KIMBER EXPLORES STRATEGIC AND FINANCIAL ALTERNATIVES

August 13, 2007

VANCOUVER, BRITISH COLUMBIA - Kimber Resources Inc. (AMEX:KBX, TSX:KBR)

Kimber Resources Inc. ("Kimber") announced today that its Board of Directors has initiated a process to explore various strategic and financial alternatives. This process may include, but is not limited to, the review of potential strategic partnerships, joint ventures, business combinations, or the potential sale of the company.

Blackmont Capital Inc. ("BCI") has been engaged as the exclusive financial advisor to assist Kimber and its Board of Directors in the evaluation of strategic and financial alternatives.

Kimber Resources Inc. holds a 100% interest in the Monterde and Setago properties located in the Sierra Madre of northern Mexico as well as the 6300 hectare Pericones silver property, which is located about 100 kilometres southwest of Mexico City in Estado de Mexico. All projects are free of royalties. On the Monterde property, the Company has two immediate objectives: to find and develop additional mineral resources & to advance the Carmen deposit to pre-feasibility. The Carmen deposit, an underground mine in the 1930's, is a typical low sulphidation epithermal system, is oxidized and hosts the majority of the resources on Monterde. In addition to the Carmen deposit, two other deposits (Carotare and Veta Minitas) contain resources.
