KIMBER ANNOUNCES INITIATION OF CEO SEARCH

November 16, 2006

VANCOUVER, BRITISH COLUMBIA - Kimber Resources Inc. (AMEX:KBX, TSX:KBR)

Robert Longe, President & CEO, is pleased to report that, in keeping with his desire to retire from active management expressed informally to the directors some time ago, the Board has appointed a CEO Search Committee consisting of Larry Bell, Dennis Bergen, and Stephen Quin, one of management's nominees for election at the forthcoming Annual General Meeting.

Korn Ferry International, a leading management consulting firm specializing in executive recruitment, has been retained by the CEO Search Committee to undertake the search.

About Kimber

Kimber Resources Inc. holds a 100% interest in the Monterde property in the Sierra Madre of northern Mexico. On the Monterde property, The Company is advancing the Carmen gold-silver deposit towards production. The Carmen deposit, an underground mine in the 1930's, is a typical low sulphidation epithermal system, oxidized, and believed to be suitable for open pit mining. Two adjacent epithermal systems first identified in 2005, the Carotare deposit and El Orito Norte exploration target, appear to be similar to the Carmen. The goal of the Company is to demonstrate at least three million resource ounces from the two deposits and exploration target identified. For further information on the company, visit SEDAR or the company website at www.kimberresources.com.
