Notes to Financial Statement

1. Nature of Operations and Summary of Significant Accounting Policies

Nature of Operations

Equus Financial Consulting, LLC (the "Company") is a broker-dealer registered with the Securities and Exchange Commission (SEC) and is a member of the Financial Industry Regulatory Authority (FINRA). The Company is a limited liability company formed in the State of Delaware. The Company's primary business focus is on private placements and life settlements. The Company provides services to a growing group of alternative assets managers to source qualified investors for their investment funds. In the life settlements market, the Company acts as a broker to arrange the sale of individual variable universal life insurance policies.

Basis of Presentation

The accompanying financial statement have been prepared in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of the financial statement in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statement. Actual results could differ from these estimates.

Cash and Cash Equivalents

Cash and cash equivalents are stated at market value. Cash equivalents include only securities having a maturity of three months or less at the time of purchase. The Company maintains its cash balances at one financial institution located in the United States. These balances are insured up to \$250,000 by the Federal Deposit Insurance Corporation. At times, cash balances may exceed the insured limits, however as of December 31, 2022 there were no cash balances in excess of insured limits. The Company has not experienced any losses in such accounts. The Company held no cash equivalents at December 31, 2022.

Accounts Receivable

Accounts receivable are recorded at the invoiced amount and do not bear interest. The Company may record an allowance for doubtful accounts, which is the Company's best estimate of the amount of probable credit losses on the existing accounts receivable. The allowance is determined based on the historical write-off experience and age of the accounts receivable balances. The allowance for doubtful accounts is reviewed on a monthly basis. Past due balances over 90 days and over a specified amount are reviewed individually each month for collectability and specific bad debt reserves are recorded as deemed necessary. Account balances are written off and removed from the allowance for doubtful accounts calculation when the Company determines that it is probable the accounts receivable will not be recovered. At December 31, 2022, no allowance for doubtful accounts was deemed necessary.

Commissions Payable

The Company records commissions payable to contractors based on a percentage of revenue. Commissions are paid when cash is received for amounts invoiced. No commission payable is recorded for accounts receivable balances that are considered uncollectible and for which a reserve is recorded.

Equus Financial Consulting, LLC

Notes to Financial Statement

The Company is subject to claims and lawsuits that arise primarily in the ordinary course of business. It is the opinion of management that the disposition or ultimate resolution of such claims and lawsuits will not have a material adverse effect on the financial position of the Company.

The Company had no contingent liabilities and has not been named as a defendant in any lawsuit at December 31, 2022 or during the year then ended.

3. Net Capital and Aggregate Indebtedness Requirement
