.

PART II — OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS.

On January 16, 2009, the Company filed a complaint in the United States District Court for the District of Idaho (the “Court”) against American Drilling, LLC, American Drilling Corporation (along with American Drilling, LLC referred to as “American Drilling”), and Steven Elloway (“Elloway”). Timberline Drilling alleged that when Elloway left employment with the Company he immediately started American Drilling, and that Elloway and American Drilling have subsequently violated Elloway's Supplemental Income Agreement with Timberline Drilling, which restricted his post-termination competitive activities. Timberline Drilling also asserted that Elloway and American Drilling have converted confidential and proprietary Timberline Drilling information and documents, misappropriated trade secrets, tortiously and negligently interfered with Timberline Drilling's contractual relations with its business relationships and its prospective economic advantage, and that Elloway breached fiduciary duties to Timberline Drilling and unjustly enriched himself. In addition to seeking monetary damages, Timberline Drilling has asked the Court to issue an injunction to prohibit future improper competition or use of Timberline Drilling trade secrets by Elloway or American Drilling. A temporary restraining order has been issued, and arguments regarding the entry of a preliminary injunction were heard by the Court on February 11, 2009. The Court has not issued a ruling, and Defendant's have yet to answer the complaint.

No director, officer or affiliate of Timberline and no owner of record or beneficial owner of more than 5.0% of our securities or any associate of any such director, officer or security holder is a party adverse to Timberline or has a material interest adverse to Timberline in reference to pending litigation.

ITEM 1A. RISK FACTORS

There have been no material changes from the risk factors as previously disclosed in our Form 10-KSB, which was filed with the SEC on December 30, 2008.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS.

During the quarter ended December 31, 2008, all transactions in which we have offered and sold unregistered securities pursuant to exemptions under the Securities Act of 1933, as amended, have been previously reported on Current Reports on Form 8-K.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES.

None.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS.

None.

ITEM 5. OTHER INFORMATION.

None.

ITEM 6. EXHIBITS.

- 31.1** Certification of Chief Executive Officer and Chief Financial Officer pursuant to Rule 13a-14 and Rule 15d-14(a), promulgated under the Securities and Exchange Act of 1934, as amended
- 31.2** Certification of Chief Accounting Officer pursuant to Rule 13a-14 and Rule 15d-14(a), promulgated under the Securities and Exchange Act of 1934, as amended

- 32.1** Certification of Chief Executive Officer and Chief Financial Officer pursuant to Section 906 of the Sarbanes-Oxley Act
- 32.2** Certification of Chief Accounting Officer pursuant to Section 906 of the Sarbanes-Oxley Act

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the Company has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.

CERTIFICATION

I, Randal Hardy, certify that:

1. I have reviewed this Quarterly Report on Form 10-Q of Timberline Resources Corporation,
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the small business issuer, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the small business issuer's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the small business issuer's internal control over financial reporting that occurred during the small business issuer's most recent fiscal quarter (the small business issuer's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the small business issuer's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a. All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b. Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

CERTIFICATION PURSUANT TO
18 U.S.C. SECTION 1350,
AS ADOPTED PURSUANT TO
SECTION 906 OF THE SARBANES-OXLEY ACT OF 2002

In connection with the Quarterly Report of Timberline Resources Corporation (the “Company”) on Form 10-Q for the period ended December 31, 2008, as filed with the Securities and Exchange Commission on the date hereof (the “Report”), I, Randal Hardy, Chief Executive Officer and Chief Financial Officer of the Company, certify, pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002, that:

- (1) The Report fully complies with the requirements of Section 13(a) or 15(d) of the Securities Exchange Act of 1934; and
- (2) The information contained in the Report fairly presents, in all material respects, the financial condition and results of operations of the Company.

Date: May 21, 2009
